Barley, per bu	20
Lard, per lb	02.2
Bacon, smoked, per lb	03.4
TURKEY AND BULGARIA.	
The tariff rate in Turkey and Bulgaria is 8 per cent ad valorem. American pork prohibited.	

Discovery of a New Race.

During the Summer of 1903 a race hitherto unknown to students of ethnology was discovered by Dr. Roth, the Queensland protector of northern aborigines, and Mr. Charles Hedley, conchologist of the Sydney (N. S. W.) Museum. The home of this race is Mornington Island, which was visited by the two scientists in the course of a scientific tour of the Gulf of Carpentaria and the Wellesley Archipelago, at the southern end of the gulf. Mornington Island was discovered in 1802 by Captain Matthew Flinders while surveying and mapping out the gulf, but he does not appear to have landed there. The island, which has an area of less than forty miles, has hitherto been known only by name. Its soil is poor, with extensive marshes, and it offers no temptation to settlers. There is plenty of brush and coarse forest, sheltering kangaroos and other animals, which afford the islanders ample supplies of food. These before-unknown islanders, who had never seen a white man previous to the arrival of Dr. Roth and Mr. Hedley, are supposed to be either a retrograde type or else a more primitive type of the Australian races. Their language is related to that of other gulf natives. The use of clothing is unknown to them. They do not make huts, as do the natives on the mainland, but simply collect heaps of grass and sleep on the ground with these heaps between themselves and the wind. Articles to be transported from place to place are wrapped in bark, baskets being unknown to them. Their only water craft are rude rafts, made of a couple of logs lashed together with some light weed and propelled by branches used as paddles. They are much behind the natives of the mainland in a knowledge of even the rudest aboriginal appliances. In their communal relationships they have a stringent system of tribal classification, intended to represent different degrees of consanguinity and to assist in preventing too close intermarriage.

The Roman Catholic Church in the United States.

His Excellency Most Rev. Diomede Falconio, Delegate Apostolic to the United States; appointed September 20, 1902. Auditor, Very Rev. Mgr. Francis Marchetti, D. D. Secretary, vacant.

ARCHDIOCESE OF BALTIMORE.

Embraces the States of Maryland, Delaware, Virginia, West Virginia, North Carolina, South Carolina, Georgia and eastern part of Florida.

Archdiocese of Baltimore, Md. — His Eminence James Cardinal Gibbons, cons. August 16, 1868; succeeded to the Archiepiscopal See of Baltimore October 3, 1877; created Cardinal June 7, 1886.

Diocese of Charleston, S. C.—Rt. Rev. H. P. Northrop, D. D., cons. January 8, 1882.

Diocese of Richmond, Va.—Rt. Rev. A. Van de Vyver, D. D., cons. October 20, 1889.

Diocese of St. Augustine, Fla.—Rt. Rev. W. J. Kenny, cons. May 18, 1902.

Diocese of Savannah, Ga.—Rt. Rev. Benjamin J. Keiley, D. D., cons. June 3, 1900.

Diocese of Wheeling, W. Va.—Rt. Rev. P. J. Donahue, D. D., cons. April 8, 1894.

Diocese of Wilmington, Del.—Rt. Rev. John Monaghan, D. D., cons. May 9, 1897.

Vicariate-Apostolic of North Carolina.—Rt. Rev. Leo Haid, O. S. B., D. D., cons. July 1, 1888.

ARCHDIOCESE OF BOSTON.

Embraces the New England States.

Archdiocese of Boston, Mass.—Mt. Rev. John J. Williams, D. D., cons. March 11, 1866; appointed Archbishop February 12, 1875.—Rt. Rev. John Brady, D. D., Auxiliary Bishop, cons. August 5, 1891.

Diocese of Burlington, Vt.—Rt. Rev. John Stephen Michaud, D. D., cons. June 29, 1892.

Diocese of Hartford, Conn.—Rt. Rev. Michael Tierney, D. D., cons. February 22, 1894.

Diocese of Manchester, N. H.—Rt. Rev. Denis M. Bradley, D. D., cons. June 11, 1884.

Diocese of Portland, Me.—Rt. Rev. William H. O'Connell, D. D., cons. May 19, 1901.

Diocese of Providence, R. I.—Rt. Rev. Mathew J. Harkins, D. D., cons. April 14, 1887.

Diocese of Springfield, Mass.—Rt. Rev. Thomas D. Beaven, D. D., cons. October 18, 1892.

ARCHDIOCESE OF CHICAGO.

Embraces the State of Illinois.

Archdiocese of Chicago, Ill.—Rt. Rev. Peter J. Muldoon, D. D., cons. July 25, 1901; Rt. Rev. James E. Quigley, Auxiliary Bishop, cons. February 24, 1897.

Diocese of Alton, Ill.—Rt. Rev. James Ryan, D. D., cons. May 1, 1888.

Diocese of Belleville, Ill.—Rt. Rev. J. Janssen, D. D., cons. April 25, 1888.

Diocese of Peoria, Ill.—Rt. Rev. John L. Spalding, D. D., cons. May 1, 1877.—Rt. Rev. Peter J. O'Reilly, D. D., Auxiliary Bishop, cons. September 21, 1900.

ARCHDIOCESE OF CINCINNATI.

Embraces the States of Ohio, Indiana, Kentucky, Tennessee and Lower Michigan.

Diocese of Cleveland, Ohio.—Rt. Rev. Ignatius F. Hortsmann, D. D., cons. February 25, 1892.

Diocese of Columbus, Ohio.—Vacant.

Diocese of Covington, Ky.—Rt. Rev. Camillus P. Maes, D. D., cons. January 25, 1885.

Diocese of Detroit, Mich.—Rt. Rev. John S. Foley, D. D., cons. November 4, 1888.

Diocese of Fort Wayne, Ind.—Rt. Rev. Herman J. Alerding, D. D., cons. November 30, 1900.

Diocese of Grand Rapids, Mich.—Rt. Rev. Henry Joseph Richter, D. D., cons. April 22, 1883.

Diocese of Indianapolis, Ind.—Rt. Rev. Francis S. Chatard, D. D., cons. May 12, 1878.—Rt. Rev. Denis O'Donaghue, D. D., Auxiliary Bishop, cons. April 25, 1900.

Diocese of Louisville, Ky.—Rt. Rev. William G. McCloskey, D. D., cons. May 24, 1868.

Diocese of Nashville, Tenn.—Rt. Rev. Thomas S. Byrne, D. D., cons. July 25, 1894.

ARCHDIOCESE OF DUBUQUE.

Embraces the States of Iowa, Nebraska and Wyoming.

Archdiocese of Dubuque, Iowa.—Mt. Rev. John J. Keane, D. D., cons. Bishop August 25, 1878; appointed Archbishop of Dubuque July 12, 1900.

Diocese of Cheyenne, Wyo.—Rt. Rev. J. J. Keane, D. D., cons. 1902.

Diocese of Davenport, Iowa.—Rt. Rev. Henry Cosgrove, D. D., cons. September 14, 1884.

Diocese of Lincoln, Neb.—Rt. Rev. Thomas Bonacum, D. D., cons. November 30, 1887.

Diocese of Omaha, Neb.—Rt. Rev. Richard Scannell, D. D., cons. November 30, 1887; transferred to Omaha January 30, 1891.

Diocese of Sioux City.—Rt. Rev. Philip J. Garrigan, D. D., cons. May 25, 1902.

ARCHDIOCESE OF MILWAUKEE.

Embraces the States of Wisconsin and Northern Michigan.

Archdiocese of Milwaukee, Wis.—Vacant.

Diocese of Green Bay, Wis.—Rt. Rev. Sebastian Gebhard Messmer, D. D., cons. March 27, 1892.

Diocese of La Crosse, Wis.—Rt. Rev. James Schwebach, D. D., cons. February 25, 1892.

Diocese of Marquette and Sault Ste. Marie, Mich.—Rt. Rev. Frederick Eis, D. D., cons. August 24, 1899.

ARCHDIOCESE OF NEW ORLEANS.

Embraces the States of Louisiana, Alabama, Mississippi, Texas, Arkansas, Oklahoma Territory, Indian Territory and the western part of Florida.

Archdiocese of New Orleans, La.—Mt. Rev. Placide Louis Chapelle, D. D., cons. November 1, 1891; appointed Archbishop of Santa Fe January 12, 1894; transferred to New Orleans December 1, 1897.—Rt. Rev. Gustave R. Rouxel, D. D., Auxiliary Bishop, cons. April 9, 1899.

Diocese of Dallas, Texas.—Rt. Rev. Edward J. Dunne, D. D., cons. November 30, 1893.

Diocese of Galveston, Texas.—Rt. Rev. N. A. Gallagher, D. D., cons. April 30, 1882.

Diocese of Little Rock, Ark.—Rt. Rev. Edward Fitzgerald, D. D., cons. February 3, 1867.

Diocese of Mobile, Ala.—Rt. Rev. Edward Patrick Allen, D. D., cons. May 16, 1897.

Diocese of Natchez, Miss.—Rt. Rev. Thomas Heslin, D. D., cons. June 18, 1889.

Diocese of Natchitoches, La.—Rt. Rev. A. Durier, D. D., cons. March 19, 1885.

Diocese of San Antonio, Texas.—Rt. Rev. John Anthony Forest, D. D., cons. October 28, 1895.

Vicariate-Apostolic of Brownsville, Texas.—Rt. Rev. Peter Verdaguer, D. D., Vicar-Apostolic, cons. November 9, 1890.

Vicariate-Apostolic of Indian Territory.—Rt. Rev. Theophile Meerschaert, D. D., Vicar-Apostolic, cons. September 8, 1891.

ARCHDIOCESE OF NEW YORK.

Embraces the States of New York and New Jersey.

Archdiocese of New York.—Mt. Rev. J. M. Farley, D. D., cons. Bishop December 21, 1895; succeeded the late Archbishop Corrigan in 1902.

Diocese of Albany, N. Y.—Rt. Rev. Thomas M. A. Burke, D. D., cons. July 1, 1894.

Diocese of Brooklyn, N. Y.—Rt. Rev. Charles E. McDonnell, D. D., cons. April 25, 1892.

Diocese of Buffalo, N. Y.—Rt. Rev. Charles J. Colton, cons. August 25, 1903.

Diocese of Newark, N. J.—Rt. Rev. John Joseph O'Connor, D. D., cons. July 25, 1901.

Diocese of Ogdensburg, N. Y.—Rt. Rev. Henry Gabriels, D. D., cons. May 5, 1892.

Diocese of Rochester, N. Y.—Rt. Rev. Bernard J. McQuaid, D. D., cons. July 12, 1868.

Diocese of Syracuse, N. Y.—Rt. Rev. P. A. Ludden, D. D., cons. May 1, 1887.

Diocese of Trenton, N. J.—Rt. Rev. James A. McFaul, D. D., cons. October 18, 1894.

ARCHDIOCESE OF OREGON.

Embraces the States of Oregon, Washington and Idaho, and Alaska Territory.

Presbyterian Assemblies.

The officers of the last General Assembly of the Presbyterian Church in this country are: Moderator, Rev. Henry Van Dyke, D. D., LL. D., Princeton, N. J.; Stated Clerk, Rev. W. H. Roberts, D. D., LL. D., No. 1319 Walnut street, Philadelphia, Pa. The Trustees are: President, Samuel G. Perkins, LL. D., Philadelphia; Treasurer, F. K. Hipple, LL. D., Philadelphia; Corresponding Secretary, Rev. Edward B. Hodge, D. D., No. 1319 Walnut street, Philadelphia, Pa.

The Board of Home Missions, Board of Foreign Missions and Board of Church Erection are located at No. 156 Fifth avenue, New York City.

The Trustees of the General Assembly, the Boards of Education, of Publication and Sunday-School Work and of Ministerial Relief are at No. 1319 Walnut street, Philadelphia, Pa.

At No. 516 Market street, Pittsburg, Pa., is the Board of Missions for Freedmen, and at No. 115 Monroe street, Chicago, Ill., is the Board of Aid for Colleges and Academies.

The office of the Assembly Herald, the church

magazine, is at No. 156 Fifth avenue, New York City.

The officers of the last General Assembly of the Presbyterian Church in the United States, commonly known as the Southern Presbyterian Church, were: Moderator, Rev. W. F. Hall, D. D., Columbia, S. C.; Secretary Publication, A. L. Phillips, D. D., pro tem, vice J. K. Hogan, D. D., who died in August. A new department was added, that of ministerial relief, for which Rev. J. S. McElroy, D. D., of Richmond, Va., was chosen secretary.

AMERICA CUP RACES OF 1903.

DUNCAN CURRY.

After months of preparation and endless discussion the long talked of race for the America Cup between the Yankee defender, Reliance, and the English challenger, Shamrock III., was sailed during the last of August and the first part of September last year and as in all previous contests the American yacht won three straight races; and the cup will remain in the custody of the New York Yacht Club for another year at least.

Last year's race was the thirteenth contest for this Blue Ribbon of the Sea (that is, counting the America's original victory) and in some respects it was the most disappointing ever sailed for this time-honored mug.

Sir Thomas Lipton, the challenger's owner, before the races was full of confidence, and, according to British experts, the Fife boat was the most wonderful light-weather craft ever launched. Whatever the third Shamrock may have been on the other side, she certainly proved a grievous disappointment to her owner, designer and admirers on this side of the Atlantic.

All of the races were sailed in light winds and a gentle roll of a sea which were supposed to suit the Irish boat to a dot, yet when it came to racing there never was a minute when the Fife boat was in it, and, take it all in all, she was about the worst-licked single sticker that has raced for the Cup since the Thistle fiasco in 1889.

In spite of Sir Thomas's confidence and the glowing reports of the Shamrock's preliminary trials, few Americans thought the challenger had a chance after the boats were measured in the Erie Basin a few days before the first race. When it was announced that the Reliance carried nearly 2,000 square feet more sail, or nearly 12 per cent more canvas, than the challenger the result was a foregone conclusion, barring accidents, before the first race started and few people on this side of the Atlantic were surprised at the result of the races. The principal dimensions of the two boats follow:

Description.	Reliance.	Shamrock.
Length on water line	89.66	89.78
Overhang, forward	27.63	21.30
Overhang, aft	26.40	23.40
Length over all	143.69	134.42
Top of boom to underside of topsail halyard sheave	149.68	144.83
Top of boom to upperside of throat halyard sheave	77.68	72.52
Topmast	72.00	72.31
Eighty per cent of topmast	57.60	57.85
Foreside of mast to forward point of measurement	84.29	81.40
Foreside of mast to end of main boom	117.47	106.13
Main gaff	71.76	65.77
Spinnaker boom	83.75	81.40
Sail area as per rule	16,159.45	14,151.23
Racing length	108.39	104.39
Men on board	64	56
Forward point of measurement to end of main boom	291.76	187.51

Reliance allows Shamrock 1 minute 57 seconds.

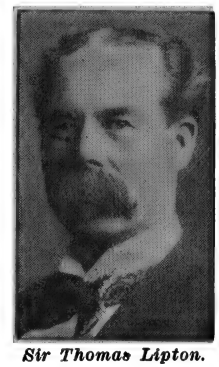
The Reliance was sailed by Captain Charles Barr, who twice piloted the Columbia to victory, assisted by Captain Lem Miller, while her amateur talent consisted of C. Oliver Iselin, her managing owner; H. M. McGildowney, representing the Royal Ulster Yacht Club; W. B. Duncan, Jr., Newberry D. Thorne, Woodbury Kane, Herbert C. Leeds and Designer Nat G. Herreshoff.

The Shamrock was sailed by Robert Wringe, assisted by Captain Bevis, of Shamrock I. On board were Robert Bacon, representing the New York Yacht Club; Designer William Fife and Colonel Sharman-Crawford.

THE FIRST FLUKE.

The first attempt to sail a race, which resulted in a failure to cover the course within the 5½-hour time limit, occurred on August 20.

The wind was very light from the south-southwest when the preparatory signal sounded and there was quite a slop of a sea. Wringe seemed afraid of Barr as both boats stood to windward of the line in the preliminary manoeuvres, and in running back for the start Barr luffed out to westward of the lightship, then gybed and headed for the line, while Wringe ran between the lightship and the Committee boat and tacked right on the line so sharply that he killed his way and the Shamrock crossed the line in the leeward berth with but little headway on.



The Reliance, with a good way on, crossed on the Shamrock's weather quarter, and while Wringe tried to pinch the challenger across the Reliance's bow, the defender slowly pulled out ahead.

Edwin D. Morgan.

August Belmont.

Sir Thomas Lipton.

C. Oliver Iselin.

The two boats sailed fairly evenly for a time, but about forty minutes after the start the yachts ran into a heavy rain squall. After the rain ceased the Reliance got quite a lift and drew rapidly in front, while the Shamrock was almost becalmed.

The Reliance finally rounded the outer mark at 3:37:30, with the challenger a long distance astern. As the time limit was nearly up, and there was no possibility of finishing the contest within the time limit, the race was called off for the day.

While the Reliance was fully 15 minutes ahead the breeze was so fluky that the race was really no test at all, except that it proved, while the wind held true, that the Reliance could more than hold her own with the challenger in what were supposed to be Shamrock's own conditions, viz., a light wind and a roll of a sea.

THE FIRST RACE.

By a strange coincidence the first completed race of the series was sailed on Saturday, August 22, the anniversary of the day on which the America originally won the Cup in 1851, when the Yankee yacht defeated the entire pleasure fleet of Britain.

When the preparatory signal sounded at 11:30 there was a fine sailing breeze of 12 or 15 knots' strength from the southwest and, as the course was 15 miles to windward and return, the starting line was shifted to the eastward and the turning mark was dropped down off the Jersey Coast.

There was not much jockeying for the start, as Barr always seemed to hold the weather gauge of

his opponent. Just before the starting gun both boats were headed for the line with the Shamrock leading and the Reliance astern, but to windward. Wringe, finding he was too soon, bore away to kill time and when the gun sounded the Shamrock had all she could do to luff clear of the Committee boat. The Reliance was only four seconds astern and on the Shamrock's weather quarter. Jibtopsails were broken out and the boats jumped almost head into the seas on the starboard tack.

The Shamrock for once seemed to do good work and took more kindly to the swells than the scow-line Reliance and for a time more than held her own with the Yankee craft, pointing quite as high and, if anything, footing faster. About twelve minutes after the start Wringe took in his baby jibtopsail and the challenger did even better, and it looked for a time as though the Shamrock would beat the Reliance to the outer mark.

The defender was in a rather poor position and could not seem to pull out of it, so Barr soon tacked to port in order to get out of Shamrock's back wind and incidentally to get in toward the Jersey shore to take advantage of the slight shift of wind to the westward. To every one's surprise, the Shamrock did not follow the Reliance inshore for fully three minutes, and some experts think that Wringe made a serious error in allowing the defender to get away from him.

At any rate the Reliance certainly did better work on the inshore tack and seemed to foot faster and point higher than the challenger, which was well to windward of the defender's wake when she followed her inshore. Barr took in his jibtopsail on this tack and at 12:40 took the starboard tack once more and it became a question as to which boat was ahead.

For a few moments it looked as though the Shamrock would be able to clear the Reliance, but when they got closer together Wringe, finding that he could not cross, tacked under the Reliance's lee bow, hoping to give her his back wind. At this point, after nearly an hour's sailing, the boats were in almost exactly the same position in which they started.

After a short hitch on the starboard tack Wringe tacked to port again at 1:02, and Barr came about instantly on his lee bow. As the water was getting smoother and the wind lighter, the Reliance begun to do better work as the yachts neared the outer mark.

The Reliance was ahead, with the Shamrock some distance to windward, when the wind suddenly hauled to the west-southwest, which headed the Reliance and put the Shamrock to leeward. After several short tacks the Reliance rounded the mark 3 minutes 21 seconds ahead, the yachts being timed as follows: Reliance, 1:55:17; Shamrock, 1:58:34.

The Shamrock's crew made a bungle of her balloon jibtopsail, but in a spinnaker run before the wind the challenger stood no chance with the Reliance, which drew further and further ahead, gaining 5 minutes 39 seconds in the run in and winning the race by 9 minutes elapsed time and 7 minutes 3 seconds corrected time.

Summary:

	Start.	Turn.	Finish.	Elapsed Time.	Corrected Time.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Reliance	11:45:21	1:55:17	3:17:38	3:32:17	3:32:17
Sham'k III.	11:45:17	1:58:34	3:26:34	3:41:17	3:37:20

SECOND OR TRIANGULAR RACE.

By far the most interesting contest of the series was the triangular race, which was sailed over a 30-mile course of 10 miles to a leg, on August 25.

While there was little wind early in the day there was a nice sailing breeze blowing when the preparatory signal sounded at 10:45.

For once it looked as though Wringe would get the better of the start, but as usual, when the time came for action, Barr completely out-manoeuvred him and sent the Reliance over the line 36 seconds after the starting gun, while the Shamrock, through some one's blunder, did not cross until 19 seconds after the handicap gun. There was no excuse for the Lipton boat being handicapped, as there was a good breeze and her skipper had plenty of room to handle her in.

The Crew of the Reliance.

Shamrock had up a new Ratsey mainsail, which seemed to be a far better fitting piece of canvas than the one she sported in her first race. Both boats crossed the line on the starboard tack and Wringe flung the challenger on the port tack right under the Committee boat and Barr, who by this time was well to windward, followed suit on the Reliance.

For forty minutes the pair stood in towards the Jersey shore on the port tack, Barr pinching the defender very high, while the Shamrock was sailed wider and seemed to foot faster.

The wind had increased considerably when the Reliance, which was the first to tack, came about and when the challenger followed her towards the mark a moment later it was seen that the Shamrock was a bit to windward of the Yankee boat but some distance astern.

Under the freshening breeze the yachts heeled until their lee rails were almost awash, and as they flew for the mark the majority of the excursion fleet were left far astern. When near the mark the wind hauled more to the westward and it was seen that both boats had overstood, so that sheets

were eased a trifle and the Reliance drew a little further ahead.

Baby jibtopsails were taken in and reaching ones were sent up in stops, as the yachts approached the mark. The Reliance swung off around the mark at 12:21:08 and broke out a large jibtopsail and set balloon forestaysail, while the Shamrock, which was timed 2 minutes and 32 seconds later, broke out a balloon jibtopsail.

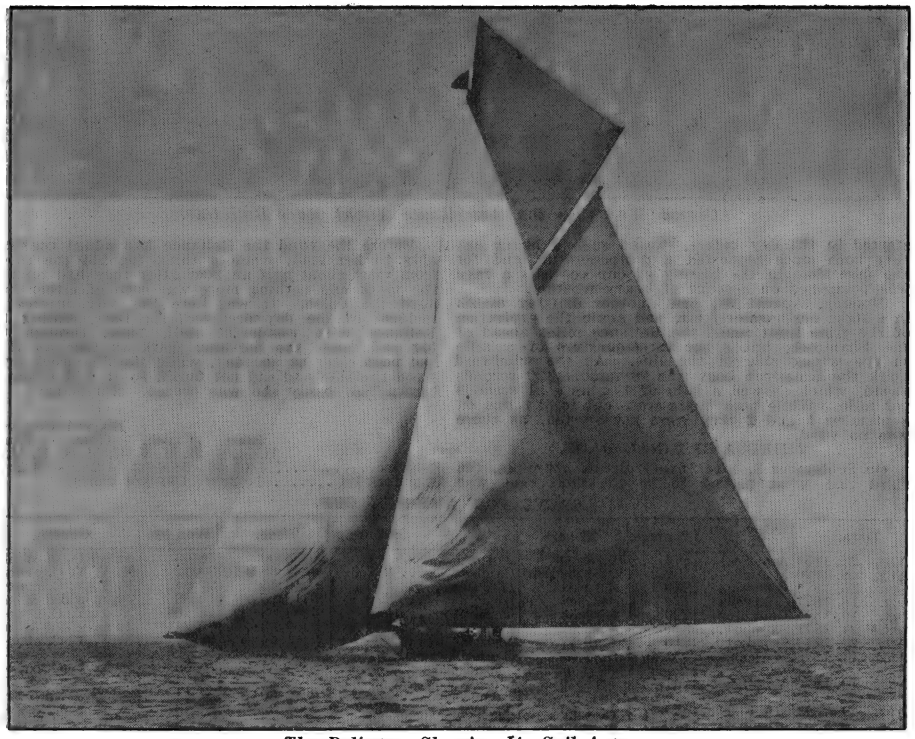
The Reliance had only gained 1 minute 8 seconds and the challenger looked to have a pretty fair chance, when it was seen that the wind was far enough aft for her to carry her ballooner with advantage. Barr, seeing that he had made an error, took in his jibtopsail about three minutes after rounding and set a ballooner in its place. By this time the Shamrock had drawn up quite a bit on the Reliance and the pair were making a grand race of it.

Just about this time the wind hauled more to the westward, or Barr, at any rate, bore off a trifle and broke out his spinnaker and sheeted it well forward. The Shamrock followed suit, but her sail was trimmed too flat and the Reliance drew out quite a bit in front. After carrying this sail for about thirteen minutes, Barr took it in and hauled more on the wind, while the Shamrock hung on to hers for six minutes longer and dropped further behind.

Both boats finished the leg with ballooners and when the Reliance turned at 1:18:07 she had added 1 minute 23 seconds to her lead and the Shamrock was 3 minutes 55 seconds behind.

The Reliance turned with her ballooner up, but Barr, finding the wind too far ahead, took it in and sent up working head-sails. The Reliance lost some precious seconds through this blunder and Wringe, profiting by Barr's error, took in his ballooner before rounding, so that when he hauled up on his course everything was trimmed in for the close reach home.

The Shamrock was only a few seconds behind her time allowance and a slight gain would give her the race. There was a good sailing breeze and the yachts made fast time, and while the spectators thought the challenger was gaining, Barr evidently thought he had her measure, as he did not break out the Reliance's baby jibtopsail for a long time after the challenger was drawing.



Larger jibtopsails were sent up near the finish, and when the Reliance ran into a soft spot it looked as though the Shamrock, which was still carrying a good breeze, would catch her, but the Lipton boat had no luck and the Reliance swept over the finish line at 2:15:30, winning the race by 3 minutes 16 seconds elapsed time and 1 minute 19 seconds corrected time. Summary:

	Start.	Finish.	Elapsed Time.	Corrected Time.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Reliance	11:00:36	2:15:30	3:14:54	3:1 :54
Shamrock III	11:02:00	2:20:20	3:18:10	3:16:13

FIRST LEG.

	Start.	First Turn.	Elapsed Time.
	H. M. S.	H. M. S.	H. M. S
Reliance	11:00:36	12:21:08	1:20:32
Shamrock III	11:02:00	12:23:40	1:21:40

Reliance gained 1 minute 8 seconds, but allowing for Shamrock's 19 seconds handicap at the start, the

The Reliance, Showing Its Sail Area.

Reliance only gained 49 seconds, boat for boat, in the 10-mile beat to windward.

SECOND LEG.

	First Turn.	Second Turn.	Elapsed Time.
	H. M. S.	H. M. S.	H. M. S
Reliance	12:21:08	1:18:07	0:53:59
Shamrock III	12:23:40	1:22:02	0:58:22

In the 10-mile broad reach Reliance gained 1 minute 23 seconds.

THIRD LEG.

	Second Turn.	Finish.	Elapsed Time.
	H. M. S.	H. M. S.	H. M. S
Reliance	1:18:07	2: 5:30	0:57:23
Shamrock III	1:22:02	2:20:10	0:58:08

On the close reach Reliancec gained 45 seconds.

POSTPONED RACES.

The third race over a windward or leeward course was scheduled for August 27, but there was such a light wind that the course was not covered within the time limit, old Father Time beating out the

Yankee boat by 6 minutes 37 seconds, which saved the Shamrock from a fearful licking.

Barr had made a complete monkey of Wringe at the start, so that, while both boats were handicapped, the challenger crossed a minute behind the Reliance and was way to leeward as well. The Reliance drew out a long lead and was 12 minutes 32 seconds ahead at the turn and had a lead of nearly three miles when the time limit expired.

On August 29 a strong northeaster, which had sailed after the start had been postponed for nearly two hours.

For once Wringe sent the challenger over the starting line in the windward berth, but Barr was far enough ahead, so that the Shamrock did not bother him. While the wind increased a little the yachts made rather slow progress to the outer mark.

The Reliance gained steadily on every tack, and when she rounded the outer mark at 3:40:29 the Shamrock was 11 minutes 7 seconds astern.

Crowd Watching the American's Yacht Race Bulletins.

started in the day before, caused such a heavy sea that both sides requested a postponement, and for the first time in the history of cup contests a race was postponed on account of heavy weather.

Monday, August 31, saw another drifting match in a light northeasterly air, and again the expiration of the time limit found the Reliance miles ahead of the Shamrock, but about three-quarters of a mile on the wrong side of the line. At the windward mark the American boat was 20 minutes 20 seconds ahead, which showed a gain of 1 minute 21 seconds per mile. While both boats were out to the line on September 1 and 2 they were not started, as there was no wind.

THIRD AND FINAL RACE.

On September 3, after five fruitless attempts, the third and what proved to be the final race was

Before the wind the Reliance had added considerably to her lead, when a thick fog hid the racers from view about half an hour after they had rounded the mark and nothing more was seen of either boat until the finish. It was here the only interesting incident of the day occurred, for Barr, sailing the Reliance with wonderful skill, burst through the fog and made the finishing mark as true as if it had been clear as noonday, while the Shamrock overstood the line and did not finish, so it will never be known how badly she was beaten. Summary:

	Start.	Finish.	Elapsed Time.	Corrected Time.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Reliance	1:01:56	5:30:02	4:28:04	4:28:04
Shamrock III	1:02:00	Did not finish.

[1]Schooner. [2]Cutter. [3]Columbia disabled, but finished race. [4]Sloop. [5]Sappho took place of Columbia and sailed out the series. [6]Remeasured. [7]Valkyrie III. fouled Defender and the race was awarded to the American boat, although the challenger finished 47 seconds ahead. [8]Elapsed time. [9]Shamrock II. finished first, but lost the race on the time allowance of 43 seconds.

RACES FOR THE CANADA'S CUP.

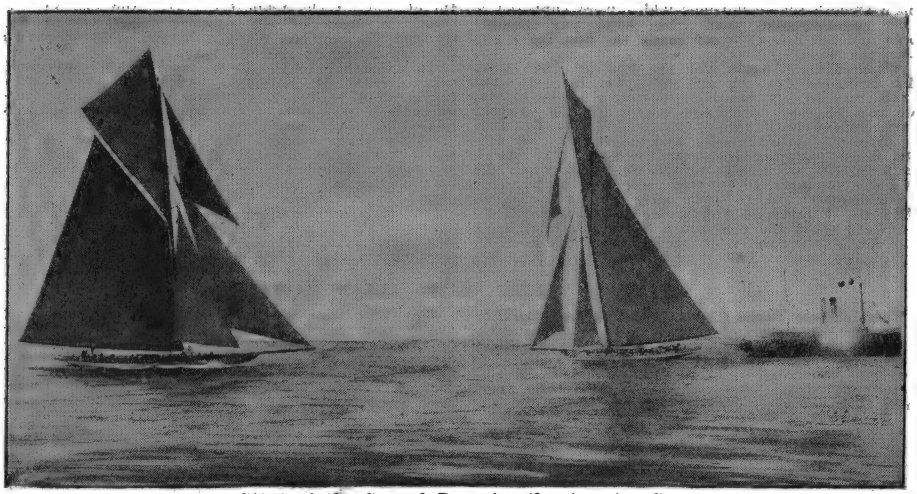
If the races for the America Cup attracted the most attention from the public, the international yacht races for the Canada's Cup, which was sailed on Lake Ontario, near Toronto, Can., during the early part of August, were worth two of it from a sporting standpoint, and so evenly were the boats matched that the result was in doubt until the very last race had been sailed.

The trophy, which is now known as the Canada's Cup, was originally offered by the Toledo Yacht Club in 1896, and the same year the Canadian yacht Canada, a Fife boat, representing the Royal Canadian Yacht Club of Toronto, won the trophy by defeating the Chicago yacht Vencedor at Toledo.

In 1899 the Genesee, of Rochester, representing the Chicago Yacht Club, defeated the Beaver, of Toronto, and brought the cup back to the States. In 1901 the Canadian Invader recaptured the trophy by defeating the Cadillac, of Detroit.

Last year the Rochester Yacht Club challenged for the trophy with the Irondequoit, a 40-foot boat, designed by Gardner & Cox, of New York, and built by Wood, of City Island, while the Canadians secured a design from the late A. E. Payne, of Southampton, and her hull was built by Captain Andrews, of Oakville, Ont., and the result was christened Strathcona. The dimensions of the two boats follows:

Description.	Strathcona Feet.	Iron'quoit Fe t.
Length over all	60:00	64.55
Water line	39.96	39.78
Water line beam	12.50	12.60
Extreme beam	13.52	13.16
Least freeboard	2.85	2.90
Greatest draught	8.65	8.90
Ballast, pounds	26,228	22.600
Midship section	35.54	35.42
Mainmast	47.00	44.00
Topmast	22.00	28.00
Mainboom	47.04	44.00
Gaff	29.35	33.04
Bowsprint outboard	12.00	8.00
	Sq. Feet.	Sq. Feet.
Mailsail	1,382.92	1,394.00
Club topsail	325.28	283 05
Fore triangle	831.88	861.56



The Strathcona was sailed by A. Emilius Jarvis, one of the cleverest amateurs in Canada, assisted by F. A. Turner, Norman Gooderham, C. S. Loundes, G. Francis, G. E. Macrae, H. Logan, James McMurray and two professionals; while James Barr, a nephew of Charlie Barr, had charge of the Irondequoit in her first two races, assisted by Designer William Gardner, F. M. Hoyt, Charles Van Voorhis, T. B. Pritchard, L. G. Macbeth, Fred L. Smith, Wilson Cross and two professionals.

The first race was sailed over a triangular course of 18 miles and Captain Barr made a good start, leading the Strathcona over the line by six seconds, but sailed the Irondequoit so wide that when she came about twenty minutes after the start she was unable to cross the Canadian yacht's bow.

Just after this the shackle on the jibtopsail sheet parted and she lost nearly a minute on this account. Strathcona drew slowly in front and at the first mark was 28 seconds ahead.

It was a reach to the next buoy and Captain Barr surprised the Canadians by taking in his jib to give his reaching jibtopsail and balloon staysail full play. The Canadian boat carried a balloon jibtopsail to leeward of her working jib and balloon staysail and the result was the Yankee yacht passed her to windward near the mark and rounded it with a lead of 14 seconds.

It was a broad reach home and the backing wind permitted setting spinnakers well forward for a few moments. Strathcona drew up on the Rochester boat and a mile from the finish, after blanketing her, luffed her way out of her course. Then, passing under her stern, the Canadian boat set her spinnaker again before the Irondequoit could blanket her and shot over the finish line a winner of the first race by 22 seconds. Summary:

Start of the Second Race for the America Cup.

	Start.	1st Mark.	2d Mark.	Finish.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Strathcona	11:03:15	12:14:47	1:04:30	2:07:08
Irondequoit	11:03:09	12:15:09	1:04:16	2:07:30

THE SECOND RACE.

The second race was sailed on Monday, August 10, over a 9-mile windward and leeward course in a light southerly breeze. The Irondequoit made a poor start, getting becalmed inshore just before gunfire and was two minutes behind the Canadian yacht in crossing.

The yachts made the outer mark in long tacks, and the Strathcona had a long lead when she turned the outer mark at 12:54:43, while the Irondequoit was not timed until 1:01:41 and finished over a mile astern. Summary:

	Start.	Mark.	Finish.
	H. M. S.	H. M. S.	H. M. S.
Strathcona	11:00:07	12:54.43	2:48:47
Irondequoit	11:02:10	1:01:41	2:58:52

Strathcona won by 10 minutes 5 seconds.

HANAN TO THE RESCUE.

There was trouble in the Rochester camp that night and Designer Gardner said that the race was being thrown away through poor handling and expressed himself with such force that a telegram was sent to Addison Hanan, of New York, to come to the rescue.

Young Hanan, who is a son of John H. Hanan, the well-known New York manufacturer, and one of the clever amateur yachtsmen in the country, arrived in hot haste, accompanied by his brother, Wilmer, just before the third race started on Tuesday morning. In fact, he had only time to leap on board just before the warning whistle, and Designer Gardner and one of the paid hands had to go ashore to make room for them.

Although young Hanan had never been on the boat before he soon brought order out of chaos and the Irondequoit showed an immediate improvement.

Her reaching jibtopsail and staysail were broken out at the crack of the gun and she crossed with a rush, leading the Strathcona by 17 seconds. There was a fresh 12-knot breeze and a jump of a sea on and the Irondequoit surprised every one by leading her Canadian rival by a minute and a half at the first mark, and then, to the amazement of all, drew steadily ahead in the windward work, dropping Strathcona on every tack, so that the Yankee yacht had a lead of 4 minutes and 32 seconds at the second mark.

In the reach to the finish the Irondequoit drew further ahead and won by 5 minutes 14 seconds. Summary:

	Start.	1st Mark.	2d Mark.	Finish.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Irondequoit	11:00:18	11:50:46	1:19:22	2:15:05
Strathcona	11:00:35	11:52:21	1:23:54	2:20:19

THE FOURTH RACE.

On Wednesday there was a light offshore breeze and a smooth sea, conditions which were supposed to favor the Canadian boat. The wind was variable north and northwest, which made the first leg a run down the wind.

Young Hanan again got the best of the start, with ballooner drawing and spinnaker in stops, but Jarvis was in his weather quarter a little astern. The two fought a desperate battle for the weather berth, luffing until they were heading for the harbor instead of into the lake, and gybed twice, Strathcona finally crossing Irondequoit's wake, and standing a quarter of a mile to the westward when she set her spinnaker and squared away for the buoy.

Irondequoit had to gybe over and after seven miles the Strathcona had a lead of 200 yards to windward when she ran into a heavy swell left over from the day before, which rolled every bit of wind out of her sails. The Irondequoit rolled, too, but her lofty club topsail caught more wind and she drew by her Canadian rival and rounded the outer mark with a three-minute lead.

After the yachts rounded the breeze gradually increased to 12 miles per hour, and while the Strathcona reduced the Irondequoit's lead, the Rochester yacht won by 1 minute and 8 seconds. Summary:

	Start.	Mark.	Finish.
	H. M. S.	H. M. S.	H. M. S.
Irondequoit	11:15:20	1:01:34	3:12:23
Strathcona	11:15:30	1:04:36	3:13:31

THE FIFTH AND FINAL RACE.

With one more race to sail and the score a tie, each boat having won two races, the excitement was intense on Thursday morning, when the rival yachts came out to sail their deciding race over a triangular course.

There was a smooth sea and an eight or nine-knot breeze from the southwest and again young Hanan got the best of the start, leading the Strathcona 26 seconds across the line.

The first leg was to windward and it was a battle of short tacks from the start, and the Strathcona, in spite of all Skipper Jarvis could do, dropped further and further behind, and was two minutes astern at the first mark.

In the reach to the second mark the Irondequoit set a reaching jibtopsail, while the Strathcona broke out a ballooner, and the result was the Canadian boat was only a minute and twelve seconds behind at the second mark.

While the Canadian boat held her own on the reach home she did not gain any more and the Irondequoit swept across the finish line the winner of the Canada's Cup by 1 minute 22 seconds. Summary:

	Start.	1st Mark.	2d Mark.	Finish.
	H. M. S.	H. M. S.	H. M. S.	H. M. S.
Irondequoit	11:15:09	12:47:50	1:42:27	2:40:55
Strathcona	11:15:35	12:49:29	1:43:39	2:42:17

ATLANTIC YACHT CLUB'S OCEAN RACES.

The Atlantic Yacht Club, thanks to the liberality of Commodore Robert E. Tod, has come prominently to the front as a promoter of ocean yacht races during the past few years and it was mainly to encourage the members of this club that Sir Thomas Lipton offered his trophy for a transatlantic race. Since then the German Emperor has recognized the efforts of this club in behalf of ocean racing by making them the joint custodian with the New York Yacht Club of his trophy for an ocean race, which will take the place of the Lipton Cup.

During the past season the Atlantic Club held four long-distance races over ocean courses which aroused considerable interest among yachtsmen. The courses, which ranged from 86 to 547 miles in length, tested the yachts under all sorts of conditions of wind and weather and were successful in every way.

The first race of the series, held on June 1, 2 and 3, was from Sea Gate to Fire Island; thence to Northeast End Lightship and return, a distance of 248 miles, and brought out a field of six schooners, including the Endymion, Thistle, Fleur de Lys, Estelle, Kiawassa and Iroquois. The Endymion finished first, but the Kiawassa won the race on time allowance, with the Iroquois second and the Endymion third.

The Thistle.

The second race was sailed on July 4 and 5 to Fire Island Lightship and return, a distance of 86 miles, and was won by the schooner Hildegarde, with the Iroquois second.

In the third race sailed on July 27, 28 and 29, from Newport to Nantucket Shoals Lightship, finishing at Scotland Lightship, a distance of 290 miles, the new Herreshoff schooner Ingomar won rather easily, with Lasca second and Thistle third.

The Ingomar also won the final race from Sea Gate to Nantucket Shoals, Cape May and return. She covered the 547 miles in 93 hours and beat her nearest competitor over 21 hours. The Hildegarde was second and the Endymion third. A summary of the races follows:

FIRST RACE, JUNE 1 AND 3.

From Craven's Shoal Buoy, New York Harbor, to Fire Island Lightship; thence to Northeast End Lightship, finishing at Scotland Lightship, New York. Distance, 248 miles.

Boat & Owner	Length Feet.	Start.	Finish.	Elapsed Time.	Corrected Time.
Kiawassa—					
H. G. Sharn	65	10:18:35	4:57:27	42:38:52	38:22:52
Iroquois—J. G. N.Whitaker.	82	10:16:20	3:04:00	40:47:40	38:34:40
Endymion—					
G.Lauder,Jr.	100	10:16:45	1:36:00	39:19:15	38:38:15
Fleur de Lys—					
L.A.Stimson.	90	10:16:05	2:54:34	40:38:29	39:09:29
Thistle—					
R. E. Tod..	110	10:19:38	3:23:30	40:03:52	40:03:52
Estelle—					
L.J.Callahan	80	10:15:35	6:05:00	43:49:25	41:22:25

Won by Kiawassa; Iroquois second, and Endymion third.

SECOND RACE, JULY 4 AND 5.

From Craven's Shoal Buoy, New York Harbor, to Fire Island Lightship, finishing at Sea Gate. Distance, 86 miles.

Boat and Owner.	Start.	Finish.	Elapsed Time.
Hildegarde—E. R. Coleman..	6:20:00	9:13:24	26:53:24
Iroquois—J. G. N. Whitaker.	6:20:00	12:05:00	29:45:00
Thistle—R. E. Tod.....	6:20:00	Withdrew.	

Hildegarde the winner.

THIRD RACE, JULY 27, 28 AND 29.

From Brenton's Reef Lightship, Newport, R. I., thence to Nantucket Shoals, finishing at Scotland Lightship. Distance, 290 miles.

Boat and Owner.	Start.	Finish.	Elapsed Time.
Ingomar—Morton F. Plant..	10:17:00	6:44:20	20:27:20
Lasca—R. P. McCurdy.....	10:18:40	9:32:30	23: 3:50
Thistle—R. E. Tod.....	10:16:30	9:23:35	35:07:05

Ingomar the winner.

FOURTH RACE.

Sept. 7, 8, 9, 10, 11, 12 and 13.

From Craven's Shoal Buoy, New York Harbor; thence to Nantucket Shoals Lightship; thence to Northeast End Lightship, off Cape May, finishing at Scotland Lightship. Distance, 547 miles.

Boat and Owner.	Start.	Finish.	Elapsed Time.
Ingomar—M. F. Plant....	12:32:25	9:50:40	93:18:15
Hildegarde—E. R. Coleman.	12:33:44	7:19:55	114:46:11
Endymion—G. Lauder, Jr..	12:35:00	12:09:00	131:34:00
Iroquois—J. G. N. Whitaker.	12:33:07	6:20:30	137:47:23
Fleur de Lys—L.A.Stimson..	12:33:33	12:59:00	144:25:27
Thistle—R. E. Tod—Withdrew.			

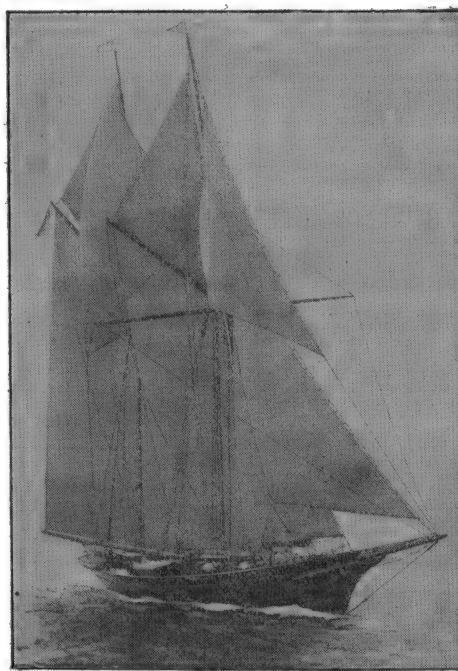
Won by the Ingomar; Hildegarde second, and Endymion third.

TRANSATLANTIC YACHT RECORDS.

The proposed ocean race, for which the German Emperor will offer a cup next May, has revived interest in transatlantic racing and a history of some old-time records and performances will doubtless prove of interest at this time. The first yacht to cross the Atlantic in either direction was the brig Cleopatra's Barge, of Salem.

She was built of oak, teak and mahogany, and was inlaid with costly woods and so lavishly decorated for those days that she resembled a piece of cabinet work more than a boat.

Leaving Salem on March 31, 1817, Cleopatra's Barge visited the Azores, Madeira and Gibraltar, afterward proceeding to the chief European ports on the Mediterranean, where she was viewed by thousands of people, including a representative of the Pope. She returned to Salem in October, 1817, but did not make another voyage as a pleasure vessel, owing to the death of her owner soon after her arrival home.



The second American yacht to cross the ocean was the schooner yacht America, when she went over in 1851 on the voyage which resulted in winning the cup that bears her name.

Leaving New York on June 21, she made the run to Havre, France, in 21 days 8 hours, under a small suit of working sails belonging to the pilot boat Mary Taylor, and on August 22 of that year won her memorable race against the entire British fleet around the Isle of Wight.

The third American yacht to cross the Atlantic was the centreboard sloop Silvie, a 105-ton boat, owned by Louis Depau, of New York. Her time from New York to Havre was 16 days 12 hours.

The schooner Gypsie, of New York, was the fourth yacht to cross the ocean in 1863, during the civil war, and she made the passage to Queenstown in 19 days. In the next few years a number of yachts made the passage both ways in rather slow time.

One of the most interesting passages was that of the sloop Alice, of Boston, owned by Thomas G. Appleton. She was but 48 feet on the water line and was commanded by Captain A. H. Clark, now well known as Lloyd's representative in New York. She made the passage from Nahant to the Needles in 19 days, and British yachtsmen were astonished that so small a boat had crossed the Atlantic for merely a Summer cruise in British waters.

Yacht Endymion.

(Copyright, 1903, C. E. Bolles, Brooklyn.)

The first ocean race, which was probably the best ever sailed, was between the American schooners Henrietta, Fleetwing and Vesta, in December, 1866, the course being from Sandy Hook to the Needles. James Gordon Bennett owned the Henrietta. Pierre Lorillard owned the Vesta and George and Franklin Osgood the Fleetwing. The stakes were $30,000 a corner, or $90,000 in all.

The Henrietta was built by Henry Steers, of Greenpoint. She was 205 tons, 107 feet over all, 22 feet beam and 12 feet draught. The Fleetwing was built by Van Dusen and was of 200 tons, measuring 106 feet over all, 24 feet beam and 11 feet 8 inches draught. The Vesta, which was a centreboard boat, was built by Carll, of City Island. She was 110 feet over all, 24 feet 6 inches beam and 7 feet 6 inches draught, or with her centreboard down, 15 feet draught.

The race was started on December 11, and the yachts experienced high westerly winds all the way across. The race was won by the Henrietta, which finished on Christmas Day, 1866, covering 3,057 miles in 13 days 21 hours 55 minutes, averaging 9½ knots per hour all the way over.

The Vesta sailed 3,046 miles in 14 days 6 hours

10 minutes, and the Fleetwing sailed 3,005 miles in 14 days 6 hours 50 minutes.

This was wonderfully fast racing and, despite the fact that the yachts sailed different courses, they were very close together at the finish, the Henrietta beating the Vesta by 8 hours 15 minutes and the Fleetwing by 8 hours 55 minutes.

The Fleetwing sailed the better course and would probably have won but for an accident on December 19, when a gigantic wave swept six of her crew out of her cockpit.

The next race was from Daunt's Rock to Sandy Hook between the English schooner Cambria, owned by James Ashbury, of London, and the Dauntless, owned by James Gordon Bennett, of New York, and was sailed in 1870 for a $1,250 cup. It had been arranged that the Cambria should race across against an American boat and while here race for the America Cup.

This race was started on July 4 and the Dauntless led at George's Banks, where she had the Cambria several miles under her lee. Then a shift of wind helped the English yacht and she won by 1 hour 43 minutes. The Cambria sailed a northerly course, while the Dauntless took a middle course.

The Cambria sailed 2,917 miles in 23 days 5 hours 17 minutes and the Dauntless 2,963 miles in 23 days 7 hours.

The last race sailed across the ocean was in 1887, when the Coronet defeated the Dauntless. The race was started off Bay Ridge on March 13, and the two yachts raced to Queenstown. The stakes were $10,000 a side. It was a hard contest and the Coronet won, covering 2,949 miles in 14 days 20 hours 30 minutes. The Dauntless sailed 2,940 miles in 16 days 1 hour 43 minutes.

The yachts experienced strong winds, and for three days before reaching Queenstown the yachts ran into a succession of gales. On the Dauntless the seas got into her fresh-water tanks and spoiled the drinking water. When her owner, Commodore Caldwell H. Colt, was informed of this, he promptly ordered wine for the crew for the rest of the voyage.

The best time of a yacht from New York to the Lizard was made by the Endymion in 1900, when she crossed in 13 days 20 hours.

The old schooner Sappho holds a better record, however, on a somewhat shorter course, for in 1869, in a run from Sandy Hook to Queenstown, in 12 days 9 hours 36 minutes. This was her second voyage, the first being made in 1868 in 14 days from New York to Cowes. She made another in 1872 from New York to Cowes in 18 days.

Second to the Sappho's time for the Queenstown course was that of the Dauntless in 1869, her time from New York to Daunt's Rock being 12 days 17 hours 6 minutes.

SEAWANHAKA CUP RACES.

The Seawanhaka Cup, which represents for small boats what the America Cup does among the larger classes, seems quite as hard to bring back to the United States as Englishmen find the Royal Yacht Squadron Cup, and of the nine races sailed for this trophy the United States has only won one, which, by the way, was the first sailed. Since then the Canadians, thanks to the skill of G. H. Duggan and F. P. Shearwood, have managed to keep the Oyster Bay trophy on the other side of the border despite numerous attempts to regain the cup.

In all, nine matches have been sailed for the trophy. Six of the challengers have hailed from the United States, two from England and one from Canada, the latter alone proving victorious.

There have been thirty-four races sailed in the various matches, and of the twenty-nine races sailed since the Royal St. Lawrence Club first challenged for the cup, they have won twenty-four.

The total number of yachts designed and built by the St. Lawrence Club for the capture and defense of the cup numbers forty, and all but five of these boats have been designed by Messrs. Duggan & Shearwood, while nearly one hundred yachts have been designed and built in the United States to capture this cup, without success.

This year the Manchester Yacht Club, of Manchester, Mass., challenged for the cup, and the Kolutoo, owned by A. Henry Higginson and designed by W. Starling Burgess, of Boston, was selected from a fleet of five boats, while Mr. Shearwood designed the defender, which was called the Thorella II., to represent Canada.

The Thorella, which was an improved Trident, had two bilge boards, and instead of the usual deep single rudder in the middle line of the hull, the Canadian boat was fitted with two small rudders about 9 inches deep and 18 inches long, so that the weather rudder was clear of the water when sailing, and the wetted surface was reduced and considerable gain was made in stability.

So far as actual racing went, it was simply a walkover for the Canadian boat, which won three straight races with the greatest ease. In the first race, on July 30, the Kalutoo was disabled on the last leg of the second round, but was 10 minutes behind and hopelessly beaten when her rudder broke.

In the second race the Thorella won by 19 minutes 36 seconds over a 15-mile windward and leeward course, and made it three straight by winning the final triangular race on August 1 by 12 minutes 16 seconds.

The most remarkable feature of the series was the wonderful performance of the Thorella, which covered one of the reaching legs at a 12-knot speed, though only 25 feet on the water line. Summary of the races follows:

Seawanhaka International Challenge Cup for small yachts:

KOLUTOO.

Designer	W. Starling Burgess.
Owner	A. Henry Higginson.
Builder	David Fenton Co.
Crew	R. D. Boardman, helmsman.
	A. H. Higginson.
	Frank Burgess.
	J. S. Lovering.
Crew Weight	650 pounds.

THORELLA II.

Designer	F. P. Shearwood.
Owner	Vice-Commodore Wm. C. Finley.
Builder	St. L. Yacht Co.
Crew	C. H. Routh, helmsman.
	W. C. Finley.
	Huntley Gordon.
	Angus McDonald.
Crew Weight	629 pounds.

	Kolutoo.	Thorella II.
Length over all	39 ft.	37 ft. 5 ins.
Water line	27 " 10½ ins.	25 " 8 "
Breadth	8 " 4 "	8 " .. "

FOOTBALL OF 1903.

GEORGE SANDS.

The football season of 1903 was one of exceptional interest, for the reason that the game was played under new rules. These rules permitted the quarter-back to run with the ball in the central portion of the gridiron, and, excepting within 25 yards of each goal, compelled seven men to be on the line of the team in possession of the ball. This made the play more open than formerly, and left room for the invention of many new tricks. The new rules did not meet the enthusiastic approval of a majority of the players, but from a spectator's standpoint they were highly satisfactory. Much of the old mass play was done away with, and the spectator could always see who had the spheroid when the play was going on between the two 25-yard lines. Inside the 25-yard lines, when it was only necessary for a team on the offensive to keep five men in the line, the old momentum plays were seen, for here the quarterback could not run with the ball. Thus the spectators had a chance to compare in every game the new and old styles of play. The new rules have proven so satisfactory to the general public that there is likely to be no more modifications for several years. It is true, however, that the latest modifications in the rules failed to lessen the danger in this strenuous Fall sport to any extent. About the same number of men were injured as in past years.

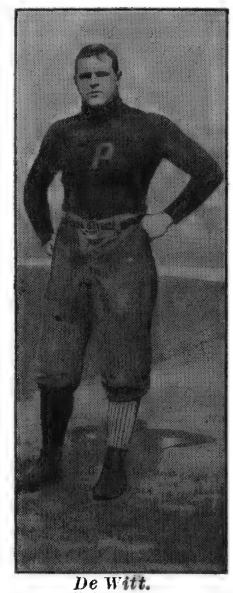
It is always difficult to decide off-hand what team can be considered the best in the East. Yale had a grand aggregation of players, but it must be admitted that the Yale line could not compare with that of 1902. The Holy Cross, West Point and Columbia teams found Yale a trifle weak at the centre, and it looked very doubtful early in the season whether Yale could really have a first class eleven. As the season wore on the Yale eleven got playing in something like championship form and first demonstrated its real power by defeating the ambitious team of Columbia by the overwhelming score of 25 to 0. Yale, however, found the New York players a tough proposition, as the score at the end of the first half, 0 to 0, would tend to show.

The Elis were in magnificent physical condition, and simply played Columbia's representatives to a standstill in the first half, crippling most of them. Although Columbia was beaten, her team was the best she ever put on the gridiron. A week before Columbia had outclassed and trounced the overconfident players of the University of Pennsylvania by a score of 18 to 6. This game partly crippled the Columbia team. Yale had, therefore, a much easier team to beat than the Philadelphia college. Columbia's lack of first-rate substitutes for the line lost her all chance of being a real contender for the championship. Pennsylvania was thought to have a team of remarkable strength until the battle with Columbia. After that the Quakers were considered out of the running. The veteran team of Princeton early displayed great form. Georgetown managed to hold the Tigers down to 5 to 0, but the Princeton goal was never threatened seriously in this game. The orange and black eleven walloped Lehigh, Bucknell, Brown, Dartmouth and the Carlisle Indians with such consummate ease that it was predicted generally that Cornell would easily be defeated by the men of Old Nassau. No one, however, expected to see Princeton beat the Cornellians by such a stupendous score as 44 to 0.

It was rather a disastrous year for Harvard from the inception of the season. When Maine held Harvard down to 6 to 0 there was apprehension at Cambridge. The crimson students were thrown into a state of despair when, later on, Amherst beat them by a score of 5 to 0. Columbia subsequently beat the Amherst team 12 to 0, and this made the crimson students feel keenly their humiliation. Harvard just managed to eke out a victory over the rather weak West Point eleven, the score being 5 to 0. Then the crimson team began to play better. The game with the Carlisle Indians first showed the true worth of Harvard's eleven, although the Indians only lost by the close margin of 12 to 11.

The Indians had made two touchdowns, when the crimson eleven took a grand brace, and by playing with remarkable speed and spirit secured two touchdowns. It was in this game that the Indians sprang a trick worthy of their crafty ancestors. They secured the ball on a punt on their 75-yard line. All the Indians quickly surrounded Johnson, who had caught the ball, and while thus shielded he quickly concealed the leather beneath his jersey on his back. Then all the redmen started on a tear for the Harvard goal and Johnson managed to make a touchdown. This trick is likely to be ruled out at the next meeting of the Rules Committee.

Although the Indian team was a very light one, it proved one of the best ever turned out at the Carlisle School.



The West Point and Annapolis teams were far below the cadet elevens of former years. Michigan, as usual, turned out a magnificent team. In six games Michigan scored 361 points to 0 for her opponents. This far excelled the record of any Eastern eleven.

ALL-AMERICA TEAM FOR 1902.

Position.	First Eleven.	Second Eleven.	Third Eleven.
End	Shevlin, Yale	Sweeley, Michigan	Metzger, Pennsylvania.
Tackle	Hogan, Yale	Pierce, Amherst	Farr, Chicago.
Guard	DeWitt, Princeton	Warner, Cornell	Lerum, Wisconsin.
Centre	Holt, Yale	Boyers, West Point	McCabe, Pennsylvania.
Guard	Glass, Yale	Goss, Yale	Marshall, Harvard.
Tackle	Kinney, Yale	Knowlton, Harvard	Schacht, Minnesota.
End	Bowditch, Harvard	Davis, Princeton	Farmer, Dartmouth.
Quarter	Rockwell, Yale	Weeks, Michigan	Daly, West Point.
Half-back	Chadwick, Yale	Barry, Brown	Foulke, Princeton.
Half-back	Bunker, West Point	Metcalf, Yale	Heston, Michigan.
Full-back	Graydon, Harvard	Bowman, Yale	Torney, West Point.

FOOTBALL TERMS.

A touchdown is made when a player of one team carries the ball over the goal line of the opposing team. A touchdown counts five points and allows a free kick for goal, which, if successful, counts one additional point.

A goal from the field is made when a player drops the ball to the ground, and, at the instant it rises therefrom, kicks it over the crossbar of the opponent's goal. A goal made in this way counts five points.

A punt is made by kicking the ball after it has dropped from the hands and before it touches the ground.

A kick-off is made with the ball upon the ground in the centre of the field. A goal cannot be scored from a kick-off.

A punt-out is made by a player of the side which has made a touchdown to another of the same side. The later is allowed to catch the ball without interference.

The ball is down when the player having the ball is brought to a standstill or when he cries "down." A down is indicated by the blowing of the referee's whistle. Five yards must be made in three downs or the ball passes to the opponent team.

A forward pass is made when the ball is thrown, passed or batted toward the opponent's goal. The penalty for a forward pass is five yards.

A player is off-side when any part of his body is ahead of the ball when it is put in play.

A football eleven is composed of a centre rush, right and left guards, right and left tackles, right and left ends, right and left halfbacks, quarterback and fullback.

A gridiron is a rectangular field, 330 feet in length and 160 feet in width.

A safety is made when the ball in possession of a player guarding his own goal is declared dead by the referee, any part of it being over the goal line, providing the impetus which sent it over the line was given by the side defending the goal. Such an impetus could come from a kick pass, snap-back or fumble; from a kick which bounded back from an opponent; in case a player is forced back; a foul which would give the opponents the ball behind the goal line, and when the ball is kicked and crosses the side line back of the goal line.

A touch-back is made when the ball in possession of a player guarding his own goal is declared dead, any part of it being over the goal line, provided the impetus which sent it across the line was given by an opponent.

A scrimmage is when the ball is placed upon the ground and put in play by kicking it forward or snapping it back.

A fair catch consists in catching the ball before it touches the ground after it has been kicked by an opponent. But one step can be taken after receiving the ball on a fair catch.

CHANGES IN FOOTBALL RULES.

Owing to a sort of crusade carried on against what is known as the "mass play" the Rules Committee made several alterations in the rules designed to lessen the general use of momentum plays.

The most important change provides that when the ball is put in play at any point in the middle section of the field, extending from one 25-yard line to the other 25-yard line, seven men of the side having the ball must be on the line of scrimmage. Another change in the same rule is that the player who first receives the ball may carry it forward beyond the line of scrimmage, provided in so doing he crosses the line at least 5 yards from the point where the snapperback put the ball in play. It is this change in the rules that enables the quarterback to run with the ball when in the middle portion of the field between the two 25-yard lines. The new rules provide that inside the 25-yard lines the old rule of scrimmage obtains; that is, the first man receiving the ball cannot run with it, and the side in possession of the spheroid need only have five men in the line, thus enabling the offense to use the old guardsback and other mass plays.

The new rules prohibit the use of heavy-protecting armor, particularly hard head guards. Sole leather, papier mache or other hard and unyielding material for armor is barred. Pneumatic rubber head gear and soft padding are permitted.

One brutal feature of the game was eliminated by the new rule which makes it impossible for the man kicking the ball to put men on side by running up ahead of them, and this rule also prevents the kicker securing the ball till it has touched an opponent. This rule gives the forwards of an opposing team no excuse for roughing the man who kicks the ball.

Smith, of Pennsylvania, Plunging Through the Columbia Line.

There are several alterations in penalties, the most important being that a side guilty of holding an opponent loses 20 yards instead of surrendering the ball. The penalty for tripping is increased to 20 yards.

Another excellent innovation is that a linesman, instead of giving testimony to the referee under certain conditions, must himself penalize a side for offside play in the line, tripping and unnecessary roughness to a back after a kick.

The new rules have met with general approval from both players and spectators. They have certainly made the game more open and spectacular.

The rule providing that seven men must be on the line of scrimmage in the central portion of the field enables the spectators to follow the ball easily, and the alteration permitting the quarterback to run with the leather keeps both teams more alert than formerly.

When the teams change goals after a try at goal following a touch-down, and also after every goal from the field, the teams shall take opposite goals at the beginning of the second half from those assumed at the beginning of the first half, and the side which did not kick off at the first half shall kick off in the second half.

Another alteration gives relief to a team that is being freely scored upon, owing entirely perhaps to the superiority of their opponents in the running game. Formerly a side which had been scored upon kicked off. Now, by the alteration, a side which has been scored upon has the option of kicking off or of having their opponents kick off.

THE GAME OF RUGBY FOOTBALL.

The present game of rugby, as played in America, had its inception in a match between Yale and Harvard which took place in the Fall of 1876. In that year Yale and Harvard adopted the English rules just as they stood, and from that day the game gradually developed by modifications to its present state of perfection.

The field is rectangular, 330 feet long and 160 feet wide. For the convenience of the officials in measuring the ground lost or gained there are lines marked at intervals of 5 yards for the length of the field. The new rules have made it necessary to mark 5-yard lines parallel to the side lines between the two 25-yard lines. This gives the centre of the field a checkerboard appearance. The longitudinal lines are for the purpose of enabling the officials to determine whether the quarterback, if he runs with the ball, crosses the line of scrimmage at least 5 yards one side of the point where the ball was put in play.

CASUALTIES IN FOOTBALL.

Professor E. G. Dexter, of the University of Illinois, made an elaborate investigation at the end of last season for the purpose of finding out how many students were seriously injured by taking part in the gridiron sport. He found that during the past ten years about 23,000 students have played the game. Of these 654 were sufficiently injured to lose time from their studies. Only eight were permanently injured and three were reported as having died from the effects of the game. This recapitulation shows that less than 3 per cent lost much time from their college work. The first death was of a student who had been forbidden to play on account of a weak heart, and the second was of a student who played without sufficient practice in an irregular match. Professor Dexter could not secure the particulars of the third death.

That eight men were permanently injured was due largely to bungling work on the part of surgeons.

The exact number of claims paid during the five years preceding 1903 by one of the largest accident insurance companies was 31,000. Of these the exact number of claims paid for accidents in certain sports were as follows:

Horseback riding	261	Gymnasium	54
Baseball	216	Canoeing	49
Swimming	97	Football	43
Wrestling	90	Skating	36
Bowling	71	Golf	25
Hunting	62	Boxing	21
Tennis	19		

THE STORY OF PUGILISM.

JAMES J. CORBETT.

The pugilistic world was enlivened during 1903 by fistic battles in which championship titles were involved. It is the championship battle that seems to interest the multitude, and when the champion's title is considered in danger there is a certain fascination which followers cannot resist. The mere fact that a champion may be dethroned and a new pugilistic idol crowned is what furnishes the incentive and makes boxing one of the leading athletic pastimes. The year just closed has seen some titles defended, while in one class the former holder found himself unable to win, and had to relinquish his laurels. Of all the champions in the various classes James J. Jeffries is without peer in the heavyweight class. He stands far above his nearest rival, so that there can be no doubt as to his title. His claim to the heavyweight championship had been proven in a convincing manner, and there is not a flaw in it. Jeffries fought one championship battle during the past year and engaged in a number of exhibition bouts with minor boxers on the stage. His contest with me for supremacy of the heavyweight class took place at San Francisco on August 14, and it proved a winning battle for the champion after ten rounds. Although it was a losing battle for me, I have no fault to find. I am frank to admit that the best man won. I was in the best condition, fought the best I knew how—and lost. That is the whole fight in a nutshell. Jeffries, in my opinion, is in a class all by himself. I have always considered him a great fighter, but his clever showing with me has convinced me more than ever that in his present good physical condition he is invincible. With proper care of himself he should have no trouble in disposing of aspirants for the heavyweight honors for years to come. Since acquiring the championship Jeffries has developed into a clever, scientific fighter. He has combined the boxer-fighter qualities that make him the successful pugilist that he is—able to cope with a rough or clever fighter with equal success. A few years ago a rough fighter, depending upon his brute strength, Jeffries has developed into a scientific, calculating fighter, who uses his head as well as his hands. The heavyweight championship battle broke a record for big receipts, $65.000 admission being paid by those who witnessed the contest.

Tommy Ryan's claim to the middleweight championship seems clearer now than ever before, as those who are considered to have a chance with him are well above the limit.

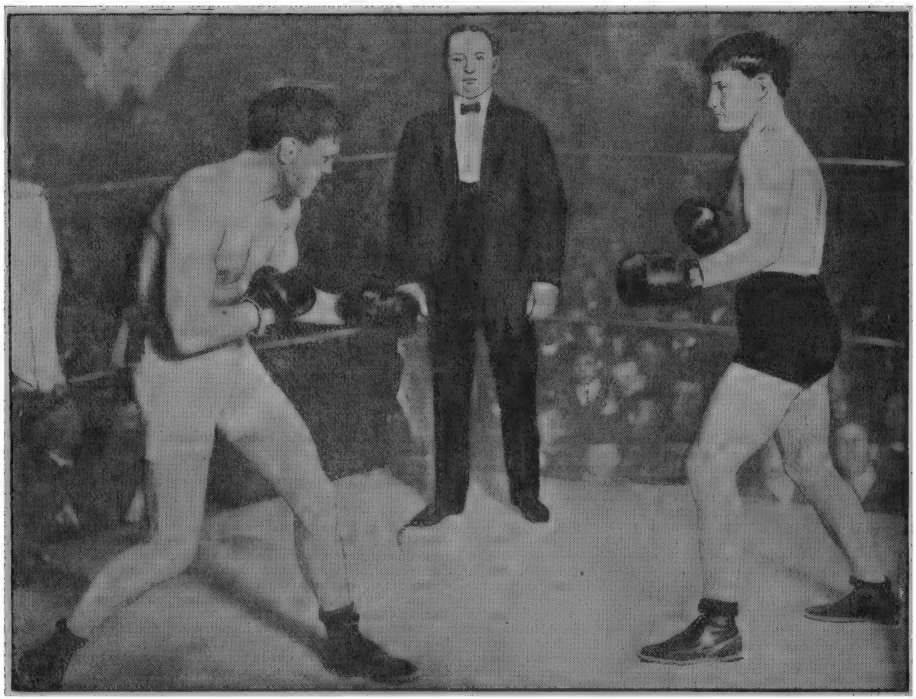
The day of the rough-and-tumble fighter is over. The clean, scientific boxing which has taken its place was never so popular, and, although permitted by law in only a few States in the Union, it flourishes among amateurs as a healthy pastime. There is scarcely an athletic club of prominence throughout the country that has not huge boxing classes, and the boxing instructor is a necessary adjunct to the up-to-date associations. The champions of to-day, unlike those of the past, are all clever boxers. Take, for instance, Joe Gans, head of the lightweight division; "Young" Corbett, featherweight champion; Frankie Neil, Tommy Ryan, George Gardner, Jimmie Britt and Eddie Hanlon.

Probably the next important fistic event to the heavyweight championship was the second meeting between "Young" Corbett and Terry McGovern, which took place in San Francisco on March 31. Corbett successfully defended his laurels by knocking McGovern out in the eleventh round of a fierce battle. McGovern made a game effort to regain the title that had been wrested from him a year before, but he was forced to succumb to the inevitable. Corbett's victory was clean-cut and well deserved. Just prior to his match with McGovern Corbett met Eddie Hanlon, a product of the Pacific Coast, and practically an unknown outside of California. The contest was fought in San Francisco on February 26. Hanlon furnished a surprise, fighting the champion twenty rounds to a draw. Corbett continued to fight all comers and engaged in about a dozen winning battles. Among those whom he defeated were Hughey Murphy, Jimmy Briggs, Sammy Smith, Jack O'Neil and Billy Maynard. Terry McGovern's only losing battle was his encounter with Corbett. He defeated Billy Maynard, Lew Ryall, Tommy Quigley, Joe Bernstein and Jimmy Briggs.

Joe Gans still retains the lightweight championship, having defeated all comers. His victims include Gus Gardner, Steve Crosby, Willie Fitzgerald and Joe Grim. Joe Walcott, the recognized welterweight champion, continued a successful campaign throughout the year, meeting all comers and conceding weight in almost every instance. He defeated Mike Donovan, Charles Haghey, George Cole, "Jabber" Carye and "Kid" Carter. Harry Forbes, the champion bantamweight, met defeat at the hands of Frankie Neil, the California boxer. Forbes was decisively beaten, being knocked out in the second round of what was to have been a twenty-round contest. The combat took place in San Francisco. Forbes, earlier in the year, dis-

posed of three aspirants before he met Neil. He defeated Andy Tokell, the English champion bantamweight, who came to this country in search of international honors. Forbes's victory over Tokell and his subsequent defeat by Neil makes the latter the champion of the world. Shortly after winning the championship Neil and Johnny Regan, of Brooklyn, met and fought twenty rounds to a draw in San Francisco.

A new championship class was introduced, known as the light heavyweight championship. Too heavy for the middle and too light for the heavies, the intermediate class was one long desired by this class of boxers.



The first important match for the honors was decided on May 31, when George Gardner defeated Marvin Hart for the championship in thirteen rounds, at Louisville. Root then fought "Kid" McCoy, at Detroit, for the right to meet Gardner, and received the decision after ten rounds. McCoy subsequently announced his retirement from the ring. This left Root and Gardner to battle for the new honors, and they came together on the afternoon of July 4, at Fort Erie, before the International Athletic Club. In the twelfth round Gardner scored a knockout.

Gardner began the year by being knocked out by the colored heavyweight boxer, Sam McVey. In his own class Gardner was very successful, defeating among others Al Weinig, Peter Maher, "Kid" Coffey and Jack Carrig. Gardner having won the light heavyweight championship belt offered by the International Athletic Club, he was challenged for the title by Robert Fitzsimmons, and the challenge was accepted, and they fought at San Francisco on November 25.

"Kid" Carter was more or less successful with the big fellows, defeating John Willie and Joe Butler. He fought Gus Ruhlin twice at Philadelphia, and each battle went the limit of six rounds. Carter had the decision given against him when he fought Joe Walcott fifteen rounds at Boston.

Benny Yanger and Eddie Hanlon fought twenty rounds to a draw on June 30 at San Francisco. A return match was arranged, and on September 29, in the same city, Hanlon received the decision over Yanger after twenty rounds. It was Yanger's first defeat, after he had fought over sixty battles.

Jimmie Britt, the conqueror of Frank Erne, considered the white lightweight champion, won a number of important battles, and a meeting between him and Joe Gans would settle an important argument. Britt fought Jack O'Keefe a draw at Butte, and defeated Willie Fitzgerald in a twenty-round battle.

The "Young" Corbett-Terry McGovern Fight of 1903.

Robert Fitzsimmons defeated Con Coghlan, an alleged Irish champion, in one round, at Philadelphia, and fought Joe Grim six rounds in the same city.

In Grim the ring has a unique figure; a boxer who has never been knocked out, although he has encountered some of the hardest punchers in the ring. Not a physical wonder by any means, Grim, nevertheless, seems immune from the knockout blow, either on the jaw or in the solar plexus.

Amateur championships won by James McKinley, bantamweight; Thos. Stone, featherweight; A. G. McGarry, 125 pounds; Jack Leavy, lightweight; Wm. Rodenback, middleweight, and Emery Paine, heavyweight.

THE FIGHTS OF 1903.*

CHARLES L. YOUNGER.

Winner.	Loser.	Date.	Result.	R'unds	Where Fought.
Armstrong, Bob	Black Fitzsimmons	September 22	Knockout	1	Providence, R. I.
Ashe, "Kid"	Brutus Clay	June 1	Knockout	3	Lexington, Ky.
Ashley, George	"Kid" Coffey	October 19	Won	15	Fall River, Mass.
Attell, Abe	Dave Johnson	February 26	Won on foul	6	San Francisco, Cal.
Attell, Abe	Eddy Toy	March 12	Won	20	San Francisco, Cal.
Attell, Abe	Johnny Regan	September 3	Won	20	St. Louis, Mo.
Bernstein, Joe	Jack Muretto	October 8	Knockout	11	Mt. Vernon, N. Y.
Black, "Kid"	Eddie Burns	January 13	Knockout	5	G'd Rapids, Mich.
Briggs, Jimmy	Fred Bryson	March 23	Won	15	Boston, Mass.

*Fights resulting in draws are given in another table.

THE FIGHTS OF 1903.—Continued.

Winner.	Loser.	Date.	Result.	R'unds	Where Fought.
Britt, Jimmy	Willie Fitzgerald	April 28	Won	20	San Francisco, Cal.
Broad, "Kid"	Benny Schneider	May 13	Knockout	1	New Orleans, La.
Brown, Joe	Tommy Dixon	October 15	Knockout	5	Tompkinsville, S. I
Burley, Nick	Joe Choynski	June 28	Knockout	2	Dawson, Alaska.
Butler, Joe	Al Weinig	June 27	Won	2	Philadelphia, Pa.
Canole, Martin	Jack O'Keefe	May 19	Won	15	Boston, Mass.
Canole, Martin	Joe Handler	March 12	Won	4	Fall River, Mass.
Canole, Martin	Marty McCue	April 9	Won, foul	9	Fall River, Mass.
Canole, Martin	Danny Duane	August 31	Knockout	1	Fall River, Mass.
Carter, "Kid"	John Willie	February 9	Won	15	San Francisco, Cal.
Carter, "Kid"	Joe Butler	June 8	Knockout	1	Philadelphia, Pa.
Choynski, Joe	Peter Maher	January 26	Knockout	2	Philadelphia, Pa.
Cole, George	"Sailor" Wilson	January 12	Knockout	1	Philadelphia, Pa.
Cole, George	William Larry	January 30	Knockout	5	Shamokin, Pa.
Cole, George	Jimmy Handler	March 12	Won	2	Philadelphia, Pa.
Connelly, Eddie	Tom Woodley	January 26	Won	15	England.
Connelly, Eddie	Pat Daly	April	Won	20	England.
Corbett, "Young"	Austin Rice	January 14	Won	18	Hot Springs, Col.
Corbett, "Young"	Terry McGovern	March 31	Knockout	11	San Francisco, Cal.
Corbett, "Young"	Hughey Murphy	June 25	Knockout	6	Boston, Mass.
Corbett, "Young"	Jimmy Briggs	June 29	Won	10	Boston, Mass.
Corbett, "Young"	Jimmy Briggs	July 22	Won	10	Boston, Mass.
Corbett, "Young"	Billy Maynard	July 24	Knockout	1	Philadelphia, Pa.
Corbett, "Young"	Jack O'Neill	July 29	Knockout	5	Philadelphia, Pa.
Corbett, "Young"	Hughey Murphy	October 27	Knockout	11	Boston, Mass.
Cote, Arthur	Joe Handler	March 30	Won	4	Bath, Me.
Daly, Tom	"Kid" Goodman	September 2	Won	15	Boston, Mass.
Duane, Danny	Billy Gardner	January 15	Won	8	Boston, Mass.
Duane, Danny	Dal Hawkins	February 3	Won	10	Boston, Mass.
Duffy, Martin	"Phila. Tom" Ryan	January 15	Won	15	St. Louis, Mo.
Duffy, Martin	Tom Wallace	January 23	Knockout	6	Milwaukee, Wis.
Duffy, Martin	Henry Fagin	February 17	Won	10	G'd Rapids, Mich.
Duffy, Martin	Jim Ferns	May 28	Knockout	13	Louisville, Ky.
Duffy, Martin	Matty Matthews	August 25	Won	10	Port Huron, Mich.
Erne, Frank	Warren Zurbruck	May 18	Won on foul	10	Fort Erie, Can.
Feltz, Tommy	Dave McNeil	January 15	Knockout	1	Bellows Falls, Vt.
Feltz, Tommy	"Kid" Goodman	February 2	Won	10	Boston, Mass.
Feltz, Tommy	Clarence Forbes	May 14	Knockout	1	St. Louis, Mo.
Feltz, Tommy	Tommy Sullivan	May 28	Won on foul	11	St. Louis, Mo.
Feltz, Tommy	Clarence Forbes	June 4	Won	11	St. Louis, Mo.
Ferguson, "Sandy"	George Byers	April 8	Won	10	Boston, Mass.
Ferguson, "Sandy"	Bob Armstrong	August 20	Knockout	1	Boston, Mass.
Ferguson, "Sandy"	Tommy Cary	September 3	Won	12	Boston, Mass.
Ferns, Jim	Bill Doherty	January	Knockout	5	Australia.
Ferns, Jim	Matty Matthews	April 27	Won	19	Fort Erie, Can.
Fitzgerald, Willie	Joe Handler	January 1	Knockout	1	Philadelphia, Pa.
Fitzgerald, Willie	Billy Gardner	February 11	Knockout	1	Boston, Mass.
Fitzsimmons, Robert	"Con" Coughlin	September 30	Threw up sponge	1	Philadelphia, Pa.
Forbes, Harry	Andy Tokell	February 27	Won	10	Detroit, Mich.
Forbes, Harry	Johnny Kelly	March 24	Knockout	9	Kansas City, Mo.
Forbes, Harry	Jimmy Devine	April 13	Knockout	4	Philadelphia, Pa.
Forbes, Harry	"Big" Mackey	April 16	Won	10	Findlay, O.
Forbes, Harry	Morris Rauch	May 26	Won	15	Kansas City, Mo.
Forbes, Harry	"Kid" McFadden	September 10	Knockout	10	Boston, Mass.
Fredericks, "Kid"	"Wisconsin Kid"	January	Won	15	Havre, Mont.
Fredericks, "Kid"	Mark Nelson	February	Knockout	1	Havre, Mont.
Fredericks, "Kid"	"Kid" Lee	March	Knockout	15	Havre, Mont.
Fredericks, "Kid"	Howard Opie	March	Knockout	4	Great Falls, Mont.
Fredericks, "Kid"	Dick Lewis	April	Won on foul	11	Spokane, Wash.
Fredericks, "Kid"	Ed McFarland	July	Knockout	14	Lewiston, Me.
Fredericks, "Kid"	"Wisconsin Kid"	July	Knockout	9	Lewiston, Me.
Fredericks, "Kid"	Tom McGuire	July	Knockout	1	Butte, Mont.
Fredericks, "Kid"	Jim Hayward	August	Knockout	15	Lewiston, Me.
Fredericks, "Kid"	Albert Martini	September 7	Knockout	2	Gilt Edge, Mont.
Fredericks, "Kid"	"Doc" Flynn	September 15	Knockout	7	Lewiston, Me.
Fredericks, "Kid"	"Kid" Foley	September 18	Knockout	18	Lewiston, Me.
Fredericks, "Kid"	Jack Clifford	October 9	Knockout	17	Helena, Mont.
Gans, Joe	Gus Gardner	January 1	Won	11	New Britain, Conn.
Gans, Joe	Steve Crosby	March 11	Won	10	Hot Springs, Ark.
Gans, Joe	Jack Bennett	March 23	Won	5	Allegheny, Pa.
Gans, Joe	Tom Tracey	May 13	Threw up sponge	9	Portland, Ore.
Gans, Joe	Willie Fitzgerald	May 20	Knockout	10	San Francisco, Cal.
Gans, Joe	George McFadden	June 27	Threw up sponge	3	San Francisco, Cal.
Gans, Joe	"Buddy" King	July 4	Knockout	5	Butte, Mont.
Gardner, Eddy	Jack Kelly	January 28	Knockout	10	Osceola, Wis.
Gardner, George	Al Weinig	February 13	Won	7	Boston, Mass.
Gardner, George	Peter Maher	April 6	Knockout	1	Boston, Mass.
Gardner, George	Marvin Hart	May 13	Won	12	Louisville, Ky.
Gardner, George	Jack Root	July 4	Knockout	12	Fort Erie, Can.
Gardner, Gus	Harry Lemons	November 2	Knockout	3	Saginaw, Mich.
Gardner, Jimmy	Jack Carrig	April 9	Knockout	3	Boston, Mass.
Gardner, Jimmy	"Kid" Coffey	July 20	Won	15	Fall River, Mass.
Gardner, Jimmy	"Kid" Griffo	October 13	Won	12	Boston, Mass.
Gardner, Willie	Arthur Cote	April 17	Knockout	6	Biddleford, Ind.
Gardner, Willie	Belfield Walcott	May 1	Won	12	Boston, Mass.
Gardner, Willie	Jim Kelly	May 7	Won	10	Fall River, Mass.
Gardner, Willie	Will Lewis	August 10	Won	7	Fall River, Mass.
Gardner, Willie	Fred Bryson	September 8	Won	2	Boston, Mass.
Gardner, Willie	Tom Daly	September 16	Knockout	12	Boston, Mass.
Gardner, Willie	Danny Duane	September 22	Won on foul	13	Fall River, Mass.
Goodman, "Kid"	Patsey Haley	March 4	Knockout	3	Boston, Mass.
Goodman, "Kid"	Tommy Feltz	April 14	Won	15	Boston, Mass.
Goodman, "Kid"	John Burdick	April 20	Won	12	Lawrence, Mass.
Goodman, "Kid"	Joe Bernstein	May 5	Won	5	Boston, Mass.
Goodman, "Kid"	Tony Moran	August 25	Knockout	4	Boston, Mass.
Goodman, "Kid"	Jack Lowery	September 9	Won	10	Boston, Mass.
Haghey, Charles	Jack McCormick	April 1	Won	10	Boston, Mass.
Hanlon, Eddie	Benny Yanger	September 29	Won	20	San Francisco, Cal.
Handler, Joe	Eddie Daly	March 3	Won	12	Bath, Me.
Hart, Marvin	Jack Bonner	April 2	Won, foul	4	Louisville, Ky.
Hart, Marvin	George Gardner	May 13	Won	12	Louisville, Ky.
Herrera, Aurelia	"Kid" Fredericks	May	Won	3	Butte, Mont.
Herrera, Aurelia	"Kid" Broad	June 13	Knockout	—	Butte, Mont.

Winner.	Loser.	Date.	Result.	R'unds	Where Fought.
Herrera, Aurelia	Jack Downey	July 2	Knockout	1	Butte, Mont.
Herrera, Aurelia	Eddy Santry	October 29	Knockout	13	Anaconda, Mont.
Holly, Dave	Joe Handler	January 10	Won	2	Philadelphia, Pa.
Jackson, Young Peter	Tom Reilly	May 23	Knockout	2	Seattle, Wash.
Jeffries, Jim	James Corbett	August 14	Threw up sponge	11	San Francisco, Cal.
Johnson, Jack	"Denver Ed" Martin	February 5	Won	20	Los Angeles, Cal.
Johnson, Jack	Sam McVey	February 27	Won	20	Los Angeles, Cal.
Johnson, Jack	"Sandy" Ferguson	April 6	Won	10	Boston, Mass.
Johnson, Jack	Joe Butler	May 11	Knockout	3	Philadelphia, Pa.
Johnson, Jack	Sam McVey	October 27	Won	20	Los Angeles, Cal.
Jordan, Ben	George Dixon	May 2	Won	6	England.
Kearns, Tim	"Kid" Black	February 23	Knockout	1	Milwaukee, Wis.
Kelly, Hugo	Hugh McMahon	January 3	Knockout	3	Chicago, Ill.
Kelly, Hugo	Mike Schreck	January 29	Won	15	St. Louis, Mo.
Kelly, Hugo	Harry Welsh	April 1	Won	8	Indianapolis, Ind.
Kelly, Hugo	Joe Curtain	September 17	Knockout	3	G'd Rapids, Mich.
Kelly, Hugo	Mike Donovan	October 30	Won	6	Milwaukee, Wis.
Lemons, Harry	Gus Gardner	October 13	Won on foul	5	Saginaw, Mich.
Lenny, Eddy	Joe Fairburn	March 18	Threw up sponge	16	Savannah, Ga.
Lenny, Eddie	Paddy Nee	September 8	Won	6	Chester, Pa.
Mack, Willie	Larry Burns	October 5	Knockout	6	Schenectady, N. Y.
Maher, Peter	Joe Grim	July 15	Won, foul	3	Philadelphia, Pa.
Matthews, Matty	Tom Couhig	February 23	Won	10	Pittsburg, Pa.
McClelland, Jack	"Crocky" Boyle	January 17	Won	10	Pittsburg, Pa.
McClelland, Jack	Andy Daly	March 21	Won	10	McKee's Rock, Pa.
McCoy, "Kid"	Jack Root	April 22	Won	10	Detroit, Mich.
McFadden, George	Bellfield Walcott	April 6	Won	15	Boston, Mass.
McFadden, "Kid"	Billy Ryan	August 21	Won	3	Boston, Mass.
McFadden, "Kid"	Hughey Clancy	August 26	Won	20	Providence, R. I.
McGovern, Hughey	Tommy Quigley	August 3	Won	4	Philadelphia, Pa.
McGovern, Terry	Billy Maynard	February 25	Knockout	4	Philadelphia, Pa.
McGovern, Terry	Jimmy Briggs	October 20	Won	15	Boston, Mass.
McKeever, Charles	Sam Phillips	February 19	Won	6	Philadelphia, Pa.
McKeever, Charles	Joe Grim	February 27	Won	6	Philadelphia, Pa.
McVey, Sam	"Kid" Carter	May 5	Knockout	11	Los Angeles, Cal.
McVey, Sam	Ed Martin	September 15	Knockout	1	Los Angeles, Cal.
Mellody, Billy	Billy Gardner	October 9	Knockout	11	Boston, Mass.
Millett, Joe	Al Weinig	October 27	Knockout	2	Oakland, Cal.
Mississippi, Young	Tommy Feltz	April 18	Knockout	4	Philadelphia, Pa.
Mowatt, Young	Tom Cody	July 1	Won	10	New Orleans, La.
Munroe, Jack	Ike Hays	January 9	Won	4	Butte, Mont.
Murphy, Hugh	Billy Ryan	March 13	Won	10	Boston, Mass.
Murphy, Hughey	Billy Maynard	June 4	Won	12	Boston, Mass.
Neill, Frank	Clarence Forbes	January 15	Knockout	7	San Francisco, Cal.
Neill, Frank	Harry Forbes	August 13	Knockout	2	San Francisco, Cal.
Neill, Frank	Billy DeCoursey	September 4	Won	15	Los Angeles, Cal.
Nelson, Jack	"Spike" Sullivan	June 15	Won	15	England.
O'Brien, Dick	Black Fitzsimmons	October 29	Knockout	3	Boston, Mass.
O'Brien, Jack	Al Weinig	January 1	Knockout	12	Fort Erie, Can.
O'Brien, Jack	Al Weinig	February 26	Won	4	Philadelphia, Pa.
O'Brien, Jack	Jack Butler	March 5	Won	6	Lancaster, Pa.
O'Brien, Jack	Jim Jeffords	March 9	Won	10	Philadelphia, Pa.
O'Brien, Jack	Billy Payne	March 19	Won	2	Philadelphia, Pa.
O'Brien, Jack	George Estes	May 19	Knockout	3	Philadelphia, Pa.
O'Brien, Jack	Jack Bonner	May 23	Won	10	Mauch Chunk, Pa.
O'Brien, Jack	Jack Mullen	October 13	Won	10	Newcastle, Eng.
O'Brien, Jack	Billy Hevron	October 26	Knockout	5	Newcastle, Eng.
O'Keefe, Jack	Jimmy Britt	March 8	Won	10	Portland, Ore.
O'Keefe, Jack	George McFadden	April 28	Won	8	Boston, Mass.
O'Keefe, Jack	"Rough" Burns	September 24	Won	10	West Baden, Ind.
O'Keefe, Jack	Dick Fitzpatrick		Won	10	West Baden, Ind.
Palmer Jack	Frank Craig	August 14	Won, foul	12	London, England.
Palmer, Pedlar	George Dixon	June 27	Won	8	London, Eng.
Parker, Charles	Dick Kees	July 27	Knockout	4	Fort Lee, N. J.
Regan, Johnny	Clarence Forbes	June 30	Threw up sponge	7	Memphis, Tenn.
Rice, Austin	Eddy Toy	January 26	Won	17	St. Louis, Mo.
Rice, Austin	Billy Ryan	October 7	Won	10	Westfield, Mass
Root, Jack	"Kid" McCoy	April 22	Won	10	Detroit, Mich.
Rowan, Dummy	"Kid" Harris	May 28	Knockout	2	Lewiston, Me.
Rowan, Dummy	Ola Paulson	August 1	Knockout	2	Somers, Mass.
Ruhlin, Gus	Pete Everett	March 9	Knockout	2	Philadelphia, Pa.
Ryan, Adam	Tommy Smith	January 8	Won	4	Davenport, Ia.
Ryan, Tommy	Billy Stift	January 15	Knockout	4	Kansas City, Mo.
Ryan, Tommy	"Cyclone" Kelly	February 3	Won	7	Hot Springs, Colo.
Ryan, Tommy	James Walker	June 1	Knockout	5	Battle C'k, Mich.
Ryan, Tommy	John Willie	June 30	Knockout	4	Butte, Mont.
Ryan, Willie	Jack Frazer	January 9	Won	6	Boston, Mass.
Ryan, Willie	Billy Griffin	September 16	Won	8	Boston, Mass.
Schreck, Mike	"Cyclone" Kelly	February 12	Won	4	St. Louis, Mo.
Schreck, Mike	Andy Walsh	June 11	Won	15	St. Louis, Mo.
Schreck, Mike	Andy Walsh	June 25	Won	15	St. Louis, Mo.
Schreck, Mike	Harry Walsh	July 4	Won	10	Houghton, Mass.
Sieloff, Otto	Frank Carroll	November 2	Won	15	Minneapolis, Minn.
Simms, Art	"Kid" Black	March 26	Knockout	6	G'd Rapids, Mich.
Smith, Sammy	"Kid" McFadden	June 3	Knockout	4	.....
Stanley, "Digger"	George Dixon	October 13	Won	6	London, Eng.
Stone, Jimmy	Joe Allen	January 12	Knockout	6	Scranton, Pa.
Sullivan, Jack	Jim Judge	July 15	Won	10	Boston, Mass.
Sullivan, Jerry	Jim Carey	October 7	Knockout	14	New York, N. Y.
Sullivan, "Spike"	Jim Maloney	February 9	Knockout	1	England.
Sullivan, Tommy	Tommy Feltz	July 9	Won	20	St. Louis, Mo.
Sweeny, Patsey	Andy Watson	August 31	Won	15	Manchester, Mass.
Thompson, Bobby	Herman Miller	October 30	Knockout	1	Savannah, Ga.
Walcott, Joe	Mike Donovan	March 9	Won	10	Pittsburg, Pa.
Walcott, Joe	Charley Haghey	March 11	Knockout	5	Boston, Mass.
Walcott, Joe	George Cole	March 18	Knockout	4	Pittsburg, Pa.
Walcott, Joe	Mike Donovan	April 15	Won	10	Boston, Mass.
Walcott, Joe	Bill Smith	May 28	Won	4	Portland, Ore.
Walcott, Joe	Mose La Fontise	July 3	Knockout	3	Butte, Mont.
Walcott, Joe	Tom Carey	August 13	Knockout	8	Boston, Mass.
Walcott, Joe	"Jabber" Carey	September 21	Knockout	5	Boston, Mass.
Walcott, Joe	"Kid" Carter	October 15	Won	15	Boston, Mass.
Ward, Mike	"Kid" Black	January 20	Won	10	G'd Rapids, Mich.

THE FIGHTS OF 1903.—Continued.

Winner.	Loser.	Date.	Result.	Ro'nds	Where Fought.
Ward, Mike	Jim Duggan	February 10	Knockout	7	Detroit, Mich.
Ward, Mike	Harry Fails	March 4	Knockout	9	Lansing, Mich.
Ward, Mike	Henry Fagin	March 13	Won	10	Detroit, Mich.
Ward, Mike	Otto Sieloff	April 30	Won	10	Port Huron, Mich.
Ward, Mike	Gus Gardner	June 16	Won	3	Port Huron, Mich.
Ward, Mike	"Buddy" Ryan	July 16	Won	10	Port Huron, Mich.
Ward, Mike	Joe Youngs	October 21	Won	10	Port Huron, Mich.
Ward, Mike	Willie Fitzgerald	September 17	Won, foul	10	Port Huron, Mich.
White, Jabez	"Spike" Sullivan	April 20	Won	15	London, England.
Yanger, Benny	Tim Callahan	January 5	Won	6	Chicago, Ill.
Yanger, Benny	"Kid" Abel	March 17	Won	10	Kansas City, Mo.
Yanger, Benny	Hugh McPadden	March 27	Won	10	Detroit, Mich.

THE DRAW FIGHTS OF 1903.

CHARLES L. YOUNGER.

Copyright, 1903, by W. R. Hearst.

The following table embodies all the contests which have resulted in a draw or in which there has been no decision.

Contestants.	Result.	Date.	Ro'nds	Where Fought.
Bantamweight:				
"Kid" Herman-Clarence Forbes	Draw	January 8	6	Chicago, Ill.
Tony Moran-Hughey McGovern	No decision	January 24	6	Philadelphia, Pa.
Hugh McPadden-"Kid" Abel	No decision	March 11	6	Milwaukee, Wis.
"Kid" Herman-Tom Cody	Draw	March 17	8	Oshkosh, Wis.
Danny Dougherty-Tommy Love	No decision	April 3	6	Philadelphia, Pa.
Harry Forbes-Tommy Love	No decision	April 20	20	Philadelphia, Pa.
Harry Forbes-Danny Dougherty	No decision	June 22	6	Philadelphia, Pa.
Kid McFadden-Al Fellows	Draw	July 3	10	Boston, Mass.
Hughey McGovern-"Kid" Beebe	Draw	September 14	6	Philadelphia, Pa.
Harry Forbes-Tommy Love	No decision	September 18	6	Philadelphia, Pa.
Jimmy Stone-Harry Melody	Draw	September 25	12	Boston, Mass.
Harry Forbes-Tommy Feltz	Draw	October 14	10	Detroit, Mich.
Danny Dougherty-Jack Lansing	No decision	October 16	10	Reading, Pa.
Johnny Regan-Frankie Neil	Draw	October 16	20	Los Angeles, Cal.
Featherweight:				
"Kid" Fredericks-Jud Murray	Draw	January	15	Havre, Mont.
"Kid" Fredericks-"Wisconsin Kid."	Draw	January	15	Havre, Mont.
Tommy Feltz-Austin Rice	Draw	January 9	12	Boston, Mass.
Willie Fitzgerald-Danny Duane	No decision	January 12	6	Philadelphia, Pa.
Jack O'Keefe-Buddy Ryan	Draw	January 13	6	Chicago, Ill.
Willie Fitzgerald-Joe Allen	No decision	January 17	6	Philadelphia, Pa.
Eddy Toy-Eddy Santry	Draw	January 19	6	Chicago, Ill.
Willie Fitzgerald-Willie Lewis	Draw	January 26	10	New Britain, Conn.
"Young" Mowatt-"Kid" Herman	Draw	January 27	10	Jackson, Tenn.
"Kid" Goodman-Jimmy Briggs	Draw	January 28	8	Boston, Mass.
Abe Attell-Ed Hanlon	Draw	January 29	20	San Francisco, Cal.
"Kid" Fredericks-Dick Lewis	Draw	February	10	Spokane, Wash.
"Kid" Goodman-Tommy Feltz	Draw	February 2	10	Boston, Mass.
"Young Corbett"-Billy Maynard	No decision	February 2	6	Philadelphia, Pa.
Terry McGovern-Joe Bernstein	No decision	February 6	6	Philadelphia, Pa.
Tommy Feltz-Jimmy Briggs	Draw	February 6	8	Boston, Mass.
George Dixon-Harry Ware	Draw	February 9	20	London, England.
"Kid" Asche-Steve Crosby	Draw	February 17	20	Hot Springs, Ark.
Austin Rice-Jack Hamilton	Draw	February 19	15	Bellows Falls, Vt.
Jack Bennett-Billy Farren	No decision	February 20	6	Philadelphia, Pa.
Billy Ryan-Joe Nelson	Draw	February 21	6	Boston, Mass.
Tommy Feltz-Chester Goodwin	Draw	February 23	12	Salem, Mass.
Billy Ryan-Jimmy Briggs	Draw	February 23	10	Boston, Mass.
Eddie Hanlon-"Young Corbett"	Draw	February 26	20	San Francisco, Cal.
"Chick" Tucker-Eddie Lenny	No decision	March 3	6	Philadelphia, Pa.
Tommy Feltz-Austin Rice	Draw	March 9	20	New Britain, Conn.
Jimmy Briggs-Tommy Feltz	No decision	March 12	12	Lawrence, Mass.
Eddie Santry-Adam Ryan	Draw	March 18	10	Indianapolis, Ind.
Tommy Feltz-Chester Goodwin	Draw	March 19	10	Fall River, Mass.
Eddie Lenny-"Chick" Tucker	No decision	March 31	6	Philadelphia, Pa.
"Kid" Goodman-Austin Rice	Draw	April 2	15	North Walpole, Vt.
Tommy Feltz-"Pinkey" Evans	Draw	April 4	20	Schenectady, N. Y.
"Kid" Goodman-Billy Ryan	Draw	April 6	6	Boston, Mass.
Austin Rice-Jack Hamilton	Draw	April 6	20	Schenectady, N. Y.
"Kid" Broad-Billy Maharg	No decision	April 6	6	Philadelphia, Pa.
"Kid" Goodman-Jimmy Briggs	Draw	April 8	10	Boston, Mass.
Tommy Feltz-"Pinkey" Evans	Draw	April 13	20	Schenectady, N. Y.
Eddie Lenny-Danny Cann	No decision	April 15	6	Philadelphia, Pa.
Jimmy Dougherty-Caspar Leon	No decision	April 17	6	Philadelphia, Pa.
"Young" Corbett-George Memsic	Draw	April 23	4	Portland, Ore.
"Kid" Goodman-Hughey Murphy	Draw	April 25	12	Boston, Mass.
Tommy Feltz-"Chick" Tucker	No decision	April 25	6	Philadelphia, Pa.
Tommy Feltz-"Young Mississippi"	No decision	May 6	6	Philadelphia, Pa.
Jimmy Kelly-Billy Gardner	Draw	May 7	10	Fall River, Mass.
Jimmy Briggs-Fred Bryson	Draw	May 7	15	Boston, Mass.
Tommy Feltz-Eddy Lenny	No decision	May 12	6	Philadelphia, Pa.
"Kid" Goodman-Hugh Murphy	Draw	May 13	15	Boston, Mass.
"Kid" Goodman-Jimmy Briggs	Draw	May 17	12	Boston, Mass.
"Kid" Broad-Tom Mowatt	Draw	May 29	10	New Orleans, La.
"Chick" Tucker-"Young Mississippi"	No decision	June 15	6	Philadelphia, Pa.
Jimmy Briggs-"Kid" Goodman	Draw	June 17	12	Boston, Mass.
"Kid" Asche-John Dancer	Draw	June 23	15	Lexington, Ky.
Dave Sullivan-"Crocky" Boyle	No decision	June 26	6	Philadelphia, Pa.
Benny Yanger-Eddie Hanlon	Draw	June 30	20	Chicago, Ill.
"Young" Corbett-Sammy Smith	No decision	July 6	6	Philadelphia, Pa.
Tommy Feltz-Austin Rice	Draw	July 9	12	Boston, Mass.
George Munroe-Tommy Love	Draw	July 14	6	Philadelphia, Pa.
"Chick" Tucker-"Young Mississippi"	No decision	August 13	6	Philadelphia, Pa.
Tommy Feltz-Johnny Regan	Draw	August 24	20	Kansas City, Mo.
Jack McClelland-Sammy Smith	No decision	August 24	6	Philadelphia, Pa.
"Young" Mowatt-Charles Neary	Draw	September 25	6	Milwaukee, Wis.

THE DRAW FIGHTS OF 1903.—Continued.

Contestants.	Result.	Date.	Ro'nds	Where Fought.
Featherweight—Cont.				
Terry McGovern-Lew Ryall	No decision	September 26	6	Philadelphia, Pa.
"Kid" Goodman-Eddie Lenny	Draw	September 29	20	Boston, Mass.
Terry McGovern-Billy Wills	No decision	October 3	6	Philadelphia, Pa.
"Young" Corbett-"Kid" Stein	No decision	October 10	6	Philadelphia, Pa.
Willie Fitz erald-"Kid" Williams	No decision	October 13	6	Philadelphia, Pa.
Herman Miller-Billy Farren	Draw	October 15	20	Savannah, Ga.
Willie Fitzgerald-Joe Tipman	No decision	October 16	6	Philadelphia, Pa.
"Young" Corbett-Tim Callahan	No decision	October 21	6	Philadelphia, Pa.
Jack Dorman-Jack Lowery	Draw	October 27	6	N. Y. State (Priv.)
"Kid" Griffo-Tommy Daly	Draw	October 30	12	Boston, Mass.
"Chick" Tucker-Johnny Marto	No decision	October 31	6	Philadelphia, Pa.
Jack O'Keefe-Jimmy Britt	Draw		20	Butte, Mont.
"Chick" Tucker-Sammy Smith	No decision		6	Philadelphia, Pa.
Lightweight:				
Joe Handler-George Krall	No decision	January 8	6	Philadelphia, Pa.
Jimmy Gardner-J. Belfield Walcott	Draw	January 8	8	Boston, Mass.
Jimmy Gardner-J. Belfield Walcott	Draw	February 18	6	Boston, Mass.
Joe Handler-Stonewall Allen	Draw	March 4	6	Boston, Mass.
George McFadden-Mike Sullivan	Draw	March 24	12	Boston, Mass.
Gus Gardner-Charlie Sieger	No decision	March 27	6	Philadelphia, Pa.

"Kid" Carter-Gus Ruhlin	No decision	September 28	6	Philadelphia, Pa.
Bob Fitzsimmons-Joe Grim	No decision	October 14	6	Philadelphia, Pa.
Joe Gans-Joe Grim	No decision	October 19	6	Philadelphia, Pa.
Joe Gans-Eddy Kennedy	No decision	October 20	6	Philadelphia, Pa.
Fred Cooley-"Cyclone" Kelly	No decision	October 26	6	Philadelphia, Pa.
Heavyweight:				
"Sandy" Ferguson-Gus Ruhlin	Draw	May 26	15	Boston, Mass.
"Sandy" Ferguson-Jack Johnson	No decision	July 31	6	Philadelphia, Pa.

AMERICAN PRIZE RING CHAMPIONS.

Tom Hyer, American born and a veritable giant, 6 feet 2½ inches in height, was the first champion pugilist of this country. He fought twice to gain the title. His first battle was with George McCheester, also known as "Country McCloskey." The men fought at even weight—180 pounds—at Caldwell's Landing, N. Y., September 9, 1841. McCheester was unmercifully banged all over the ring for 101 rounds, lasting 2 hours and 55 minutes. McCheester's second then threw up the sponge and Hyer was declared winner.

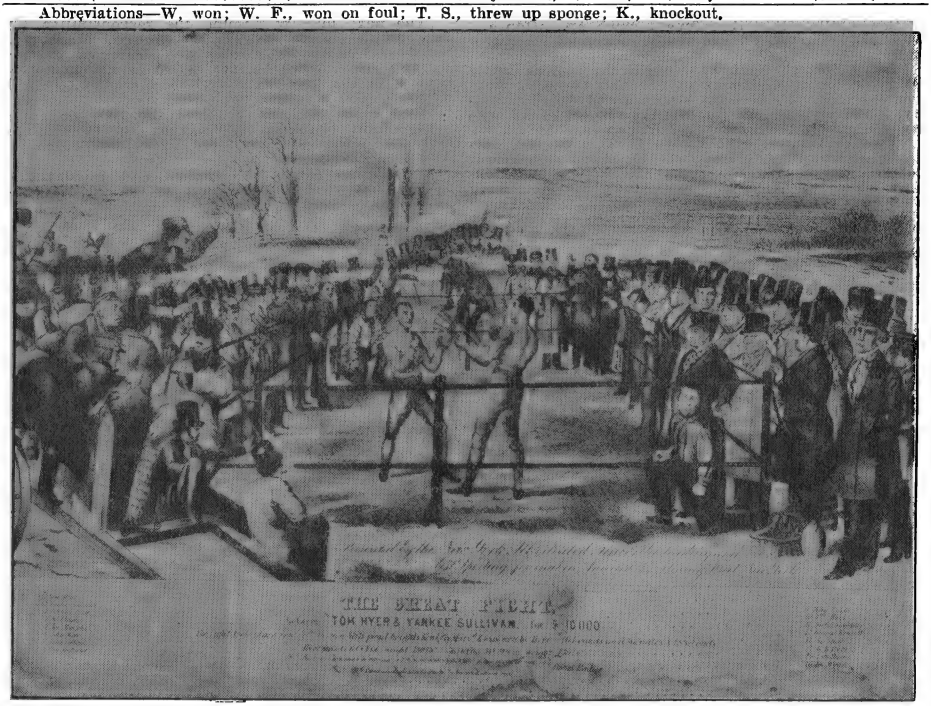
His next and last battle was the one which won for him the championship. "Yankee" Sullivan was the opponent this time. The bout was terrific from start to finish. Sixteen rounds were fought, and the result proved Hyer the better man. Sullivan was so terribly punished that he had to be taken to Mount Sinai Hospital in Baltimore. Hyer was next matched to fight Morrissey, but the latter forfeited $100. They again agreed to fight, but when the men met at the ringside Hyer saw that his gang was outnumbered and that his chances of winning were slim. He produced a revolver for himself and one for Morrissey and offered to fight it out with them, but the latter declined. Hyer then had to retire, as no one dared to meet him.

"Yankee" Sullivan, whose right name was James Ambrose, then fought John Morrissey for the title of champion and a purse of $2,000. Reports state that Sullivan was proving that he was undoubtedly better qualified for the honors when a wrangle ensued, and Morrissey won on a technicality.

John C. Heenan then came into prominence and was pitted against Morrissey. The bout lasted eleven rounds and the latter won. Morrissey then retired, and Heenan challenged the world for the title. The "defi" was accepted by Tom Sayers and a battle was duly fought, but it ended in a wrangle. Heenan then fought Tom King, who defeated him in twenty-five rounds. After this battle he retired from the ring.

Joe Coburn was then recognized as champion, after having defeated Mike McCoole. He retired and Bill Davis, of California, claimed the honor. James Dunn, a Brooklyn politician, disputed his claim, defeated him and retired. Davis again claimed the championship, and this time Mike McCoole defeated him in thirty-four rounds.

The next battle for the championship was between Tom Allen and Bill Davis. Allen won in forty-three rounds and then challenged McCoole, who accepted. Reports state that Allen was the better man, but was defrauded and McCoole declared winner on an alleged foul. Allen then fought Jem Mace for the honors and a purse of $5,000. Mace won in ten rounds—44 minutes. Mace then went to England, and on his return brought with him Joe Goss, whom he matched to fight Allen. Goss won in twenty-one rounds—58 minutes—gaining the decision on a foul.



On May 30, 1880, the famous Joe Goss-Paddy Ryan

battle was fought. It was in this bout that Ryan actually showed his ability as a pugilist. He received the decision after fighting 1 hour and 27 minutes. Two years later John L. Sullivan whipped Ryan in the memorable bout which gained for him the championship. During June, 1887, Jake Kilrain claimed the heavyweight title because Sullivan had refused to fight him under the old London prize ring rules. When Sullivan returned from England during the Fall of 1888 he challenged Kilrain to meet him and decide the question of supremacy. Articles were finally drawn up and a battle arranged, which Sullivan won in seventy-five rounds.

All these early fights were heavyweight battles. The recent history of the championship is well known to the followers of pugilism in this country.

Abbreviations—W, won; W. F., won on foul; T. S., threw up sponge; K., knockout.

The First Battle for the American Championship.

THE ENGLISH PRIZE RING.

The following tabulated list of English prize ring champions is, in itself, practically a history of pugilism from the day of its birth. Tom Figg, the man who introduced pugilists into England, was its first champion. He owned a theatre on what is known as the Oxford Road, where fist and glove encounters were patronized by royalty.

There is no authentic record to show that Figg fought more than one battle. This was with the "Venetian Gondolier," and Figg won. After he died, in 1734, the interest in pugilism waned until George Taylor came forth and claimed the title, which he defended against Jack Slack and "Prince" Boswell, a gypsy.

August 5, 1758, he was defeated by Tom Faulkner. The men fought a desperate bout, which lasted one hour and fifty minutes. Jack Broughton also defeated Taylor and became champion. He held the title until 1750, when he met defeat at the hands of Jack Slack.

Slack held the title for four years before he was challenged. The man who defied him was one Pettit, a Frenchman. Slack accepted the challenge, and the battle was decided at Harleston, in Norfolk. A more unscientific affair was never witnessed. The Frenchman started the bout by partially strangling his man and then unmercifully pounding him. After finally freeing himself Slack settled the matter then and there by striking Pettit a terrific blow in the ribs. After this Slack won three more battles and then lost to Bill Stevens.

From March 2, 1762, to 1790, the champions in rotation were: George Meggs, a baker, who acquired the title fraudulently, having bribed Stevens to lose; George Milson, Tom Juchan, Bill Darts, Tom Lyons, Harry Sellers, Jack Harris, Thomas Jackling and Ben Ryan.

Ryan's record does not show that he was ever defeated. In size and stature he was a giant, standing nearly six feet tall and weighing 215 pounds. Ryan won the championship from Tom Johnson, who fought under the name of Jackling.

Mendoza, the next man who held the honors, was one of the cleverest boxers of his time. He claimed the title when Ryan died, and defended it until he met his Waterloo in the person of John Jackson, better known as "Gentleman" Jackson. This famous pugilist fought only three battles, after which he

had to retire, owing to the fact that there were few who cared to match their skill with his.

In 1803 Jem Belcher claimed the title and fought for it against all comers. His most important battle is given below, and it is claimed that at least $100,000 changed hands on the result.

Harry Pearce, the next man on England's list of prize ring heroes, made his claim as early as 1804, Belcher having announced his retirement. On October 8, 1805, Pearce, who was also known as the "Game Chicken," fought a furious battle with John Gully, which lasted over an hour and a quarter, during which time sixty-four rounds were fought. Pearce won and later retired.

When Pearce announced his retirement the championship was conceded to John Gully, who declined to accept the honor. Gully afterward was elected to Parliament, and in 1846 he won the classic English Derby with Pyrrhus I. and The Oaks with Mendicant. In 1854 he again captured the Derby with Andover.

During Gully's reign the craze for pugilism was at its height in England and the ring saw its palmiest days. It was patronized by men of the highest rank and intellect, and it must be said to the credit of the pugilists that they fought much and often and were always prepared and ready to defend their records.

Tom Cribb, the man who fought the famous battle with the negro Molineaux at Copthall Common, next won the title. Besides his strength and fighting ability, his honesty gained for him the respect of all who knew him, his admirers being numerous.

Thomas Winter, also known as Tom Spring, succeeded Cribb; then followed the renowned Jem Ward, "Deaf" Burke, W. Thompson, also known as "Bendigo," his ring name, and Ben Caunt, who afterward allowed Thompson to regain the belt.

During 1850 Bill Perry, "The Tipton Slasher," succeeded Thompson, but the same year he won the honors he was defeated by Harry Broome, who, in 1853, forfeited the belt and retired from the ring. Tom Paddock was then conceded the honors.

Tom Sayers, the hero of the Heenan-Sayers bout, which was fought at Farnborough, Eng., April 17, 1860, next acquired the belt by defeating Perry, June 16, 1857. The result of the Heenan fight, which was for the championship of the world, discouraged Sayers, and he retired, to be succeeded respectively by Sam Hurst, Jem Mace, Tom King and Joe Wormald.

Jem Mace and Joe Wormald were matched to fight for the championship during 1865. Wormald injured his hand while training and forfeited the title. He regained it during 1867 by default.

It is claimed that Ed O'Baldwin, whom Wormald had been matched to fight for the title and £500 a side, was defrauded. The battle was never fought, but the referee gave both stake and title to Wormald. Mike McCoole (American) then succeeded to the title by defeating Tom Allen. He, in turn, was succeeded by Jem Mace, who held sway for fifteen years.

The next man to assume the responsibility was Jem Smith. Jake Kilrain, of Boston, Mass., disposed of him in 106 rounds and protected the belt for two years, when he met defeat in his memorable bout with the peerless American champion, John L. Sullivan, also a native of Boston.

Ever since Sullivan acquired the title no actual heavyweight champion has sprung up in England, and the honors are therefore undoubtedly held by American champions.

A table as carefully compiled and tabulated of English heavyweight champions as the following has never before been published:

THE ENGLISH CHAMPIONS.

Year.	Winner.	Loser.	Time.	Rds.	Where Fought.
1719	Tom Figg		....	..	
1734	George Taylor		....	..

1889	John L. Sullivan	Jake Kilrain	....	75	Richburg, Miss.

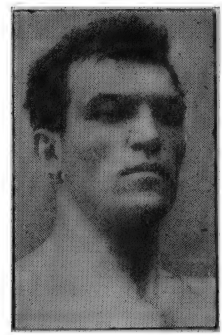
PRESENT AMERICAN CHAMPIONS, ALL WEIGHTS.

Winner.	Loser.	Rds.	Result.	Where Fought.	Weight.	Date.
Frank Neil	Harry Forbes	2	K.	San Francisco, Cal.	Bantam	Aug. 13, 1903.
W. H. Rothwell*	Terry McGovern	2	K.	Hartford, Conn.	Feather	November 28, 1901.
Joe Gans	Frank Erne	1	K.	Fort Erie, Ont.	Light	May 12, 1902.
Joe Wolcott	"Rube" Ferns	5	W.	Fort Erie, Ont.	Welter	December 20, 1901.
R. Fitzsimmons†	Jim Hall	4	K.	New Orleans, La.	Middle	March 8, 1893.
J. Jeffries	R. Fitzsimmons	11	K.	Coney Island	Heavy	June 9, 1899.

*Though these men fought at 126 pounds, which is four pounds above the bantam weight limit, Rothwell is regarded by the public as the actual champion. †As Fitzsimmons can no longer make the weight and because he has announced his retirement from the ring, Tommy Ryan has since claimed the title.

SCALE OF WEIGHTS.

Bantam	Under 115 pounds	Welter	Under 142 pounds
Feather	122 pounds	Middle	158 pounds
Light	133 pounds	Heavy	Over 158 pounds



THE PRESENT AMERICAN CHAMPION.

James J. Jeffries, present heavyweight champion of America, was born at Carroll, Ohio, April 15, 1875. An expert boilermaker by profession, his first knowledge of the prize ring was obtained while acting in the capacity of trainer of James J. Corbett.

Through the knowledge which he gained while in this position Jeffries gradually succeeded in winning his way to fame. On August 5, 1898, he first appeared before a New York audience. On that day, at the Lenox Athletic Club, he was scheduled to fight two men, Bob Armstrong and Steve O'Donnell, ten rounds each.

In the first scheduled bout, the one with Armstrong, Jeffries's showing was regarded by the audience as poor for a man who had championship aspirations. He received the decision, but did not fight O'Donnell on account on a shattered finger.

His next appearance was in the bout with Fitzsimmons. Few persons thought he would win, and the betting was two to one against him. His decided victory over this past master of the game was the talk of the followers of pugilism for some time.

James J. Jeffries.

Jeffries is a man of great size and weight. He stands six feet and one and a half inches in height, and averages 215 pounds when entering the ring. His other measurements are:

Neck, 18 inches; chest, 43½ inches; chest, expanded, 48 inches; waist, 35 inches; reach, 76½ inches; biceps, 16 inches; calf, 17½ inches; forearm, 12½ inches; thigh, 26 inches.

During the year 1903 Jeffries fought but one battle. James J. Corbett, former heavyweight champion of America, was his opponent. The bout lasted eleven rounds, and although Corbett is admitted to be the most scientific boxer of all the heavyweight and minor pugilists, Jeffries succeeded in defeating him easily, and thereby convinced the public that it was not brute strength alone which won for him the title.

His large size and strength have aided him greatly in winning the title. That he has never been defeated is shown by the following record:

1897—Knockout—T. Van Buskirk, 2 rounds; Dick Baker, 9 rounds.
Draw—Gus Ruhlin, 20 rounds; Joe Choynski, 20 rounds.

				Rounds.
1898.				
Feb.	28—Joe Goddard	W.	Los Angeles	4
March	22—Peter Jackson	W.	San Francisco	3

RIFLE AND REVOLVER SHOOTING.

V. R. OLMSTEAD,
Of the National Rifle Association of America.

The leading event in rifle shooting during 1903 was the winning of the Palma trophy by an American team, defeating the best shots of England, France, Australia, Canada, Natal and Norway. The Palma trophy was created in 1876 in the name of the United States, to be shot for in international competition by riflemen of the world. Its value is $1,500. It was to be contested for by teams of eight men from any country, with any rifle, at 800, 900 and 1,000 yards, thirty shots to a man at each distance.

The first contest, in 1876, and the second, in 1878, were won by American teams. Interest waned, and the next contest was held in 1900, but there was no opposition to the American team. In 1901 it was shot for by America and Canada, and was won by the latter, with a score of 1,522 against 1,494.

Harry M. Pope, Holder of 50-Shot Record.

Lieutenant K. K. V. Casey, Winner of President's Match.

With the organization of the National Rifle Association of America, in 1900, the conditions of the contest were changed slightly. In 1903 they were changed still more, allowing but fifteen shots to each man at each range.

Private Cook, of the District of Columbia, made the best individual showing, fourteen of his fifteen shots at 800 yards being bulleyes and the fifteenth an inner, or 74 out of a possible 75 points.

Great praise was given the American team for their skill and accuracy in timing and sighting. The winners were the first to finish at the 800 yard range, and had a margin of half an hour in which to prepare for the 900-yard range, a fact that gave a great advantage. The Americans were coached in regard to the slight wind variation by Captain Bruce.

THE 1903 RECORDS.

The highest reported records of the following clubs were made from January 1 to October 1, 1903:

BARRE RIFLE CLUB, BARRE, MASS.
STANDARD AMERICAN TARGET.
Target Rifle.

200 yds.	10 shots, possible	100, H. Allen	89

BELLOWS FALLS RIFLE CLUB, BELLOWS FALLS, VT.

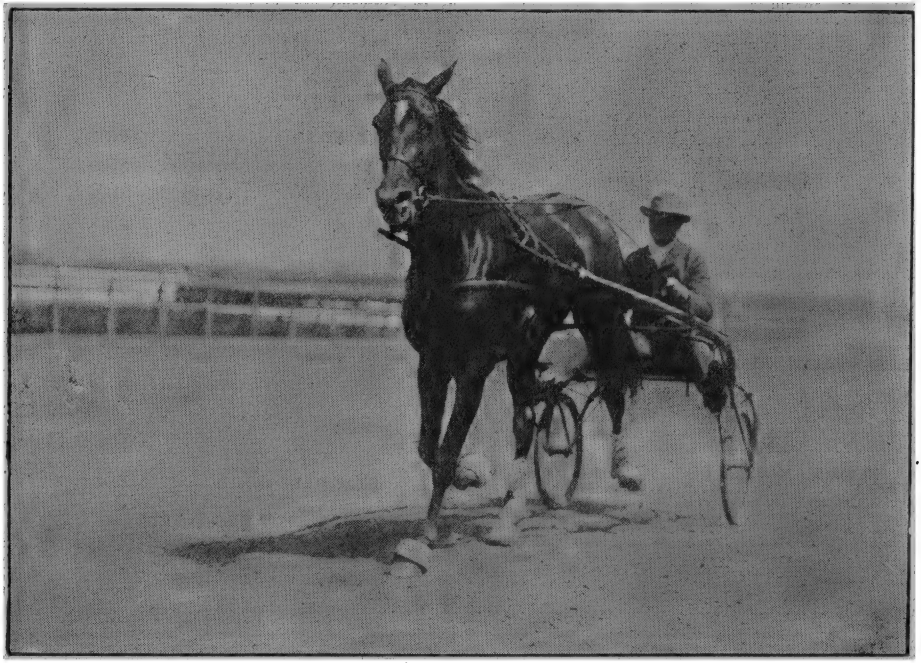
LIGHT HARNESS RACING IN 1903.



JOHN V. SMITH.

The trotting season of 1903 will mark an interesting epoch in the history of the light harness turf. To say that the performances of the racers and the wonderful time trials were sensational in many ways is stating it mildly. The season saw the crowning of two new champions and the fall of numerous world's records, both in the trotting and pacing divisions, some of which had stood for many years. As it was, many landmarks were wiped away and old Father Time fell a victim to the fleet-footed champions in a manner that amazed horsemen and laymen alike. There was speed everywhere, East, West and South; the records fell with clockwork regularity, as if some magic power seemed to be lending its aid to the battles against time. Once the pacing records were broken there seemed to be an epidemic, and the season was one series of record-breaking performances. Both the trotting and pacing championships were juggled between the champion aspirants so that the final honors were in doubt until the season closed. When the end came Lou Dillon wore the championship crown for trotters, a title which the mare earned with a record of 1:58½, while Dan Patch, at the last moment, regained the pacing championship, with a record of 1:56¼. Cresceus, with a mile in 1:59¾, and Major Delmar, with 1:59¾, gave the mare a hard battle for the honors, and came within the magic circle of two-minute performers. The dream of horsemen for the two-minute trotter was more than realized. First the two-minute mark was reached by Lou Dillon, at Readville, in a time trial, without a wind shield, and then came Major Delmar, who equalled the mark at the Empire City track, New York, with the aid of the wind shield, only to be surpassed later on at Wichita, Kan., by Cresceus, who went in 1:59¾ without a wind shield, Lou Dillon and Major Delmar, the only three trotters to go a mile better than two minutes. Major Delmar's final performance was a mile in 1:59¾. So many were the surprises that horsemen hardly had time to appreciate the wonderful performances. The first two-minute class trot was decided when Lou Dillon disposed of Major Delmar, in two straight heats, at Memphis, for the world's wagon championship. The introduction of the wind shield added another interesting phase to the season, and for a time helped to complicate the record claims. The advantage of the wind shield, which cannot be denied, caused performances made with its aid to be placed in a freak class. It would not be considered fair or just to compare

records made with the wind shield with those made without its advantage. Fortunately the world's trotting and pacing records were not made with the aid of the wind shield. The amateur brigade of the light harness sport was stronger in evidence than ever before, and it would not be amiss to state that it was the amateurs that held the stage many times during the season and added their share of the world's records to the history of 1903.

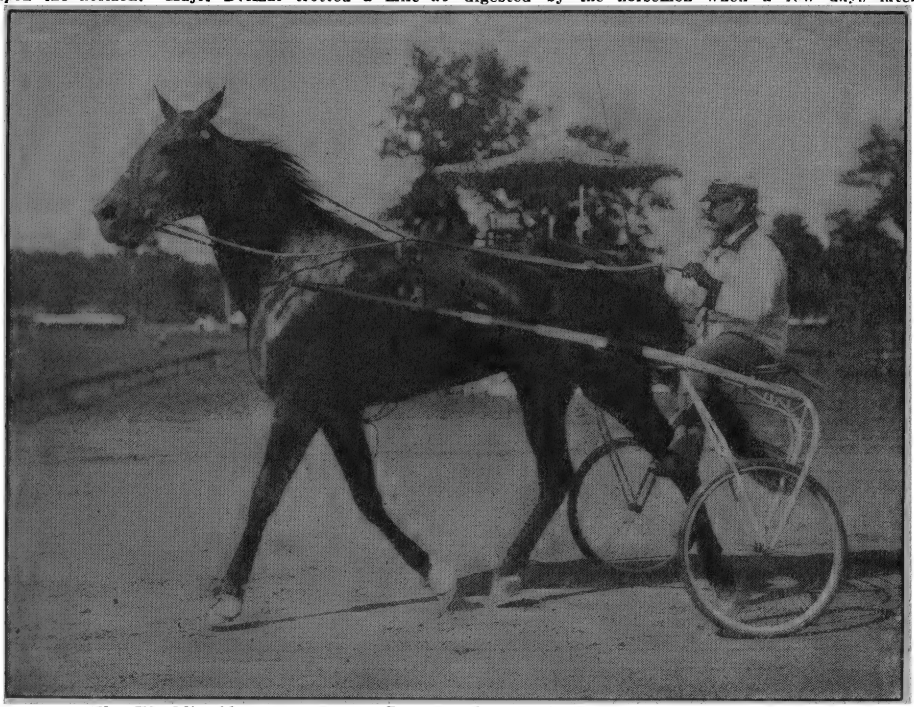
With the wonderful time trials of the champions the ordinary class races were made somewhat obscure, but the number of horses and the calibre of the racing were as good as were witnessed in any previous year on the Grand Circuit. Had not so many champions appeared the season would still remain remarkable for the development of so many fast horses. Race records fell like the Autumn leaves, and the aspirants of all ages were the equal of those which hold records.

Practically unknown at the opening of the season, Lou Dillon come to the front and shattered records with such simplicity and ease that she was at once set down as a champion, although few would admit that the mare had a chance to perform the wonderful feats which she accomplished later on at Memphis. The rapid rise to fame of the handsome

Lou Dillon. Copyright, 1903, by Ted Hansen.

five-year-old chestnut is interesting as well as sensational. No champion's rise has been so spectacular or successful. Bred in California by Henry and Ira Pierce, she was held over for 1903 stakes, but the death of Henry Pierce caused her sale in April with the rest of the estate of the brothers. Lou Dillon was sold at auction at Cleveland, and was bought by C. K. G. Billings for $12,500. A representative of E. E. Smathers was a contending bidder, but quit at about $12,000. Mr. Billings was advised not to bid more than $10,000 for the mare, but his good judgment forced him to pay no heed. Lou Dillon's best mile before she was sold was about 2:08, but just prior to her sale Mr. Billings saw the mare step a half mile close to the minute mark, and it was this performance that impressed him more than anything else. It was argued that she was erratic, and would be a failure as a race horse, yet the fact remains that she never showed any of these faulty traits in any of her trials, and what is more, she has never made a mistake. Her sale included $85,000 in stake engagements throughout the Grand Circuit, and her withdrawal from these rich events probably saved some of the most important races from being walkovers. Mr. Billings, who maintains his large stable of light harness horses for pleasure and never races his horses for money, confined Lou Dillon's work to time trials and matinee races throughout the season.

When Lou Dillon started her record attack, Cresceus, 2:02¼, was the proud possessor of the world's record, which was made in 1901. Cresceus had failed to come near his record in two years, and the mark was not considered in danger until Lou Dillon's marvellous speed became apparent. Lou Dillon made her debut—her first public appearance—at the Glenville Race Track, Cleveland, Ohio, on June 16, and driven by her owner, Mr. Billings, trotted a mile to wagon in 2:06¼, the fastest mile ever trotted by a mare to wagon; the fastest mile by a green trotter. On June 29, over the same track and with Mr. Billings driving, Lou Dillon reduced this record to 2:04¾, a new world's record for wagon, either amateur or professional. Her next performance was at Glenville on July 4, when driven by Millard Sanders, her professional trainer and driver, to sulky, she trotted in 2:04¼. On July 11, driven by Sanders, and again over the Glenville track, Lou Dillon trotted a mile in 2:03½, beating the world's record for mares of 2:03¾, made by the trotting queen, Alix, in 1894, when a six-year-old. With the mare record to her credit Lou Dillon was sent after the record of 2:02¼, held by Cresceus, the only mark which stood between her and the championship. The first trial was made at Glenville on July 31, with Sanders driving. Although she trotted the mile in the fast time of 2:02¾, the fastest mile of her career up to the time, she fell a quarter of a second shy of the world's figures. On August 17 Lou Dillon was driven a mile over the Brighton Beach track by Sanders in 2:03¾ in an effort to beat Cresceus's record. The weather and track conditions were not favorable to fast time, and the mile was a losing one, although the fractional times up to the three quarters were the fastest ever negotiated. The performance, however, keyed the little queen up for a final effort, and on August 24, at Readville, Mass., she started out to beat 2:02¼, with Sanders driving, to sulky. She not only succeeded, but covered the mile in 2:00, clipping three and a half seconds off her own record and two and a quarter seconds off the world's record. This performance marked the advent of the long-dreamed of two-minute trotter. Having won the world's trotting championship and nearly all of the important records Mr. Billings decided to send her after the high-wheel sulky record of 2:08¾, held by Maud S. Made in 1885, over the Glenville track, Maud S.'s record for eighteen years withstood the attempts of all champions to lower it.



The trial was considered a supreme test for Lou Dillon, and the champion proved that she was more than equal to the effort, by covering the mile in the wonderful time of 2:05, or 3¾ seconds faster than the previous record. A strange coincidence is that both records were made over the same track. A comparison of the two records shows that Lou Dillon had two runners to accompany her, one out in front and the other on the side. No wind shield was used, but a light dust screen was carried between the axle of the sulky in advance. The sulky drawn by Lou Dillon was an old vehicle, without ball bearings, and weighed ten pounds more than the one used by Maud S. Maud S.'s trial was made against time and a runner was used as a prompter on the outside.

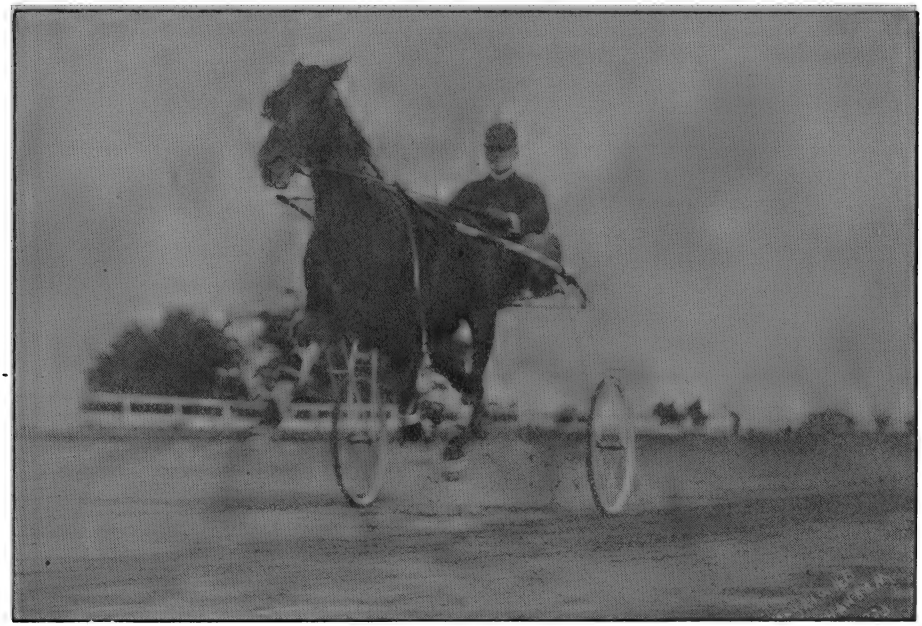
Lou Dillon continued her remarkable trials, and on September 2, driven by Mr. Billings, she reduced the wagon record to 2:04½ at Glenville.

Although Lou Dillon's performances were considered to have furnished enough trotting history for the season, horsemen had scarcely time to consider her feats when another two-minute trotter loomed upon the horizon. Major Delmar trotted a mile at Syracuse in 2:00¼, and the following week, at Readville, covered a mile in 2:00¾. In neither trial was a wind shield used. But on September 25, at the Empire City Track, New York, and aided by a wind shield, Major Delmar trotted a mile in 2:00. Major Delmar was paced by two runners to sulky, the runner out in front carrying the wind shield. On the previous day Major Delmar made his first attempt, finishing the mile in 2:05, after stepping the three-quarters in record time. Lou Dillon's time was equalled. The battle for the trotting championship was considered to be between the two great stars, and the pair were shipped to Lexington for their final efforts. Both Lou Dillon and Major Delmar, driven by their amateur drivers, tried for the wagon record on the same day. Mr. Smathers drove Major Delmar a mile in 2:03¾, a world's record, but less than half an hour afterwards this record was reduced by Lou Dillon to 2:01¾. While the eyes of horse followers were turned toward Memphis, the final meeting of the year, Cresceus, the mighty son of Robert McGregor, created a sensation by trotting a mile in 1:59¾, at Wichita, Kan., on October 19. No wind shield was used, and only one runner set the pace. The record came more as a surprise in view of the fact that Cresceus had not done a mile faster than 2:08 prior to his record performance. His performance was like a resurrection. He had regained the championship in a single bound, going the fastest mile of his career by two and a quarter seconds. It was a phenomenal mile under the circumstances, but the record did not phase Lou Dillon's admirers. Having lost the championship, it was up to her to go a trifle faster, and on October 24, or five days later, she amazed the horse world by negotiating a mile in the unprecedented time of 1:58½ seconds, thus regaining her lost laurels which only a few days before had been wrested from her by Cresceus. No wind shield was used in the trial, the usual two runners acting as pacemakers.

This wonderful speed marvel accomplished all that had been asked of her. Every additional start was a winning one and, despite the phenomenal time accomplished in her trials, at no period was Lou Dillon considered to have reached the limit of her speed. Her record mile had hardly been well digested by the horsemen when a few days later Major Delmar was sent against Lou Dillon's record, and, although he failed to establish a new record, he reduced his own record to 1:59¾, the world's trotting record for geldings, and going his first mile under two minutes without the aid of a wind shield. The records made to sulky were scarcely recorded when Dan Patch and Lou Dillon were sent against the wagon records over the Memphis track. It remained for the final week to corral additional world's records and bring the most sensational trotting season to a fitting climax. On October 27 Dan Patch was sent against the half-mile record to sulky and succeeded in pacing the distance in 56 seconds, a full second and a half faster than the best previous record. On the same day Trainer McHenry drove the champion against the world's wagon record of 1:59¼, made by Dan Patch at Lexington, and he paced the mile in the marvellous time of 1:57¼. Mr. Billings then decided to make a final attack on the wagon record for trotters, and on October 28 Lou Dillon pulled a wagon over the Memphis track, with Mr. Billings driving, in two minutes.

On the same day Mr. Billings drove his trotting

The World's Champion Pacer, Dan Patch, 1:56¼, Driven by M. E. McHenry.



Copyright, 1903, by Ted Hansen.

team, The Monk and Equity, to a new world's record of 2:08, which was four and a quarter seconds faster than the record stood at the opening of the season. The Monk and Equity had three record trials and each proved a record-breaker. The first one was at Glenville, when the record was reduced to 2:09¾. Then at Lexington a half second was clipped off, while another full second and a quarter was clipped off at Memphis.

The class trotters won new fame and additional records. Cresceus opened the Winter season by establishing a record of 2:17 for ice trotting. In August Cresceus trotted a mile over a half-mile track at Dayton, O., in 2:08¾, a new record, and in September he reduced the figures at Lincln, Neb., to 2:08¼; then at Omaha to 2:08. Scott Hudson's Dillon Boy made a new world's record by winning four consecutive races in two weeks. The fastest two-year-old race was won by Alta Axtworthy in 2:15¼ and 2:15½, after losing the first heat to Grace Bond in 2:14¾. The race was for the Horse Review Stakes and was decided at Cincinnati. Grace Bond was the fastest two-year-old shown during the season with a record of 2:14¾. The three-year-old honors went to Sadie Mac, the handsome daughter of Peter the Great, 2:11½, the winner of the Kentucky Futurity. Although John Mac was considered the best four-year-old out, Judge Green and Wainscott took the lowest marks with 2:10¼.

The pacing wonders furnished the same sensational features in their struggle for supremacy and, like in the trotting division, the championship was won and lost more than once. After many fast trials early in the season Dan Patch was sent after the world's record of 1:59¼, which was shared by himself and Star Pointer. The trial was made over the Brighton Beach Track, on August 19, and on a day when the conditions were not considered at all favorable. Driven by M. E. McHenry, Dan Patch paced a mile in 1:59, reducing the world's record by one-quarter of a second. It was in this trial that the idea of sending a runner out in front with a dust shield was carried out with great success, and it was thereafter used in all of the time trials made by the trotters and pacers. With the world's record to his credit Dan Patch stood the undisputed champion pacer. On September 23 Prince Alert, the eleven-year-old son of Crown Prince, startled the horse world by pacing a mile over the Empire City Track, New York, in 1:57. It was in this trial that the first wind shield was used, and it was admitted that the canvas arrangement aided Prince Alert a couple of seconds. He had reached a record which horsemen thought well nigh impossible. There was a dispute over the record claim between the respective owners of the pacers, owing to the wind shield, which resulted in Mart Demarest, the trainer and driver of Prince Alert, discarding the wind shield. In subsequent trials Dan Patch seemed to have lost his form, but after two weeks let up he rounded to rather unexpectedly at Lexington and established a new world's wagon record for pacers by pacing in 1:59¼. His next attempt was at Memphis, when he reduced the world's pacing record to 1:56¼, half-mile record and the wagon record. This gave Dan Patch the world's pacing championship again, and left no doubt as to who was entitled to the honors. Prince Alert, however, retired with the world's record for pacing geldings and the world's record for pacer over a half-mile track of 2:03½. The record was made over the Bethlehem, Pa., track and it reduced the time of 2:04 made by Dan Patch earlier in the year. Seldom have so many fast pacing mares developed extreme speed as was seen during the year.

On September 8 Dariel, the former queen of the New York Speedway, equalled the world's pacing race record of 2:04½, which was shared by Lady of the Manor, made in 1899, and Mazette, made in 1901. On September 22 Fanny Dillard wiped out the three champions by pacing a mile in 2:03¾. In a mile trial against time at Memphis, on October 24, Dariel paced in 2:00¼, a new world's record for mares. On September 5 Edith W. reduced the world's pacing record for one mile over a half-mile track to 2:07, at Anderson, Ind.

The Champion Trotting Gelding, Major Delmar, 1:59¾, Driven by A. P. McDonald.
Copyright, 1903, by Ted Hansen.

The fastest two-year-old pacer was Fata Morgana, 2:19¼, made in a time trial. Miss Daphne Direct, 2:11½, was the fastest three-year-old, while Hal Chaffin got the fast mark, 2:09, among the four-year-olds. Pan Michael was the fastest five-year-old, 2:07¾. The fastest new performer was Tom Keene, 2:04¼.

The first two-minute race fell to the lot of two of the foremost amateur reinsmen in the country, C. K. G. Billings, owner of Lou Dillon, and E. E. Smathers, owner of Major Delmar. The race was for the Memphis Gold Challenge Cup, offered by the Memphis Trotting Association, and was decided on October 20. Lou Dillon won the event in two straight heats in 2:04¼ and 2:04¾, the fastest and two fastest heats ever trotted in a race to wagon. Mr. Smathers won the first leg on the cup in 1902 with Lord Derby, by defeating The Monk, and the score now stands a tie between Messrs. Billings and Smathers. The race is considered the blue ribbon wagon race of the amateur associations, and only mem-

bers belonging to the League of Amateur Driving Clubs are eligible. Major Delmar was purchased by Mr. Smathers just prior to the Memphis Cup race for $40,000, the highest price ever paid for a trotting gelding. Major Delmar two years ago was sold for $2,900 at a public auction in Madison Square Garden, New York. The amateurs kept pace with the professionals in the attack upon the records. To Mr. Billings belongs the amateur championship of the year, winning nearly all of the important trophies offered for competition. Mr. Billings won the much-sought-after Cleveland Challenge Cup with The Monk, winning three out of five heats in an exciting race. The Cleveland Challenge Cup for pacers also went to Mr. Billings, while other wagon races at Lexington and Memphis added materially to his collection of amateur cups. The Cleveland Challenge Cup was offered to take the place of the Boston Challenge Cup, which was won by John A. McKerron for the Cleveland Driving Club. Amateur sport prospered throughout the country at the various amateur driving clubs, and in particular at New York, Cleveland, Boston and Philadelphia. The New York Driving Club's championships were of high class. The club's champion trotter Swift, owned by John F. Cockerill, took a record of 2:07¾ to wagon.

The biggest winning horse of the year was the trotting gelding Billy Buck, owned by E. E. Smathers and driven by Ed Geers. Billy Buck won upward of $35,000. He was one of the sensations of the year, winning many of the important stakes down the Grand Circuit. Billy Buck was bought by Ed Geers for $2,500, and during the Summer he sold him to E. E. Smathers for $15,000. A man in Alabama wrote to Geers to come and look the horse over, and the veteran was so impressed that he bought him at once.

Scott Hudson for the second time led among the drivers in big winning, having captured more than $40,000 in stakes and purses.

An important change in the race meetings throughout the Grand Circuit was the introduction of the shorter style racing. At most of the big meetings the two-in-three plan was tried, and proved very successful. Shorter and more snappy races were the result and the change met with the approval of many of the leading drivers and trainers.

The handsome brown trotting mare Fereno, the only trotter to win the two and three-year-old divisions of the Kentucky Futurity, trotted the fastest heat in a race during 1903, 2:05¼.

WINNERS OF THE THREE-YEAR-OLD KENTUCKY FUTURITY.

The three-year-old Kentucky Futurity was inaugurated in 1893. It has been won five times by a filly, twice by a gelding and three times by a colt. The following is a history of the great event:

Year.	Value.	Winner and Driver.	Time.
1893	$11,850	Ora Wilkes, J. A. Goldsmith	2:14½
1894	26,430	Beuzetta, Gus Macey	2:14½
1895	20,000	Oakland Baron, W. W. Milam	2:16¼
1896	16,250	Rose Croix, M. E. McHenry	2:14
1897	$15,000	Thorn, O. A. Hickok	2:13¼
1898	16,000	Peter the Great, P. Johnson	2:12½
1899	16,000	Boralma, Gus Macey	2:11½
1900	16,000	Fereno, Ed Benyon	2:10¾
1901	16,000	Peter Sterling, J. B. Chandler	2:11½
1902	16,000	Neila Jay, Fred McKay	2:14½
1903	20,000	Sadie Mac, A. McDonald	2:12¾

The second horses have been as follows, except in 1898, when second money was divided between Limerick, Charley Herr and Seraphina; 1893, Medio; 1894, Futurity; 1895, Katrina Bell; 1896, Fred S. Moody; 1897, Preston; 1899, Extasy; 1900, Susie J.; 1901, Walnut Hall; 1902, Gail Hamilton; 1903, Barongall.

Fereno is the only winner that also captured the two-year-old division of the great race and she also holds the best record in this classic event.

Gus Macey is the only driver who ever piloted to victory two winners of the three-year-old Kentucky Futurity.

WINNERS OF THE CHAMBER OF COMMERCE STAKES, FOR PACERS.

The first race on the programme will be the great pacing classic, the Chamber of Commerce $5,000 Stake, for 2:25 pacers. This will be its seventh renewal, as will be seen by the following tabulated history of the stake:

Year.	Winner.	Driver.	Best Heat.
1896	Planet	George Starr	2:12
1897	Milton S	D. Raybould	2:08¾
1898	Spilt Milk	D. Wilson	2:08¾
1899	Shade On	H. Sanders	2:09
1900	Bonnie Direct	M. E. McHenry	2:10½
1901	Star Pugh	Ed Lockwood	2:09½
1902	Direct Hal	Ed Geers	2:08¾
1903	Elastic Pointer	Hussey	2:07¾

WINNERS OF THE CLASSIC M. & M., FOR TROTTERS.

Greatest interest will, however, centre in the M. & M. $10,000, for 2:24 trotters. This stake was established in 1889 and won as follows:

Year.	Winner.	Driver.	Best Heat.
1889	Hendryx	H. A. Hills	2:18¾
1890	Walter E	Bob Stewart	2:18¼
1891	Temple Bar	George Spear	2:17¼
1892	Nightingale	M. Picket	2:17½
1893	Siva	John Goldsmith	2:13¾
1894	J. M. D	Frank Barnes	2:15¼
1895	The Corporal	J. C. Chandler and Ed Geers	2:13½
1896	Emma Offut	Joe Rea	2:12½
1897	Rilma	W. O. Foote	2:11½
1898	Directum Kelly	John Kelly	2:11¼
1899	Royal Baron	George Spear	2:10½
1900	Lady Geraldine	Ed Geers	2:14¾
1901	Eleata	Tom Marsh	2:08¾
1902	Rythmic	Scott Hudson	2:11¼
1903	John Taylor	D. Wilson	2:10¼

THE WORLD'S RECORDS.

TROTTING.

One-half mile—Major Delmar, b. g., Oct. 23, 1902, Memphis	1:01
One mile—Lou Dillon, ch. m., 5, Oct. 24, 1903, Memphis	1:58½
One and one-quarter miles—Lily Young (1902)	2:44
Fastest mile, high wheel sulky—Lou Dillon, ch. m., 5, Sept. 12, 1903, Cleveland, O	2:05
One and one-eighth miles—Major Delmar, b. g., Oct. 23, 1902, Memphis	2:22½
Two miles—Cresceus, ch. h., 8 (1902); Memphis	4:17
Three miles—Nightingale, ch. m., 8 (1893); first mile, 2:22; second mile, 2:19; third mile, 2:14½	6:55½
Four miles—Senator L., ch. h., 5 (1893)	10:12
Five miles—Bishop Hero, b. g., 10 (1893)	12:30¾
Five miles—Zambra (1902)	12:24
Six miles—Longtime, b. g., untraced (1893)	16:00
Ten miles—Pascal, blk. g. (1893)	26:15
Eighteen miles—Bill, ch. g., untraced (1885)	58:10
Twenty miles—Capt. McGowan, rn. h., untraced (1865)	58:25
Thirty miles—Gen Taylor, gr. h., 10 (1857)	1:47:59
Fifty miles—Ariel, br. m., untraced (1846)	3:55:40½
One hundred miles—Conqueror, b. g., 11 (1853)	8:55:33
Fastest stallion—Cresceus, ch. h., 8, Oct. 19, 1903, Wichita, Kan	1:59¾
Fastest gelding—Major Delmar, b. g., 6, Oct. 27, 1903, Memphis	1:59¾
Fastest mare—Lou Dillon, ch., 5, Oct. 24, 1903, Memphis	1:58½
Fastest yearling, colt—Adbell, b. (1894)	2:23
Fastest yearling, filly—Pansy McGregor, b. (1893)	2:23¾
Fastest two-year-old, colt—Arion, b. (1891)	2:10¾
Fastest two-year-old, filly—Janie T., b. (1897)	2:14
Fastest two-year-old filly—Katherine A. (1902)	2:14
Fastest two-year-old, gelding—Endow, b. (1899)	2:14
Fastest three-year-old, filly—Fantasy, b. (1893)	2:08¾
Fastest three-year-old, colt—Arion, b. (1892)	2:10½
Fastest three-year-old, gelding—Peter Stirling, ch. (1901)	2:11½
Fastest four-year-old, colts—Directum, blk. (1893); John A. McKerron (1902)	2:05¼
Fastest four-year-old, filly—Fantasy, b. (1894)	2:06
Fastest four-year-old, geldings—John Nolan, b. (1898); Boralma, ch. (1900)	2:08
Fastest five-year-old, stallions—Ralph Wilkes, ch. (1894); Bingen, br. (1898)	2:06¾
Fastest five-year-old, mare—Susie J	2:06½
Fastest record for five-year-old trotters—Major Delmar (1902)	2:05½
Fastest five-year-old, geldings—Lord Derby, b. (1900); Boralma, ch. (1901)	2:07
Fastest green performer—Lord Derby, b. g. (1900)	2:07
Fastest green mares—Fantasy, b. f., 3 (1893); Eleata, blk. f., 4 (1901)	2:08¾
Fastest green stallion—Rhythmic	2:08
Fastest heat—Cresceus, ch. h., 7 (1901)	2:03¼
Fastest heat, mare—Alix, b., 6 (1894)	2:05¼
Fastest race heat by gelding—Major Delmar (1902)	2:05¼
Fastest heat, geldings—Azote, b., 8 (1895); Major Delmar (1902)	2:05¼
Fastest heat, yearling—Pansy McGregor, b. f. ('93)	2:05¼
Fastest heat, two-year-old—Jupe, b. c. (1896)	2:13¾
Fastest heat, three-year-old—Fantasy, b. f. (1893)	2:08¾
Fastest heat, four-year-old—Directum, blk. c. ('93)	2:05¼
Fastest heat, five-year-old—Susie J	2:06½
Fastest first heat—Cresceus, ch. h., 7 (1901)	2:03¼
Fastest second heat—Cresceus, ch. h., 7 (1901)	2:05
Fastest third heat—Alix, b. m., 7 (1894); Directum, blk. c., 4 (1893)	2:06¼

THE WORLD'S RECORDS.—Continued.

TROTTING—IN RACES.

Fastest fourth heat—Beuzetta, ch. f. 4 (1895)... 2:06¾
Fastest fifth heat—John Nolan, b. g., 4 (1898).. 2:08
Fastest sixth heat—Countess Eve, b. m., 6 (1897) 2:09¼
Fastest seventh heat—Pat L., b. c., 4 (1896)... 2:10¾
Fastest eighth heat—Cresceus, ch. c., 3 (1897).. 2:11¼
Fastest ninth heat—Alix, b. m., 6 (1893)..... 2:09¾
Fastest dead heat—Nightingale, ch. m., 9, and Phoebe Wilkes, br. m., 9 (1894); Charley Herr, b. h., 5, and Gayton, b. h., 8 (1900).. 2:12
Fastest two-heat race—Cresceus, ch. h., 7 (1901). 2:03¼, 2:06¼
Fastest two consecutive heats by two-year-old filly—Katherine A. (1902).....2:14. 2:15½
Fastest three-heat race—Alix, b. m., 6 (1894)... .....2:06, 2:06¼, 2:05¼
Fastest three-heat race, by a gelding—Azote, b., 8 (1895).....2:09½, 2:05¾, 2:07
Lord Derby, b., 5 (1900).....2:07, 2:07, 2:08
Fastest three-heat race, by a stallion—Cresceus, ch., 6 (1900).....2:07½, 2:06, 2:06
Fastest four-heat race—Fantasy, b. m., 6 (1896); (Kentucky Union won third heat)..... .....2:09, 2:08¼, 2:07¾, 2:08
Fastest five-heat race—Cresceus, ch. h., 6 (1900); (Charley Herr won first and second heats)... .....2:07¼, 2:07¼, 2:07¼, 2:07½, 2:08⅝
Fastest six-heat race—Ozonam, br. m. (1902); (Major Delmar won first, Prince of Orange second and third)..... .....2:09½, 2:09¾, 2:07½, 2:08, 2:09, 2:09¾
Fastest seven-heat race—Monte Carlo, b. g., Oct. 14, 1903, Lexington (Hawthorne won third and fourth. Dr. Strong won fifth and sixth)..... ....2:07¼, 2:07¼, 2:06¼, 2:08¼, 2:09½, 2:13
Fastest eight-heat race—Bouncer, b. f., 4 (1895); (Geneva won first, Altao second and third, and Bertie R. fifth and sixth heats)..... 2:11¼, 2:11, 2:12, 2:12, 2:13, 2:13½, 2:13¾, 2:14¼
Fastest eight-heat race—Cresceus, ch. c., 3 (1897); (Eagle Flanagan won first and third, The Monk fourth and fifth, and Shadeland Norward second heat).....2:15¼, 2:13¼, ...2:12¼, 2:12¼, 2:14¼, 2:12¼, 2:11¼, 2:11¼
Fastest eight-heat race—Nutbearer (1902) (Alice Carr won first heat, Rythmic second heat, Wentworth third heat, Dulce Cor, fourth and sixth heats)..... 2:09¾, 2:08¾, 2:09¼, 2:08½, 2:10¾, 2:12¾, ... 2:11¾, 2:12
Fastest nine-heat race—Alix, b. m., 5 (1893); (Pixley won sixth and eighth, Nightingale seventh, Lord Clinton fifth, and Hulda second and third heats)..... 2:07¾, 2:10¼, 2:10½, 2:11¾, 2:11½ 2:09¾, 2:12¾, 2:15¼, 2:09¾

TROTTING TO WAGON.

One mile—Lou Dillon, ch. m., 5, Oct. 28, 1903, Memphis (amateur driver)..... 2:00
One mile by a stallion—John A. McKerron, b., 6, Sept. 7, 1903, Syracuse..... 2:01½
Fastest two heats—Lou Dillon, ch. m., 5, Oct. 20, 1903, Memphis.....2:04¾, 2:04¾
Fastest three heats—Lord Derby (first heat won by The Monk).....2:06½, 2:06, 2:06
One mile in a race—Lou Dillon, ch. m., 5, Oct. 20, 1903, Memphis..... 2:04¾
Fastest mile by mare in a race—Lou Dillon, ch. m., 5, Oct. 20, 1903, Memphis..... 2:04¾
One and one-eighth miles—The Monk (New York, 1902) 2:25½
Two miles—Dexter, br. g., 7 (1865)..... 4:56¼
Three miles—Prince, ch. g. (1857)..... 7:53½
Five miles—Fillmore, ch. g. (1863)..... 13:16
Ten miles—Julia Aldrich, ch. m. (1858)..... 29:04½
Twenty miles—Controller, b. g. (1878)..... 58:57
Fastest two heats—John A. McKerron, b. h., 5 (1900) 2:10, 2:11
Fastest three heats—Hopeful, gr. g., 12 (1878).. .....2:16½, 2:17, 2:17
Fastest four heats, wagon—Lord Derby, b. g. (1902) (Anzella won first heat)..... .....2:06¾, 2:06¾, 2:08¾, 2:09

TROTTING—UNDER SADDLE.

One mile—Great Eastern, b. g., 8 (1877)..... 2:15¾
Two miles—Geo. M. Patchen, b. h., 14 (1863).. 4:56
Three miles—Dutchman, b. g., 11 (1839)..... 7:32½
Four miles—Dutchman, b. g., 8 (1836).....10:51

TROTTING—WITH RUNNING MATE.

One mile (against time)—Ayres P., ch. g., 6 (1893) 2:03½
One mile (in a race)—Frank, b. g., 7 (1883).... 2:08½

TROTTING—TEAMS.

One mile—The Monk, b. g., and Equity, blk. g., Oct. 28, 1903, Memphis..... 2:08
One mile (in a race)—Roseleaf, blk. f., 4, and Sallie Simmons, b. f., 4 (1894)..... 2:15¼

TEAMS—TANDEM.

One mile—Mambrino Sparkle, ch. m., 8, and William H., b. g., 11 (1886)..... 2:32

TEAMS—THREE ABREAST.

One mile—Belle Hamlin, br. m., 12; Globe, br. g., 10, and Justina, b. m., 12 (1891)..... 2:14

TEAMS—FOUR-IN-HAND.

One mile—Damiana, ch. m., 9; Bellnut, ch. g., 8; Maud V., ch. m., 9, and Nutspra, ch. f., 4..... 2:30

TROTTING—HALF-MILE TRACK.

One mile—Cresceus, ch. h., 9 (1903), Lincoln, Neb. 2:08¼
One mile, by a mare—Bush, blk., 11 (1897).... 2:11¼
One mile, by a gelding—Dandy Jim, gr., 12 (1897) 2:10¼
One mile, in a race—Dandy Jim, gr. g., 12 (1897) 2:10¼
One mile—York Boy Bemay (Brooklyn, Oct. 25, 1892) 2:12½
Three heats, in a race—Pat L., b. c., 4 (1896).. .....2:12¾, 2:10½, 2:11¾
One mile (to wagon)—Cresceus, ch. h., 7 (1901). 2:12
One mile, by a team—Lynn Bourbon, br. m., 6, and Bertie Girl, b. m., 8 (1897)..... 2:16¾

PACING.

Fastest half-mile—Dan Patch, br. h., Oct. 27, 1903, Memphis..... 0:56
One mile—Dan Patch, br. h., Oct. 22, 1903, Memphis 1:56¼
One and one-eighth miles—Carl Wilkes (1902).... 2:20
One and one-half miles—Laconda, Aug. 19, 1903, Brighton Beach 3:15½
Two miles—Chehalis, blk. h., 7 (1897); (first mile 2:09, second mile 2:10¼)..... 4:19¼
Three miles—Joe Jefferson, b. h., 12 (1891)..... 7:33¼
Four miles—Joe Jefferson, b. h., 12 (1891)..... 10:10
Five miles—Lady St. Clair, b. m., 12 (1874).... 12:54¾
Fastest stallion—Dan Patch, br. h., Oct. 22, 1903, Memphis 1:56¼
*Fastest gelding—Prince Alert, b. g., Sept. 23, 1903, New York..... 1:57
Fastest mare—Darill, b. m., Oct. 24, 1903, Memphis 2:00¼
Fastest yearling, filly—Belle Acton, b. (1892)... 2:20¾
Fastest yearling, colt—Rosedale, b. (1893)..... 2:22
Fastest yearling, gelding—Rollo, gr. (1891)..... 2:28½
Fastest two-year-old, colt—Directly, blk. (1894).. 2:07¾
Fastest two-year-old, filly—Extasy, b. (1898).... 2:10½
Fastest three-year-old, colt—Klatawah, b. (1898) 2:05¼
Fastest three-year-old, filly—Little Squaw, blk. (1899) 2:09½
Fastest three-year-old, geldings — Agitato, b. (1896); King of Diamonds, b. (1896)..... 2:09¼
Fastest four-year-old, colt—Online, b. (1894).... 2:04
Fastest four-year-old, filly—The Maid, b. (1899). 2:05¾
Fastest four-year-old, gelding—W Wood, b. (1892) 2:07
Fastest five-year-old, gelding—Coney, bl. (1900).. 2:02¾
Fastest five-year-old, stallion — Searchlight, br. (1899) 2:03¼
Fastest five-year-old, mare—Lady of the Manor, ch. (1899)..... 2:04¼
Fastest green performer—Direct Hal..... 2:04½
Fastest green performer—Tom Keene, ch. g., (1903) 2:04¼
Fastest green gelding—Flying Jib, b., 8 (1892).. 2:05¾
Fastest green mare—Miss Logan, b. (1898)..... 2:07½

*Paced by wind shield.

THE WORLD'S RECORDS.—Continued.

PACING IN RACES.

Fastest one-half mile—Prince Alert, b. g. (Memphis, Oct. 2, 1902) ..... :57¾
Fastest heat, stallion—Star Pointer, b., 8 (1897) 2:00½
Fastest heat, gelding—Prince Alert, b., 8 (1901) 2:00¾
Fastest heat, mare—Fanny Dillard, Sept. 22, 1903, Columbus, O. 2:03¾
Fastest heat, yearling—Belle Acton, b. f. (1892) 2:30¼
Fastest heat, two-year-old—Extasy, b, f, (1898). 2:10½
Fastest heat, three-year-old—Klatawah, b. c. (1898) 2:05½
Fastest heat, four-year-old—Searchlight, br. c. (1898) 2:04½
Fastest heat, five-year-old—Coney, blk. g. (1900). 2:03¾
Fastest six-year-old pacer—Dan Patch (1902).... 1:59¼
Fastest first heats—Star Pointer, b. h. (1897); Coney, blk g., 6 (1901) 2:02
Fastest second heat—Prince Alert, b. g., 9 (1901) 2:00¾
Fastest third heat—Star Pointer, b. h., 8 (1897) 2:00½
Fastest fourth heat—Robert J., b. g., 8 (1896).. 2:02¾
Fastest fifth heat—The Maid, b. f., 4 (1899).... 2:05¾
Fastest sixth heat—Planet, b. h., 6 (1897)..... 2:06¼
Fastest seventh heat—Sherman Clay, ch. g., 6 (1897) 2:08¼
Fastest dead heat—Robert J., b. g., 8, and John R. Gentry, b. h., 7 (1896) 2:04
Fastest two-heat race—Prince Alert, b. g., 9 (1901) 2:00¾
Fastest three-heat race—Star Pointer, b. h. (1896) 2:02¼, 2:03½, 2:03¾
Fastest three-heat race, by a gelding—Robert J., b. 6 (1894) 2:03¾, 2:02½, 2:04¾
Fastest three-heat race, by a mare—Edith W., b., 8 (1901) 2:05¼, 2:05¼, 2:05½
Fastest four-heat race—Robert J., b. g., 8 (1896); (Frank Agan won first heat) 2:03¾, 2:04½, 2:04½, 2:02¾
Fastest five-heat race—Frank Agan, b. g., 6 (1896); (Robert J won first and second heats) 2:03¼, 2:05, 2:05½, 2:05¾, 2:06
Fastest six-heat race—Planet, b, h., 6 (1897); (Aileen won first, and Frank Bogash second and third heats) 2:07¼, 2:03¾, 2:04¼, 2:05¼, 2:07¾, 2:06¼
Anaconda, b. g, 6 (1898); (Bumps won first and second, Directly third heat) 2:04¼, 2:04¾, 2:05¾, 2:05½, 2:07, 2:08¾
Fastest six heats—Dan R. (1902) (Fred S. Wedgewood won first and third heats, Capt. Sphinx won second) 2:06¼, 2:05¼, 2:06¼, 2:06¼, 2:06¾, 2:06¾
Fastest seven-heat race—The Maid, b. f., 4 (1899); (William Mc. won first, Eyelet second, Ace third and fourth heats) 2:07¼, 2:07¼, 2:05¼, 2:09, 2:05¾, 2:07¾, 2:08¾
Fastest eight-heat race—Direction, blk. h., 8 (1895); (Coleridge won first and second, Paul third, and Ben D. fourth and fifth heats).... 2:05¼, 2:06¾, 2:07¼, 2:07½, 2:07½, 2:08¾, 2:10, 2:11½
Fastest nine-heat race—Dombey, Jr., br. h. (1899); (Belle Colley won first and sixth, Marion G. second and fifth, Maxine fourth and seventh heats) 2:09¼, 2:10, 2:11¾, 2:11½, 2:13¼, 2:15, 2:12¾, 2:15½, 2:22¾
Fastest ten-heat race—Kitty R., b. f., 4 (1898); (Miss Maymo won first, The Bishop second and third, Tom Webster fourth, Harry C. seventh and ninth, Ding eighth heats)..... 2:11½, 2:12, 2:13½, 2:1a¼, 2:10¾, 2:13¾, 2:14¾, 2:16¼, 2:17¾, 2:20

PACING TO WAGON.

One mile—Dan Patch, br. h., Oct. 27, 1903, Memphis 1:57¼
One mile by stallion—Dan Patch, br. h., Oct. 27, 1903, Memphis 1:57¼
One mile, by a mare, in a race—Edith W., b. m. (Memphis, Oct. 22, 1902) 2:05¾
One mile (in a race)—Coney, blk, g., 5 (1900).. 2:05¼
Fastest heat in a race—Dan R., Oct. 9, 1903, Lexington 2:04¼
One mile, in a race, by a mare — Little Squaw, blk., 5 ..... 2:06½
One mile, in a race, by a stallion—Dr. Monical (1902) 2:07
One mile (amateur driver)—Little Boy, b. g., 8 (1901) 2:01½
Three miles—Longfellow, ch. g. (1868) 7:53
Five miles—Lady St. Clair., b. m., 12 (1874).... 12:54¾
Fastest half-mile heats, wagon—Invader (1902).. ..... 1:04¾, 1:03¼
Fastest two heats—Coney, blk. g. (1900)..2:05¼, 2:05¾
For mare—Edith W., b. m. (Memphis, Oct. 22, 1902) 2:05¾, 2:05¾
Fastest three heats, wagon, by pacing mare—Edith W. (Fred S. Wedgewood won the first heat), ... 2:07½, 2:07, 2:07¼
Fastest three heats to wagon by gelding—Greenline (1902) (Fred S. Wedgewood won the first heat) 2:09¾, 2:07¾, 2:08

PACING—UNDER SADDLE.

One mile—Johnston, b, g., 11 (1888)..... 2:13
One mile, in a race—Billy Boyce—b. g., 7 (1868) 2:14¼
Two miles—Bowery Boy, br. g. (1839)..... 5:04½
Three miles—Oneida Chief, ch. g. (1843)..... 7:44

PACING—WITH RUNNING MATE.

One mile—Flying Jib, b. g., 9 (1894)..... 1:58¼

PACING TEAMS.

One mile—Direct Hal and Prince Direct (Memphis, Oct. 29, 1902) 2:05½
One mile (in a race)—Charley B., blk. g., and Bobby Hal, b, g., 8 (1900) 2:13

PACING—HALF-MILE TRACK.

One mile by a stallion—Joe Patchen, blk. h., 7 (1896) 2:04¼
One mile, by a gelding—Prince Alert, b. g., 11, Sept. 11, 1903, Bethlehem, Pa..... 2:03½
One mile, by mares—Edith W., b. m., 10, Sept. 5, 1903, Anderson, Ind..... 2:07
One mile, in races—John R. Gentry, b. h., 11 (1900); Prince Alert, b. g., 9 (1901)..... 2:04¾
Two heats (in a race)—John R. Gentry, b h., 11 (1900) 2:04¾, 2:06½
Three heats (in a race)—Prince Alert, b. g., 7 (1899) 2:07, 2:06¾, 2:06¾
One mile (by a team—Charley B., blk. g., and Bobby Hal, b. g., 8 (1900) 2:13
One mile (to wagon)—Joe Patchen, blk. h., 7 (1896) 2:11
Fastest six-heat race — Chestnut (Covington, Ind., 1902; William Mc. won the first; second heat dead heat; Harry O. won the third, and Chestnut the last three heats)..... 2:09¼, 2:09, 2:08¾, 2:10½, 2:10, 2:10

HOW THE TROTTING RECORD HAS BEEN REDUCED.

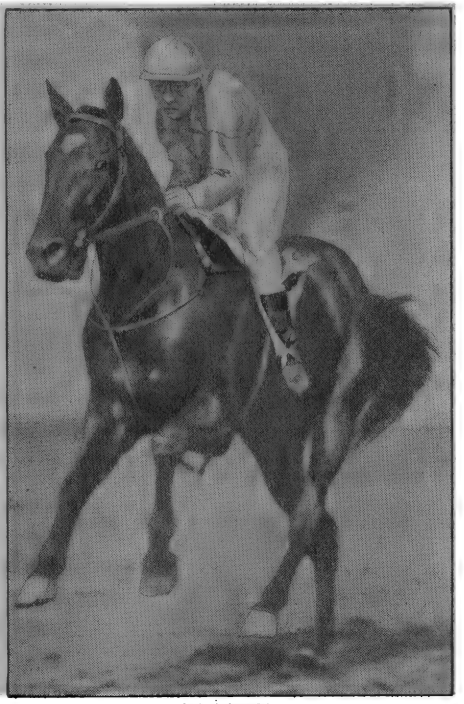
THE AMERICAN TURF.

FRANK J. BRYAN, Associate Steward Crescent City Jockey Club.



The doings of the thoroughbred world for the season of 1903 will make an exceedingly bright page for turf history. This applies to every department of the sport and in every section of the country where racing flourishes or the material with which it is carried on is produced.

Great events have been won by great horses well worthy of a place on the list with the equine stars of other years. The array of owners has been embellished by many men of prominence who have entered the field for sentiment's sake alone. New tracks have been built and old ones improved. Awards in the way of stakes and purses have been increased. Defamers of the turf have fought in vain for its deterioration. New riders of promise have been introduced and old favorites have made good. In fact, a summary of this sort means simply applause for the sport, its protectors and the public, who keep it alive.

As to the "best" of the year's performers, this is in any case a matter of opinion and one that will bring differences in preference of a very marked degree. The hero of one may be the disappointment of another. "What might have been" will be heralded forth with a vim hard to pass unnoticed, which forces one to base claims on the one safe line—public form.

Fuller.

Dick Wells.

Among the two-year-olds there are at least a dozen in the East well entitled to consideration, but when their running has been sifted and reviews ended Highball stands out with a very strong claim for the title of champion. During the Spring meetings he was talked of as a colt of promise, but went amiss, and it was during the Fall sessions that he loomed up with the qualities that go to make a star. He not alone proved his ability to carry weight, but displayed a fondness for a route that added materially to the merit of a colt of his age.

Of the two-year-old fillies Hamburg Belle must be rated highest. Her victory in the Futurity, in which, incidentally, she beat Highball, was an exceedingly creditable performance; still, her pull in the weights and other factors in the struggle go to make even here the colt the better of the two. She is, beyond all question, a miss out of the ordinary. Highball seems to hold her safe when it comes to weighing the prowess of the pair.

Of the Western two-year-olds Auditor was probably best; but this does not by any means make him a top-notcher. At least a dozen of the Easterners must be rated higher; in fact, a careful review of his races stamps him as but little more than a selling-plater. He was best simply because it was a season when the two-year-olds of the West were away below the average.

With the three-year-olds there are just two to consider—Africander and Irish Lad—and it will not require much reviewing to bring a decision in favor of the former, for Irish Lad's greatness was displayed early in the season and did not continue, as his rival's did.

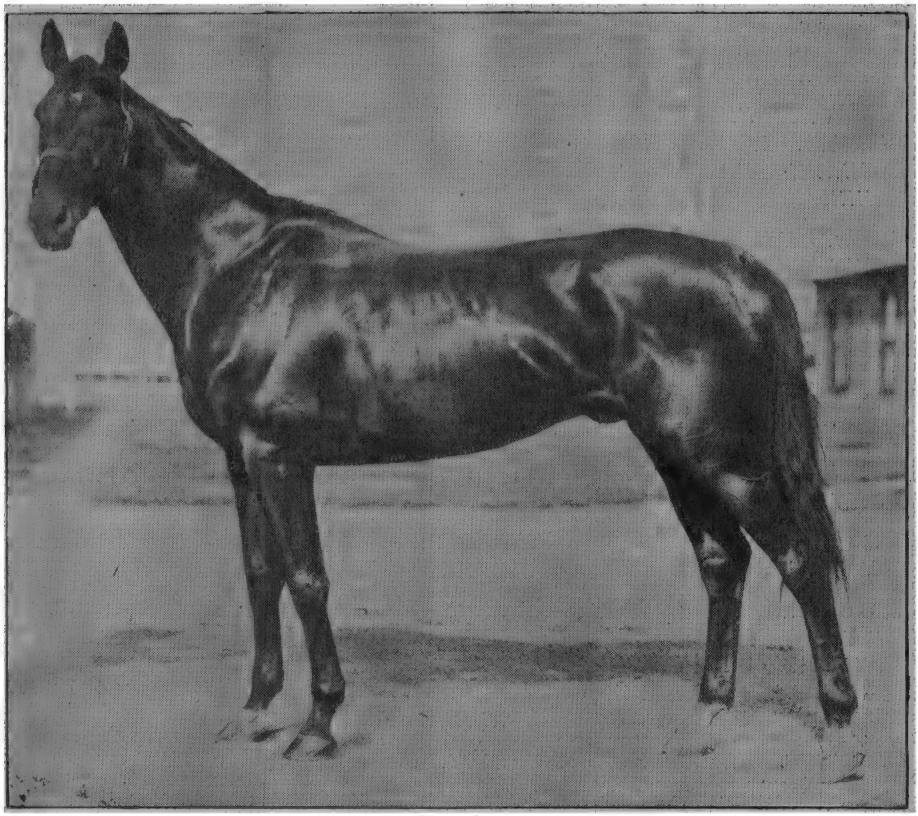
The Picket's victory in the American Derby brought some shouters for his standard, but later developments were anything but flattering. He cannot be rated as better than fair.

As for Dick Wells, it can be said with absolute safety that he is one of the speediest horses ever shown in this or any other country. Some were inclined to rate him as a sprinter only, but there is really nothing to warrant these doubts as to his ability to go a route. He won at all distances up to a mile and a sixteenth, and with each effort it was the same story—a lot to spare at the end; and his true worth will be known only when he is next year pitted against the pick of the stayers.

Waterboy and McChesney, despite the many efforts made to bring this pair together, did not meet, and there was no chance to get a comparative test of their respective merits. Each showed great form at times, but there is nothing more than opinion to weigh the real worth of the two. Chuctanunda, who it was believed would be a worthy foe for both, broke down after a couple of starts, and this added to the unsatisfactory status of the all-aged division.

With the riders the year's developments were fair. Several of promise were brought out, but this was all but offset by the retrogression of old favorites,

Odom alone standing out as a star. His work was gilt-edged throughout, while Redfern, Burns, Bullman, Cochran and the others classed as experts disappointed very frequently.



Among the newcomers into prominence Fuller, Higgins, O'Neil, Hicks and L. Wilson gave some flattering indications, but none proved consistent enough to justify any great praise in their direction. Fuller might, perhaps, be excepted. At his best he is a master, but unexpected and startling lapses at intervals marred his work.

The reopening of Kenilworth Park, at Buffalo, under the auspices of The Jockey Club, was one of many proofs of the confidence displayed in the future of racing. It is the first move toward establishing a circuit of small meetings which will provide a field of operations for the owners of the poorer grade of horses.

Work on Belmont Park, which is to be the most complete racing property in the world, is well under way, and it will be ready for use next Fall. The Metropolitan Jockey Club did their part with the new track at Jamaica.

The needs of those who go in for Winter racing have been further provided for by a new track at Hot Springs, and the opening at Los Angeles. This, with the increased disbursements at San Francisco and New Orleans, bespeaks an increased support from the public.

All considered, the turf to-day stands on a foundation firmer than ever. Its defamers have been forced to realize the genuine sentiment of those working in its behalf. Grave looking opposition has been met and set aside. Prosperity in every department is the record of the year, and everything indicates that it will continue.

Waterboy.

PRINCIPAL STAKE EVENTS OF 1903.

Event.	Distance.	Winner.	Second.	Third.	Track.
Adam Andrew	6½ fur.	Princess Titania	Glendenning	Arabo	Oakland.
Adirondack	6 fur.	Sweet Gretchen	Leonidas	Gold Saint	Saratoga.
Advance	1⅜ miles.	Africander	Irish Lad	Bonnibert	Sheepshead.
Alabama	1 1-16 miles.	Stamping Ground	Gravina	Astarita	Saratoga.
American Derby	1½ miles.	The Picket	Claude	Bernays	Wash. Park.
Annual Champion	2¼ miles.	Igniter	Duoro	Maj. Daingerfield	Sheepshead.
Arkansas Derby	1 mile.	Barca	Sigmund	Dr. Kammerer	Little Rock.
Astoria	5 fur.	Ocean Tide	Tepee	Julia M	Gravesend.
Auburn	1 1-16 miles.	Huzzah	Gold Bell	Sam Fullen	Wash. Park.
Autumn	6 fur.	Knight of Errant	Bobadil	Mercury	Sheepshead.
Bell Stakes	5 fur.	Rowena	Rapid Water	Celebrant	Oakland.
Belmont, The	1⅜ miles.	Africander	Whorler	Red Knight	Morris Park.
Bennings Handicap	6 fur.	Himself	Ahumada	Honolulu	Bennings.
Breeders	1⅛ miles.	Ayrshire Lad	Hawkins	War Medal	Toronto.
Brighton Cup	2⅛ miles.	Hermis	Maj. Daingerfield	Igniter	Brighton.

*Dead heat.

The English Derby is considered the most important stake event in the world, although the value, about $30,000, does not compare with many other stake races. It is run at Epsom Downs, 14 miles from London, and over a course of 1 mile, 4 furlongs and 29 yards.

SCALE OF WEIGHTS ADOPTED BY THE JOCKEY CLUB.

BASEBALL IN 1903.

SAM CRANE.

The baseball season of 1903 will go down in the history of the national game as the most prosperous and successful in the long career of the popular outdoor sport.

The attendance at the games of the National and American leagues, the premier organizations, was were not so swelled as to be worthless as a record, and they are given here to emphasize the remarkable popularity of the great American game.

That baseball follows the flag, too, and is worthy of transplanting in other countries is shown by the firm establishment it has taken in the Philippines,

The Pittsburgs, Champions of the National League.

unprecedented, while minor leagues throughout the country also met with remarkable success.

Nothing perhaps can show the wonderful hold the game has on the sport-loving American people than the following attendance figures, which are the aggregate of those given out each day by officials of the clubs of the American and National leagues:

American.		National.	
Detroit	217,707	Pittsburg	295,184
Cleveland	331,819	Cincinnati	346,697
Chicago	298,736	Chicago	391,005
St. Louis	324,800	St. Louis	233,054
Boston	364,056	Boston	154,353
New York	210,257	New York	598,406
Philadelphia	409,900	Philadelphia	155,395
Washington	126,083	Brooklyn	197,970
Total	2,283,358	Total	2,372,154

In those cities where there were two clubs, the rivalry between the opposing organizations possibly induced some slight exaggeration, but the figures

Cuba, Porto Rico, Sandwich Islands and everywhere it has been introduced by Uncle Sam's soldiers and sailors. In those far-off countries the natives have taken to the game as if to the manor born, and the baseball rooter, the festive home run and puzzling out-curve are nearly as well known to the dusky lovers of the game in Manila as to Manhattan "fans" on our own Polo Grounds.

That peace was declared between the National and American leagues, which were in the throes of a disastrous war during the seasons of 1901 and 1902, was primarily the cause of the surprising revival of interest in the sport. The great public had become tired of the politics of the game and welcomed the retirement of the warring "magnates" to the "wings" and the entrance of the players into the limelight. The verbal inshoots of the squabbling club owners gave place to the outshoots of the pitcher on the diamond, and success was immediate.

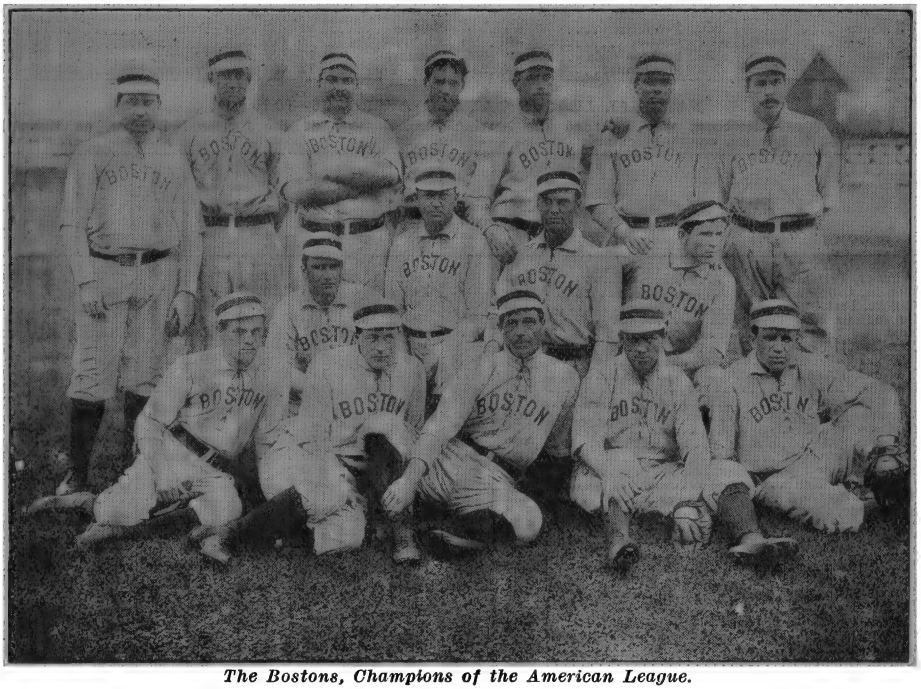
To Mr. Harry C. Pulliam, who replaced the veteran Nick Young as president of the National League, is due much of the credit for establishing the era of peace in baseball circles.

President Pulliam was most ably seconded by Mr. Garry Herrmann, one of the new owners of the Cincinnati club, the latter being the mediator, who brought President Ban Johnson, of the American League, into line. The peace pact was signed in Cincinnati in January and the many disputed players were assigned to various clubs as fairly and judiciously as the complicated circumstances would allow. There was considerable friction over the distribution of the players, the New York and Brooklyn clubs of the National League considering themselves especially hard hit, but they pocketed their grievances for the sake of harmony and the season passed over with very little friction.

President Pulliam scored an unqualified success in his first campaign as league executive, and thanks largely to his firm, impartial and unobtrusive rule the season will go down as a red letter one.

As an unquestioned authority on National League affairs, President Pulliam's following statement on the league is quoted:

"Five clubs of the National League made money this year (1903). New York led the entire league in receipts with a record far ahead of anything ever known in that city. The attendance figures were the largest ever made in baseball in the country, and with 50 cents the popular price of admission, the profit to the management was simply enormous. Pittsburg came second and made more money this season than in 1902, which was the banner year. Chicago stood third. Cincinnati had one of the most successful seasons in the history of the city and Brooklyn had a big margin on the right side of the ledger. Philadelphia was in a fair way to come out at the strong end until the accident on the grounds, in which a number of people were killed, and that gave National League baseball a black eye in that city for the time being. St. Louis had a team that finished last, so that the club there was not as successful as it might otherwise have been. In Boston the opposition club was the stronger and won out.



"The successful season makes it possible for the National League to almost clean up the debt it incurred when Baltimore, Washington, Louisville and Cleveland were dropped from the circuit in order to provide an eight-club league.

"It can thus with safety be said that the old National League is now in better shape financially than at any time in its history."

The American League met with fully as much success as the parent organization, and under the skilful administration of its president, Mr. Ban Johnson, went through the third year of its existence more firmly established than ever and with a steadily growing popularity.

From a business standpoint the American League season was very successful, despite the heavy burden carried by the clubs in the way of high salaried teams and generally augmented expenses. The attendance everywhere was good, and in several cities extraordinary. Boston and Philadelphia carried off the palm for big profits, while Cleveland and Chicago also did well. St. Louis did better on the road than at home and pulled out ahead. New York at the start was an apparent frost, but pulled up so grandly during the second half of the season, and especially at the wind-up, that the club probably quit a winner. Detroit and Washington were the losers.

In the matter of deportment of players the campaign of 1903 was the best since the Brotherhood year of 1890, the Fleischman resolution having much to do with the wonderful diminution of rowdyism and the firmness of both Presidents Pulliam and Johnson in enforcing the resolution and in supporting the umpires at all times.

The Bostons, Champions of the American League.

The season was productive of two surprises—one was the brilliant showing of the New York "Giants" and the other the total elimination from the race of Edward Hanlon, whose team for the first time since he won his first pennant for Baltimore in 1894 never was a contender for the flag. It was the first time, too, since 1894 that Hanlon failed to finish one, two. The Brooklyns suffered more than any other club in the distribution of players.

The winners of the two pennants of the National and American leagues, respectively the Pittsburgs and Bostons, were victorious by reason of consistent playing throughout the season and won their great honors strictly on their merits.

The National Association of Professional Baseball Leagues, which splendid organization represents all the most prominent minor leagues in the country, and of which Mr. Patrick T. Powers was president, had a most successful season, and through the efforts of its able leader has full representation with the National and American leagues in conducting the affairs of professional baseball. The season of 1904 promises to be fully as successful as that of 1903.

NATIONAL LEAGUE.

The National League race began April 15 and ended September 27, with Pittsburg the winner for the third consecutive year. The three-time champions trailed along behind New York and Chicago alternately for the first two months, but on June 19 they assumed the lead and were never again headed. The race between New York and Chicago for second place was a splendid battle, hot and fiercely fought out, the New Yorks not winning the place until September 26.

AMERICAN LEAGUE.

The third annual campaign of the American League began April 20 and ended September 29. The Bostons won the pennant after a hard fight. They started in with a rush and played consistently all through the season. By June 23 they had gained the lead and held it to the finish. The Athletics, of Philadelphia, and Cleveland had an exciting finish for second place, the result being in doubt up to September 28, when the Quakers won the place by defeating their nearest rivals.

*Kennedy having participated in but ten complete games, the batting championship of the National League for the season of 1903 is awarded to Wagner, of the Pittsburg club.

Wagner, besides being the champion batsman of the year, also is entitled to the honors for long-distance hitting. During the season his drives for more than a base were as follows: Doubles, 30; triples, 19; home runs, 5; total bases, 137. Following close on the heels of the Smoky City star comes Mertes, of New York, whose hits for more than a single were: Doubles, 32; triples, 14; home runs, 7; total bases, 134. Donlin, of Cincinnati, is third on the list, his long-range performances being apportioned as follows: Doubles, 25; triples, 18; home runs, 7; total bases, 132.

Beaumont made the greatest number of hits—209 in 141 games. Seymour is second, with 191 in 135 games, and Wagner third, with 182 in 129 games. The long-hit leaders were: Doubles, Clarke, Mertes and Steinfeldt, tied at 32 each; triples, Wagner, 19; home runs, Sheckard, 9.

Six men crossed the plate one hundred times or more during the season, Beaumont being the boss run-getter of the League, with 137 tallies to his credit. The other men were: Donlin, 110; Browne, 105; Slagle, 104; Strang, 101; Mertes, 100.

Sheckard and Chance are tied for the base-stealing honors, each having 67 stolen bases to his credit. Wagner and Strang are tied for second, with 46 apiece, and Mertes is third, with 45.

McGann leads in sacrifice hits, with 30; Gilbert is second, with 26, and Wolverton third, with 23.

FIELDING AVERAGES OF THE PLAYERS OF THE NATIONAL LEAGUE FOR THE SEASON OF 1903.

EXTRA INNING GAMES.

Among the many extra inning games that were played during the season of 1903 the struggle between Pittsburg and New York at Pittsburg in July can be put down as the most noteworthy. The teams battled for fourteen innings, putting up the fiercest sort of battle, Pittsburg losing in the end by a score of 6 to 3. The Champions had the New Yorkers shut out—3 to 0—up to the ninth inning, when McGraw's men made three runs. Down to the fourteenth inning they went on equal terms, when Doheny weakened and allowed three hits, which netted three runs and the game.

Two thirteen-inning games were played by National League teams during the season. The first occurred on July 13, when Brooklyn defeated Chicago by a score of 6 to 4. The other was on July 18, and Chicago again had part. In this game Boston was defeated by a score of 3 to 2. During the season there were four extra inning games that were not completed.

2—New York	84	55	.604
8—St. Louis	43	94	.314

TWO LEAGUES COMPARED.

In comparing the work of the two big leagues it will be seen that the National far and away excelled the American in batting and base-running. In fielding, however, the American was much superior.

NATIONAL LEAGUE.

Clubs.	At Bat.	Hits.	Put Outs.	Assists.	Errors.	Runs.
Pittsburg	4,981	1,423	3,794	1,880	297	779
New York	4,727	1,236	3,775	1,700	257	701
Chicago	3,741	1,320	3,740	1,777	321	683
Cincinnati	4,831	1,394	3,665	1,798	308	753
Brooklyn	4,508	1,184	3,648	1,775	284	648
Boston	4,647	1,115	3,607	1,794	339	564
Philadelphia	4,785	1,281	3,591	1,729	293	592
St. Louis	4,642	1,150	3,591	1,947	360	495
Totals	36,862	10,103	29,401	14,400	2,459	5,215

League batting averages, .274; fielding averages, .947.

AMERICAN LEAGUE.

Clubs.	At Bat.	Hits.	Put Outs.	Assists.	Errors.	Runs.
Boston	4,904	1,352	3,684	1,818	229	734
Philadelphia	4,672	1,235	3,625	1,585	235	577
Cleveland	4,791	1,258	3,756	1,898	302	632
New York	4,568	1,133	3,565	1,773	248	560
Detroit	4,563	1,224	3,694	1,681	286	560
St. Louis	4,630	1,116	3,744	1,783	257	595
Chicago	4,682	1,137	3,753	1,754	288	520
Washington	4,604	1,071	3,556	1,775	260	430
Totals	37,414	9,526	29,877	14,067	2,105	4,508

League batting average, .255; fielding average, .954.

BOSTONS WON WORLD'S CHAMPIONSHIP.

In the post-season series of games between the Bostons, champions of the American League, and the Pittsburgs, leaders in the race for the National League pennant, for the world's championship, the Bostons won out, five games to three. The Pittsburgs gained a lead of three victories to one in the first four games, but owing to weakness in their pitching department the National League champions failed to retain their advantage and were defeated in the last four games. Philippi won three games for the Pittsburgs.

The entire series was played grandly, cleanly, squarely and without friction. Boston is fairly entitled to all the honors due the champion team of the entire baseball world, and Pittsburg deserves credit for the fine battle it made in face of adverse conditions.

The attendance at the four games in Boston was 51,913. Pittsburg turned out 48,516 at the four games played there, a total of 100,429.

RECORD OF GAMES.

Teams.	Runs.	Hits.	Errors.
Oct. 1—Pittsburg	7	12	2
Boston	3	6	4

EASTERN LEAGUE.

Jersey City won the twelfth consecutive campaign of the Eastern League, which began April 30 and ended September 26. Jersey City and Buffalo were the only real contenders from the start. The winners distinguish themselves by two remarkable runs of consecutive victories—sixteen straight at the start of the season and twenty-four straight toward the end of the season. Buffalo made a game fight and looked like a winner for a time.

Clubs.	Buffalo.	Baltimore.	Jersey City.	Newark.	Providence.	Rochester.	Toronto.	Montreal.	Games Won.
Buffalo		9	6	12	14	12	9	17	79

AMERICAN ASSOCIATION.

The American Association finished its second campaign with St. Paul as its champion team. The season began April 22 and ended September 21. For the first half of the season the pace was fast and furious, Kansas City, Milwaukee and Indianapolis alternating in the lead until July 29, when St. Paul surged to the front and was never again headed.

Clubs.	Columbus.	Indianapolis.	Kansas City.	Louisville.	Milwaukee.	Minneapolis.	St. Paul.	Toledo.	Games Won.
Columbus		9	10	4	8	11	8	6	56
Indianapolis	13		9	13	10	15	5	15	80
Kansas City	10	10		5	8	15	7	14	69
Louisville	16	7	15		13	13	8	15	87
Milwaukee	12	13	12	7		13	8	15	80

WESTERN LEAGUE.

The Western League season, which began April 28 and was scheduled to end September 27, came to an abrupt close September 17, President Sexton officially declaring the season ended owing to inclement weather. The race was a poor one from start to finish, Milwaukee and Colorado Springs far outclassing the other teams. Milwaukee won with something to spare.

Clubs.	Col. Springs.	Denver.	Des Moines.	Kansas City.	Milwaukee.	Omaha.	Peoria.	St. Joseph.	Games Won.
Colorado Springs		13	10	12	9	13	11	8	77

CONNECTICUT VALLEY LEAGUE.

The Connecticut Valley League season began May 7 and ended September 12, with Holyoke, the new club, in the van. The pennant winner, by splendidly consistent work from about the middle of the season until its close, gained the lead and maintained it.

Clubs.	Bridgeport.	Hartford.	Meriden.	New Haven.	New London.	Norwich.	Springfield.	Holyoke.	Games Won.
Bridgeport		15	8	11	8	6	8	3	59
Hartford	2		1	6	6	5	7	3	30

Norwich	57	48	.543	Hartford	30	77	.280

NEW ENGLAND LEAGUE.

Lowell won the New England League championship, the campaign beginning May 1 and ending September 12. The battle was hard fought from the start, the chief contenders in the furious fight being Lowell, Nashua, Concord and Manchester. The interest was kept up until the very last.

Clubs.	Concord.	New Bedford.	Fall River.	Haverhill.	Lawrence.	Lowell.	Manchester.	Nashua.	Games Won.
Concord		10	9	13	10	9	6	6	63
New Bedford	5		7	12	7	4	5	6	46
Fall River	7	9		11	8	5	10	7	57
Haverhill	4	2	5		7	3	1	4	26
Lawrence	5	8	8	9		6	5	7	48
Lowell	7	12	11	13	11		9	9	72
Manchester	9	11	7	15	10	7		7	66
Nashua	10	11	9	13	9	7	9		68
Games lost	47	63	56	86	62	41	45	46	

	W.	L.	P. C.		W.	L.	P. C.
Lowell	72	41	.637	Fall River	57	56	.504
Nashua	68	46	.596	Lawrence	48	62	.436
Manchester	66	46	.595	New Bedford	46	63	.422
Concord	63	47	.573	Haverhill	26	86	.232

The following players batted over .300 in the New England League during the season of 1903:

Players and Club.	Games.	At Bat.	Runs.	Baselits.	Per Cent
Hamilton, Haverhill	37	132	37	60	.446
Titus, Concord	30	123	33	50	.407
Burbage, Fall River-Lowell	29	87	10	30	.345
Greene, Concord	29	86	11	29	.337
Iott, Fall River	100	401	70	127	.317

Hickey, Lowell	81	302	52	92	.305
Daum, Nashua	77	274	25	83	.303
McLean, Nashua	81	331	34	100	.302

SOUTHERN LEAGUE.

The Southern League season began April 25 and ended September 20. Memphis won after one of the hardest-fought and most sensational races in the history of the game. From the very start it was a splendid battle. Each team surged to the front at times, and it was not until the very last day of the campaign that Memphis was able to beat out Little Rock by a nose.

Clubs.	Atlanta.	Birmingham.	Montgomery.	Little Rock.	Memphis.	Nashville.	New Orleans.	Shreveport.	Games Won.
Atlanta		9	9	6	10	8	10	7	59
Birmingham	8		9	8	8	7	9	8	57
Montgomery	9	8		4	4	10	8	10	53

T. Kelly, Butte-Salt Lake	30	102	21	31	.303
Rockenfield, Tacoma-Seattle	134	510	92	154	.301
Treadway, Seattle	117	446	71	134	.300

NORTHERN LEAGUE.

Winnipeg won the Northern League championship, although Grand Forks made a good fight. The other clubs were outclassed.

Clubs.	Winnipeg.	Grand Forks.	Crookston.	Fargo.	Duluth.	Superior.	Games Won.
Winnipeg		13	12	16	11	13	65
Grand Forks	6		10	15	11	15	57
Crookston	5	10		12	12	16	55
Fargo	4	5	8		9	10	56
Duluth	7	7	7	11		9	41
Superior	6	1	4	7	8		26
Games lost	28	36	41	61	51	63	

	W.	L.	P. C.		W.	L.	P. C.
Winnipeg	65	28	.699	Duluth	41	51	.446
Grand Forks	57	36	.613	Fargo	36	61	.371
Crookston	55	41	.573	Superior	26	63	.292

MISSOURI VALLEY LEAGUE.

The standing of the clubs on September 27, the close of the second series, follows. The deciding series was not played:

	W.	L.	P. C.		W.	L.	P. C.
Sedalia	51	18	.739	Joplin	36	34	.510
Springfield	38	30	.558	Fort Scott	30	39	.435
Iola	38	31	.551	Pittsburg	13	54	.194

SOUTH SIDE LEAGUE, Long Island.

The Hempstead club won the championship of the South Side League, of Long Island, after a close and interesting race.

	W.	L.	P. C.		W.	L.	P. C.
Hempstead	11	7	.611	Freeport	9	10	.474
R'kville C'nter	11	9	.550	Cedarhurst	7	12	.368

COTTON STATES LEAGUE.

There was a close race between the Baton Rouge and Vicksburg clubs. The others trailed far behind.

	W.	L.	P. C.		W.	L.	P. C.
Baton Rouge	74	41	.644	Pine Bluff	55	61	.474
Vicksburg	70	46	.603	Greenville	56	64	.467
Natchez	59	60	.496	Monroe	37	75	.330

The ten leading batters of the Cotton States League were as follows:

Players.	A. B.	B. H.	P. C.
Shelton, Pine Bluff	50	22	.440
Smith, Greenville	426	131	.308
Persons, Baton Rouge	56	17	.304
Frost, Natchez	476	142	.298
Kelly, Greenville	189	56	.296
Gettinger, Natchez	442	129	.292
Murphy, Baton Rouge	430	125	.291
Gallace, Greenville	49	14	.290
Longley, Pine Bluff	470	134	.285
Pender, Baton Rouge	454	129	.284

NEW YORK STATE LEAGUE.

Owing to many disputed and postponed games, the Board of Directors of this league declared the following to be the official standing of the clubs:

	W.	L.	P. C.		W.	L.	P. C.
Schenectady	82	49	.625	Utica	61	62	.495
Troy	70	49	.598	Ilion	52	72	.425
Syracuse	79	53	.598	Binghamton	50	72	.409
Albany	63	61	.508	A., J. & G.	41	82	.333

INDIVIDUAL BATTING FEATS.

Splendid batting was accomplished by various players of the National League at one time or the other during the past season. The greatest batting feat of the year was accomplished by Mike Donlin, of the Cincinnati team, on the Queen City grounds, September 22. In two games against Philadelphia Donlin went to the bat seven times and made six hits. Four of the drives were good for three bases and were made in succession. May 28 Doyle, of Brooklyn, made four hits out of four times up, including a single, double and two triples. May 7 Clarke, of Pittsburg, made a single, double, triple and a home run out of four times to the bat. July 16 Beaumont, of Pittsburg, made a great record with a single, triple and two home runs out of five times up. Leach, of Pittsburg, as late as September 23 made Taylor, of New York, suffer to the extent of five hits out of as many times to the batters' box, including three singles, triple and a home run. Donlin, of Cincinnati, Ritchey and Leach, of Pittsburg, are the only players in the National League who made five hits in a single game out of as many efforts to do business with opposing pitchers.

WONDERFUL TRIPLE PLAYS.

Four times during the National League battles of 1903 were three men put out with the rapidity of a streak of lightning. The first flash took place at Brooklyn May 19, where Beckley and Corcoran, of the Reds, retired the side in less time than it takes to tell. With Strang on second and Sheckard on first Dobbs smashed a corker toward right field. Beckley jumped up and got his hands on the ball, caught it as it was falling and stepped on first. Turning, he sent the sphere to Corcoran at second. The throw was short, but Corcoran got it an inch from the ground, and, with his face buried in the dust, his feet planted squarely against the bag, the first triple play of the year was completed.

Cincinnati figured in the second massacre at Cincinnati June 10, where New York was made to suffer in the twinkling of an eye. With McGann on second and Mertes on first, Babb attempted to sacrifice. His effort resulted in a short, low fly, which Magoon, who was covering third, captured on a run toward the plate. McGann and Mertes had started at the crack of the bat, and Magoon shot the ball to Kelly at first base, settling Mertes, who, in turn, fired the leather to Morrissey at second.

July 1 St. Louis fell victims to New York when Bresnahan caught a difficult line drive which the base runner on second thought would fall safe. The Cardinal on third waited until the ball was captured and then tried to score. A quick throw by Bresnahan to Gilbert at second settled the occupant of that bag. Whirling around, Davis fired the ball to Warner, who nailed the runner at the plate.

September 18 New York placed the Reds on the list at Cincinnati by nipping a batting rally by a great catch by Gilbert. Both Donlin and Seymour had hit safe and were on third and second. The New York infield moved up to catch Donlin at the plate. Dolan sent up a short fly midway between second base and centre field. It was too far in for Bresnahan, who was playing well toward left. Gilbert started on a run, and, with his back to the stands, caught the ball, electrifying the spectators. A throw to Babb at second settled Seymour, and another to Lauder at third put Donlin on the slab.

DOUBLE ERRORLESS GAMES.

Double errorless games are considered rare feats in the national game. During the heat of champion-

ship struggles it seems remarkable that not a misplay is recorded against any of the players of the opposing sides. Cincinnati, Pittsburg, Philadelphia and Brooklyn have figured frequently in the following clean fielding contests:

May 10—Pittsburg and New York.
June 2—Pittsburg and New York.
June 3—St. Louis and Philadelphia.
June 8—Cincinnati and Brooklyn.
July 31—Brooklyn and Philadelphia.
August 3—St. Louis and Pittsburg.
August 8—Cincinnati and St. Louis.
August 11—New York and Brooklyn.
August 15—Brooklyn and St. Louis.
August 17—Brooklyn and St. Louis.
August 20—Brooklyn and Chicago.
August 24—Pittsburg and Philadelphia.
August 28—Cincinnati and Chicago.
August 29—Pittsburg and St. Louis.
August 31—Pittsburg and Philadelphia.
September 3—Cincinnati and Pittsburg.
September 15—Pittsburg and Boston.
September 17—St. Louis and Brooklyn.
September 21—Cincinnati and Philadelphia.

The longest game of the season was played at Pittsburg, Kansas, July 7, between the Pittsburg and Joplin clubs. It was of 21 innings and was won by Pittsburg—5 to 4.

The Chicago and Greater New York teams of the American League played an eighteen-inning game at Chicago on June 25. The score was a tie at six runs.

The Pittsburgs made a record for consecutive shut-out games. The Pirates' opponents failed to score against them for fifty-six consecutive innings. During the six consecutive shut-outs New York was twice victimized. Boston suffered three times and Philadelphia once. "Deacon" Philippi and Sam Leever each scored two of them, and Ed Doheny and Irwin Wilhelm one apiece. Forty-one hits were made by the blanked teams without a run, while the awakened champions laid in thirty-two tallies.

At Monroe, La., on June 5, the Baton Rouge and Monroe teams played an eighteen-inning game without either side scoring.

Pitcher Lynch, of Brown University, made the marvellous record of twenty-one strike-outs in a game against Columbia in Providence on June 17. The Browns won the game—6 to 0.

On August 10 the Kingston and Hudson teams, of the Hudson River League, played a twenty-inning game, which ended in a tie at two runs.

Oliver Faulkner, pitcher for the Wilmington (Del.) Athletic Club team, established a world's record by pitching seventy-seven innings without a run being scored against him. The best previous performance was by Pitcher James H. Wiggs, of Helena, Mont., who in 1902 blanked all opponents for forty-four consecutive innings.

"Rube" Waddell made the strike-out record of the big leagues of the season on July 14 by striking out fourteen of the Chicago American team. In thirty-seven games he pitched Waddell "fanned" 301 batters.

HOW MANY PLAYERS WERE USED.

Just two players in the entire National League went through every game in original positions played from the opening of the season, April 15, to the close, September 27. This honor belongs to Centre Fielder Beaumont, of Pittsburg, and Third Baseman Gremminger, of Boston. Seymour, of Cincinnati, and Sheckard, of Brooklyn, also participated in every game, but were benched by the umpire. Including players who have shifted from one position to another, 314 players were put in the field during 1903. The tabulated list which follows shows exactly how many players each club used:

Positions.	Cincinnati.	Pittsburg.	New York.	Chicago.	St. Louis.	Philadelphia.	Boston.	Brooklyn.	Totals.
Pitchers	9	11	7	10	16	10	7	10	80
Catchers	5	4	3	3	5	3	3	5	31
First basemen	4	4	3	6	4	5	5	2	33
Second basemen	5	2	3	5	4	3	2	5	29
Third basemen	4	3	5	7	2	4	1	2	28
Shortstops	3	3	3	3	4	2	5	2	25
Left fielders	6	9	4	2	3	2	3	2	31
Centre fielders	3	1	3	4	2	3	2	9	27
Right fielders	3	5	2	3	5	5	2	5	27
Totals	42	42	33	43	45	37	30	42	314

REMARKABLE PITCHING FEATS.

There was no end of splendid box work by the National League pitchers since play was first called April 15, 1903. The most noteworthy exhibitions of accurate and expert twirling was by Fraser, of Philadelphia, and Ewing, of Cincinnati. September 18, at Chicago, Fraser let down the Windy City team without a hit or a run. Exactly one month previous to Fraser's great work Ewing, of Cincinnati, was robbed of the credit of a no-hit game by Umpire Moran at New York. Not the shadow of a bingle had been made off of Ewing up to the ninth inning. After two were out Dunn hit a sharp drive toward left. Corcoran made a grand stop and fired the ball to Beckley an eyelash before Dunn reached the bag. The scorers had already entered an out, when they were dumfounded to see Moran declare Dunn safe. Dunn got no farther than second and New York was shut out—7 to 0. Next in point of interest to the above two wonderful contests was that of Ames, of New York, who made his debut in fast society by defeating the Cardinals at St. Louis September 14 in a five-inning game without allowing a hit or a run. Mathewson, of New York, also has a five-inning no-hit game to his credit. September 5 Brooklyn went down before this famous pitcher—3 to 1—without any sort of bingle to their credit.

The Brooklyn pitchers lead the list of having accomplished the most feats, closely followed by Cincinnati. Frank Hahn, of the Reds, has pitched four games this year allowing but four hits. Suthoff, of Cincinnati, is the only twirler in the League who has pitched two games, allowing but two hits each. The full list of feats for 1903 is as follows:

Pitchers.	No. Games No Hits.	No. Games One Hit.	No. Games Two Hits.	No. Games Three Hits.	No. Games Four Hits.	No. Games Five Hits.	No. of Feat.
Hahn, Cincinnati	0	0	0	1	4	1	6

DRAWN BATTLES OF 1903.

Nine times during the season teams fought and struggled to the wire without result. Four times the contests were of eleven innings.

Date.	Innings.	Clubs.	Score.	Date.	Innings.	Clubs.	Score.
Apr. 19	11	New York	5	Sept. 5	6	Boston	6
		Brooklyn	5			Philadelphia	6
May 27	11	Cincinnati	2	Sept. 8	8	New York	4
		Philadelphia	2			Brooklyn	4
June 22	11	Cincinnati	6	Sept. 13	9	New York	9
		Philadelphia	6			St. Louis	9
June 29	9	Boston	0	Sept. 17	9	St. Louis	5
		Chicago	0			Brooklyn	5
Aug. 24	11	Pittsburg	2				
		Philadelphia	2				

For the first time in years the West signally defeated the East in the National League race of 1903:

WEST VS. EAST.

Clubs.	N. Y.	Brk.	Phil.	Bos.	Games Won.	P. C. Won.
Pittsburg	6	5	7	8	26	.634
Cincinnati	4	6	8	8	26	.565
Chicago	3	6	7	6	22	.537
St. Louis	3	2	6	3	14	.359
Games lost	16	19	28	25	88	.521

EAST VS. WEST.

Clubs.	Pbg.	Cin.	Chi.	St. L.	Games Won.	P. C. Won.
New York	4	6	8	7	25	.609
Brooklyn	5	5	4	6	20	.513
Philadelphia	2	7	4	4	17	.377
Boston	2	2	3	8	15	.375
Games lost	13	20	19	25	77	.479

The following table shows the gains and losses made by the National League teams as compared with their showing in 1902. New York showed the most improvement:

Club.	1903.	1902.	Rank.	Points.	
				Gain.	Loss.
Pittsburg	.650	.741	1	..	91
New York	.604	.353	8	251	..
Chicago	.594	.496	5	98	..
Cincinnati	.532	.500	4	32	..
Brooklyn	.515	.543	2	..	28
Boston	.420	.533	3	..	113
Philadelphia	.363	.409	7	..	46
St. Louis	.314	.418	6	..	104

The post-season games between teams of the National and American leagues resulted in favor of the American League as follows:

American Victories.		National Victories.	
Boston	5	Pittsburg	3
Chicago	7	Chicago	1
St. Louis	5	St. Louis	2
Cleveland	6	Cincinnati	3
Athletics	4	Philadelphia	3
St. Louis	0	Cincinnati	2
Cleveland	2	St. Louis	0
Total	29	Total	20

CHANGES IN BASEBALL RULES.

At the joint meeting of the National and American baseball leagues, held in Chicago in February some small changes were made in the playing rules, with the object of reaching more uniformity. A uniform foul strike rule (that of the National Association rules) was adopted, and changes were made in rules 1 and 33. A new section was added to rule 1, regulating the height of the pitcher's box and the slope from the box to the base lines and the home plate. Section 3 of rule 33 was amended to read: "A balk shall constitute any delivery of the ball to the batsman by the pitcher while either foot of the pitcher is back of the plate." These changes were adopted unanimously after discussion, though the foul strike rule was opposed by the representatives of the American League.

OFFICIAL DIRECTORY OF BASEBALL LEAGUES.

National League—Harry C. Pulliam, president, St. James Building, New York City, N. Y.

American League—Ban Johnson, president, Chicago, Ill.

NATIONAL ASSOCIATION OF PROFESSIONAL BASEBALL LEAGUES.

President, P. T. Powers, 220 Broadway, New York; Secretary, J. H. Farrell, Box 214, Auburn, N. Y.

League Members—Eastern League, P. T. Powers, president, New York; Western League, M. H. Sexton, president, Rock Island, Ill.; American Association, T. J. Hickey, Chicago, Ill.; New York League, J. H. Farrell, president, Auburn, N. Y.; Indiana-Illinois-Iowa League, M. H. Sexton, president, Rock Island, Ill.; Pacific-National League, W. H. Lucas, president, Spokane, Wash.; Southern League, W. M. Kavanaugh, president, Little Rock, Ark.; Connecticut League, Sturgis Whitlock, president, Huntington, Conn.; New England League, T. H. Murnane, president, Boston, Mass.; Texas League, N. H. Lassiter, president, Fort Worth, Tex.; Central League, G. W. Bement, president, Evansville, Ind.; Missouri Valley League, D. M. Shively, president, Kansas City, Kas.; Northern League, D. L. Laxdall, president, Cavalier, N. D.; South Texas League, Max Stubenrauch, president, Galveston, Tex.; Cotton States' League, George W. Wheatley, president, Greenville, Miss.; Kentucky-Tennessee League, Jacob Zimbro, Jr., secretary, Henderson, Ky.; Hudson River League, W. A. McCabe, president, Poughkeepsie, N. Y.; Iowa-South Dakota League, W. L. Baker, Sioux Falls, S. D.

Board of Arbitration—M. H. Sexton, W. H. Lucas, James H. O'Rourke, T. H. Murnane, W. M. Kavanaugh.

THE COLLEGE SEASON.

Princeton is fully entitled to the college championship of 1903. The Tigers defeated Yale two games out of the three played between them, and also won their only contest of the season with Harvard. It was unfortunate that the series was not completed between Princeton and Harvard, as both defeated Yale twice, but as the season's record stands Princeton has the biggest percentage of games won, and her title to premier honors cannot be disputed according to the figures.

The season's series was one of the most interesting ever played by the "big three." Of the six games played three were won by the close margin of a single run.

The most exciting contest of the year was the deciding game between Yale and Princeton on the Polo Grounds, New York City, June 13. Each club had won a game, and the result of the third game was virtually decisive of the championship. At the beginning of the ninth inning the score stood 6 to 5, in favor of Yale, but the Tigers by one of the best and pluckiest batting rallies ever seen in a college game made six runs and won out, 7 to 6.

The sport was more than usually popular among the colleges during 1903, the attendance at the games being larger than in any previous season. In New York City, on neutral grounds, nearly 10,000 spectators witnessed the Yale-Princeton game on June 13.

College players heretofore have been very weak in batting, but this season there was a decided change for the better. The fielding was fully up to the high standard of previous years.

The scores of the "big three" games during the season were as follows:

May 23, Princeton, 6; Harvard, 5.
May 30, Yale, 2; Princeton, 1.
June 6, Princeton, 10; Yale, 6.
June 13, Princeton, 7; Yale, 6.
June 18, Harvard, 5; Yale, 2.
June 23, Harvard, 10; Yale, 6.

The pitchers who did the best work were Clarkson, Harvard; Stevens, Princeton, and Bowman, Yale.

STANDING OF COLLEGE CLUBS.

	Princeton.	Harvard.	Yale.	Won.	Per Cent.

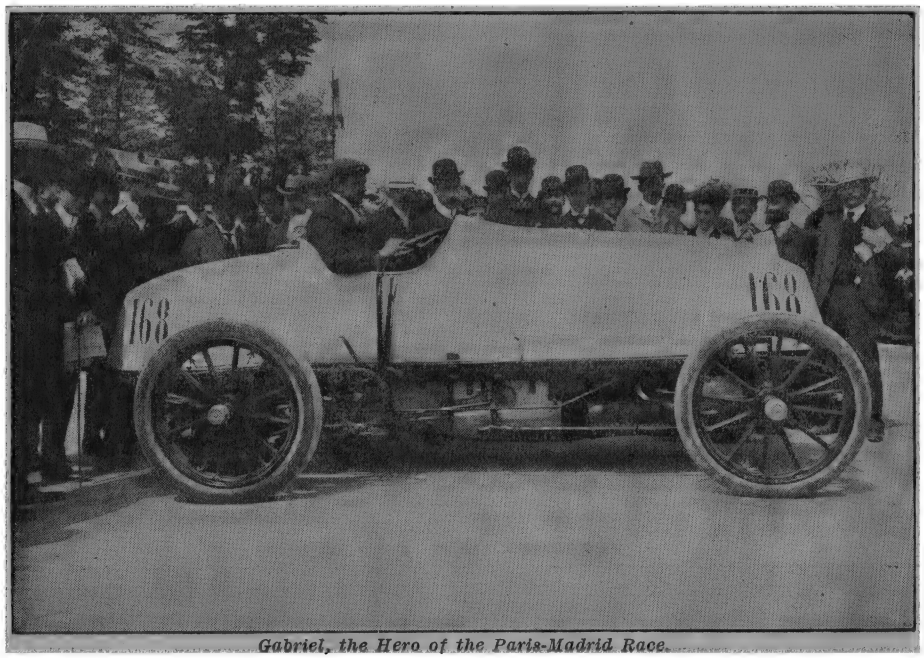
AUTOMOBILE RACING AND RECORDS.



A. G. BATCHELDER, Editor "Motor."

Automobile racing of real competitive worth is more or less a matter of accident. In a majority of instances the result is determined by an excess of horse power. The daring of the operator is an occasional factor. But seldom have machines of equal horse power and drivers of the same ability been pitted against one another. When these rare instances occurred the onlookers displayed enthusiasm to an intense degree, for the sight is unquestionably most spectacular; and though mechanical, the adjunct of human direction absorbs the spectator.

Outside of the unsatisfactory Spring trials in connection with the completion of the American cup team for the Irish race, all competition in this country has been confined to the tracks, with their dusty surfaces and difficult turns. Two fatal and several bad accidents caused considerable adverse criticism of what appeared to be a dangerous risk, in which even the lives of the spectators were placed in jeopardy. It became apparent that the crowd must be kept at a safe distance from the outer rail of the track, and this quickly done, the American enthusiast renewed his interest in the exciting and railroad form of competition.

RACING CRAFT OF THE SEASON.

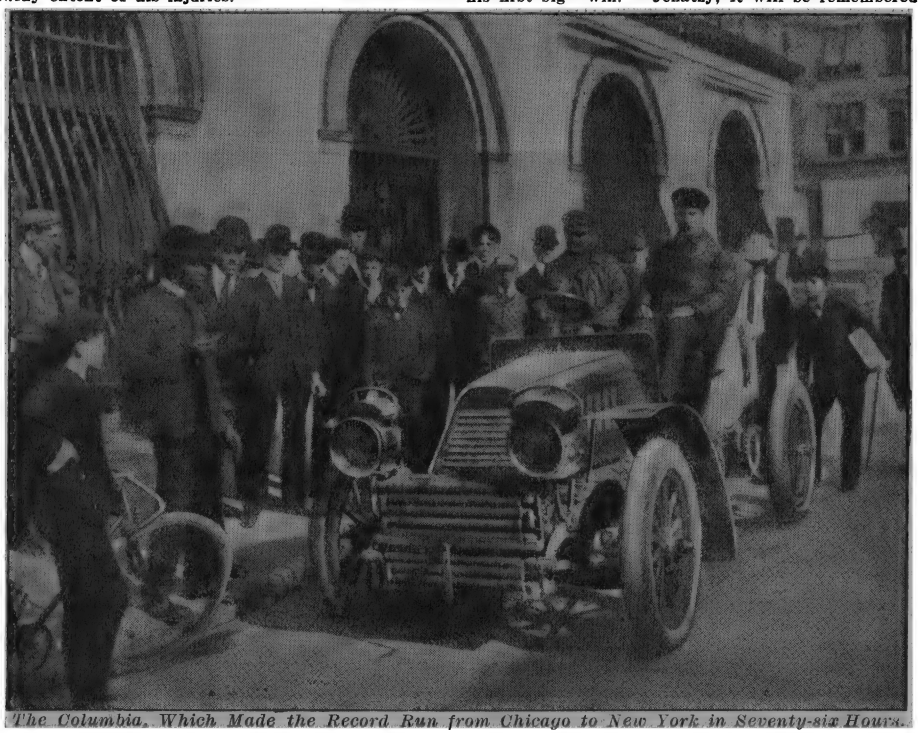
The American Automobile Association, through its racing board, adopted a classification which divided the machines irrespective of motor power into four different weights. Beginning with the "free-for-all," the next class was for cars under 1,800 pounds, then under 1,200 pounds, and finally under 800 pounds. The gasoline driven vehicle, the steam propelled flyer and the electric speed skeleton fought it out on many tracks, and the gasoline machine obtained the greater share of the honors.

Gabriel, the Hero of the Paris-Madrid Race.

The racing craft constructed in this country bore all sorts of freak names. The Winton "Bullet No. 2," though a disappointment in the cup race in Ireland, greatly redeemed itself. The Ford "999," an unwieldy form of juggernaut, first appropriated the mile honors under the guidance of Barney Oldfield, the time being 55 4-5 sec., negotiated July 25 on the Empire City Track. Subsequently the champion, on the same track, piloted the Winton car within a fifth second of this record. Again, at the Ingleside track, San Francisco, November 8, Oldfield repeated within a fifth of the record. Finally at Los Angeles the "Bullet" did the trick, November 20, with a mile in 55 sec. Then, two days later, Oldfield cut off another fifth second.

The "Gray Wolf" had an inning of disaster, and three of its pilots experienced narrow escapes, Albert Champion, the third one, being the most unfortunate. It was on his debut into automobile racing at the Brighton Beach track, October 31, that the fearless Champion smashed through the fence as a result of the poor surface of the track. A broken leg was the lucky extent of his injuries.

hard as any boulevard, and the scorcher can satisfy his racing proclivities to the utmost, with no fear of "time traps" or danger of collision with other vehicles.



WHAT HAPPENED IN EUROPE.

The automobile racing season of 1903 in Europe was not as well filled with "events" as was that of 1902, but it was the theatre of still greater development of speed. This extra speed was demonstrated in the Paris-Madrid race, which was cut short at Bordeaux.

Operations were begun at Nice, and this meeting came to a sad ending by the death of Count Zborowski in the hill climbing contest on La Turbie (near Nice), April 1.

Next was the Paris-Madrid disaster, and the best part of the itinerary, Paris to Bordeaux, afforded the opportunity for a demonstration of the speed capacity of 1903 machines. Gabriel, with a Mors, maintained an average speed of 106 kilometers (66 miles) an hour.

The international cup race in Ireland gave Jenatzy his first big "win." Jenatzy, it will be remembered,

The Columbia, Which Made the Record Run from Chicago to New York in Seventy-six Hours.

The Olds "Pirate," with Dan Wurgis at the helm, established records for machines under 1,200 pounds that may stand for some time.

The Baker "Torpedo Kid," the White "Turtle" and "Snail" and the Stearns "Dragon" were among the peculiarly named machines, added to which were the foreign makes, the Decauville, Darracq, Renault, Mercedes, Richard-Brasier and Panhard. Henri Page, a Paris-Madrid survivor, handled a Decauville in a victorious manner until his enforced return to France for army service. Frank LaRoche added lustre to the Darracq colors, and M. G. Bernin made a reputation for himself and the Renault in the concluding metropolitan meet at Brighton Beach.

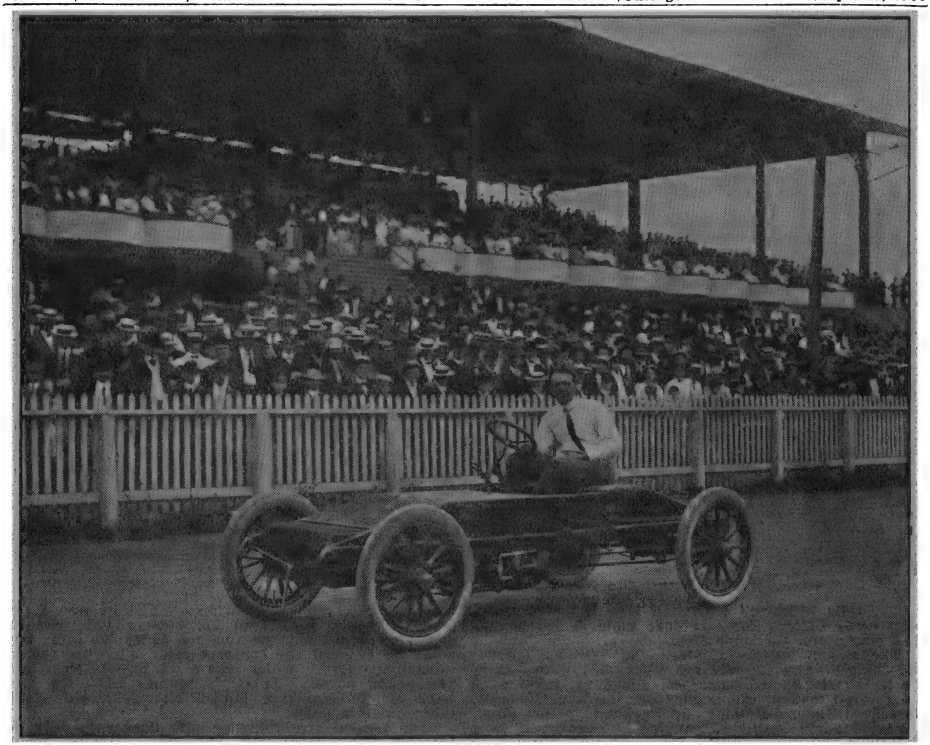
THE IDEAL RACECOURSE.

The ideal speeding course of America undoubtedly exists on the Florida beach near Ormond and Daytona, where a big meet is scheduled for the month of January. Unless all indications fail, the American straightaway record of 51 4-5 sec., made by Henri Fournier on the Coney Island Boulevard, New York City, November, 1901, will be erased. It would not be surprising if the European straightaway figures were also altered. This beach permits of twenty miles and more of straightaway speeding, packs as

was originally an "electric man," and he won a few races in early days with his battery box, but the petrol machines soon became too swift for him, even when he entered the contests later with his famous "machine mixte," which was a mixture of electricity and petrol power. Jenatzy's victory with the Mercedes in the cup race landed him definitely within the regular brigade.

The Ostend straightaway mile dashes in July developed a comparatively new star, Rigolly, whose 100 horse power Gobron-Brillie had not been dreaded up to that time by the other drivers, in spite of its formidable engines. Rigolly showed that his Ostend performance was not a "fluke" by taking the principal honors at the Laffrey hill climbing contests, near Grenoble, a few weeks later.

Baron de Crawhez, the Belgian, with a Pipe machine (Belgian make), also supplied a good showing at Ostend, besides winning the Circuit des Ardennes.



The Paris-Madrid affair spoiled what might have been a busy season of road racing, though the Irish and Ardennes races followed it. There were, instead, hill climbing contests and similar competitions. This year may bring about special tracks in Europe for automobile racing. The idea may become an actuality also in this country.

THE RECORD SLATE.

In the compilation of these records the fastest times accomplished have been given, though their official acceptance in some cases has been delayed, and, perhaps, may be withheld by the governing body. At the present time automobile competition in America is, like the automobile, becoming "standardized," if such a term can be used. It is not an easy task to separate the machines into their proper classes, and the racing regulations in general call for considerable improvement. In the belief that under existing circumstances the automobilist desires to know the fastest time, regardless of any technicalities which might deprive the performers of their honors, the following tables are herewith submitted:

ALL WEIGHTS AND MOTIVE POWERS.

Distance (Miles).	Time.	Holder.	Machine.	Place.	Date.
1.....	0:54 4-5	Barney Oldfield.....	Winton "Bullet No. 2".....	Los Angeles, Cal.....	Nov. 22, 1903

Walthour.

Kramer.

BICYCLE RECORDS.

Cycle racing experienced a fairly successful season, the features of which were the determined short distance championship fight between Kramer and Lawson, and the performance of Caldwell in covering over 50 miles inside the hour. This was accomplished on the new Charles River track at Cambridge, Mass., on which record-breaking belt of boards poor Harry Elkes lost his life on June 17 through the bursting of a wornout tire. All sport wherein danger lurks will have its victims, and the popular Elkes abruptly ended a career in which he had always stood in a class by himself.

It was not until the concluding Grand Circuit meet at Manhattan Beach that Frank Kramer clinched his championship honors for the second successive season. Iver Lawson supplied good opposition, but lacked the head work of the champion in several instances. These two outclassed all in the sprinting ranks.

While Walthour excelled during the continuance of the National Paced Circuit, subsequently he suffered a substantial number of reverses that tarnished his championship crown. It remained for Caldwell, the hardy wood chopper from New Hampshire, to crowd 50 miles inside the hour, though the erratic Munroe nearly accomplished several weeks previous.

Joe Nelson did not fulfill all expectations, while Champion entered the arena too late in the season to prove a factor. Sturdy DeGuichard suffered an inning of staleness which put him out of the running, Stinson had his usual series of accidents, and Leander killed his own chances by inefficient training. McLean rated well, but fell short of the top rung of the ladder. Incidental to his paced riding, Champion drove a motor bicycle, and his mile in 55 2-5 seconds at Charles River Park stands as the best track mile in the world.

The national amateur championships were decided during the month of August at Manhattan Beach and Charles River Park. Marcus L. Hurley, N. Y. A. C., retained his championship honors of the previous year in a convincing manner. He captured the one-fourth, one-third, one-half, two and five mile events, and lost the mile through an accident to his machine.

There is still no comparison between the American and European records, owing to the fact that on the other side 26 inches of protection is permitted, as against 16 inches in this country. There is no question but that the American riders are equal, if not superior, to the foreigners, and it is the advantage in pace which gave Tommy Hall his 54 miles 534 yards in the hour at the Parc des Princes track in Paris. While in this country, in 1902, Hall never figured as a championship possibility. In Caldwell's hour ride, which was done in a race, the big fellow lost valuable time in shifting from a motor which had gone wrong to other pacing artillery. Had it not been for this mishap Caldwell would have added a couple of miles more to his score.

The weather conditions interfered with many

meets, and both promoters and riders suffered from the heavy rainfall. In June and August there were thirty-five rainy days.

Extensive plans are being made for the 1904 season, and there promises to be a pronounced revival in various parts of the country, especially in the West.

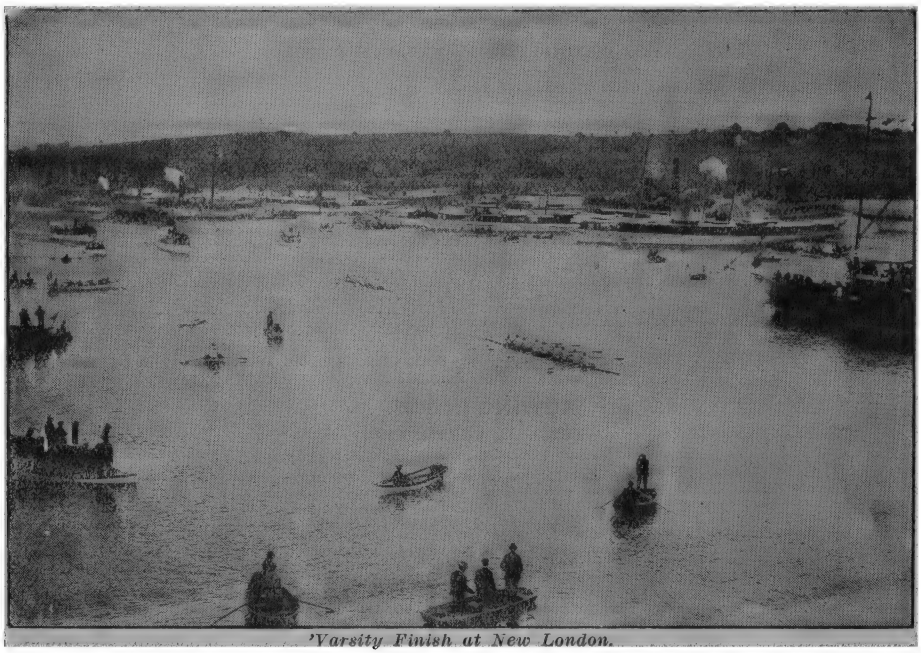
ROWING IN 1903.

FRED. R. FORTMEYER.

Secretary National Association of Amateur Oarsmen.

Many startling occurrences in the rowing world kept that sport prominently in the public eye during the year 1903. Chief among these were the great triple victories won by both Yale and Cornell universities in their annual intercollegiate four-mile struggles on the Thames at New London and on the Hudson at Poughkeepsie, respectively. At the national regatta at Worcester a new champion of the calibre of Ten Eyck was unearthed in the person of Frank B. Greer, of Boston. Three Americans would again have competed at Henley for the Diamond Sculls, but the Board of Stewards of that classic aquatic tournament, without assigning any reason, as is their privilege, rejected the entries of two of them—Titus and Demourelle, of New Orleans, and the third, Juvenal, of Philadelphia, who did compete, fared but ill, being easily beaten in his heat. Titus's rejection at Henley was but one of his many troubles during the year. His having won the American championship for two years (1901 and 1902) and finishing second at Henley (in 1902) seemed to instill in him the belief that he was above all rules and regulations that applied to ordinary oarsmen, and he was constantly before the public with one trouble or another. This probably affected his rowing somewhat. At any rate, he was beaten three or four times during the year, and it is probably as well he did not compete at Henley. The attempt to establish an American Henley was, on its first attempt, in theatrical parlance, a "frost," as hereinafter described. It seems the board of stewards in charge of this event too closely aped the actions of the English Henley stewards, which snobbery did not meet any noticeable demonstrations of effusive approval from American rowing enthusiasts, the latter aggregation being notoriously democratic. Following is a brief review of the more important rowing happenings of the year:

At New London, Conn., June 25, the historic Thames course was the scene of one of Yale's greatest aquatic triumphs over her favorite rival, Harvard. Not only did the Blue's 'varsity eight defeat the Crimson by three lengths in their annual four-mile struggle, but the Yale substitutes, composing the four-oared crew, and the freshman eight, also decisively defeated the men from Harvard in their races over the two-mile course. From the very start of the four-oared race Yale's superiority was evident. Yale had the east position and Harvard the west, on the bank, when Referee Meikleham sent them away with a gunshot.



At first Yale rowed 36 to the minute, Harvard 34, and, after a quarter mile had been rowed, Yale had a perceptible lead. At the half this had been increased to a length, as the time will show: Yale, 2:45 1-5; Harvard, 2:49 4-5. Yale was pounding out a 36-to-the-minute clip, with a remarkable display of muscle, which at the same time kept the boat gliding along fast and smooth. At the mile Yale let down to 32, but still continued to gain on Harvard. The times now were: Yale, 5:38 4-5; Harvard, 5:45. In the next half mile the Harvard four tried a game spurt, which was met by a most discouraging display of hitherto pent-up speed from the Yale boat, so that at the mile and a half Harvard had gained nothing, the time being: Yale, 8:25; Harvard, 8:32. After that Yale drew gradually away and won by over two lengths, covering the two miles in 10:59 2-5, Harvard's time being 11:10 1-5.

From the navy yard, where the fours completed their struggle over the upper two miles of the course, the freshman eights started their battle down stream for the remaining two miles. In view of the great reputation the Yale freshmen had gained by their several reputed defeats of the 'varsity in practice brushes, they were naturally favorites, but in lining up for the start the Harvard youngsters were apparently not at all scared. The crews got away to a beautiful start, Yale rowing 34 to the minute and Harvard 36. They raced neck and neck for

almost a half mile, when the Yale bow forged a few feet to the front. Yale's half-mile time was 2:09, Harvard's 2:10 1-5. The next half mile produced a battle royal, such as is seldom seen in a boat race. The two boats seemed held together by some unseen wires, so evenly did they race, Yale crossing the mile mark in 4:29 and Harvard but a second behind. In the third half mile the lead was held first by Harvard then by Yale, but at the mile-and-a-half mark the first-year sons of Old Eli again had a faint lead, their time being 7:10 1-5, with Harvard a quarter of a length back in 7:11 3-5. But that was the last of Harvard in this race. Right here the Yale boys started in to show what they were made of, and, putting in all their power, though not raising their stroke above 32, they drew steadily away from Harvard. Pluckily the Crimson freshmen fought back, even raising their stroke to 36, but it was a futile effort, for the Yale crew increased their lead to almost two lengths at the finish line, which they crossed in 9:43 1-5, ten seconds outside the record of 9:33 1-5, made by the Harvard freshmen in 1899. Harvard's time was 9:52.

The entire multitude, ashore and afloat, was now in a high nervous state over the possible outcome of the battle between the 'varsity eights. Could Yale make it a triple victory by taking into camp the flower of Harvard's vast army of oarsmen; the best that such keen-eyed rowing coaches as the Storrows, the Higginsons, the Perkins boys and others of equal repute, could pick out of more than 300 candidates that had turned out earlier in the year? To many it seemed doubtful, for had not the Yale 'varsity been beaten by the freshmen? And at the start of the great contest Harvard rooters took heart, and even counted on winning the main event, for the Cambridge boat took a lead right after the gun and kept it throughout the first mile. In vain, apparently, did the brawny Yale men fight to get in front. Harvard seemed bent on killing off the Elis, for they raised their stroke to 36, but Yale hung right on with 32. The times at the mile were: Harvard, 5:06 2-5; Yale, 5:07 4-5, but in the next quarter mile the Yale men, without any noticeable increase of effort, drew level with the Harvard boat and, as if propelled by some mystic power, even gained a lead on them, crossing the mile-and-a-half mark half a length to the good in 7:40, with Harvard timed in 7:42. A length was gained at the two miles, Yale crossing in 10:03, Harvard 10:07 2-5. At the three miles Yale had a clear two lengths lead, covering the distance in 14:50 2-5, followed by Harvard nine seconds later. Both crews had been rowing a 32-stroke, but while Harvard's was jerky and uneven, the eight husky youths in Yale's boat worked together like a well-oiled machine. Never was a slide rushed, a splash made, nor was their boat for an instant off an even keel. Their reach, catch, pull, leg-drive and recovery were accomplished in marvellous rhythm, and in this perfect style, moving as one man, their glistening shell slid over the last mile, down between two separate flotillas of gaily-bedecked craft of all descriptions, amid the booming of cannon, shrieking of steam whistles and deafening cheers of the mighty multitude, finally crossing the finish line more than three lengths ahead in the very fast time of 20:19 4-5. Harvard's time was 20:29 3-5. Yale's physical condition was also perfect, for not a man was in distress after the race. In fact, her stroke felt so chipper that he jumped overboard and swam to the Yale launch. Not so the Harvard crew. Several of her men collapsed, and during the last mile of the race Captain McGrew, at stroke, was only sustained by having water splashed on him continually by the coxswain. The different crews were boated as follows:

Yale 'Varsity Eight—Bow, Waterman, captain; 2, Daly; 3, Stubbs; 4, Judson; 5, Whittier; 6, Miller; 7, Cross; stroke, Bogue; coxswain, Minor. Average age, 22; average weight, 170; average height, 6 feet.

'Varsity Finish at New London.

Yale Freshman Eight—Bow, Heckscher; 2, Swenson; 3, Morse; 4, Scott; 5, Chase; 6, McMahon; 7, Weeks; stroke, Whitney; coxswain, Muzzy.

Yale 'Varsity Four—Bow, Johnson; 2, Fish; 3, Auchincloss; stroke, Adams; coxswain, Le Blanc.

Harvard 'Varsity Eight—Bow, Swain; 2, Walcott; 3, George; 4, Foster; 5, Duffy; 6, Filly; 7, Lawson; stroke, McGrew, captain; coxswain, Litchfield. Average weight, 167½; average age, 21 2-3; average height, 5.08½.

Harvard Freshman Eight—Bow, Flint; 2, Judd; 3, Switzer; 4, White; 5, Kellogg; 6, Guild; 7, Burchard; stroke, Pleasanton; coxswain, Williams.

Harvard 'Varsity Four—Bow, Hartwell; 2, Webster; 3, Ayer; stroke, Dillingham; coxswain, Toy.

On the day following, June 26, the scene shifted to the picturesque four-mile Hudson River course at Poughkeepsie, where the crack oarsmen from Cornell University, coached by the peerless Charles Courtney, duplicated Yale's feat, and as they had also done in 1902, won all three races at the big annual intercollegiate regatta. Cornell's achievement, however, is much more impressive than Yale's, for in the 'varsity eight-oared event she was opposed by five other crews; in the freshman eight-oared race

by four other crews and in the four-oared event by Pennsylvania, Columbia and Wisconsin.

In the 'varsity race, Cornell's great superiority was apparent from the very first and at the mile she had a lead of one length. The eight had started with a 34 stroke, which at the mile was dropped to 28. This low stroke was maintained to within a short distance of the finish when it was raised to 30. Cornell finished the four miles in 18:57, and might easily have broken the record had they been called upon. The other crews finished as follows: Georgetown, 19:27; Wisconsin, 19:29 2-5; Pennsylvania, 19:30 2-5; Syracuse, 19:36 1-5; Columbia, 19:54.

The freshman eight finished in the following order: Cornell (two miles), 9:18 (breaking record of 9:19½, made by Yale in 1899); Syracuse, 9:22 1-5; Wisconsin, 9:32; Columbia, 9:41, and Pennsylvania, 9:44.

The result of the 'varsity four-oared race was: Cornell, first in, 10:34; Pennsylvania, second in, 10:35 4-5; Wisconsin, third in, 10:55 3-5, and Columbia, last in, 11:14. The Cornell crews were made up as follows:

'Varsity Eight—Bow, C. L. Edmondston; 2, E. A. Wadsworth; 3, E. E. Brandow; 4, T. J. Van Alstyne; 5, G. W. Foote; 6, R. W. Nutting; 7, C. A. Lueder; stroke, A. R. Coffin; coxswain, I. V. Buchanan.

Freshman Eight—Bow, W. F. Lee; 2, R. C. Barton; 3, C. P. Johnson; 4, P. Folger; 5, J. H. Whitehead; 6, H. L. Aller; 7, W. H. Forbes; stroke, E. T. Foote; coxswain, R. R. Slocum.

'Varsity Four—Bow, J. Schade; 2, J. Snyder; 3, A. Stone; stroke, L. F. Bruce.

From every point of view the thirty-first annual American rowing championships, held on Lake Quinsigamond, near Worcester, Mass., on August 13 and 14, under the auspices of the National Association of Amateur Oarsmen, was the most successful in the history of the sport in this country. This lake is a most ideal spot for a rowing course, and the inhabitants in its vicinity are all most enthusiastic over rowing and familiar with its fine points. Hence the 40,000 spectators that crowded the picturesque shores and every other possible point of vantage on the final day formed a thoroughly appreciative multitude. From this hotbed of oarsmen, the home of the Wachusetts Boat Club, came the undefeated Ten Eyck, the only American to ever win the Diamond Sculls at Henley, and other cracks almost as famous. The 1903 regatta witnessed, among other notable achievements, the advent of a new champion sculler, Frank B. Greer, of the East Boston Boat Club, who bids fair to also establish a title to everlasting fame in American rowing annals. Not only did he beat C. S. Titus, champion in 1901 and 1902, but also Ferdinand Demourelle, of New Orleans, and Frank Veseley, the Bohemian crack, and in so doing shattered all previous records for a mile and a half by an amateur. His time was 9:38¾. Our cousins from across the Canadian border made their presence severely felt by capturing all five of the events in which they were entered. Lou F. Scholes, of the Toronto Rowing Club, won the Association Single Sculls, defeating, among others, Veseley, in 9:56¼. In addition, he then rowed bow with F. S. Smith as stroke and they won the senior double sculls, beating the Atalanta Boat Club crew, of New York, in 9:14 for the mile and a half. The Winnipeg Rowing Club crew won the senior eight championship in 7:52, the senior international fours in 8:42¾, and the senior four shells in 9:04. No wonder the Dominion Government sent them a vote of thanks and appreciation! The intermediate double sculls was won by the Potomac Boat Club, of Washington in 9:31; the intermediate eight-oared event by the Jeffries Point Rowing Association, of East Boston, in 8:04¼, and their crew also captured the intermediate four-oared shell race in 9:08. W. H. Hodgkins, East Boston A. A. B. C., won the intermediate singles in 10:31. The Nonpareil Rowing Club couple from New York, Hoffman and McKinley, won the intermediate pair-oared shells in 10:21¼, and as there were no other starters in the senior pair-oared event, the Harlem Rowing Club, of New York, had a walkover in 11:09½. The war canoe race was won by the Crescent Canoe Club, of Waltham, Mass., over a mile straightaway in 7:18¾. The other races were all for a mile and a half with a turn except the eight-oared events, which were the same distance straightaway.

Equally successful was the annual regatta of the Middle States Regatta Association, held on the Potomac at Washington, Labor Day, over a very favorable course. It was a perfect day and the sixteen races were all run off without a hitch, although the entries exceeded in numbers those of the national regatta at Worcester. By far the most exciting event was the senior single event, in which Frank Veseley, of the Bohemian Boat Club, of New York, defeated Titus by five feet. R. H. Jackson, of Yonkers, easily won the intermediate singles. While all of the other events proved good contests, none of them was startling. The eight-oared crews rowed a mile and a half and all other crews one mile.

The first effort of the American Rowing Association to establish an "American Henley" on the Schuylkill was not a decided success. The Board of Stewards—probably in order to call attention to their existence—rejected the entries of several New York oarsmen whom the N. A. A. O. stamps as amateurs, without giving any reason for their rejection. This engendered bitter feeling among the New York clubs and all other metropolitan entries accordingly withdrew. The event of principal interest was the eight-oared race for the "Stewards' Cup." This was won by the Argonauts, of Toronto, with the Yale freshmen six lengths behind. Ernest George, of Harvard, representing the Boston A. A., won the single scull race for the Farragut Cup. No particular interest attached to the other races.

The annual Memorial Day regatta on the Harlem River last year was the biggest success in the history of the Harlem Regatta Association. In the race for senior eights the Columbia 'varsity won from the Dauntless Rowing Club. The New York Athletic Club's crew won the junior eight event by the small margin of one second from the Columbia freshmen in the best finish of the day. There were four other crews in this race. Titus refused to row in the senior singles, which was won by Veseley, of the Bohemian Boat Club, who defeated Demourelle, of New Orleans, a Henley aspirant. The other victors were: Association singles, William Varley, Atalanta B. C.; junior singles, H. E. Grant, Nassau B. C.; junior four-oared gigs, Bohemian B. C. crew; junior double sculls, Handley and Cothran, New York A. C.; junior pair-oared shells, won by Becannon and Owens, Atalanta B. C.; junior quadruple sculls, Nonpareil R. C.; senior double sculls, Veseley and Budrie, Bohemian B. C.; intermediate singles, William West, West Philadelphia B. C.; intermediate four gigs, Columbia University; Naval Reserve cutter race, Fourth Battalion; senior four shells, Philadelphia Barge Club.

In foreign collegiate rowing circles the event of chief importance was the great victory of Cambridge University in the annual race with Oxford, held over the historic 4¼-mile course from Putney to Mortlake on the Thames. At the finish the Cantabs were six boat lengths ahead of the Dark Blue after having covered the course in the creditable time of 19 minutes and 35 seconds. The race this year did not attract the usual enormous crowds that have heretofore lined the banks of the Thames for the entire length of the course, due no doubt to the fact that, owing to more favorable tide conditions, it was held on Wednesday (April 1) instead of on Saturday as formerly. The start was made at 3:30 in the afternoon and the Cambridge crew immediately shot ahead, rowing a clean cut 38 stroke, with Oxford pulling a 36. At Crab Tree Cambridge had gained almost a length and at the Hammersmith Bridge, about half the distance, the lead of the Light Blue had been increased to two lengths. Both crews were rowing 36 strokes. Cambridge seemed sure to win at Thorneycroft's, where they had a four-length lead, but at this point the Oxford crew showed that they were by no means dead by putting forth a great spurt that made up a full length of lost ground by the time they reached Devonshire Meadows. But at Barnes' Bridge, Cambridge had again pulled away to three and one-half lengths in advance, which by superior stamina, was increased to six lengths at the finish. Both crews had shown splendid oarsmanship throughout. By way of comparison between American and British college rowing, it might be noted that in their four-mile race both Oxford and Cambridge never dropped below a 36 stroke, while Yale's victory over Harvard was won by a 32 stroke, evenly maintained throughout, and Cornell's hollow victory at Poughkeepsie was accomplished with the surprisingly low stroke of 28 to the minute. And this after Courtney had created so much comment on his methods when the Cornell crew tried to win at Henley with a 44 stroke. The 1903 race between Oxford and Cambridge was the sixtieth between these crews. It was the twenty-sixth victory for Cambridge as against thirty-three wins for Oxford. The first race was in 1829, but it was not until 1856 that the event became an annual fixture. In 1877 the result was a tie. D. Milburn, of last year's Oxford crew, is an American, son of John D. Milburn, of Buffalo, in whose house President McKinley died. The crews were boated as follows:

Cambridge—Bow, W. H. Chapman (Third Trinity); 2, P. H. Thomas (Third Trinity); 3, S. R. Beale (First Trinity); 4, C. W. H. Taylor (Third Trinity); 5, J. S. Carter (Kings); 6, H. B. Grills (First Trinity); 7, J. Edwards-Moss (Third Trinity); stroke, R. H. Nelson (Third Trinity); coxswain, R. G. A. Scott (Trinity Hall).

Oxford—Bow, C. A. Willis (Magdalen); 2, A. K. Graham (Baliol); 3, A. de Long (New); 4, F. S. Kelly (Baliol); 5, H. W. Adams (University); 6, D. Milburn (Lincoln); 7, G. C. Drinkwater (Wadham); stroke, E. G. Monier-Williams (University); coxswain, F. H. T. Eyre (Keble). The record for the Putney-Mortlake course is 18:47, made by Oxford in 1893, and equalled by Cambridge in 1900.

The finals in the classic Henley Regatta, the English "Aquatic Derby," were rowed on the Thames, July 9. The only American entry, J. B. Juvenal, of Philadelphia, was beaten in his heat for the Diamond Sculls by J. Beresford, of the Kensington Rowing Club. In the final heat, F. S. Kelly, Balliol College, Oxford, the holder, again won after a hard race with Beresford. The time was 8 minutes 41 seconds. The Leander Club again won the Grand Challenge Cup for eights, defeating Third Trinity, Cambridge, in 7 minutes 9 seconds.

On Decoration Day, in the annual race for the second crews of Cornell, Pennsylvania and Harvard at Ithaca, Cornell won by five lengths, with Pennsylvania second, two lengths ahead of Harvard. The time of the victors for the two miles was 11 minutes 14½ seconds. Yale's second crew, made up of substitutes for the 'varsity eight, rowed the naval cadets over the two-mile course on the Severn at Annapolis, May 9, and won by three lengths, also making a new record for the course—10 minutes 45 seconds.

On May 2, at Annapolis, the United States Naval Academy crew defeated the University of Pennsylvania eight in a two-mile race in 12 minutes 43 1-5 seconds, but as the Quaker boat was swamped by the rough water half a mile from the finish, the cadets refused to accept the victory and the race was to have been rowed over again, but no date could be agreed upon.

In the annual race between the Yale and Columbia freshman crews, held on Lake Whitney, New Haven, May 16, the Yale youngsters won by half a length. The distance, a mile and an eighth, was covered in 6 minutes 40 2-5 seconds.

The second annual Harlem River Water Carnival and Parade was held over the Speedway Course, on Sunday, May 10. Over 75,000 people witnessed the spectacle of sixty-five gaily-decked racing craft passing up and down the river—everything, from single scullers to eight oared shells and barges.

INTERNATIONAL RACES.

1869—August 27, Putney-Mortlake course, Thames River, Oxford (England), Harvard (America), fours. Won by Oxford, three lengths. Time, 22:20 4-5.

1876—August 29, Philadelphia Centennial Regatta, Yale and Columbia (America), First Trinity, Cambridge (England), Dublin (Ireland), fours; mile and a half straightaway. Dublin beaten in first heat; Yale and First Trinity in second heat; Columbia withdrew.

September 1, same course, international interuniversity race. Yale won in 9:10¾; Columbia second, 9:20. First Trinity did not finish, one of the crew fainting.

1878—July 4, Henley-on-Thames Royal Regatta, Columbia (America), Dublin (Ireland), fours, 1 5-16 miles. Beaten in first trial heat for the Steward's Cup.

July 4-5, same regatta. Columbia won Visitors' Cup in 8:42, beating University College, Oxford; Jesus College, Cambridge; Hertford College, Oxford.

1881—July 2, Henley-on-Thames, Hertford College, Oxford (England), fours, defeated Cornell (America) easily.

1895—July 9-10, Henley-on-Thames, Royal Regatta, Grand Challenge Cup, 1 5-16 miles, eights. First heat Cornell (America) rowed over alone, Leander (England) failing to start; second heat Trinity Hall, Cambridge University (England), defeated Cornell by seven lengths in 7:15.

1896—July 7, Henley-on-Thames, Royal Regatta, 1 5-16 miles, Grand Challenge Cup, eights. Leander Rowing Club (England) defeated Yale (America) in first of trial heats.

1897—July 16, Henley-on-Thames, Royal Regatta, 1 5-16 miles, "Diamond Sculls." Edward Hanlan Ten Eyck (America) defeated H. T. Blackstaffe (England) in final heat. Time, 8:35.

1898—July 7, Henley-on-Thames, Royal Regatta, 1 5-16 miles, for "Diamond Sculls." Won by B. H. Howell (America), who defeated H. T. Blackstaffe (England) in 8:29, best time ever made on the course.

1901—July 3-4, Henley-on-Thames, Royal Regatta, 1 5-16 miles, Grand Challenge Cup, eights. University of Pennsylvania (America) defeated London Rowing Club (England) in 7:01 2-5; second heat, University of Pennsylvania defeated Thames Rowing Club in 7:22; third heat, Leander Rowing Club (England) defeated University of Pennsylvania in 7:04 4-5.

July 13, at Lake Killarney, Ireland, special match, 3 miles. University of Pennsylvania (America) defeated Dublin (Ireland) by thirty lengths in 16:19 4-5.

1902—July 8-10, Coronation Henley Regatta, "Diamond Sculls." Won by F. S. Kelly, Baliol College, Oxford (England), C. S. Titus (American) and L. Scholes (Canada). Time, 8.59. Grand Challenge Cup won by Third Trinity, Cambridge University (England), over Argonaut Rowing Club (Toronto, Canada). Time, 7:17.

GOLF, 1903.

W. A. CURLEY.

The superiority of English golfers over Americans, a fact not disputed by our experts, was emphasized strongly during the season of 1903. A team of Oxford and Cambridge players made a tour of this country, and out of ten matches played here against representative American teams won eight, squared one and lost the other. These collegians, clever on the links though they are, do not rank with the leading exponents of the sport in Great Britain. Yet the only time they were defeated in this country they were pitted against a picked all-American team made up of the cleverest golfers in this country. And in this contest, which was at 36 holes, individual play, each match to count as one point, the visiting aggregation was vanquished by the narrow margin of one point in a sensational finish.

The match that decided this event was a highly interesting one between George T. Brokaw, American, and J. T. Bramston, considered one of the steadiest of the foreigners. Honors were even on the home hole, and two extra holes were required, Brokaw winning the thirty-eighth and the match.

The English team consisted of Captain J. L. Low, P. W. Leathart, N. F. Hunter, D. F. Ransom, Cambridge; H. W. Beveridge, C. N. Day, G. D. Barne, H. G. B. Ellis, T. M. Hunter, J. A. T. Bramston and C. H. Allison, Oxford. All the players used the lively rubber cored ball with the exception of Mr. Bramston, who remained true to the gutta percha sphere, with which he performed fully as well, if not better, than his colleagues. An intercollegiate team faced the Britons in their opening match at Myopia August 11 and 12. The Englishmen were the victors in both foursomes and singles. Against an all-Massachusetts team the visiting collegians played at Essex County the next day, at the end of which honors were even, as the invaders won the foursome by a point and lost the singles by the same margin. The next international matches took place at Chicago, where, on the Wheaton links, August 17, the English beat the Western Golf Association team at both singles and foursomes. Two days later they played an all-Chicago team on the Glen View links, at singles, and won easily.

Returning East the foreigners played their next match at Garden City August 24 against a metropolitan team. In the singles they were badly beaten, but earned the victory by making a clean sweep of the doubles. Several days later they met a Long Island team at individual play, and had no trouble defeating their rivals. Then, on August 29, at Garden City, L. I., an all-Eastern combination failed dismally against Johnny Bull's team, losing in both events. Next came the sole reverse of the Englishmen, on September 7, at the Nassau links, when they played the all-American team. They triumphed over the best New Jersey experts on September 9, and on September 14 fittingly ended their successful tour when they did not permit an all-Philadelpiha team to score a single point in either singles or foursomes.

Miss Bessie Anthony.

Most gratifying to the critics of golf in America was the outcome of the national amateur championship, in which Walter J. Travis, who twice before had held the title, was again restored to the throne. The result sustained the contention that had been made by them—that the championship of 1902 was more or less of a fluke. In that event Travis was eliminated in third round by E. M. Byers, who was subsequently beaten by Louis N. James in the concluding match. As a champion James did not shine with any great amount of lustre. He entered Princeton shortly after acquiring the honor and shocked golfing circles by not even qualifying for match play in the college tournament. In the 1903 tournament for the title of champion James was not regarded as a dangerous factor, and, indeed, he was not, being retired in his very first match. On the other hand, from the start of the season Travis played consistently in match after match, meeting the best players we have, and in few instances did he fail to conquer his antagonist. So, in consequence,

when he teed off for his first round in the championship he was a pronounced favorite. Travis gave those who pinned their faith to him no cause for worry. In the early rounds he was favored by the luck of the draw, but toward the finish, when he was opposed by really formidable players, he won just as decisively as he did when meeting his less expert foes. His hardest match occurred in the fifth round, when he beat George T. Brokaw 1 up. In the semi-finals F. O. Reinhart, a Princeton player, met his fate against Travis, while Byers, who was the runner-up in the 1902 tournament, again occupied that position. The year before Byers put Travis out of the championship, but this time he met Travis at his true form and easily succumbed, 5 up and 4 to play.

Quite some controversy was occasioned by the adoption of the English system of playing the championships. This did away with a qualifying round at medal play, the contestants being paired off for matches from the start. The same diversity of opinion regarding the merits of the plan that existed before the experiment was made prevailed after the initial trial.

The awarding of the women's championship to Chicago in 1903 caused quite a "tempest in a teapot" among the numerous feminine devotees of the old Scottish pastime. Many of the Eastern players, among their number being Mrs. Charles T. Stout (nee Genevieve Hecker), the 1902 champion, declined to go West to compete, and their desertion robbed the affair of no little interest. The visit of Miss Rhona Adair, the English champion, afforded the fair Easterners an opportunity of arranging a tournament that was a sort of rival function to the big event in the West. This tourney was won by Miss Adair, who plays a superb game. Later, in several other contests in which she competed here, she met with similar success. The national contest proved a victory for Miss Bessie Anthony, who played a prominent part in the 1902 championship and won the Western title emblematic of supremacy among the fair sex.

NATIONAL AMATEUR CHAMPIONSHIP.

(Played on Nassau Links, Glen Cove, L. I., September 1 to 5.)

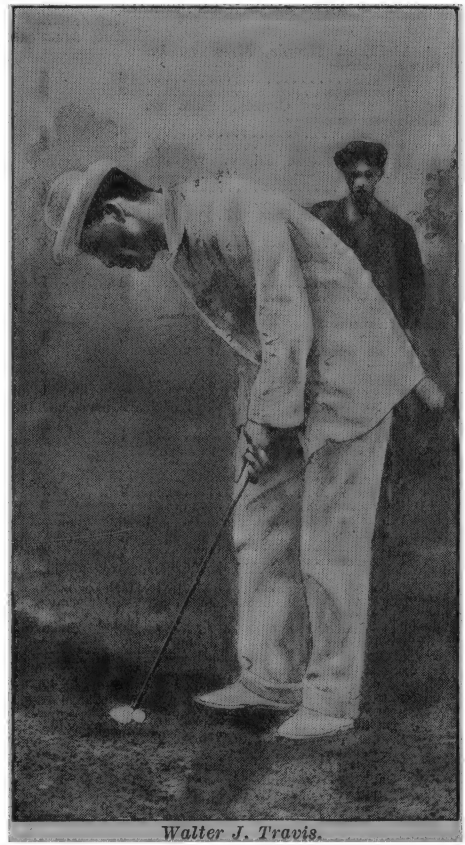
PRELIMINARY ROUND.

George F. Willett, Oakley Country, beat H. McSweeney, Oil City, 7 up and 5 to play; F. L. Hamilton, Storm King, beat R. H. Connelly, Austin, by default; F. C. Jennings, Garden City, beat C. Truesdale, Fairfield, by default; F. S. Douglas, Nassau, beat E. W. Alexander, Detroit, 9 up and 8 to play; B. D. Smith, Onwentsia, beat G. A. Thorne, Glen View, 8 up and 7 to play; R. S. White, New Haven, beat Newton Ames, Detroit, 4 up and 3 to play; G. A. Ormiston, Highland, beat F. O. Horstmann, Chevy Chase, 4 up and 3 to play; H. B. McFarland, Huntingdon Valley, beat J. W. Baker, Princeton, 3 up and 1 to play; W. C. Fownes, Jr., Highland, beat N. Mallouf, Fox Hills, 6 up and 4 to play; W. P. Smith, Huntingdon Valley, beat A. R. Fish, Hillside, by default; H. C. Egan, Exmoor, beat L. L. Harban, Columbia, 1 up; M. McBurney, Stockbridge, beat O. E. Stevens, Nassau, 9 up and 7 to play; H. M. Brittin, Englewood, beat Wylie Carhart, Detroit, 3 up and 2 to play; A. C. Williams, Philadelphia, beat A. J. Wellington, Woodlawn, 6 up and 5 to play; William Waller, Onwentsia, beat H. J. Tweedie, Belmont, by default; W. P. Pickett, Crescent, beat T. K. Loughlin, Allegheny, 6 up and 4 to play; R. Havemeyer, Seabright, beat C. B. Calvert, Philadelphia, 2 up and 1 to play.

FIRST ROUND.

E. W. Judd, Oil City, beat O. T. Thompson, Allegheny, by default; Charles B. Cory, Wollaston, beat A. B. Lamberth, Glen Echo, by default; Paul Murphy, Garden City, beat W. B. Wheeler, Brooklawn Country, by default; George J. Cooke, Philadelphia Country, beat E. A. Downey, Apawamis, by 5 up and 4 to play; C. B. Fownes, Highland, beat R. H. Kennordell, Oil City, by default; Harold Weber, Inverness, beat Harold S. Naylor, Philadelphia Cricket, by 5 up and 3 to play; Max H. Behr, Morris County, beat Devereux Emmet, Garden City, by 2 up and 1 to play; Daniel Chauncey, Dyker Meadow, beat E. E. Giles, Pittsburg, by default; Harold Wilcox, Montclair, beat James H. Snowden, Oil City, by default; Frank C. Talmadge, Hillside Tennis and Golf, beat Raymond Russell, Detroit Country, by default; Howard Giffin, East Orange, beat William Findlay Brown, Philadelphia Cricket, by default; Percy H. Jennings, St. Andrews, beat Paul D. O'Connor, Fox Hills, by 1 up in 20 holes; J. D. Travers, Nassau, beat Dr. Simon Carr, Huntingdon Valley, by 2 up and 1 to play; Nicholas Williamson, New Brunswick, beat N. Stewart Campbell, Agawam Hunt, by 2 up and 1 to play; Chadwick Sawyer, Midland, beat Grenville Kane, Tuxedo, by 4 up and 2 to play; T. D. Hooper, Nassau Country, beat C. H. Nattern, Oil City, by 4 up and 2 to play; F. O. Reinhart, Baltusrol, beat Thomas M. Marshall, Jr., Pittsburg, by 5 up and 3 to play; John C. Davidson, Columbia, beat L. H. Conklin, Princeton, by 1 up in 19 holes; Chisholm Beach, Point Judith Country, beat R. E. Sprott, Brooklawn Country, by 5 up and 3 to play; A. W. Tillinghast, Philadelphia Cricket, beat Wirt L. Thompson, Huntingdon Valley, by 4 up and 2 to play; Walter J. Travis, Garden City, beat William S. Eyster, Allegheny Country, by 8 up and 7 to play; William H. Hicks, Nassau Country, beat A. L. Norris, Dyker Meadow, by 3 up and 2 to play; Josiah Macy, Morris County, beat Price Collier, Tuxedo, by up; G. W. Bergner, St. Davids, beat William B. Rhett, Crescent Athletic, by 2 up and 1 to play; W. H. Haines, Highland, beat Allen T. Haight, Glen View, by 6 up and 4 to play; Archibald Graham, North Jersey Country, beat Louis N. James, Glen View, by 4 up and 2 to play; George T. Brokaw, Deal, beat John M. Sellers, Glen View, by 6 up and 4 to play; Jasper Lynch, Lakewood, beat Matthew T. Murray, Englewood, by 4 up and 3 to play; Walter E. Egan, Exmoor, beat James M. Rhett, Crescent Athletic, by 2 up; R. D. Bokum, Jr., Glen View, beat John F. Byers, Allegheny Country, by 8 up and 6 to play; H. C. Fownes, Highland, beat M. Frederic O'Connell, Alpine, by 4 up and 2 to play; J. W. Watson, St. Davids, beat S. Y. Ramage, Oil City, by 6 up and 4 to play; Howard R. Townsend, Nassau, beat H. Mason Day, Fairfield County, by 7 up and 6 to play; Arthur Havemeyer, Seabright, beat S. J. Graham, Fairfield, by 2 up and 1 to play; H. F. Whitney, Nassau, beat John M. Ward, Fox Hills, 2 up; John Moller, Jr., Lakewood, beat John E. Porter, Allegheny Country, 1 up; W. R. Tuckerman, Stockbridge, beat W. C. Carnegie, St. Andrews, 3 up and 2 to play; Park Wright, Buffalo Country, beat Joseph F. Steir, Fox Hills, by default; E. M. Byers, Allegheny, beat C. G. Cassells, Crescent A. C., by default; J. B. C. Tappin, Nassau, beat Harold I. Downey, Apawamis, by default; Roswell F. Mundy.

Miss Rhona Adair.



Riverside Club, beat Frederick H. Thomas, Morris County, 5 up and 3 to play; L. L. Kellogg, Jr., Deal, beat A. G. Lockwood, Allston, 3 up and 1 to play; Arthur F. Schwartz, Audubon, beat Ralph Carroll, Fairfield, 1 up; Roger Lapham, Apawamis, beat Andrew T. Sherman, Eastern Parkway, 1 up in 20 holes; Charles H. Seeley, Weeburn, beat E. S. Knapp, Westbrook, 2 up; Dr. D. F. Fredericks, Oil City, beat E. S. Armstrong, Deal, 5 up and 4 to play; Howard W. Perrin, Philadelphia Cricket, beat Maturin Ballou, Apawamis, 1 up in 19 holes; James A. Stillman, Garden City, beat Thomas D. Thacher, Englewood, 2 up and 1 to play; F. J. O. Alsop, New Haven Country, beat Malcolm Graham, Jr., Apawamis, by default; J. T. Cady, Rock Island Arsenal, beat J. Frank Turner, Wyoming Valley Country, 2 up and 1 to play; Charles W. O'Connor, Essex County, and Tracy L. Smith, New Brunswick, defaulted; Herbert L. Riker, Oakland, beat E. A. McFall, Austin, 5 up and 4 to play; Malcolm McBurney, Stockbridge, beat Howard M. Brittin, Englewood, 3 up and 2 to play; Dr. Walter S. Harban, Columbia, beat Knowlton M. Ames, Glen View, 5 up and 3 to play; George F. Willett, Oakley Country, beat S. M. Reid, St. Andrews, 6 up and 5 to play; W. J. Evans, Ekwanok Country, beat E. H. Brown, Euclid, 1 up in 20 holes; F. C. Jennings, Garden City, beat F. L. Hawtorn, Storm King, 8 up and 7 to play; Bruce D. Smith, Onwentsia, beat Findlay S. Douglas, Nassau Country, 5 up and 4 to play; G. A. Ormiston, Highland, beat Roger S. White, 2d, New Haven Country, 3 up and 2 to play; H. B. McFarland, Huntingdon Valley Country, beat W. C. Fownes, Jr., Highland, 3 up and 1 to play; H. Chandler Egan, Exmoor Country, beat W. P. Smith, Huntingdon Valley Country, 2 up; Alexander C. Williams, Philadelphia Country, beat William Waller, Onwentsia, 3 up and 2 to play; W. P. Pickett, Crescent A. C., beat Raymond Havemeyer, Seabright, 4 up and 3 to play.

SECOND ROUND.

Cook beat Judd, 2 up and 1 to play; Weber beat Cory, 2 up and 1 to play; P. H. Jennings beat Travers, 4 up and 2 to play; Murphy beat Williamson, 4 up and 3 to play; Sawyer beat C. B. Fownes, 5 up and 4 to play; Reinhart beat Hooper, 4 up and 2 to play; Behr beat Davidson, 4 up and 3 to play; Beach beat Chauncey, 1 up; Tillinghast beat Wilcox, 2 up and 1 to play; Travis beat Macy, 6 up and 4 to play; Hicks beat Bergner, 4 up and 3 to play; Graham beat Haines, 7 up and 6 to play; Brokaw beat Lynch, 4 up and 3 to play; Egan beat Bokum, 1 up; H. C. Fownes beat Watson, 2 up and 1 to play; Talmage beat Townsend, 2 up and 1 to play; A. Havemeyer beat Whitney, 1 up (20 holes); Giffin beat Moller, 2 up and 1 to play; Frelinghuysen beat Lapham, 4 up and 3 to play; Tuckerman beat Wright, 1 up; Byers beat Tappin, 6 up and 5 to play; Kellogg beat Mundy, 3 up and 1 to play; Seeley beat Schwartz, 4 up and 3 to play; Perrin beat Fredericks, 1 up; Stillman beat Evans, 2 up and 1 to play; Cady, default; Riker beat Alsop, 2 up and 1 to play; Willett beat Harban, 7 up and 6 to play; Smith beat F. C. Jennings, 4 up and 2 to play; Ormiston beat McFarland, 2 up and 1 to play; H. C. Egan beat McBurney, 5 up and 4 to play; Williams beat Pickett, 4 up and 3 to play.

THIRD ROUND.

Weber beat Cooke, 5 up and 4 to play; Murphy beat Jennings, 4 up and 2 to play; Reinhart beat Sawyer, 5 up and 4 to play; Behr beat Beach, 2 up; Travis beat Tillinghast, 3 up and 2 to play; Graham beat Hicks, 5 up and 4 to play; Brokaw beat W. E. Egan, 5 up and 4 to play; Fownes beat Talmge, 3 up and 2 to play; Giffin beat A. Havemeyer, 1 up (21 holes); Tuckerman beat Frelinghuysen, 2 up and 1 to

Walter J. Travis.

play; Byers beat Kellogg, 2 up and 1 to play; Perrin beat Seeley, 3 up and 2 to play; Cady beat Stillman, 1 up; Willett beat Riker, 1 up; B. D. Smith beat Ormiston, 1 up; Williams beat H. C. Egan, 2 up.

FOURTH ROUND.

Murphy beat Weber, 1 up (19 holes); Reinhart beat Behr, 6 up and 5 to play; Travis beat Graham, 5 up and 4 to play; Brokaw beat Fownes, 3 up and 2 to play; Byers beat Perrin, 5 up and 3 to play; Tuckerman beat Giffin, 6 up and 5 to play; Cady beat Willett, 5 up and 4 to play; Smith beat Williams, 1 up (19 holes).

FIFTH ROUND.

Reinhart beat Murphy, 5 up and 4 to play; Travis beat Brokaw, 1 up; Smith beat Cady, 4 up and 2 to play; Byers beat Tuckerman, 1 up.

SEMI-FINAL ROUND.

Travis beat Reinhart, 5 up and 4 to play; Byers beat Smith, 5 up and 4 to play.

FINAL ROUND FOR CHAMPIONSHIP.

Travis beat Byers, 5 up and 4 to play.

PAST HOLDERS OF MEN'S NATIONAL AMATEUR GOLF CHAMPIONSHIP.

1895—C. B. MacDonald; won at Newport G. C.
1896—H. J. Whigham; won at Shinnecock Hills G. C.
1897—H. J. Whigham; won at Chicago G. C.
1898—F. S. Douglas; won at Morris County C. C.
1899—H. M. Harriman; won at Onwentsia C. C.
1900—W. J. Travis; won at Meadowbrook C. C.
1901—W. J. Travis; won at Atlantic City G. C.
1902—L. N. James; won at Glen View G. C.

WOMAN'S NATIONAL GOLF CHAMPIONSHIP.

Chicago Golf Club Links, Sept. 29 to Oct. 2, 1903. (Score of qualifying round is given in parenthesis).

FIRST ROUND.

Mrs. C. L. Deering (114), Midlothian, beat Miss Mabel Higgins (110), Midlothian, 7 up and 5 to play; Miss Edith Collins (116), St. Louis C. C., beat Miss F. C. Griscom (114), Philadelphia, 2 up and 1 to play; Miss E. Robertson (120), Glen View, beat Mrs. P. Manchester (118), Glen View, 5 up and 4 to play; Miss Fanny Osgood (107), Boston, beat, Miss Elizabeth Young (114), Calumet C. C., 8 up and 7 to play; Miss Bessie Anthony (99), Glen View, beat Mrs. R. H. Barlow (97), Merion C. C., 6 up and 4 to play; Mrs. Caleb B. Fox (94), Philadelphia, beat Miss Lillian Biddle (114), Philadelphia, 3 up and 1 to play; Miss Frances Everett (103), Exmoor C. C., beat Mrs. W. B. McIlvaine (117), Onwentsia, 2 up and 1 to play; Miss J. S. Spencer (108), Philadelphia, beat Miss Katherine Moulton (113), Minneapolis, 7 up and 5 to play; Miss J. A. Carpenter (99), Westward Ho, beat Mrs. A. H. Brower (109), Chicago Golf Club, 1 up; Miss Louisa A. Wells (101), Boston, beat Mrs. Elliott Rodgers (119), Pittsburg, 6 up and 5 to play; Miss Georgiana Bishop (102), Brooklawn C. C., beat Mrs. L. G. McNair (114), St. Louis, 8 up and 7 to play; Miss Margaret Morris (113), Evanston G. C., beat Miss A. E. Murray (119), Wilmington C. C., 4 up and 3 to play; Miss H. Bishop (114), St. Paul, beat Mrs. H. A. Beidler (120), Lake Geneva, 2 up and 1 to play; Miss Katherine Harley (107), Fall River, beat Miss M. Kenney (120), Minneapolis, 3 up and 2 to play; Miss Miriam Anthony (117), Evanston, beat Miss Florence Borden (111), Fall River, 5 up and 4 to play; Mrs. W. A. Alexander (113), Exmoor C. C., beat Miss Jane Durel (118), Edgewater G. C., 3 up and 2 to play.

SECOND ROUND.

Mrs. C. L. Deering beat Miss Edith Collins, 4 up and 3 to play; Miss Fannie Osgood beat Miss Robertson, 5 up and 3 to play; Miss Bessie Anthony beat Mrs. Caleb B. Fox, 5 up and 3 to play; Miss Frances Everett beat Miss Jane S. Spencer, 1 up (19 holes); Miss J. Anna Carpenter beat Miss Louisa A. Wells, 5 up and 4 to play; Miss Georgiana Bishop beat Miss Margaret Morris, 8 up and 7 to play; Miss Katherine Harley beat Miss Helen Bishop, 7 up and 6 to play; Mrs. W. A. Alexander beat Miss Miriam Anthony, 5 up and 4 to play.

THIRD ROUND.

Miss Fannie Osgood beat Mrs. C. L. Deering, 9 up and 7 to play; Miss Bessie Anthony beat Miss Frances C. Everett, 4 up and 2 to play; Miss J. Anna Carpenter beat Miss Georgiana Bishop, 1 up; Miss Katherine Harley beat Mrs. W. A. Alexander, 7 up and 6 to play.

SEMI-FINAL ROUND.

Miss Anthony beat Miss Osgood, 1 up; Miss Carpenter beat Miss Harley, 3 up and 1 to play.

FINAL ROUND AND CHAMPIONSHIP.

Miss Bessie Anthony, Glen View, beat Miss J. Anna Carpenter, Westward Ho, 7 up and 6 to play.

PAST HOLDERS OF WOMEN'S NATIONAL CHAMPIONSHIP.

1895—Miss B. Hoyt; won at Meadowbrook C. C.
1896—Miss B. Hoyt; won at Morris County C. C.
1897—Miss B. Hoyt; won at Essex County C. C.
1898—Miss B. Hoyt; won at Ardsley C. C.
1899—Miss R. Underhill; won at Philadelphia C. C.
1900—Miss F. Griscom; won at Shinnecock Hills G. C.
1901—Miss G. Hecker; won at Baltusrol G. C.
1902—Miss G. Hecker; won at Brookline G. C.

NATIONAL OPEN CHAMPIONSHIP.

Played on Baltusrol (N. J.) Links, June 27, 28 and 29. Willie Anderson, Apawamis, and David Brown, Wollaston, tied at the end of the 72 holes, with scores of 307, which equalled the record for this country, made the previous year by Auchterlonie. On the play-off, at 18 holes, Anderson won by 2 holes. The third man was Stewart Gardner, Garden City, 315; fourth, Alex Smith, Nassau, 316; fifth, Donald Ross, Oakley, 318; sixth, Jack Campbell, Brookline, 319; seventh, L. Auchterlonie, Glen View, 321; eighth, Findlay S. Douglas, Nassau, 322; tie for ninth between John Hobens, Yountokoh, 323, Willie Smith, Midlothian, 323, and Alex Ross, Wilmington, 323; twelfth, Horace T. Rawlins, Waumbek, 324; tie for thirteenth between Isaac Mackie, Fox Hills, 325, and F. O. Reinhart, Princeton, 325; tie for fifteenth between Alex Campbell, Brookline, 326, Gilbert Nicholls, St. Louis, 326, and Walter J. Travis, Garden City, 326; eighteenth, Bernard Nicholls, Hollywood, 328; tie for nineteenth between Will Norton, Deal, 329, and David Ogilvie, Baltusrol, 329.

1902—Lawrence Auchterlonie; won at Garden City G. C.

INTERCOLLEGIATE CHAMPIONSHIP.

Played at Garden City, L. I., Oct. 20-24.

TEAM CHAMPIONSHIP.

First Round—Yale beat University of Pennsylvania 16½ to 1½ points.

Semi-Final Round—Harvard beat Yale 9½ to 2; Princeton beat Columbia 20 to 0.

Final Round for Championship—Harvard beat Princeton 21½ to 2½.

INDIVIDUAL CHAMPIONSHIP.

Medal Round—Won by W. C. Chick, Harvard, with 80.

(1902 Amateur National Champion James competed, but did not qualify).

Final Round for Championship—F. O. Reinhart, Princeton, beat Chick, 4 up and 3 to play.

PAST HOLDERS OF INDIVIDUAL INTERCOLLEGIATE CHAMPIONSHIP.

1897—L. P. Bayard, Jr., Princeton.
1898—(May) J. F. Curtis, Harvard.
1898—(October) John Reid, Jr., Yale.
1899—Percy Pyne 2d, Princeton.
1900—Halstead Lindsley, Harvard.
1902—(May) Charles Hitchcock, Jr., Yale.
1902—(October) H. Chandler Egan, Harvard.

MEN'S METROPOLITAN CHAMPIONSHIP.

Played at Deal Beach, N. J., May 27 to 30.

Medal Round—Won by Dr. D. Le Roy Culver, Jersey City, whose card was protested, and the first prize given to the second man, Walter J. Travis, Garden City.

Final Round for Championship—Findlay Douglas, Nassau C. C., defeated John Moller, Jr., Lakewood, 10 up and 8 to play.

W. J. Travis held the championship in 1902.

WOMEN'S METROPOLITAN CHAMPIONSHIP.

Played on Richmond County Links, Staten Island, June 3 to 7.

Final Round for Championship—Mrs. E. A. Manice, Baltusrol, defeated Miss Louise Vanderhoef, Ardsley, 4 up and 3 to play. In the semi-final round Mrs. Stout, the national champion was defeated, as she was in the same round in 1902. There was no qualifying round. Mrs. Manice held the championship in 1902.

ENGLISH GOLF CHAMPIONSHIPS.

The National Amateur Championship of Great Britain for 1903 was won by R. Maxwell, with H. Hutchinson as the runner-up.

The Open Championship of Great Britain was won by Harry Vardon, 300; Tom Vardon, 306, second; Jack White, 208, third.

MEN'S NEW JERSEY CHAMPIONSHIP.

Played on Baltusrol Links, June 4 to 7.

Final Round for Championship—Marc M. Michael, Yountakah C. C., defeated N. B. Cole, Baltusrol, 5 up and 3 to play.

WESTERN OPEN CHAMPIONSHIP.

Played at Milwaukee, Wis., July 16 and 17.

Won by Alex Smith, Nassau, 318; David Brown, Wollaston, and L. Auchterlonie, Glen View, tied for second, at 320; Hart Turpie, 321, fourth, and Willie Anderson, Apawamis, 323, fifth.

WESTERN MEN'S AMATEUR CHAMPIONSHIP.

Played at Cleveland, O., August 4 to 8.

Final Round for Championship—Walter Egan defeated H. Chandler Egan, 1 up on the 37th hole.

WESTERN WOMEN'S AMATEUR CHAMPIONSHIP.

Played at Chicago, Ill., September 8 to 12.

Final Round for Championship—Miss Bessie Anthony, Glen View, defeated Miss Mabel Higgins, Midlothian, 3 up and 2 to play.

ANNUAL INTERCITY TEAM MATCHES OF 1903.

For the first time in four years the Philadelphia Golf Association won the 72-hole 2-green match from the Metropolitan Golf Association, beating the latter team by 12 holes. The first half of the match was played in May and the second half in October.

Boston women for the second time won the Griscom Cup, played for on Boston links October 28 and 29. In the first match the Philadelphia team beat the New York women 24 to 15. In the deciding match the Philadelphia women were defeated 46 to 5.

LONGEST DRIVE.

January 17 Walter J. Travis broke the driving record of 341 yards, held by Tait, of England, on the Garden City Links when he shot the ball with one stroke 382 yards.

POLO IN 1903.

H. L. HERBERT, Secretary National Polo Association.

Polo enjoyed during the season of 1903 a greater degree of popularity than ever before in this country. There were more games played and a much larger number of men devoted their time to this exhilarating pastime than in any previous year in the history of the sport. On account of the large number of beginners many of the matches were not up to the standard of former years, when Rockaway, Meadow Brook, Myopia, Westchester and Philadelphia had star teams in the field.

A sure sign of the increasing interest being taken in the game is the fact that six new clubs became members of the Polo Association at the beginning of the season of 1903, bringing the total membership of the association up to thirty-one. The new members are the Army Polo Club, New Orleans Polo Club, Albany Polo Club, Rochester Polo Club, Rumford Polo Club, of Providence, R. I., and Norfolk Polo Club, of Boston.

The past season will be particularly noteworthy for the extraordinary number of young players who came to the front as skilful horsemen and clever handlers of the mallet. In fact, the new blood, such as Kingdon Gould, Jay Gould, Adelbert Ames, Victor Mather, F. D. Cochrane, Cortlandt Dixon, Jr., and Dan Chauncey, will undoubtedly, in a very few years, be rated as high as some of the cracks who have been for years at the top of the heap, and it is only a matter of time when they will be fighting to maintain their positions as the best players in the United States.

A new element has come into the game in this country that is likely to be of great benefit to the sport in every way. This is the army element. There is now an army league composed of twelve clubs. Practically every army post in the West now has a polo club, and the game is a part of the daily routine at West Point. How popular the game is in militia circles is shown by the fact that Squadron A, of the New York National Guard, has almost one hundred active members. One of the most interesting matches of the past season was the Spring contest between Squadron A and West Point, the militiamen winning by a score of 15¾ to 6.

The colleges are also taking up the sport in earnest. Yale, Princeton and Harvard have polo clubs, and I look to see Pennsylvania and Columbia represented on the polo field in the near future. While no intercollegiate championship has yet been held, it wont be long before a series of contests to decide the college championship will be an annual event. The colleges have not enough good players as yet to make much of a showing in the game, so have been playing second-rate teams. Yale defeated the second team of Squadron A by a score of 5½ to 2¾, and later on beat the first team of the Squadron 9 to 4. Princeton lost to the second team of Devon by a score of 11¼ to 5.

The most active and at the same time the most successful club of the year was the Bryn Mawr Polo Club. This organization won the Radnor Challenge Cups, Harrison Cups, Gougbacres Cups, Newport Cups, Westchester Cups, Ladies' Challenge Cups, Narragansett Cups and the Brenton Reef Cups.

Bryn Mawr was also the runner-up in both the junior and senior championships.

The Lakewood team, captained by George Gould, competed a great deal less than it did in 1902. The team won, however, the Herbert Trophies, Georgian Cups and the junior championship. The senior championship went to the Country Club of Westchester, the team being composed, with one exception, of the men who captured the event under the colors of the Lakewood Club. There was no international contest during the past year, owing to the injury of W. H. Buckmaster, who would have been the mainstay of the English team.

Two army officers, Captain Vaughn and Major Ansel, who were slated to play on the English team, could not get leave of absence, and this fact also tended to prevent the international match. There is little doubt, however, of an English team visiting America during the present year. In the international match of 1902, held at Hurlingham, England, the Englishmen defeated the Americans in two games out of three. The American team will undoubtedly make a better showing under their own rules and on the home grounds. The committee of the Polo Association will endeavor to have a representative and eligible team enter for the international polo events at the grounds of the Societie of Polo at Paris in June next, when the handsome trophies presented by Mr. James Gordon Bennett will be competed for.

Senior championship, held on the grounds of the Country Club of Philadelphia, at Bala, Pa., in June.

First Gace—Bryn Mawr defeated Philadelphia by a score of 12½ to ¼.

Handicap tournament for the Karlstein Cups, held on the grounds of the Dedham Polo Club, at Dedham, Mass., in September. Final Game—The Dedham Polo Club (handicap 16) defeated the Myopia Hunt Club (handicap 16) by a score of 10 to 5.

Handicap tournament for the Dedham Cups, held at Dedham, Mass., in September. Final Game—The Myopia Hunt Club, first team (handicap 18), defeated the Dedham Polo Club, first team (handicap 21), by a score of 10½ to 8¼.

Handicap tournament for the Rumford Cups, held at Providence, R. I., in September. Final Game—The Myopia Hunt Club, second team (handicap 10), defeated the Dedham Polo Club, second team (handicap 10), by a score of 10 to 3¾.

Handicap tournament for the Hitchcock Cups, held at Saratoga in July. Final Game—The Buffalo Polo Club (handicap 4), defeated the Saratoga Polo Club (handicap 9), by a score of 14¾ to 3.

Handicap tournament for the Newport Cups, held on the grounds of the Country Club of Westchester, at Newport, in August. Final Game—The Bryn Mawr Polo Club (handicap 13) defeated the Country Club of Westchester, second team (handicap 11), by a score of 7¼ to 6¾.

Handicap tournament for the Westchester Cups, held on the grounds of the Country Club of Westchester, at Newport, in August. Final Game—The Bryn Mawr Freebooters won through the default of second team of Westchester.

Handicap tournament for the Hamilton Cups, held on the grounds of the Myopia Hunt Club, at Hamilton, Mass., in August. Final Game—The Myopia Hunt Club, first team (handicap 11), defeated the Myopia Hunt Club, second team (handicap 9), by a score of 7½ to 6½.

Handicap tournament for the Meadowbrook Cups, held at Westbury, L. I., in June. Final Game—Meadow Brook, first team (handicap 19), defeated the Country Club of Westchester, second team (handicap 12), by a score of 10 to 9.

Handicap tournament for Pembroke Cups, held at Bryn Mawr, Pa., in June. Final Game—Country Club of Philadelphia, first team (handicap 16), defeated Bryn Mawr Polo Club, first team (handicap 23), by a score of 10 to 6.

Handicap tournament for the Goughacres Cups, held at Bala, Pa., in June. Final Game—The Bryn Mawr Polo Club, first team (handicap 23), defeated

the Bryn Mawr Polo Club, second team (handicap 10), by a score of 17 to 14½.

Handicap tournament for the Rumson Cups, held at Rumson, N. J., in June. Final Game—The Country Club of Westchester, second team (handicap 12), defeated the Rumson Polo Club, first team (handicap 10), by a score of 13 to 9.

Handicap tournament for the Herbert Trophies, held at Georgian Court, Lakewood, N. J., in April. Final Game—Lakewood, first team (handicap 15), defeated Westchester, second team (handicap 12), by a score of 13 to 5¾.

Handicap tournament for the Georgian Court Cups, held at Georgian Court, Lakewood, N. J., in May. Final Game—Lakewood, first team (handicap 15), defeated Westchester, first team (handicap 35), by a score of 22 to 12.

Handicap tournament for the Squadron A Trophies, held at Van Cortlandt Park, in May. Final Game—Great Neck (handicap 9) defeated Westchester, second team (handicap 12), by a score of 6½ to 6.

Handicap tournament for the Westchester Cups, held on grounds of Westchester Country Club in May. Final Game—Meadow Brook (handicap 17) defeated Rockaway (handicap 12) by a score of 10¾ to 8¾.

Handicap tournament for the Country Club Cups, held on the grounds of the Westchester Country Club, in May. Final Game—Rockaway (handicap 10) defeated Meadow Brook (handicap 13) by a score of 16 to 10½.

Handicap tournament for the Radnor Challenge Cup, held on the grounds of the Devon Polo Club, at Devon, Pa., in May. Final Game—Bryn Mawr, second team (handicap 10), defeated Devon (handicap 4) by a score of 15½ to 5½.

Handicap tournament for the Hempstead Cups, held on the grounds of the Meadow Brook Club, at Hempstead, L. I. Final Game—Meadow Brook, second team (handicap 14), defeated Westchester, second team (handicap 12), by a score of 10 to 7¼.

Handicap tournament for the Harrison Cups, held at Bryn Mawr, Pa., in June. Final Game—Bryn Mawr, second team (handicap 10), defeated Bryn Mawr, third team (handicap 4), by a score of 14 to 6¾.

Handicap tournament for the Narragansett Cups, held on the grounds of the Point Judith Country Club, at Narragansett Pier, R. I., in August. Final game—The Bryn Mawr Polo Club, second team (handicap 10), defeated the Country Club of Westchester, second team (handicap 11), by a score of 12¾ to 4.

Handicap tournament for the Rhode Island Cups, held on the grounds of the Point Judith Country Club, at Narragansett Pier, R. I., in August. Final Game—The Rockaway Club, first team (handicap 15), defeated the Rockaway Club, second team (handicap 10), by a score of 10 to 9.

Special matches, Rumson Polo Club Grounds, Seabright, N. J., in September. Rumson defeated Albany by a score of 17 to 12. Albany defeated Rumson by a score of 7½ to 5¾.

Scratch tournament for the Elswald Cups, held on the grounds of the Rumford Polo Club, at Providence, R. I. Final Game—The Dedham Polo Club, second team, defeated the Rumford Polo Club, second team, by a score of 14 to 3.

Scratch tournament for the Brenton Reef Cups, held at Newport. Final Game—The Bryn Mawr Freebooters defeated the Westchester Freebooters by a score of 8 to 4.

Scratch game for the Perpetual Challenge Cup, at West Point, in June. Squadron A, New York City, defeated West Point cadets by a score of 15¾ to 6.

Scratch game for the Individual Cups, held at Van Cortlandt Park, in June. The Yale University Polo Club defeated Squadron A, second team, by a score of 5½ to 2¾.

Special match on the grounds of the Philadelphia Country Club, at Bala, Pa. Bryn Mawr Freebooters (handicap 7) defeated the Philadelphia Freebooters (handicap 9) by a score of 2¾ to 2.

Special match games, Buffalo Country Club grounds, Buffalo (handicap 7) defeated Rochester (handicap 4) by a score of 6½ to 5. Rochester (handicap 4) defeated Buffalo (handicap 8) by a score of 10¾ to 4.

Special scratch match on grounds of the Devon Polo Club at Devon, Pa., in May. Devon defeated Princeton University by a score of 11¼ to 5.

Home tournament for the Foulke Cups on the grounds of the Bryn Mawr Club. Freebooters (handicap 17) defeated Foxhunters (handicap 10) by a score of 12¾ to 11.

Match handicap game for Ballston Cups, held on grounds of Saratoga Polo Club, in July. The Albany Polo Club (handicap 8) defeated Saratoga Polo Club (handicap 9) by a score of 3¾ to 3.

FENCING IN 1903.

W. SCOTT O'CONNOR, Secretary National Fencing Association.

Never in the history of the sport did fencing enjoy such a boom and increase in public popularity as in 1903. Not only was the number of open meets more than double those held in 1902, but the contestants, as a class, showed a marked improvement in their prowess with the foil, sword or sabre, as well as in numbers. This healthy state of affairs is due almost wholly to the untiring efforts of the sport's controlling body, the Amateur Fencers' League of America, organized in 1891, and later affiliated with the Amateur Athletic Union. Last year, as usual, these two bodies consolidated in holding the American championships. In order to determine the best men to compete from the New England division of the league, the Boston Athletic Association held a preliminary qualifying tournament two weeks before. The same was done by the Philadelphia Fencing Club a week later. The finals were held in the gymnasium of the New York Athletic Club, on April 25. The foils proved close and interesting, Charles Tatham, of the Fencers' Club, and Fitzhugh Townsend, of Columbia University, finally winning 3 out of 4 bouts each, necessitating an extra bout between them. Notwithstanding a defeat by Tatham earlier in the evening, Townsend, in the fence off gained the unanimous decision of the six judges. Tatham, however, quickly retrieved himself by some stirring contests with the duelling swords, winning first medal by three straight victories.

The competition with the sabres was by far the most popular by reason of the fierceness with which the contestants went at each other. Although but four qualified for the finals it was a slashing affair and sparks flew in all directions as from a blacksmith's anvil. Nils Anderson, hitherto practically unknown at the game, surprised all by his fine showing, and was only beaten by Post in the final bout. Vitolli, the Boston A. A. entry, retired after successive defeats by Post and Anderson.

An even greater improvement in all essentials was noticeable at the tenth annual intercollegiate championships, also held at the New York Athletic Club. Dr. Graeme M. Hammond, president of the Amateur Fencers' League, was master of ceremonies,

Dr. G. M. Hammond and S. G. Shaw at the New York Athletic Club.

and it took two nights to decide the winners, 135 bouts being necessary. In addition to the team trophy presented by the Racquet and Tennis Club, Colonel R. M. Thompson presented a handsome cup for the individual champion. This seemed to inspire the contestants to extraordinarily keen work. At the end of the final bout of 3 minutes between Clark, of Columbia, and Breckinridge, of West Point, the judges could not agree, and an extra tilt of two minutes was ordered, during which Clark gained the advantage and won. This left Breckinridge and Honeycutt, of West Point, and Withrow, of Columbia, tied for second place, which so pleased Colonel Thompson that he presented them each with a cup. This proved quite a social affair; so much so that the New York Athletic Club suspended a house rule, making it possible for a large number of ladies to attend, with whom the West Point boys were strong favorites.

Many competitions of sterling quality were held earlier in the Winter. On January 20 the New York Athletic Club held the Junior Foils Championship, for which there were eighteen entries from Yale,

Harvard, Cornell, Columbia, International Fencers' Club and the N. Y. A. C. The bouts continued well into the morning, W. L. Bowman, of Cornell, finally winning with a clean score of victories. On January 31, at Odd Fellows' Hall, Philadelphia, the first annual team competition with foils was held for the Edward L. Hawkins Cup. The New York A. C. team, composed of Bothner, Heintz and Dr. Hammond, won with scores of 6 to 1 from the New York Fencers' Club and 8 to 1 from the Philadelphia Fencers' Club. On February 21 this same New York A. C. team defeated the Boston A. A. team in Boston 6 out of 9 bouts for the cup offered by the latter club for annual team competition. The Boston A. A. team was composed of Parker, Cabot and Allen. This being the third successive victory of the Mercury Foot Fencers, the trophy became their permanent property.

On February 28 the Philadelphia Fencers' Club held a very successful open-foil competition. Many dual meets were held by the colleges, among which West Point defeated Cornell 9 bouts to 0. The University of Pennsylvania fencers also fell victims of the cadets' superiority. In the third annual meeting between Yale and Columbia, at New Haven, March 14, the New Yorkers won 5 out of 9 bouts. The secretary of the Amateur Fencers' League of America is Mr. W. Scott O'Connor, 53 Broadway, New York.

A summary of the events of principal importance follows:

National Championships—Held at New York Athletic Club, April 25.

Foils—Fitzhugh Townsend, Columbia University and Fencers' Club, won 3, lost 1; Charles Tatham, Fencers' Club, won 3, lost 1; Charles Bothner, New York Athletic Club, won 2, lost 2; W. L. Bowman, Cornell University and Fencers' Club, Philadelphia, won 2, lost 2; A. Van Z. Post, Fencers' Club, lost 4.

Final Bout for First Medal—Townsend defeated Tatham; for third medal, Bothner defeated Bowman.

Duelling Swords—Tatham, won 3, lost 1; Dr. J. H. Woodward, Fencers' Club, won 2, lost 2; Bothner, won 1, lost 3.

Sabres—Won by Post with 15 points; Nils Anderson, unattached, second with 11 points; Bothner, third with 5 points.

Intercollegiate Team Championship—Held at New York Athletic Club, March 28. Yale team, E. M. Calmer, F. E. Howland, C. L. Lawrence; Cornell team, H. F. Blount, W. L. Bowman, F. F. Pino; University of Pennsylvania, N. L. Knipe, H. N. Shellenberger, P. A. Castner; United States Military Academy, Cadets Strong, Breckinridge and Honeycutt; Harvard, H. St. Gaudens, T. D. Roberts, H. F. Elam; Columbia, E. Pitou, Jr., F. B. Clark, W. E. Withrow.

First, West Point, won 35, lost 10; second, Columbia, won 31, lost 14; third, Cornell, won 22, lost 23; fourth, Yale, won 19, lost 26; fifth, Pennsylvania, won 16, lost 29; sixth, Harvard, won 12, lost 33.

Junior Team, Competition for Morris Medals—Held at Fencers' Club, New York, March 7.

First round, Yale team defeated New York Turn-Verein 5 bouts to 3; second round, Columbia team defeated Fencers' Club in extra bout after a tie at four wins each. Final round, Columbia defeated Yale 5 bouts to 1. Columbia team, W. E. Withrow, H. C. Gearin, H. W. Head; Yale team, E. M. Calmer, C. Lawrence and B. Hollister.

Previous Winners of National Championships—1892, foils, W. Scott O'Connor, Fencers' Club, New York; duelling swords, Dr. B. F. O'Connor, New York A. C.; sabres, R. O. Haubold, New York A. C.; 1893, foils, W. T. Heintz, New York A. C.; duelling swords, Dr. G. M. Hammond, New York A. C.; sabres, Dr. G. M. Hammond, New York A. C.; 1894, foils, C. G. Bothner,, New York A. C.; duelling swords, R. O. Haubold, New York A. C.; sabres, Dr. G. M. Hammond, New York A. C.; 1895, foils, A. V. Z. Post, Fencers' Club, New York; duelling swords, C. G. Bothner, New York A. C.; sabres, C. G. Bothner, New York A. C.; 1896, foils, G. Kavanagh, New York A. C.; duelling swords, A. V. Z. Post, Fencers' Club, New York; sabres, C. G. Bothner, New York A. C.; 1897, foils, C. G. Bothner, New York A. C.; duelling swords, C. G. Bothner, New York A. C.; sabres, C. G. Bothner, New York A. C.; 1898, postponed on account of Spanish-American War; 1899, foils, G. Kavanagh, New York A. C.; duelling swords, M. de Diaz, Boston A. A. and Harvard University; sabres, G. Kavanagh, New York A. C.; 1900, foils, F. Townsend, Fencers' Club, New York; duelling swords, W. D. Lyon, New York A. C.; sabres, J. L. Erving, Fencers' Club; single sticks, F. L. Slazenger, New York A. C.; 1901, foils, C. Tatham, Fencers' Club; duelling swords, C. Tatham; Fencers' Club; sabres, A. V. Z. Post, Fencers' Club; single sticks, F. L. Slazenger, New York A. C.; 1902, foils, J. P. Parker, Boston A. A.; duelling swords, C. Tatham, Fencers' Club; sabres, A. V. Z. Post, Fencers' Club.

WINNERS OF NATIONAL CHAMPIONSHIPS.

Foils.	Dueling Swords.	Sabres.
1901—Charles Tatham, Fencers' Club.	1901—Charles Tatham, F. C.	1901—A. V. Z. Post, F. C.
1902—James P. Parker, Boston A. A.	1902—Charles Tatham, F. C.	1902—A. V. Z. Post, F. C.
1903—Fitzhugh Townsend, Fencers' Club.	1903—Charles Tatham, F. C.	1903—A. V. Z. Post, F. C.

TEAM CHAMPIONSHIPS, FOILS.

1903—Senior, National.—A tie between Fencers' Club, of New York, and Boston A. A.
1903—Junior, National—Won by Columbia University.—A. L. Withrow, H. C. Gearin and H. W. Head.
1903—Intercollegiate.—Won by West Point.—Breckenridge, Honeycutt and Scott.

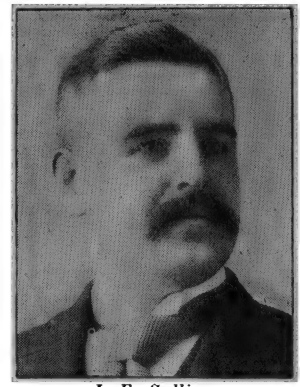
WHIST, 1903.

The American Whist League was organized in 1891, and now has a membership of about 30,000. Once each year a congress is held, lasting one week, in which players from all parts of the country participate. This is one of the largest organizations of its kind in the world, and with it is affiliated nearly every whist club of consequence in the United States.

The New York State Whist Association has a prominent place in the list of whist associations of the country. It was organized in 1897, and is now composed of clubs in all the larger cities in the State. Its first match was played at the Put-in-Bay Congress. It won the trophy from the Atlantic Association and the New England Association. Various trophies have been presented by individuals and clubs, and these are contested for yearly.

The Metropolitan Whist Association is composed of fifteen women's whist clubs in New York City and vicinity. The Whist Club of New York has a building at No. 13 West Thirty-sixth street, and is the principal club of devotees of the game.

The American Whist League held its annual tournament at Detroit, Michigan, July 6-11, and the various trophies were won by the following named players:



American Trophy.	Brooklyn Trophy.	Minneapolis Trophy.	Milwaukee Trophy.	Associate Members' Trophy.
Won by Baltimore Club.	Won by Michigan Club.	Won by Grand Rapids, Mich.	No entries.	Won by Miss Bessie Allen, with C. E. Wilson as partner.
Players: T. A. Whelan. Beverly Smith. C. F. Gilman. A. H. McCay.	Players: C. A. Rogers and B. E. Cook. W. M. Loveland and W. E. Buckingham. B. H. Meade and H. L. Welsh. W. D. Ellsworth and H. B. Simmons. F. A. Mitchell and R. G. Steele. P. T. Lovell and W. N. Dibble.	Players: Mr. Robinson and Mr. Mainzer.		

THE WINNING CLUBS IN 1902 WERE AS FOLLOWS:

Philadelphia.	New York State Club.	Cleveland Club.	Knickerbocker A. C.	Mr. and Mrs. H. Newman.

John C. Lorden, B. A. A.

J. E. Sullivan, Secretary A. A. U.

C. C. Cox, Roque Champion.

FIELD AND TRACK ATHLETICS, 1903.

J. H. CLAUSEN.

Universities, colleges and schools are paying more attention than formerly to the track athlete. The track athlete of all-around ability is found to have the necessary qualifications for a seat in the crew or a place on the eleven or the baseball team, and nowadays he is watched very closely by the captains, coaches and trainers. It is the schools and colleges that are running off with all the young athletes, and in the past season the interest in athletic sports has been chiefly with them. It was not a particularly good season for record breaking, but a few of the old figures were replaced by new ones. A. Shrubb, of England; Aleck Grant, of New York, and W. A. Schick, of Harvard University, broke amateur running records, and Len Hurst, of London, smashed a professional record for a long distance running event.

The amateur swimmers are reducing records each year, but they will undoubtedly continue to do so for several years to come, as the interest in swimming races is increasing rapidly.

Lacrosse had a small rise in its percentage in 1903, principally because of the visit of the Oxford-Cambridge team to America. Ice hockey is the Winter game outdoors, and has grown very rapidly in the United States during the last two seasons. Walking on the road received much attention in Europe, but the craze has not yet struck New York. Ice yachting creates more enthusiasm than many imagine, and a visit to an ice yacht clubhouse during the cold weather will interest all lovers of frosty weather sports.

As for the indoor games, billiards led all others. Skat, the German card game, got into the newspapers and caused talk, but the Germans have a monopoly on it at the present time. Fencing attracted individual attention; but it is dignity itself, compared with other indoor exercises, and absolutely refuses to become common. Whist, handball and the active physical sports continue to interest many, and several other pastimes received the attention of enthusiasts.

RUNNING RECORDS.

(Amateur records precede the professional records.)

50 Yards—5⅛s., L. E. Myers, New York City, December 12, 1884. Professional—5¼s., H. M. Johnson, New York City, November 22, 1884.

60 Yards—6 2-5s., L. E. Myers, New York City, December 12, 1882; J. W. Tewksbury, New York City, January 13, 1899; A. F. Duffey, New York City, November 30, 1899; W. D. Eaton, Buffalo, N. Y., September 6, 1901; W. Delgado, New York City, February 4, 1901; A. F. Duffey, Travers Island, N. Y., June 7, 1902. Professional—None.

70 Yards—7 1-5s., W. A. Schick, New York City, February 28, 1903.

75 Yards—7 3-5s., L. H. Cary, Princeton, N. J., May 9, 1891; B. J. Wefers, Boston, Mass., January 25, 1896. Professional—7¼s., James Quirk, Parkhill, Canada, October 30, 1888.

80 Yards—8s., Wendell Baker, Boston, Mass., July 1, 1886. Professional—None.

100 Yards—9 3-5s., A. F. Duffey, New York City, May 31, 1902. Professional—9 3-5s., E. Donovan, Brockton, Mass., September 2, 1895 (13 inches down grade).

110 Yards—11 1-5s., W. Baker, Cambridge, Mass., May 23, 1886; C. H. Sherrill, Travers Island, N. Y., June 15, 1889; L. H. Cary, Travers Island, N. Y., June 7, 1890. Professional—11s., F. N. Bonine, Ann Arbor, Mich., May 22, 1886.

120 Yards—11 2-5s., B. J. Wefers, Worcester, Mass., August 20, 1897. Professional—11⅛s., George Seward, London, England, May 3, 1847.

125 Yards—12 2-5s., C. H. Sherrill, New York City, May 4, 1889. Professional—12 2-5s., A. R. Downer (128½ yards), Edinburgh, Scotland, January 3, 1898. American record 12⅛s., M. K. Kettleman, Pittsburg, Pa., August 18, 1884.

130 Yards—13s., W. Baker, Cambridge, Mass., May 23, 1886. Professional—12⅛s., W. Johnson, Fenham Park, England, February 9, 1867. American record, 12⅛s., H. M. Johnson, Pittsburg, Pa., July 17, 1886.

135 Yards—13 1-5s., professional record, W. M. Christie, Philadelphia, Pa., April 16, 1900.

140 Yards—13⅛s., professional record, H. Hutchins, London, England, June 8, 1885.

150 Yards—14 3-5s., B. J. Wefers, Travers Island, N. Y., October 2, 1897. Professional—14⅛s., H. Hutchins, Sydney, Australia, March 2, 1887. American record, 15s., H. M. Johnson, Titusville, Pa., October 18, 1883.

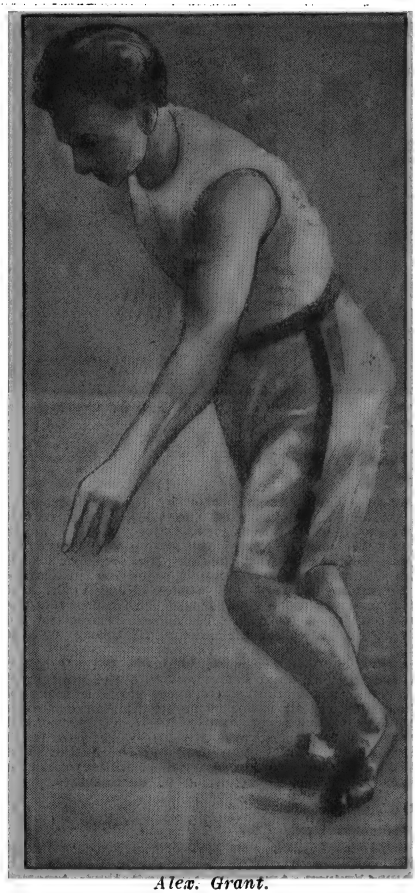
180 Yards—18s., W. Baker, Boston, Mass., June 14, 1886. Professional—None.

200 Yards—19 4-5s., E. H. Pelling, London, September 28, 1889; A. R. Downer, London, May 11, 1895; G. Jordon, Oxford, March 16, 1896. American record, 20s., W. Baker, New York, November 8, 1890. Professional—19½s., George Seward, London, March 22, 1847.

220 Yards—21 1-5s., B. J. Wefers, New York City, May 30, 1896. Professional—21 4-5s., H. Hutchins, London, May 11, 1885.

250 Yards—24 3-5s., W. T. Macpherson, Auckland, New Zealand, February 7, 1891. American record, 25 4-5s., C. H. Sherrill, New Haven, Conn., June 15, 1888. Professional—25¼s., H. Hutchins, Botany, Australia, January 24, 1887.

300 Yards—30 3-5s., B. J. Wefers, Travers Island, N. Y., September 26, 1896. Professional—30s., H. Hutchins, Edinburgh, January 2, 1884.



350 Yards—36 2-5s., M. W. Long, Guttenburg Race Track, N. J., October 4, 1900. Professional—38 2-5s., H. Hutchins, Wolverhampton, England, September 19, 1885.

400 Yards—42 1-5s., M. W. Long, Guttenburg Race Track, N. J., October 4, 1900. Professional—44 4-5s., A. R. Downer, Bolton, England, February 6, 1897.

440 Yards—47s., M. W. Long, Guttenburg Race Track, N. J., October 4, 1900. Around circular tracks, 47 4-5s., M. W. Long, Travers Island, N. Y., September 29, 1900. Professional—48¼s., R. Buttery, Newcastle, England, October 4, 1873.

500 Yards—57 4-5s., T. E. Burke, Newton, Mass., June 17, 1897 Professional—59s., E. C. Bredin, Barrow, England, December 26, 1898. American—59s., J. Powers, Boston, Mass., September 5, 1881.

600 Yards—1m. 11s., T. E. Burke, Williamsbridge, N. Y., September 19, 1896. Professional—1m. 13s., J. Nuttall, Manchester, England, February 20, 1864;

Alex. Grant.

1m. 13s., E. C. Bredin, Rochdale, England, July 31, 1897.

660 Yards—1m. 22s., L. E. Myers, New York City, July 17, 1880.

700 Yards—1m. 31s., L. E. Myers, Williamsburg, September 16, 1882. Professional—1m. 29s., J. Pudney, on turnpike road, Slough, England, April 7, 1856.

800 Yards—1m. 44 2-5s., L. E. Myers, Williamsburg, September 16, 1882. Professional—1m. 50s., W. Jackson, Epsom Course, England, November 2, 1826.

880 Yards—1m. 53 2-5s., C. H. Kilpatrick, New York City, September 21, 1895. Professional—1m. 53½s., F. Hewitt, Lyttleton, Australia, September 21, 1871.

10 Miles—1h. 17m. 38 4-5s., W. J. Sturgess, London, October 3, 1896; America, 1h. 17m. 40 3-4s., E. E. Merrill, Boston, Mass., October 5, 1880. Professional—1h. 14m. 45s., J. W. Raby, London, December 3, 1883; America, 1h. 17m. 53½s., D. A. Driscoll, New York City, February 1, 1881.

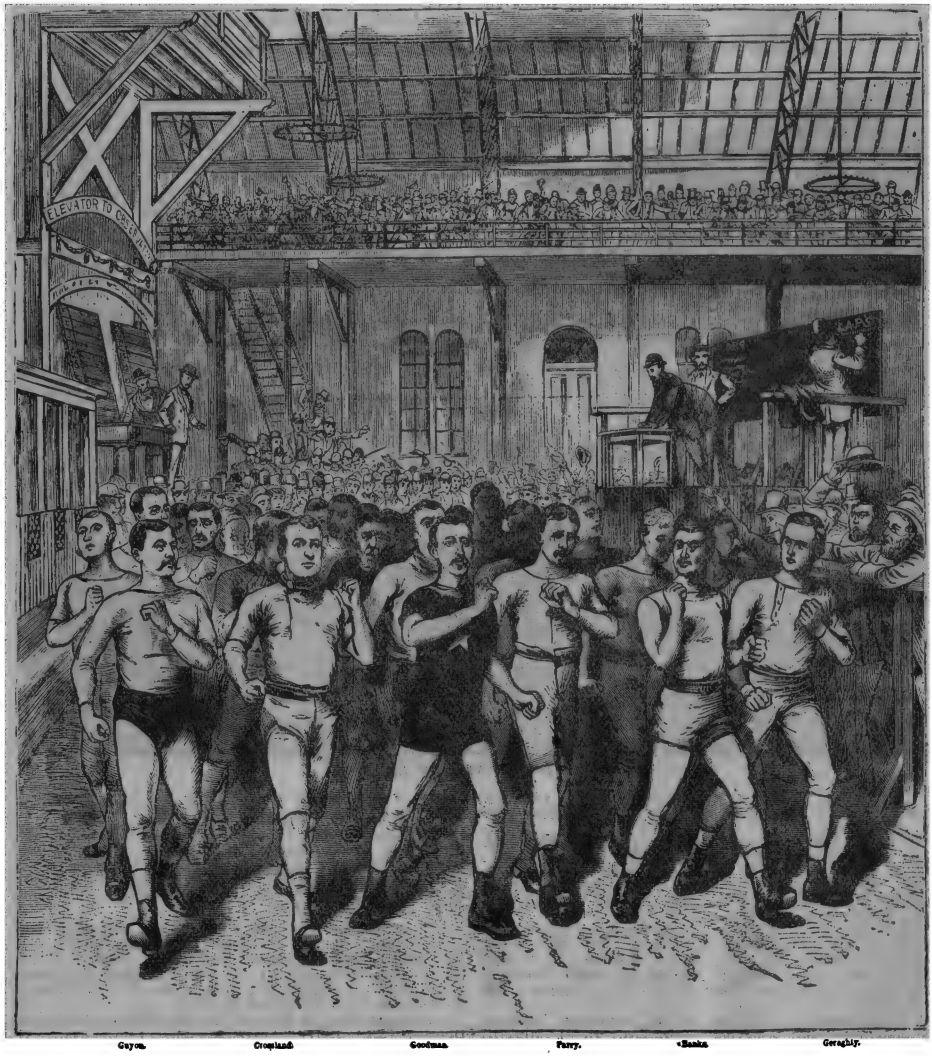
15 Miles—2h. 43 3-5s., J. Butler, Putney, England, October 23, 1897; America, 2h. 14m. 44s., W. O'Keefe, Williamsburg, L. I., December 31, 1889. Professional—1h. 55m. 56s., J. W. Raby, London, December 8, 1883; America, 2h. 1m. 20s., D. A. Driscoll, New York City, February 1, 1881.

The Intercollegiate Hurdle.

20 Miles—2h. 47m. 52s., T. Griffith, London, December 23, 1870; America, 3h. 8m. 10s., J. B. Clark, New York City, December 5, 1879. Professional—2h. 39m. 57s., W. Perkins, London, July 16, 1877; America, 2h. 50m. 5s., D. A. Driscoll, Lynn, Mass., April 6, 1882.

25 Miles—3h. 53m. 35s., W. E. N. Coston, London, December 27, 1880; America; 4h. 3m. 35s., J. B. Clark, New York City, December 5, 1879. Professional—3h. 35m. 14s., W. Franks, London, August 28, 1882; America, 3h. 37m. 7s., D. A. Driscoll, Lynn, Mass., April 6, 1882.

30 Miles—4h. 46m. 52s., W. E. N. Coston, London, December 27, 1880; America, 5h. 33m. 8s., T. H. Armstrong, New York City, October 7, 1878. Professional—4h. 34m. 54s., W. Howes, London, March 30, 1878; America, 4h. 47m. 12s., J. Meagher, Boston, Mass., April 21, 1882.



40 Miles—6h. 38m. 3s., A. W. Sinclair, London, November 14, 1879; America, 7h. 25m. 41s., T. H. Armstrong, New York City, October 7, 1878. Professional—6h. 16m. 50s., W. Howes, London, March 30, 1878; America, 6h. 26m. 8s., J. Meagher, Boston, Mass., April 21, 1882.

50 Miles—8h. 25m. 25½s., A. W. Sinclair, London, November 14, 1879; America, 9h. 29m. 22s., G. B. Gillie, New York City, May 10, 11, 1878. Professional—7h. 54m. 16s., J. Hibberd, London, May 14, 1888; America, 8h. 10m. 54s., J. Meagher, Boston, Mass., April 21, 1882.

60 Miles—11h. 11m. 10s., A. W. Sinclair, London, August 26, 27, 1881; America, 11h. 48m. 53s., G. B. Gillie, New York City, May 10, 11, 1878. Professional—9h. 40m. 47s., J. Hibberd, London, May 14, 1888; America, 10h. 41m. 38s., D. O'Leary, Chicago, Ill., November 10, 1877.

70 Miles—13h. 11m. 15s., A. W. Sinclair, London, August 26, 27, 1881; America, 13h. 57m. 40s., G. B. Gillie, New York City, May 10, 11, 1878. Professional—11h. 38m. 35s., J. Hibberd, London, May 14, 1880; America, 16h. 49m. 18s., D. O'Leary, Chicago, Ill., October 16, 1875.

80 Miles—15h. 9m. 16s., A. W. Sinclair, London, August 26, 27, 1881; America, 16h. 35m. 35s., G. B. Gillie, New York City, May 10, 11, 1878. Profes-

Start of the International Walking Match for the O'Leary Belt at Chicago, Ill., May 28, 1879.
(From the original woodcut.)

sional—14h. 01m. 53s., W. Howes, London, May 15, 1880; America, 14h. 49m. 50s., D. O'Leary, Chicago, Ill., October 16, 1875

90 Miles—17h. 37m. 51s., A. W. Sinclair, London, August 26, 27, 1881; America, 18h. 48m., G. B. Gillie, New York City, May 10, 11, 1878. Professional—15h. 59m. 10s., W. Howes, London, May 15, 1880; America, 16h. 49m. 18s., D. O'Leary, Chicago, Ill., October 16, 1875

100 Miles—19h. 41m. 50s., A. W. Sinclair, London, August 26, 27, 1881; America, 21h. 42s. G. B. Gillie, New York City, May 10, 11, 1878. Professional—18h. 8m. 15s., W. Howes, London, May 15, 1880. America, 18h. 53m. 40s., D. O'Leary, Chicago, Ill., October 16, 1875

Greatest distance walked without a rest (professional), 121 miles, 385 yards, C. A. Harriman, Truckee, Cal., April 6, 7, 1883.

JUMPING RECORDS.

(The professional records follow the amateur records in each event.)

Standing High Jump, without weights—5 ft. 5¼ in., Ray C. Ewry, Buffalo, N. Y., September 7, 1901.

Standing High Jump, with weights—Professional, 5 ft. 8½ in., T. F. Kearney, Oak Island, Mass., July 25, 1889.

Running High Jump, without weights—6 ft. 5⅝ in., M. F. Sweeney, New York City, September 21, 1895. Professional—6 ft. 1 in., M. F. Sweeney, Philadelphia, Pa., August 3, 1896.

Running High Jump, with weights—Professional—6 ft. 8¼ in., R. H. Baker, Leeds, England, July 14, 1900. American record—6 ft. 6½ in., R. H. Baker, Cambridge, Mass., August 31, 1895.

Standing Jump for Distance, without weights—11 ft. 3 in., R. C. Ewry, Syracuse, N. Y., April 27, 1900. Professional—12 ft. 1½ in., J. Darby, Dudley, England, May 28, 1890. American record—10 ft. 10½ in., H. M. Johnson, New York City, September 4, 1884.

Standing Jump for Distance, with weights—12 ft. 9½ in., J. Chandler, Carrick-on-Suir, Ireland, August 28, 1898. American record—12 ft. 9½ in., L. Helwig, Brooklyn, N. Y., November 20, 1884. Professional—14 ft. 9 in., J. Darby, Liverpool, England, September 19, 1890. American record—14 ft. 5½ in., G. W. Hamilton, Romeo, Mich., October 3, 1879.

Standing Two Jumps, without weights—Professional—22 ft. 2½ in., H. M. Johnson, St. Louis, Mo., September 15, 1888.

Standing Two Jumps, with weights—Professional—28 ft., J. Darby, Walsall, England, November 6, 1891.

Standing Three Jumps, without weights—35 ft. 8¾ in., R. C. Ewry, Celtic Park, L. I., September 7, 1903. Professional—35 ft. 1½ in., W Marsh, Boston, Mass., August 20, 1899.

Standing Three Jumps, with weights—38 ft. 10 in., J. Chandler, Tipperary, September 13, 1897. Professional—41 ft. 7½ in., R. H. Baker, Blackpool, England, July 18, 1898. America—41 ft. 2 in., P. J. Griffin, Hartford, Conn., September 7, 1896.

Standing Five Jumps, without weights—Professional—61 ft. 5½ in., J. Darby, Dudley, England, May 28, 1890. America—55 ft. 2 in., H. M. Johnson, St. Louis, Mo., September 2, 1888.

Standing Five Jumps, with weights—Professional—76 ft. 3 in., J. Darby, Dudley, England, May 28, 1890

Standing Ten Jumps, without weights—116 ft. 3½ in., B. J. Mulligan, Celtic Park, Long Island, N. Y., September 1, 1902. Professional—111 ft. 4 in., H. M. Johnson, St. Louis, Mo., September 15, 1888.

Standing Ten Jumps, with weights—Professional—140 ft., R. H. Baker, Leeds, England, July 14, 1900.

Standing Hop, Step and Jump, without weights, start by standing on one leg—30 ft. 3 in., J. Cosgrove, Albany, N. Y., April 25, 1894. Start by standing on both feet—31 feet 10 in., M. W. Ford, Brooklyn, N. Y., July 18, 1886.

Finish of the 100-Yard Dash at the Intercollegiate Games.

Standing Backward Jump, with weights—9 ft. J. J. Carpenter, Ann Arbor, Mich., November 8, 1884. Professional—12 ft. 11 in., J. Darby, Haden Hill Park, England, September 14. 1891. America—12 ft., P. J. Griffin, Hartford, Conn., September 7, 1896.

Two Backward Jumps, standing, with weights—Professional, 21 ft. 4 in., J. Darby, Birmingham, England, December 17. 1897.

Three Backward Jumps, standing, with weights—Professional—32 ft. 4 in., T. Colquitt, Bolton, England, June 9. 1899.

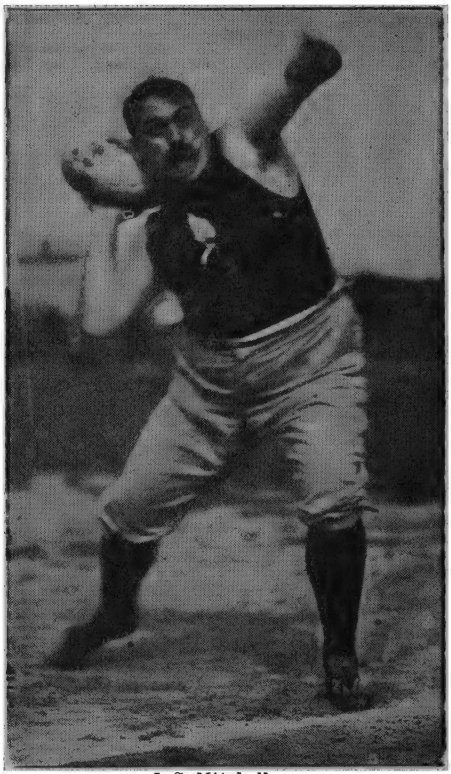
Standing Hop, Two Steps, Hop, Two Steps and Jump—Professional—79 ft. 9¼ in., W. Marsh, Medford, Mass., August 5, 1899. This event is known as the "double put."

Running High Kick—9 ft. 8 in., C. C. Lee, New Haven, Conn., March 19, 1887.

Running Hitch and Kick—9 ft. 1 in., C. D. Wilbur, Annapolis, Md., June 6, 1888; 9 ft. 1 in., E. W. Goff, Albany, N. Y., April 22, 1892.

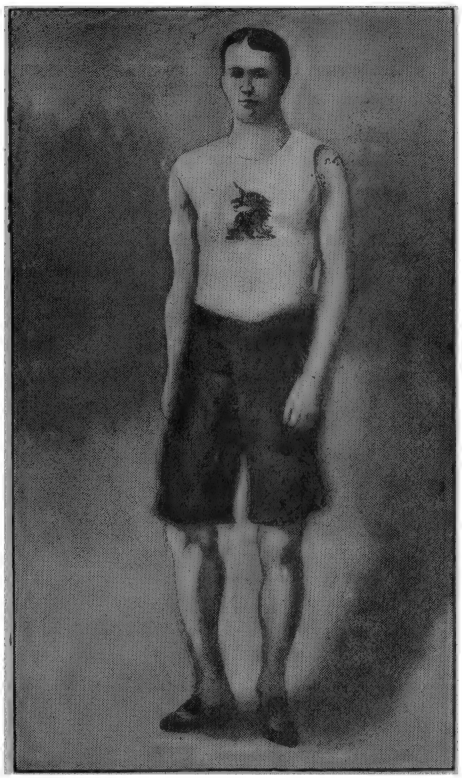
Running Hop, Step and Jump, without weights—49 ft. 2¼ in., W. McManus, Cootamundra, N. S. W., April 15, 1893. American record—48 ft. 6 in., E. B. Bloss, Chicago, Ill., September 16, 1893. Profes-

sional—48 ft. 8 in., T. Burrows, Worcester, Mass., October 18, 1884.



Running Two Hops and Jump, without weights—50 ft. 1½ in., D. Shanahan, Limerick, Ireland, August 6, 1888. American record—49 ft. ½ in., J. B. Connolly, New York City, September 19, 1896. Professional record—49 ft. 6 in., T. Burrows, Manchester, England, June 3, 1892.

Pole Vaulting for Height—11 ft. 10½ in., R. G. Clapp, Chicago, Ill., June 18, 1898. Professional—10 ft. 10½ in., G. Musgrove, Cockermouth, England, 1866. America—10 ft. 3 in., J. A. McDonald, South Boston, Mass., August 2, 1902.



Pole Vaulting for Distance—27 ft. 7¼ in., William Baird, Philadelphia, Pa., December 19, 1901.

Running Long Jump, without weights—24 ft. 11¾ in., P. O'Connor, Dublin, Ireland, August 5, 1901. American record—24 ft. 7¼ in., M. Prinstein, Philadelphia, Pa., April 28, 1900. Professional record (A. A. U. rules)—22 ft. 8 in., Louis Guertin, Boston, Mass., August 29, 1903.

Running Long Jump, with weights—Professional—29 ft. 7 in., J. Howard, Chester Race Course, England, May 8, 1854 (used 5-lb. dumb-bells), taking off from a block of wood, 2 ft. long 1 ft. wide, wedge shaped, 3 in. thick, and raised 4 inches.

MISCELLANEOUS SPORTS.

THROWING WEIGHTS.

Amateur Records.

56-Pound Weight, with one hand, without run or follow—27 ft. 4 in., J. S. Mitchell, Toronto, Ont., September 28, 1889.

56-Pound Weight, with two hands, without run or follow—28 ft. 5 in., John Flanagan, New York City, February 3, 1902.

56-Pound Weight, with both hands from a 7-foot circle, without follow—36 ft. 9½ in., J. Flanagan, Long Island City, October 20, 1901.

56-Pound Weight, thrown for height—15 ft. 6⅜ in., J. S. Mitchel, Bayonne City, September 6, 1897.

Throwing the Discus, 4½ pounds—127 ft. 8¾ in., Martin J. Sheridan, Celtic Park, Long Island N. Y., August 30, 1902.

THROWING THE HAMMER.

(Hammer with handle 4 feet long thrown with both hands from a mark, without run or follow.)

12-Pound Hammer Head—124 ft. 11 in., W. L. Coudon, Wilmington, Del., May 10, 1888. Professional—133 ft. 5½ in., G. Perrie, Philadelphia, Pa., August 20, 1894.

14-Pound Hammer Head—115 ft. 4 in., W. L. Coudon, Wilmington, Del., May 10, 1888.

16-Pound Hammer Head—113 ft. 11 in., W. O. Hickok, New Haven, Conn., May 12, 1894. Professional—119 ft. ½ in., G. H. Johnstone, Stirling, Scotland, September 19, 1896 (handle 4 ft. 2 in. long).

21-Pound Hammer Head—82 ft. 3½ in., C. A. J. Queckberner, Staten Island, November 17, 1888. Professional—79 ft., G. Davidson, Edinburgh, Scotland, June 2, 1883.

(Thrown with both hands, with 9 foot run and no follow.)

16-Pound Hammer, including weight of head and handle—164 ft. 6 in., J. Flanagan, Bayonne, N. J., September 4, 1899.

(Thrown with both hands, with 7 foot run and no follow.)

12-Pound Hammer, including weight of head and handle—184 ft. 1 in., J. R. De Witt, Pottstown, Pa., May 27, 1900. Professional—183 ft. 6 in., T. Carroll, Sacramento, Cal., July 10, 1896.

16-Pound Hammer, including weight of head and handle—171 ft. 9 in., J. Flanagan, Long Island City, September 3, 1901. Professional—165 ft., T. Carroll, Sacramento, Cal., June 4, 1898.

21-Pound Hammer Head—90 ft. 3 in., C. A. J. Queckberner, Staten Island, November 17, 1888. Professional—112 ft. 1½ in. (21 pounds, including handle), T. Carroll, San Francisco, Cal., July 21, 1897.

SHOT PUTTING.

(American amateurs use a 7-foot circle; British amateurs use a 7-foot square; professionals use a run of 7 ft. 6 in.)

12-Pound Shot—55 ft. 2 in., G. R. Gray, Travers Island, N. Y., June 11, 1892. Professional—50 ft. ½ in., J. McPherson, Brooklyn, N. Y., August 20, 1887.

14-Pound Shot—51 ft. 5½ in., G. R. Gray, Travers Island, N. Y., June 11, 1892. Professional—51 ft. 4 in., C. J. Currie, Toronto, Ont., August 23, 1889.

16-Pound Shot—47 ft., G. R. Gray, Chicago, Ill., September 16, 1893. British record—48 ft. 2 in., D. Horgan, Queenstown, Ireland, October 9, 1897. Professional—44 ft. 8 in., G. Perrie, Pitlochrie, Scotland, September 5, 1896.

18-Pound Shot—41 ft. 9½ in., G. R. Gray, Travers Island, N. Y., June 7, 1890.

20-Pound Shot—Professional—40 ft. 11¼ in., J. D. McPherson, Toronto, Ont., November 10, 1888.

21-Pound Shot—39 ft. 1½ in., G. R. Gray, St. Catharines, Ont., August 10, 1891.

22-Pound Shot—35 ft. 10½ in., D. J. McKinnon, London, England, June 22, 1884. Professional—37 ft. 8 in., C. McLean, Pitlochrie, Scotland, September 4, 1897.

24-Pound Shot—33 ft. 11¾ in., G. R. Gray, Boston, Mass., April 12, 1890.

INDOOR BASEBALL.

Indoor baseball is probably best played in Chicago, and the result of the Chicago Indoor League is told in the following table:

Season 1902-03.

	W.	L.	P.C.		W.	L.	P.C.
Spaldings....	11	1	.916	Gates Club..	6	6	.500
Peerless	9	3	.750	Ithacas.....	4	8	.333
Chicago N.W.	8	4	.667	Illinois Steel.	3	8	.272
Summerdales	7	4	.636	Suburbans ..	3	9	.250

MISCELLANEOUS SPORTING RECORDS, MADE BY AMATEURS UNLESS OTHERWISE STATED.

Running the Bases—15¾s., C. Fulforth, Racine, Wis., May 22, 1879.

Throwing Lacrosse Ball—497 ft. 7½ in., B. Quinn, Ottawa, Ont., September 10, 1892.

Batting Baseball—354 ft. 10 in., C. R. Partridge, Hanover, N. H., October 14, 1880.

Throwing Baseball—381 ft. 2½ in., R. C. Campbell, North Adams, Mass., October 8, 1887.

Throwing Cricket Ball—347 ft., J. Von Iffland, Kingston, Ont., October 19, 1883.

Kicking Football (Place Kick)—200 ft. 8 in., W. P. Chadwick, Exeter, N. H., November 29, 1887.

Kicking Football (Drop Kick)—189 ft. 11 in., P. O'Dea, Madison, Wis., May 7, 1898.

Fence Vaulting—7 ft. 3¾ in., C. H. Atkinson, Cambridge, Mass., March 22, 1884.

One-Hand Fence Vaulting—5 ft. 6½in., I. D. Webster, Philadelphia, Pa., April 6, 1886.

Bar Vaulting—7 ft. 4 in., T. C. Page, Gambier, O., May —, 1881.

Pulling the Body Up by the Little Finger of One Hand—6 times, A. Cutter, Louisville, Ky., September 18, 1878.

Pulling the Body Up by One Arm—12 times, A. Cutter, Louisville, Ky., September 18, 1878.

Pulling the Body Up by Both Arms—39 times, Mumford, Cambridge, Mass., April 2, 1888.

Lifting with the Hands Alone—1,384 lbs., H. Leussing, Cincinnati, O., March 31, 1880.

Lifting with Harness—3,239 lbs., W. B. Curtis, New York City, December 20, 1868.

Three-Legged Races—50 yards, 6 2-5s., C. S. Busse and H. H. Morrell, West New Brighton, S. I., September 7, 1891; 100 yards, 12 2-5s., C. S. Busse and H. H. Morrell, West New Brighton, S. I., September 7, 1891; 220 yards, 33s., H. K. Zust and F. C. Puffer, New York City, April 1, 1893.

Running Backward — 50 yards, 7 4-5s., S. S. Schuyler, New York City, October 8, 1887; 100 yards, 14s., A. Forrester, Toronto, Ont., June 23, 1888.

Sack Racing—50 yards, 7s., R. Mercer, Buffalo, N. Y., April 20, 1901; 100 yards, 15 3-5s., J. M. Nason, Buffalo, N. Y., July 11, 1891.

Hopping—100 yards, 12 3-5s., S. D. See, Brooklyn, L. I., October 15, 1885.

Parallel Bars Record—Three successive arm jumps, without spring, 15 ft., S. Strasburger, New York City, November 10, 1879; three successive arm jumps, with swings, 19 ft. 9 in., A. A. Conger, New York City, November 10, 1873; push-ups, without swing, 58 times, S. L. Foster, Cambridge, Mass., April 18, 1884.

Potato Racing.—(In all races of this kind the potatoes are gathered one at a time.) 8 potatoes, 2 yards interval, with 5 yards additional at finish, total distance 149 yards, 31s., C. J. P. Lucas, Medford, Mass., August 27, 1902; 10 potatoes, 5 feet interval, total distance 183 1-3 yards, 42 4-5s., C. J. P. Lucas, Milwaukee, Wis., Aug. 8, 1903; 10 potatoes, 2 yards interval, with 5 yards additional at finish, total distance 225 yards, 47 2-5s., C. J. P. Lucas, Boston, Mass., August 30, 1902.

Jumping on Skates—Running high jump, backward, 2 ft. 6 1-8 in., E. D. Irwin, Boston, Mass., February 26, 1896; running high jump, 4 ft. 1 in., F. B. Gerner, Brooklyn, L. I., March 5, 1899; running long jump, 21 ft. 7 in., F. McDaniells, Minneapolis, Minn., December 23, 1897.

Rope Climbing—Using both hands and feet, 35 ft. 8 in. up, in 14 4-5s., C. E. Raynor, South Bethlehem, Pa., April 2, 1887; using the hands alone, 18 ft., 3 3-5s., E. Kunath, New York City, March 25, 1902; 21 ft. 6 in. up, 6 3-5s., E. Kunath, New York City, March 17, 1899; 25 ft., 6 2-5s., E. Kunath, New York City, September 1, 1901; 38 ft. up, 20 7-8s., E. E. Allen, Cambridge, Mass., March 31, 1884.

LACROSSE.

Lacrosse has only recently been included in college sports, though there have been lacrosse teams in existence in Canada for years. The game is of Indian origin, and is still played by them in nearly the same form found by the first white traders in North America. Some of the best teams in the United States are found among the Iroquois, Senecas and Ojibways. The Iroquois and Ojibway teams, representing Canada and New York, are constantly striving for supremacy.

The final score of the Interuniversity Lacrosse Association was as follows:

	Won.	Lost.		Won.	Lost.
Columbia	2	1	Cornell	2	1
Pennsylvania ..	1	2	Harvard	1	2

The scores of many of the important games played in the Eastern States are given below:

Oxford-Cambridge, 6; Harvard, 5.
Oxford-Cambridge, 3; Hobart, 1.
Oxford-Cambridge, 5; Pennsylvania, 1.
Crescent A. C., 4; Oxford-Cambridge, 3.
Crescent A. C., 11; Johns Hopkins, 1.
Crescent A. C., 9; Johns Hopkins, 3.
Crescent A. C.,10; Seneca Indians, 3.
Thistles, Ontario, 10; Crescent A. C., 7.
Toronto University, 5; Crescent A. C., 4.
Toronto University, 9; Johns Hopkins, 6.
Johns Hopkins, 6; Swarthmore, 4.
Seneca Indians, 5; Stevens Institute, 3.
Seneca Indians, 3; Cornell, 3.
Cornell, 4; University of Pennsylvania, 3.
Cornell, 4; Harvard, 3.
Harvard, 6; College City of New York, 2.
University of Pennsylvania, 5; Harvard, 1.
Columbia 3; University of Pennsylvania, 2.
Columbia, 5; Cornell, 1.
Lehigh, 7; Stevens Institute, 6.
Hobart, 4; Harvard, 1.

The Shamrocks of Montreal won the championship of Canada.

ICE YACHTING.

The season of 1902-03 was not equal to that of other years, but several important races were sailed in January and February. It was a disappointment to yachtsmen to have the races for the Stuart international trophy declared off because of unfavorable weather conditions.

Fond du Lac, Wis.—The race for the championship of Lake Winnebago was sailed on February 16, and was won by Dan Heylman's Norway, of Oshkosh.

Long Branch, N. J.—The race for the championship of the Shrewsbury Club was sailed on January 20, and was won by J. Elwyn Green's Eagle. Distance, 15 miles. Time, 38m. 52 1-5s.

Red Bank, N. J.—The race for the Challenge Pennant of New Jersey between the Shrewsbury Ice Yacht Club (holder) and the Burlington Ice Yacht Club (challenger) was sailed on February 21, and was won by the yacht Wizard, of the Shrewsbury Ice Yacht Club. Distance, 15 miles. Time, 40m. 50s.

The final race for the State championship between the Wizard and the Vixen was sailed on February 24, and was won by George I. Gillig's Wizard.

Newburgh, N. Y.—The race for the Challenge Cup of 1888 was sailed by the Orange Lake ice yachts on February 14, and was won by J. Taylor's Junior. Distance, 10 miles. Time, 39m. 20s.

Poughkeepsie, N. Y.—The race for the pennant of the Hyde Park Ice Yacht Club was sailed on February 6, and was won by Archibald Rogers's Mink. Distance, 10 miles. Time, 41m.

Kalamazoo, Mich.—The races for the Stuart international trophy, scheduled for January 20, was declared off on February 2, because of unfavorable conditions.

The number of ice yachts on North and South Shrewsbury rivers is 75.

AMERICAN AMATEUR SKATING RECORDS—UNAIDED BY WIND OR BY FLYING START.

50 Yards, straightaway—6s., S. D. See, and C. B. Davidson, Van Cortlandt Lake, N. Y., December 28, 1885.

75 Yards, straightaway—8 3-5s., S. D. See, Van Cortlandt Lake, N. Y., December 30, 1883.

100 Yards, straightaway—9 4-5s., J. S. Johnson, Minneapolis, Minn., March 1, 1893.

120 Yards, straightaway—11 3-5s., J. S. Johnson, Minneapolis, Minn., March 1, 1893.

150 Yards, straightaway—15 7-8s., G. D. Phillips, New York City, January 27, 1883.

200 Yards—17 2-5s., J. S. Johnson, Minneapolis, Minn., February 26, 1893.

220 Yards—20 1-5s., J. Nilssen, Montreal, Canada, February 1, 1896, and also W. Caldwell, Montreal, Canada, February 6, 1897.

300 Yards, straightaway—31 2-5s., G. D. Phillips, Van Cortlandt Lake, N. Y., December 30, 1883.

440 Yards—39 1-5s., J. K. McCulloch, St. Paul, Minn., January 27, 1896.

600 Yards—55¼s., O. Rudd, Minneapolis, Minn., March 5, 1893.

880 Yards—1m. 20 2-5s., J. Nilssen, Montreal, Canada, February 1, 1896.

1 Mile—2m. 41½s., O. Rudd, Minneapolis, Minn., February 14, 1896.

1½ Miles—4m. 28s., J. S. Johnson, Montreal, Canada, February 26, 1894.

2 Miles—5m. 42 3-5s., O. Rudd, Red Bank, N. J., January 25, 1895.

2½ Miles—7m. 32s., J. S. Johnson, Montreal, Canada, February 26, 1894.

BOXING CHAMPIONS OF THE AMATEUR ATHLETIC UNION FOR 1903.

Decided at Cambridge on May 14, 1903.

Bantamweight Class, 105 Pounds.—James McKinley, Riverside A. C., Cambridge.

Featherweight Class, 115 Pounds.—Thomas Stone, Avonia A. C., New York.

Special Class, 125 Pounds.—A. G. McGarry, Mott Haven A. C., New York.

Lightweight Class, 135 Pounds.—Jack Leavy, Pastime A. C., New York.

Welterweight Class, 145 Pounds.—Jack Leavy, Pastime A. C., New York.

Middleweight Class, 158 Pounds.—William Rodenback, West Side A. C., New York.

Heavyweight Class.—Emery Payne, Mott Haven A. C., New York.

GYMNASTIC CHAMPIONS.

The intercollegiate gymnastic championships were held in New York City on March 27 and the amateur championships were held on March 28 in the same city.

Columbia University won first place in the intercollegiate contest, with twenty-five points; Yale was second, with thirteen points, and New York University third, with six points. L. De Sola, of Yale, won the individual all-round championship.

THE RESULT OF BOTH MEETINGS.

Event.	Amateur Champion.	Intercollegiate Champion.
Horizontal bar	Anton Jahoda, New York	W. Coulter, Princeton.
Side horse	J. F. Bissinger, New York	J. C. Smallwood, Columbia.
Flying rings	P. M. Kempf, U. of Penn	P. M. Kempf, U. of Penn.
Indian clubs	Frederick Metz, Jr., Newark	R. C. Wilson, Columbia.
Tumbling		F. H. Duncombe, Columbia.
Parallel bars	E. C. Brendlin, New York	L. De Sola, Yale.

ROQUE.

The annual championship tournament of the National Roque Association was held at Norwich, Conn., August 18 to 22. Charles C. Cox, of Malden, Mass., won highest honors. The result follows:

Expert Division.	W.	L.	Second Division.	W.	L.	Third Division.	W.	L.
1. C. C. Cox, Malden, Mass.	9	2	1. D. A. Mitchell, Phila.	10	0	1. S. E. Davenport, N. Y.	7	1
2. A. N. Marr, Washington.	8	3	2. C. W. Hale, Springfield.	7	3	2. W. H. Kidd, Bridgeport.	6	2
3. Wm. Hogeland, Phila.	7	4	3. R. W. Messenger, Martha's Vineyard	7	3	3. A. L. Brown, Norwich	6	2
4. C. G. Williams, Wash'ton.	7	4				4. D. N. Davenport, Northampton, Mass.	6	2
5. W. H. Wahley, Wash'ton.	6	5	4. G. W. Porter, Lindsay, Pa.	7	3			
6. C. Jacobus, Springfield	6	5	5. A. C. Robinson, Punxsutawney, Pa.	7	3	5. J. E. Webb, Westchester, Pa.	5	3

WINNERS OF PREVIOUS CHAMPIONSHIPS.

1895—G. C. Strong, New London, Ct.	1898—W. H. Wahley, Washington.	1901—W. H. Wahley, Washington.
1896—E. C. Butler, Middletown, Ct.	1899—C. G. Williams, Washington.	1902—S. Duryea, Washington.
1897—S. Duryea, Washington, D. C.	1900—C. G. Williams, Washington.	

ICE HOCKEY.

The result of the games played by three prominent hockey leagues last Winter is given below:

INTERCOLLEGIATE.

College.	Won.	Lost.
Harvard	4	0
Yale	2	2
Princton	2	2
Columbia	2	2
Brown	0	4

AMATEUR HOCKEY LEAGUE.

Club.	Won.	Lost.
Crescent Athletic Club	8	0
New York Athletic Club	5	3
Hockey Club	3	4
Brooklyn Skating Club	2	6
St. Nicholas Skating Club	1	6

NEW YORK HOCKEY LEAGUE.

College.	Won.	Lost.
Heffley School	3	0
Columbia Second	2	1
College of the City of New York	1	2
Stevens	0	3

The Princeton team disbanded on February 17 and forfeited its one remaining game to Columbia. Columbia and Yale were thereby tied for second place and played a game to settle the matter. Yale won. Yale then played Harvard two extra games for the championship cup offered by J. M. Ceballos and called the St. Nicholas Cup. Harvard won both games.

In the Amateur Hockey League series the St. Nicholas S. C. and the Hockey Club played a tie game.

The Victorias, of Winnipeg, won the championship of Canada. In the deciding game with the Montreals they won the Stanley Cup by a score of 4 to 2.

The Brooklyn Polytechnic Preparatory School won the championship of the Long Island Interscholastic League.

The scores of several interesting games played last Winter are as follows:

Victorias, of Pittsburg, 8; Yale, 2.
Yale, 2; Cornell, 0.
Yale, 6; Yale Graduates, 3.
Columbia, 2; Hackley School, 0.
Portage Lake (Mich.), 10; Victorias, Pittsburg, 1.
Portage Lake (Mich.), 7; Victorias, Pittsburg, 6.
Portage Lake (Mich.), 11; Pittsburg A. C., 1.
Portage Lake (Mich.), 3; Pittsburg A. C., 1.
Cornell, 4; Princeton, 0.
Crescent A. C., 5; Montreal, 4.
Montreal, 6; Saranac Lake, 3.
Queens, of Ontario, 7; Yale, 2.
Queens, of Ontario, 11; Princeton, 0.
Harvard Graduates, 5; Yale Graduates, 1.

FATAL ACCIDENTS IN SPORTS IN THE UNITED STATES, 1903.

Although football undoubtedly causes more bad accidents than any other athletic game, the deaths from injuries received during play are not as many as derived from other sports. The football season is short—eight weeks—and it is likely that many more deaths would result through gridiron accidents if the season was longer. In the following table of "deaths through sports" the fatalities in rowing, swimming and skating are omitted, as the inability to swim and other circumstances should be considered. In the figures that follow, only deaths that were caused by actual participation in the games are given:

Baseball	9	Hazing	1
Basketball (girl)	1	High diving	1
Bicycle racing	1	Horseback, racing	8
Boxing	5	Jumping rope (girls)	3
Discus throwing	1	Polo	1
Football	6	Wrestling	1
Gymnastics	1		
Golf	1	Total deaths	42
Hammer throwing	2		

SPORTING NECROLOGY.

Allen, Tom, April 5, at St. Louis, was champion prize-fighter. He lost the championship to Jem Mace, May 10, 1870, and regained the title by defeating Mike McCoole, September 23, 1873. Aged 72.

Allen, John E., August 29, at Mineola, L. I., well-known horseman. Aged 57.

Barrett, "Dave," August 18, at New York. He was at one time a famous jockey.

Barrett, John, shot putter.

Barry, Lawrence, May 18, at New York, a jockey and steeplechase rider, fatally injured in a race at Morris Park.

Bell, David, March 16, at New Orleans. Professional golf player. He was a native of Scotland.

Bergquist, T. R., July 5, at Grand Isle, Ia., professional high diver, killed in an exhibition by the breaking of a ladder.

Bruce, A. P., September 14, at Danville, Ky., a well-known trotting horseman.

Courtney, George A., March 17, at Syracuse, N. Y. Expert rifle shot. Aged 63.

Cox, Tom, July 16, at St. Louis. He was known as a pedestrian and athletic coach.

Delahanty, Ed., in July, at Fort Erie, Ont. Famous baseball player from 1887 until his death. He was a leading batsman and played in over 1,800 games, principally with the Philadelphias.

Donovan, Jerry, in May, at Cohoes, N. Y. He was a prize-fighter in the "sixties," and handled many famous fighters.

Elkes, Harry D., May 30, at Cambridge, Mass., famous bicycle rider, killed in a race at the Charles River Park.

Franklin, Captain A. C., April 28 at Louisville, Ky. Well known turfman.

Gerrish, Lieutenant William, April 12, at Chelsea, Mass. Maker of the highest long-distance rifle score ever known. Aged 60.

Goddard, Joe, January 21, at Camden, N. J., Australian pugilist, known as the "Barrier Champion." His last fight was a six-round draw with George Cole, at Philadelphia, in 1902. Aged 41.

Harris, Dooney, June 12, at New York. Prize-fighter in the lightweight class in the "sixties." Aged 70.

House, Richard S., September 25, at Denver, Col. At one time was trainer of thoroughbreds in King Edward's stables. Aged 32.

Howard, James S., May 9, at New York. He was an expert swimmer.

Hughes, Major Edward, July 20, at Louisville, Ky. Was bottle-holder to John L. Sullivan when that fighter fought Kilrain.

Hull, F. V. R., Hull, April 9, at Lexington, Ky., a noted horse trainer. He aided greatly in the development of Maud S., Belmont, Harold and other turf stars. Aged 47.

Jamison, George W., April 22, at Delaware, O. Horseman and trainer.

Jones, Link, February 19, at Nashville, Tenn. Once a famous colored jockey. Aged 42.

Kairns, Emil, June 14, at Philadelphia. Oarsman, and was president of the Keystone Boat Club. Aged 21.

Kernochan, James Lorillard, October 5, at Hempstead, L. I. Gentleman rider, and was a prominent member of the Meadowbrook Hunt Club. Aged 41.

Kerrigan, Billy, February 25, at Brookline, Mass. Football player; well known in Massachusetts. Aged 24.

Lee, Thomas I., July 31, at New York. Athlete and sporting writer. He won the American championship at 100 yards, in 1894, in 10 1-5 seconds. Aged 33.

Leonard, Andrew J., August 20, at Boston. He played baseball with the Boston National League team from 1871 to 1879. Aged 56.

Lucas, Joseph D., June 8, at St. Louis. Was president of the Kinloch Jockey Club, and his breeding farm at Glenwood was famous. Aged 49.

Martin, Harris, the "Black Pearl," April 26, at St. Paul, Minn. Middle-weight pugilist. His last fight was with "Young Peter" Jackson in Portland, Ore., which he lost in the fifth round.

McCormick, John B., "Macon," September 4, at Bath Beach. Sporting writer. Aged 66.

McDonald, Patrick F., May 18, at Chelsea, Mass. Baseball player and oarsman. Aged 36.

McInerney, James, May 20, at Louisville, Ky. A jockey, fatally injured while racing. Aged 17.

McIntyre, Hugh Duncan, June 17, at Brooklyn, N. Y. Was secretary of the Brooklyn Jockey Club, and was noted as a handicapper. Aged 58.

Meekel, W. J., March 7, at Newburg, N. Y. Famous as an oarsman twenty-five years ago.

Mercer, Winnie, June 8, at San Francisco. National League baseball player and a member of the Detroit American Club at the time of his death.

Moher, Louis V., May 27, at Orange, N. J. Football player of the Orange A. C. in 1902.

Mullen, Michael A., June 26, at Newark, N. J. Horseman and patron of rowing; was once commodore of the Passaic River Rowing Association. Aged 63.

O'Connor, John, in August, at San Francisco. Well known professional walker.

O'Donnell, David, April 26, at Providence, R. I. Well known among sporting men in Rhode Island and Massachusetts.

Reed, Thomas, January 25, at Scranton, Pa. Once champion quoit pitcher of England. Aged 50.

Ryan, William, August 4, at Chicago. He was noted as a jockey.

Scoggin, Hiram J., August 30, at Louisville, Ky. He owned Proctor Knott, Dr. Rice and other horses, and was interested in racing.

Sensenderfer, John H., May 3, at Philadelphia. From 1865 to 1876 he played centre field on the Philadelphia Athletics, and toured Europe with the team. Aged 55.

Shanklin, Elliott W., October 2, at Lexington, Ky. He was secretary of the Kentucky Trotting Horse Breeders' Association, and a breeder of trotting horses. Aged 41.

Shea, Willie, October 2, at St. Louis. A prominent jockey, fatally injured in a race at Delmar.

Stewart, Patterson, May 26, at Kansas City, Mo. Horse owner, well known in the Middle West.

Sullivan, Jerry, April 22, at Tucson, Ariz. Well known turf follower.

Sweeney, William J., in July, at Philadelphia. He played baseball in 1878 with the Philadelphia Athletics.

Wallace, John H., May 10. Authority on horses. In 1897 he published a book, "The Horse in America," which obtained much notice.

Ward, Charles, January 29, at Rockaway Beach, L. I. Once a famous oarsman. Aged 71.

Watrous, Walter W., June 20, at Atlantic City, N. J. A promoter of all outdoor sports and was a member of the Racquet Club of New York. Aged 43.

Wolf, Jimmy, May 16, at Louisville, Ky. Baseball player.

Young, John, October 28, at Newark, N. J. Famous oarsman; one of four that won American championship in 1876. Aged 51.

INTERESTING BITS OF SPORT, 1903.

There are several performances in the following that may be found in the regular record tables next year, but as there is still some doubt as to their genuineness, it has been thought better to keep them separate from authenticated performances:

Jan. 24, at Montclair, N. J. — Maurice Wood skated 100 yards in 9 3-5 seconds.

Feb. 14, at Ottawa, Ont.—Cresceus trotted a mile on the ice in 2 minutes 15 seconds.

March 11, at El Paso, Texas.—R. Conley lassoed and tied a steer in 21½ seconds.

April 25, at Des Moines, Iowa.—H. T. Chapman cleared 12 feet in a pole vault.

May 10, at Orange, N. J.—Ray Ewry made an exhibition running high kick of 9 feet 10 inches.

June 27, at New York City.—32,240 people at a baseball game, between Pittsburg and New York.

July 1, at Bridgeport, Conn.—John Harland made the fourth hole in a game of golf in one stroke, a distance of 223 yards.

July 18, at New York City.—Frank Baia shaved 17 men in 30 minutes.

July 25, at Syracuse, N. Y.—Two homing pigeons flew from Richmond, Ind., to Syracuse, N. Y., in 27 hours. Distance, 700 miles.

Aug. 19.—Dan Patch paced a mile in 1 minute 59 seconds, lowering the world's harness record.

Aug. 24, at Bellville, Ill.—J. M. Waterbury played a piano continuously for 26 hours without stopping for more than 5 seconds at a time.

Aug. 26, at New York City.—Henry Frederick completed his "round-the-globe" trip in 54 days 7 hours and 20 minutes.

Aug. 29, at Reading, Ohio.—Roy Schnell shaved 30 men in 30 minutes.

Sept. 19, at Pueblo, Colo.—In a five-mile cowboy

relay race the Watson & Pratt ponies made the time of 9 minutes 35½ seconds for the distance.

Sept. 25, at Philadelphia.—Heatherbloom, the high-jumping horse, cleared 7 feet 9 inches at the Bryn Mawr Horse Show.

Oct. 13, at Paris, France.—Peguet won the go-as-you-please pedestrian race from Bordeaux to Paris (372 miles) in 114 hours 42 minutes 20 seconds.

Oct. 15, at Hamilton, Ont.—W. Sherring won the Hamilton road race, 19 miles, in 1 hour 51 minutes 57 seconds.

Oct. 19.—Cresceus broke the world's trotting record without a wind shield by one-quarter of a second. Time, 1:59¾.

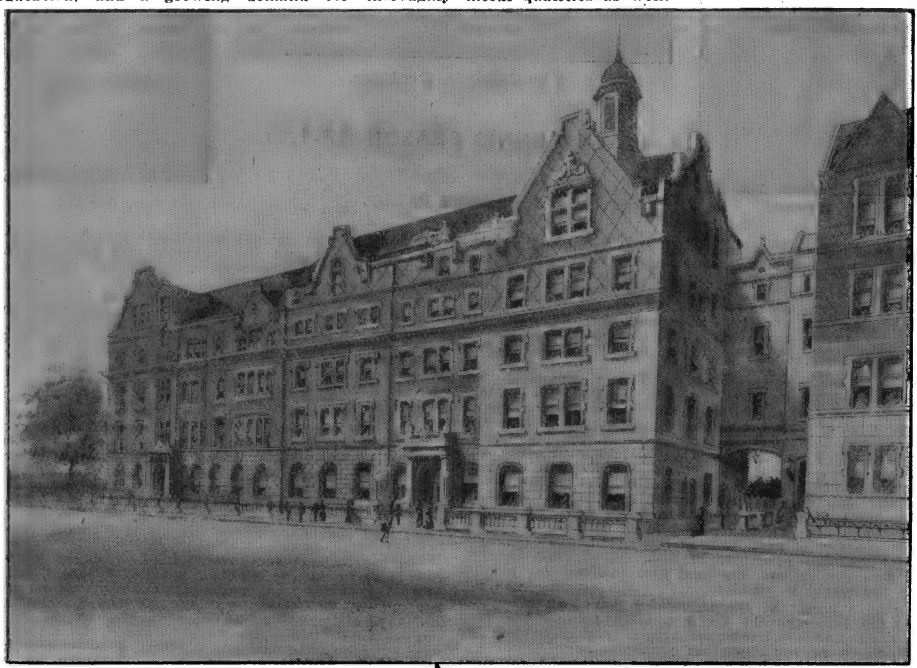
Oct. 22.—Dan Patch paced a mile in 1:56¼, without a wind shield, but accompanied by a runner.

Oct. 24, at Memphis, Tenn.—Lou Dillon lowered world's trotting record, making mile in 1:58½, without wind shield.

Nov. 10, at Birmingham, Ala.—Dan Patch lowered the world's pacing record for half-mile track to 2:03¼.

Nov. 10, at Birmingham, Ala.—Dan Patch low-Billings drove his world's champion trotter, Lou Dillon, 1:58½, a half mile in 59 seconds and a quarter of a mile in 27 seconds. The time for the quarter was the fastest ever made by a trotter for the distance. If the same speed were maintained throughout the entire mile it would give Lou Dillon a record of 1:48. In both performances Lou Dillon pulled a speeding wagon weighing about fifty pounds.

PHYSICAL EDUCATION AT COLUMBIA.



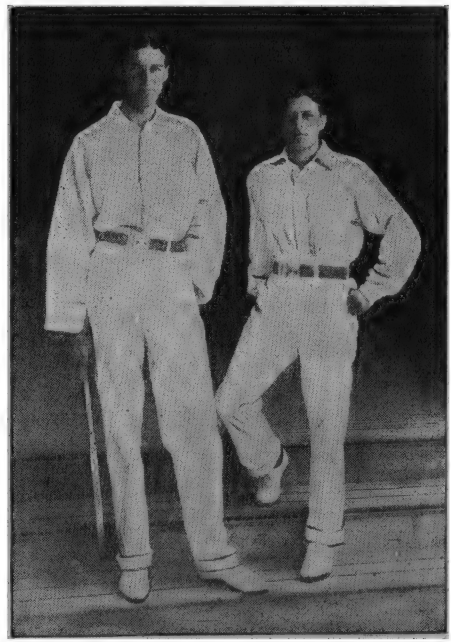
G. A. YOUNGER.

Never before 1903 has any university had as extensive a course in physical education as Columbia University acquired when Mrs. Frederick F. Thompson made a bequest of $250,000 for a building to be devoted entirely and exclusively to a school of physical education. No school with the same aims had ever existed in America, and the directors believe that the cause of physical education has been well advanced by the foundation of this institution. Courses specially designed for the training of teachers and supervisors and for the solution of all possible problems relating to health have been arranged, and it is the intention of the new school to encourage an appreciation of the benefit of physical training by supplying a capable teaching staff for all schools and colleges.

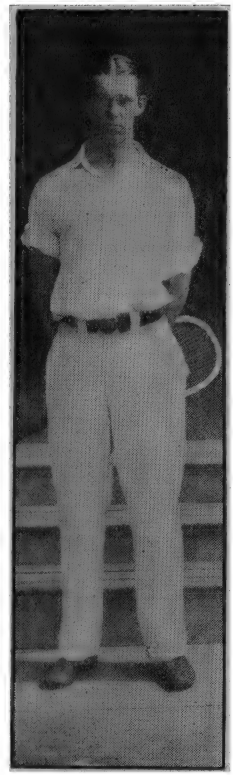
There has been a rapidly increasing recognition of physical education as an essential feature of modern education, and a growing demand for thoroughly qualified teachers in this field. Physical education includes everything directly related to health; it is also responsible for the larger motor activities necessary for the best possible state of health and a complete organic development. It is recognized more clearly every day that certain motor, mental and moral qualities which may be gained through a comprehensive pursuit of health are essential for the highest efficiency of the individual and of the race.

It is necessary for this desired state of health that the organism of the individual be safe and sound, that all the conditions affecting children should be healthful and favorable to their best growth and development, that the conventional curriculum of subjects in education should be supplemented by games and gymnastics which give the greatest organic skill, vigor and efficiency, and that the pupil should be instructed in matters relating to the care of his own health.

It is the duty of education to protect the organic soundness of the child as one of the vital interests of society as well as of the individual. Hence it is incumbent on physical education to study and test the selection and adjustment of activities of all kinds from the standpoint of their effect upon health, and to provide a certain foundation for the demands of later life by means of physical training, consisting of gymnastics, athletics, games, plays and rhythmic movements, during the early years of the child. So it will contribute to the development of character and to the training of mental and moral qualities as well.



New Physical Training School at Columbia University.



The new building given to Columbia University has been thoroughly equipped and carefully designed to afford all the possible requirements of an adequate thaining in this work. The number of physical instructors at present is very limited, and Columbia will supply a demand of many years' standing by providing teachers competent in this line. The building is five stories high, and has many laboratories and rooms designed for special work, besides a spacious gymnasium and a swimming pool. It is very modern in all its features, especially as it has adequate provision both for men and women students.

Wrenn.

The Doherty Brothers.

Larned.

LAWN TENNIS SEASON OF 1903.

J. PARMLY PARET.

The lawn tennis season of 1903 furnished a complete victory for the famous Doherty brothers, and through them, for the English players. It will be remembered that the Dohertys were beaten in America a year before as challengers for the international championship, and in the singles for the American championship, and that they also lost the English championship in doubles for the first time in six years.

The whole outcome of 1902 was completely reversed last season, however, and the Dohertys made a clean sweep of the board, winning the English championships in both singles and doubles, both indoors and outdoors; the American championship in both singles and doubles and the international championship and Davis Challenge Cup. These two English brothers are now admittedly the greatest players in the world, either amateur or professional, and H. L. Doherty, the younger of the two, who holds both the American and English championships in singles, is clearly the superior of any other in this event. In exhibition test matches at Nice, France, last Spring the Dohertys easily beat the best two professional players in the world in singles.

As a result of the successful American campaign of the Dohertys the Davis Challenge Bowl has gone abroad, and the burden of attack now falls upon the shoulders of the American players.

While no challenge has yet been issued for next season's matches, it is confidently expected that the United States National Lawn Tennis Association will challenge for the trophy next Spring and send a team over to the other side next Summer in an effort to recover the trophy. Already Larned, Whitman, Ward and either Davis or Collins have been talked of for the challenging team, but the selection of the challengers would not be made until the Spring opened in any case. The Intercollegiate Lawn Tennis Association has already challenged Oxford and Cambridge for an international intercollegiate match for next season.

A feature of the season just ended was the refusal of the victorious ex-champion, M. D. Whitman, to play in the international matches, his business interests interfering and the re-entry into general play of ex-Champion R. D. Wrenn. Both will play again next season it is reported.

Before the challenging team arrived last July it was generally reported that F. L. Riseley, who had won the English championship all-comers' tournament and challenged H. L. Doherty for the title, would accompany the Doherty brothers to America. When the English team was almost ready to leave, however, Riseley was forced to withdraw, and H. S. Mahony was sent over as the third member of the team. In the end Mahony acted only as a substitute, and did not play in any of the international matches.

The Dohertys and Mahony, with President W. H. Collins, of the English Lawn Tennis Association, arrived in America July 22, and appeared at Longwood, where the Eastern championship tournament was in progress, the following day. They spent the balance of their first week in America at practice on the Longwood courts, and then played at Nahant, Mass., the following week.

In the Nahant tournament H. L. Doherty had an easy victory in the singles, beating W. J. Clothier after the latter had beaten R. D. Wrenn, and also beating G. L. Wrenn easily. In the doubles the Dohertys and the Wrenns came together in the finals, but as these two pairs were to meet the following week in the international doubles, it was arranged to substitute Mahony for H. L. Doherty in the doubles, and this patched-up English pair beat the Wrenn brothers in the finals after a brilliant five-set match, the last set running up to 10—8.

The international matches were started on Tuesday, August 4, on the grounds of the Longwood Cricket Club, in Boston. The first day furnished a big surprise, for, unknown to the Americans, R. F. Doherty had strained his shoulder in the final match at Nahant three days before, and it was too lame for him to play. Captain Collins asked permission to substitute Mahony for the older Doherty in the opening match in singles, and Captain Larned, of the American team, agreed to this substitution on condition that R. F. Doherty was withdrawn from the

singles entirely and Mahoney played in both rounds of the singles. The international regulations permitted such a substitution "with the consent of the opposing captain," so the decision rested with Larned.

The Englishmen were unwilling to withdraw the elder Doherty from the singles entirely, and as Mahony was practically certain to be beaten by both the American representatives, they decided to default the first match of R. F. Doherty's schedule and rely on his getting into condition again in time for the last round. They were favored by the weather, for the two days following it rained hard, and this extra rest was enough to bring Doherty's shoulder round, and he played in both of the last two days of the international matches.

In the other match of the first round in the singles H. L. Doherty clearly outplayed R. D. Wrenn, winning in three straight sets, only one of which, the last, was close.

The doubles were played the second playing day (August 7) and the Doherty brothers scored a clever victory over the Wrenn brothers in four exciting sets, the first two being a toss-up until the last stroke, and each winning one easy set after that. R. F. Doherty's shoulder did not seem to trouble him in this match.

With two matches to one against them the Americans had to win both of the singles of the last day to win the series, and they made a good fight for the victory, being beaten only by a very narrow margin in each match. The Englishmen won the first sets on each court and the Americans the second. Both Larned and Wrenn lost their third sets, and each evened matters up at two sets all, while in the deciding fifth sets, both going on at the same time amidst tremendous excitement, to a fashionable audience, the score ran up evenly to four-all on each court, but here Larned apparently had the match in hand and lost it, while Wrenn also was outplayed when the pinch came, and both lost by close scores. This gave the victory and the Davis Cup as well as the international championship to the challengers for England.

Davis International Challenge Bowl.

The summary follows:

W. A. Larned (America) beat R. F. Doherty (England), 6—0, 6—0, 6—0 by default.

H. L. Doherty (England) beat R. D. Wrenn (America), 6—0, 6—3, 6—4.

R. F. Doherty and H. L. Doherty (England) beat R. D. Wrenn and G. L. Wrenn, Jr. (America), 7—5, 9—7, 2—6, 6—3.

R. F. Doherty (England) beat R. D. Wrenn (America), 6—4, 3—6, 6—3, 6—8, 6—4.

H. L. Doherty (England) beat W. A. Larned (America), 6—3, 6—8, 6—0, 2—6, 7—5.

The week following the internationals the Dohertys played at Southampton and carried everything before them. They won both singles and doubles. H. L. Doherty again defeated Larned, and this time easily, in the finals.

The national championship tournament at the Newport (R. I.) Casino was played the week beginning August 18. The entry list of 77 players included all three of the visiting British experts, who had the misfortune to draw on the same side. H. L. Doherty beat Mahony in the fourth round in three straight sets, and then ran up against his brother, who defaulted to him. In the finals the English champion met W. J. Clothier and beat him easily also by 6—3, 6—2, 6—3, thus winning the all-comers' tournament.

This victory brought him against Champion W. A. Larned in the challenge round for the American championship, and this match was the best of the tournament. The American, however, failed entirely to do himself justice, and never seemed to have a chance, except toward the end of the third set, when Doherty tired and Larned's play seemed to improve. He failed then to get the few points he needed at the critical stage of the match, and was beaten in three straight sets. The score: 6—0, 6—3, 10—8.

The championship doubles were played off in sections, as usual, at Longwood and Chicago. In the Eastern championship at Longwood, Holcombe Ward and L. E. Ware captured first honors, while at Chicago Kriegh Collins and L. H. Waidner won the Western championship. These two pairs met in the finals at Newport, and Collins and Waidner won in three straight sets by 6—3, 6—4, 7—5. In the challenge round the next day the Doherty brothers, the previous holders of the American championship title, beat Collins and Waidner by 7—5, 6—3, 6—3.

Three American players campaigned abroad during the season of 1903—Clarence Hobart, Robert Le Roy and Wylie C. Grant. Of these Le Roy did the best work, and he and Grant won a good many fresh honors while on the other side. In the open tournament at Elgin, for the north of Scotland championship, Grant retained the championship title he won the year before, while he and Le Roy won the doubles. At Homburg, in Germany, Grant and Le Roy won the championship of Europe at doubles, beating Ritchie and Ball-Greene, two of the strongest second-class English players, by three sets to one in the finals. At The Hague, in Holland, Le Roy won the championship of Europe in singles, and he and Grant also won the open doubles. At the Yorkshire championship meeting in England Le Roy reached the final in the singles after beating E. D. Black, who played in America on the international team of 1900, but was beaten in the finals by W. C. Crawley in straight sets. In the doubles Le Roy and Grant were beaten in the semi-finals by F. W. Payn and B. Hillyard by 13—11 in the deciding set.

At Brighton, in England, Le Roy and Grant met in the final round for the Sussex Challenge Cup, and Le Roy won by 8—6, 6—1, 1—6, 1—6, 6—2. They also won the open doubles at this tournament. At Eastbourne the following week Grant beat H. S. Mahony, just returned from America and the international matches, by 2—6, 7—5, 6—2, but lost to E. R. Allen badly two rounds later. Le Roy also lost to Allen by three sets to one in the semi-finals, while the two young Americans were beaten in the final round of the doubles by the Allen brothers by 6—3, 6—1, 5—7, 6—4. At Ostend, in Belgium, Hobart beat M. J. G. Ritchie in the semi-finals, but was beaten in the finals by P. de Borman, a crack Belgian player, after an exciting match. In the doubles, with Ritchie for a partner, Hobart was also beaten in the finals, winning second honors in both events.

RECORD OF THE DAVIS INTERNATIONAL CHALLENGE BOWL.

(Copyright, 1903, by W. R. Hearst.)

1900.

Played at the Longwood C. C. August 8, 9 and 10. Won by America, 3 matches to 0.

RACQUETS, COURT TENNIS AND SQUASH.

J. PARMLY PARET.

The devotees of the three kindred indoor sports of racquets, court tennis and squash kept up their enthusiasm of the previous season during the Winter of 1903, and there was fully as much interest in all three sports as during the banner year before. The expense attached to playing any of these games always prevents their becoming popular with the great mass of sportsmen, for each is played in a covered court specially built for it, which is not useful for anything else.

However, the number of tennis and racquet courts is steadily increasing, and a host of new squash courts were built last season. Squash is less difficult than either of its sister games, and is likely to become more widely popular because of its simplicity and the wider range of the people it interests. Old and young alike play squash, but both racquets and court tennis are too strenuous for all but the most energetic.

The open tournament for the amateur championship at racquets was held at the New York Racquet and Tennis Club from February 6 to February 21. There were sixteen entries, including players from Boston, Philadelphia, New York and Montreal. These were rapidly narrowed down in the first three days' play to the semi-final stage, when Quincy A. Shaw, Jr., of Boston, beat Lawrence Waterbury, of New York, and Payne Whitney, of New York, beat Morton S. Paton, of New York. In the finals all calculations were upset by the unexpected victory of Mr. Whitney over Mr. Shaw. The Bostonian had held the championship several times before, and he was generally looked upon as a sure winner again last year. Mr. Whitney was in rare form, however, and his service proved to be very telling. He lost the first game by 12—15, but after that ran off three games in succession, each at 15—10. His victory was very welcome to the New York contingent, but a decided surprise to all concerned.

Payne Whitney.

The annual tournament for the amateur racquet championship in doubles was held by the Philadelphia Racquet Club February 27 and 28. The entry was a poor one, however, the only team expected from New York—Payne Whitney and Milton Barger—having to drop out, and the competition narrowed down to two Philadelphia pairs and Quincy A. Shaw, Jr., and M. Bartlett, of Boston. The Bostonians were beaten in the first round by R. K. Cassatt and Hugh Scott, of Philadelphia, who then met Newbold Etting and James Potter in the finals, and won easily in four straight games. The score was 15—4, 15—3, 15—6, 15—10.

The amateur court tennis championship tournament was held at the Boston Athletic Association during the last week of March and the first week of April. In the semi-

finals Joshua Crane, Jr., of Boston, beat J. H. Morgan, of New York, and Charles E. Sands, of New York, beat Oliver S. Campbell, of New York. The finals brought out the finest play of the tournament, when Mr. Crane met Mr. Sands, and an enthusiastic gallery watched the two brilliant experts during the match. Mr. Crane finally won, but not until after he had had a narrow escape from losing his championship title. In the fourth set, with two sets to one against him, Mr. Sands led at 5—2, and came within a single point of taking the set. As he is considered a better "stayer" than Mr. Crane the majority believed he would have won had he got the much-needed point at the critical period of the match. But he failed to do so, and Mr. Crane finally landed the set by 13—11 and took the championship three sets to one.

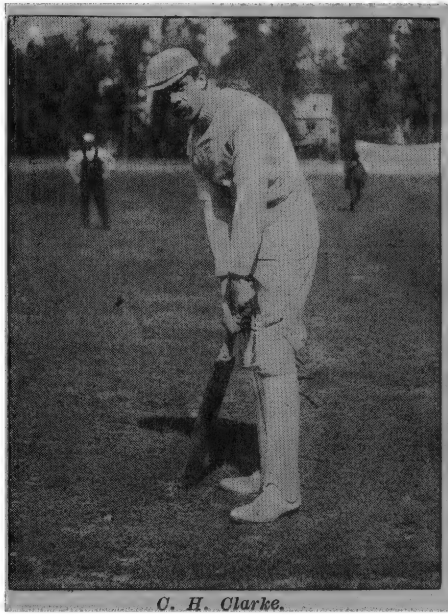
The open tournament for the amateur squash championship of America was held at the Tuxedo Racquet and Tennis Club February 21, 22 and 23. There were eighteen entries for the title, including representatives from New York, Philadelphia, Boston, Tuxedo and a big delegation of Harvard players, but there were a great many defaults recorded the first day. In the semi-finals B. Wendell, Jr., of Harvard, beat J. J. Blair, of New York, and George I. Scott, of New York, beat R. F. Cutting, Jr., of Tuxedo. In the finals Mr. Scott showed splendid form, winning a brilliant match from Mr. Blair, his clever Harvard adversary, in three straight games by 15—9, 15—6, 15—6. The Consolation Cup was won by J. Gordon Douglas, of New York, who beat L. L. Green, of Harvard, after a long match by 15—9, 12—15, 7—15, 15—9, 17—15, the result trembling in doubt until the last stroke had been played.

George Standing, of New York, the professional racquet champion of America, played several stake matches during the year, although none for the championship title was played. On December 27, 1902, Standing met Robert Moore, the local professional, at the Tuxedo Racquet and Tennis Club, and beat him by 15—5, 12—15, 18—12, 17—18, 15—12.

At the opening of the new racquet court in Detroit January 10 Standing met Harry Boakes, the professional of the Chicago Athletic Association, and won a clever match by four sets to two, although conceding odds of five aces in each game. Two days later Standing again conceded the same odds to Boakes in the later's court in Chicago, and won by three games to one.

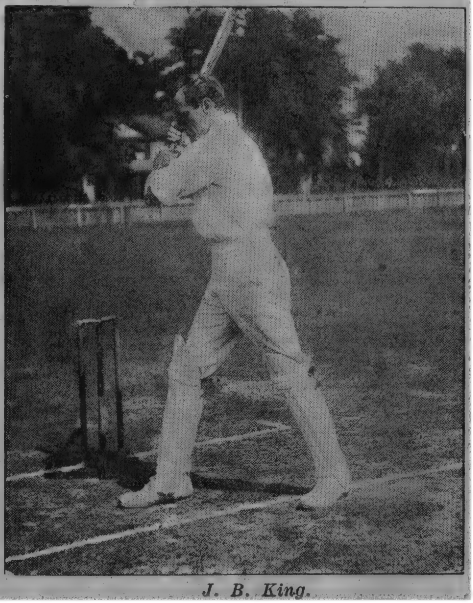
Cecil Fairs, commonly known as "Punch," the professional of the Princess Club, in London, made a trip to America in December and January last year and played several matches against the leading American amateurs and professionals, conceding odds in every case. At court tennis "Punch" conceded odds of half fifteen and a bisque to Standing and won two sets. "Punch" also conceded fifteen and a bisque to Mr. Joshua Crane, Jr., at Tuxedo, and won two matches, each by three sets to one. "Punch" afterward conceded odds of fifteen for a bisque to Standing.

CRICKET, 1903.



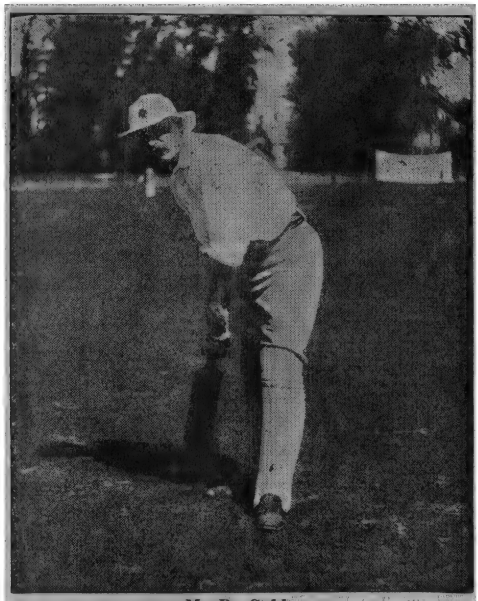
F. F. KELLY, Secretary Metropolitan District Cricket League.

The season of 1903 was one of the liveliest on record for cricket in America. Not only did a much higher standard of play prevail in most of the matches in this country, but the play of the Philadelphia cricketers on their tour of the British Isles was freely praised by Englishmen for its improvement over any play ever made abroad by Americans. The visit of the Kent cricketers to our shores last Summer was responsible for much of the stimulus the game enjoyed. They are all thorough sportsmen, and made themselves very popular during their stay.



The game is also enjoying a boom in intercollegiate circles here, as evidenced by the advent of a Cornell team in the Intercollegiate League.

The Kent County cricketers played the first game of their American schedule with the Philadelphia Colts on September 18 and 19. The Englishmen showed their calibre in this game by beating the lively young Colts by eight wickets. A week later the men from Kent tackled the strong Philadelphia team. The visitors did almost as well in this contest, for the veteran Philadelphians were beaten by seven wickets. The British experts then journeyed to New York and tackled an all New York team on the Staten Island Cricket Grounds at Livingston, Staten Island, on September 30 and October 1. Kent was again the victor, winning by 124 runs. Early in October the Kent team played the Philadelphians again at Haverford and won by seven wickets, thereby finishing the series in America without suffering a single defeat.



While the Kent cricketers were playing havoc with the Americans an American team was winning laurels in England, Scotland and Wales. This was an aggregation of players known as the Gentlemen of Philadelphia. They arrived in Europe early in the Spring, and during their stay played sixteen games with the most prominent teams of the British Isles. The Americans finished the season abroad with the admirable record of seven games won, six games lost

C. H. Clarke.

J. B. King.

M. R. Cobb.

and three games drawn. No American team has ever equalled this record, and nothing could show in a better way the progress the game has enjoyed in the land of Uncle Sam.

The Americans were also successful against the Canadians in a match played at Toronto in August. The team from this side of the border won by the great margin of 147 runs.

The contest for supremacy in the New York Cricket Association was the most spirited in many years. Nine teams contested for the local championship. The Columbia Oval team proved the winner, capturing eight games, losing two games and playing three drawn games, and scoring the big percentage of .800.

Throughout the season they were closely pushed by the West Indians, who played one more game than the Columbia Oval team. The West Indians finished with the creditable record of eight games won, three lost and three drawn, giving them the percentage of .727.

As an instance of how evenly the leading teams in the New York League were matched, it might be well to mention that the Brooklyn team finished third with a percentage of .700, and the Branch Brook team fourth with a percentage of .666.

In the Metropolitan District League championship for 1903 the New Jersey Cricket Club demonstrated its indisputable superiority over all competitors by winning the trophy with a clean score of a 1.000, their record being ten games won, none lost and two drawn out of twelve games played. Paterson was a poor second, with .600.

Although Brooklyn only finished fourth in the tournament, her team has the honor of having in J. Poyer the champion batsman of the league. His remarkable record is eleven innings with three times not out. His highest score was 61, and he made 297 runs, giving him an average of 37.12. W. Bunce, of Paterson, who finished second, with a percentage of 31.33, has heretofore been rated one of the best batters in the league, which proves Poyer to be one of the greatest batters ever on an American team.

INTERSTATE.

New York vs. New Jersey June 6, at Brooklyn. New York, 87; New Jersey, 133. New Jersey won by 46 runs.

The Germantown Club won the championship of Philadelphia in three championship series—namely: Halifax, Philadelphia and Radnor clubs—unprecedented in the annals of the game in the United States.

CHICAGO CRICKET ASSOCIATION.

Wanderers' Club won the championship.

CALIFORNIA CRICKET ASSOCIATION.

San Francisco County Club won the championship.

VETERANS' MATCHES.

All New York vs. All Philadelphia (over 40 years), June 25, at Haverford, Pa. Score: Philadelphia, 210 runs for 7 wickets (innings declared closed); New York, 97. Philadelphia Veterans won by 113 runs.

All New York vs. All Philadelphia (over 40 years), September 17, at Staten Island. Score: New York, 109; Philadelphia, 47. New York won by 62 runs.

New York vs. New Jersey (over 50 years), September 26, at Paterson, N. J. Score: New Jersey, 57; New York, 44. New Jersey won by 13 runs.

INTERNATIONAL MATCHES.

United States vs. Canada, August 24 and 25, at Toronto, Canada. Score: United States, 167 and 110; Canada, 47 and 83. United States won by 147 runs.

Kent County vs. 18 Philadelphia Colts, played at Philadelphia, September 18 and 19. Score: Philadelphia Colts, 79 and 114; Kent County, 109 and 25, for 3 wickets. Kent won by 8 wickets.

Kent County vs. Philadelphia, played at Philadelphia, September 25, 26 and 28. Score: Philadelphia, 128 and 194; Kent County, 132 and 192, for 3 wickets. Kent won by 7 wickets.

Kent County vs. New York, September 30 and October 1, at Staten Island. Score: Kent County, 202 and 76, for 4 wickets (innings declared closed); New York, 100 and 54. Kent won by 124 runs.

Kent County vs. Philadelphia, October 2, 3 and 5, at Haverford, Pa. Score: Philadelphia, 66 and 177; Kent County, 180 and 64, for 3 wickets. Kent won by 7 wickets.

The leading batsman on the English team was J. R. Mason, and the leading bowler W. M. Bradley.

INTERCOLLEGIATE CHAMPIONSHIP.

Triple tie—Haverford College, University of Pennsylvania and Harvard University.

NORTHWESTERN TOURNAMENT (CHICAGO).

Triple tie—Chicago, Pittsburg and Manitoba.

The other clubs competing were St. Louis and Minnesota.

Cornell has now taken to the game.

BASKETBALL.

G. A. YOUNGER, Columbia.

The interest in basketball has been increasing yearly, and in 1903 numerous leagues were formed in all parts of the country. Its popularity is now becoming general in various parts of the world, which is very remarkable, as the game is purely an American invention and is comparatively few years old. The sport began originally in lower educational institutions, and for a time possessed the features of a game for women only. College men, however, soon began to recognize it, and its popularity has continually increased. After schools and colleges, military organizations took up the game, and athletic clubs, which had merely used it for the exercise it gave, formed teams. The development, too, was very great among social clubs, and many young men of the working classes organized teams to pass their evenings pleasantly.

The Amateur Athletic Union has done much to promote the interest of basketball players by organizing teams in all parts of the United States and bringing them under one control in order to regulate the methods of playing and to make one set of rules the standard. There was danger at first that the public would not receive basketball with as much enthusiasm as baseball and football, but the number of persons who were present at the matches last season shows that the game is popular not only from the point of view of the player but also the spectator.

An instance of the popularity that basketball has won in foreign countries is its introduction by the Syrian Protestant College at Beirut, Syria. Five teams were formed there and a tournament was played. Later the collegiate and the preparatory departments held a contest to decide the championship, resulting in a victory for the latter.

Of the many leagues formed in the United States, the more important are the various Y. M. C. A. leagues and the Intercollegiate Basketball League. A great step was taken when the Young Men's Christian Association took up basketball. Inside of a few years nearly every branch of this organization has formed at least one team. These teams were carefully drilled under competent trainers and many league championships went to the Y. M. C. A.

The members of the Intercollegiate Basketball League were Yale, Harvard, Columbia, Princeton and Cornell during the season of 1902-3, and each team played every other twice. Pennsylvania was made a member of the league in September, 1903. Yale won the championship of the series.

The Young Men's Christian associations of Maine held a contest during the season of 1902-3, which resulted in the following order: Portland branch, first; Bar Harbor branch, second; Bangor branch, third.

The Central A. A. U. basketball teams played a series of games in Chicago. The teams entered were the West Side Y. M. C. A., Chicago; Wheaton College, of Wheaton, Ill; Company H, of Monmouth, Ill. first and second teams; Monmouth College, of Monmouth, Ill., and Company C, of Muscatine, Iowa. The result: Champions, West Side Y. M. C. A.; Company H, Sixth Illinois Infantry, second, and Wheaton College, third.

The Missouri Athletic Club won the championship of a four-team league in St. Louis, and claimed the championship of the Middle West by defeating the Haskell Indian team.

The Cumberland Athletic League of Maine played a series of 132 games, resulting in a victory for the Y. M. C. A. Crimson team.

COURSING IN CALIFORNIA.

PEER TIFFANY, Keeper of the American Greyhound Stud Book.

The coursing season of 1903 in California has been a remarkable one in many respects. During the entire season the sport has been confined exclusively to enclosed parks, and the time-honored open stakes on the plains seem to have been abandoned entirely. The innovation, however, is a popular one, as the trials in the perfectly appointed parks have proven most satisfactory to the followers of the leash and were, beyond dispute, true tests of the relative merits of the contending hounds. Three parks, all liberally patronized, have run continuously during the year—Union Park, in San Mateo County; Ingleside Park, at San Francisco, and the Angelus Park, at Los Angeles. With the exception of the hot Summer months meetings have also been held weekly at Stockton, Sacramento, Melrose and Fresno. Two new parks will be opened shortly at San Bernardino and Bakersfield, and the coming season promises to be the most brilliant in the history of coursing in California.

The greatest coursing events of the year were run at Union Park, under the auspices of the Interstate Coursing Club, the oldest and most prominent club in the State. These are annual fixtures, and include the John Grace Challenge Cup, the California Plate, the Belle Brandon Cup, the California Futurity, the Ladies' Day Championship and the California Coursing Committee Stake. Thousands of dollars in prizes were distributed in these different stakes, the total purse in the John Grace Challenge Cup alone amounting to $6,600. The nominations were limited to sixty-four, and the contestants represented the acme of breeding of America, England and Australia.

Daniel Walsh's Sacramento Boy, beyond all question the cleverest greyhound ever bred in America, won the stake for the second time, an unprecedented occurrence in the annals of the leash. The most remarkable fact in connection with his victory was that in every course he was led to the hare, when his superior working qualities enabled him to offset the greater speed of his opponents and return him again the winner of the blue ribbon of the leash.

The Belle Brandon Cup, for whelps of 1902, brought out a large number of highly-bred youngsters, honors going to F. A. McComb's Free From Flaw and Queen's Motto, both by the imported Fetter Free, out of Motto, the former beating her kennel mate in the deciding course. George Malcolm's Mad Mab, by Rusty Gold, out of Ripple, was third.

The California Plate was won by Pocatelli, the present American champion, and a half-brother to Palo Alto, last season's champion. Lord Brazen, owned by Lacy Crawford, of St. Louis, Mo., was the runner-up. Pocatelli is by the great Emin Pasha, out of Little Wonder, and his win marks the third successive time that the get of this noted sire has won this rich coursing event. In 1901 Palo Alto, by Emin Pasha—Geary's Bonnie Lass, beat his litter brother Erin in the deciding course, and last year Sisquoc, by Emin Pasha—Wave, beat Beacon, by Skyrocket, out of the imported Buenretiro.

The California Futurity, the stake of greatest interest to breeders, was won by P. J. Horgan's Irvington Tralee, by Wild Tralee—Manila. The runner-up was F. A. McComb's Manhattan King, a litter brother to the winner and runner-up in the Belle Brandon Cup. The Ladies' Day Champion Stake went to Sacramento Boy, which took the deciding course by default, T. J. Cronin's Vandal being withdrawn, owing to a gruelling course received in the preceding round.

The California Coursing Committee Stake, in which delegates alone were entitled to hold a nomination, brought out twenty-four of the greatest dogs in America, their owners turning the dogs over to the members of the committee for this occasion. Pocatelli, named by P. J. Reilly, an associate member, captured the stake from Rector, nominated by John Sutton, of the Interstate Coursing Club. Rector is a noted stake winner, by Chartist, out of The Fram, imported, and is owned by Lacy Crawford.

The chief features at Ingleside Park were the San Francisco Coursing Club events, the Crocker Cup and Lynch Trophy. Twenty stake winners contended for the cup, R. Albridge's Sofala, by Moondyne II.—Lady Jane, beating Frank Jones's Wedgewood, by St. Lawrence—Moonlight. The latter was the stake favorite, but was beaten decisively in the final course. W. J. Leonard's Little Plunger, by Tom Hurlick—Ballroom Belle, captured the Lynch Trophy from E. McCormack's Gold Lily, by Gold Hill—Nellie B. Eighty hounds started.

Unusually large stakes were run at Ingleside during the year, all-age events of ninety-six and one hundred and twelve entries being decided almost every week.

The most noticeable feature at Los Angeles was the remarkable showing made by Galveston, Anna Ryne, Tom King, Rock Island Minnie and Queen of Isles, a litter of greyhounds by Rock Island King, out of Irma. Each of the above are many-time stake winners, and even when still in the puppy class were entered in open stakes, where they vanquished the pick of the Southern California coursers.

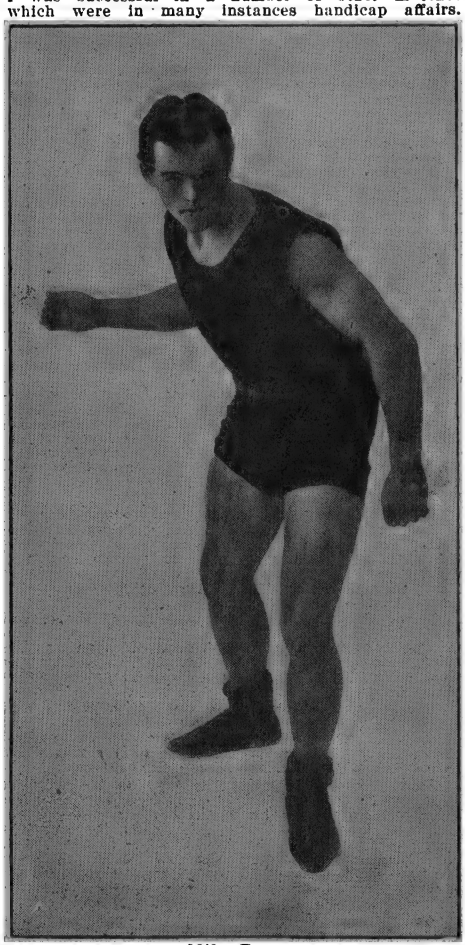
The dogs running at Fresno were composed largely of the get of the imported sires, Fortuna Favente, Fetter Free and For Freedom, and as a consequence the class of the performers was superior to that usually seen in the smaller parks. Royal Archer, by For Freedom—Daisy Hill; Runaway Actress, Renegade Apache and Reckless Acrobat, by Fortuna Favente—Brilliantine, won a majority of the stakes run.

The most prominent stake run at Stockton was the third annual renewal of the Longers' Cup, and was won by Dr. F. P. Clark's The Coroner, by Onward—Maud Gold.

Sacramento Boy won every stake in which he was entered at Sacramento, greatly outclassing all of his opponents. The hounds running at Melrose were of the ordinary kind, the management making it a point to encourage none but the poorer class of dogs.

Emin Pasha still holds the lead as the winning sire, closely pressed by Fetter Free and Fortuna Favente. Fetter Free is a full brother to For Freedom and next season will have many representives ready for the slips and should forge to the front, particularly so as Emin Pasha and Fortuna Favente are both dead. The Wild Tralee stock is also highly thought of, as his get possesses unusual stamina besides more than an ordinary amount of speed.

The largest individual winner of the year was George Nethercott's Pocatelli, which is still a young dog, and barring accidents, is sure to hold the American championship for some time to come. Of the



other noted winners the most prominent are Pasha Pleasant, Black Coon, Palo Alto, Silver Heels, Barge, Belle Free, Full Moon, Haphazard, Lord Brazen, Vandal, Tralee Boy and Rubber Ankles.

All the parks in the State are under the jurisdiction of the California Coursing Committee, the governing body. The committee was organized for the purpose of popularizing and promoting the interests of coursing by combining and amplifying the efforts of the various clubs, and it has brought about a unity of action in all ways calculated to advance the best interests of the sport. The various clubs represented are bound by the rulings of the committee in all matters pertaining to entry, running, registration and control of greyhounds, their owners and trainers. All decisions are absolute, and as a result of the committee's labors the breeding of superior greyhounds has been encouraged, the sport has been kept perfectly clean and is now extensively patronized by lovers of out-of-door amusements.

HANDBALL.

MICHAEL EGAN, the World's Champion Handball Player.

The ancient game of handball is rapidly gaining in popularity on this side of the Atlantic. During the year of 1903 numerous handball courts have been erected in the different cities throughout the United States. With the installaion of these courts have sprung up many clubs composed of enthusiastic handball players and in big cities like New York, Chicago and San Francisco handball experts can be found the equal to many of those on the other side. Although the game had been played on the other side many years before it was introduced in this country, America has to-day most of the leading players in that delightful pastime. As for the professional element the championship remains in this country. I defended the title twice in a match series, while I was successful in a number of other matches which were in many instances handicap affairs.

Mike Egan.
(Receiving the Ball with the Right Hand.)

Both of Ireland's champions, who have come to this country, have suffered defeat. Oliver Drew was the first champion to cross the ocean in an effort to capture international honors, but although he made a game effort I had no difficulty in disposing of him in our series. My first important match in 1903 was with Louis Keegan, of Chicago, recognized champion of the West. The conditions of the match were best eight out of fifteen games for a side wager of $500. The first series of seven games was played in Jersey City on March 21. Keegun, although considered one of the strongest players in this country, failed to get a game in the opening series, the score being:

Egan	21	21	21	21	21	21	21
Keegan	7	3	2	19	8	7	10

According to the agreement the second series was to take place at Kennedy's Courts, Chicago, and on April 12 the match was completed. Having won the opening seven games, I only required one more game to get the decision. This I secured when I defeated Keegan by 21 to 13 in the second game. The first match was won by Keegan by 21 to 16. It was the only game he won during the entire series, the total score being 8 to 1 in my favor. The result of the second and final series was:

Egan	16	21
Keegan	21	13

After defeating Keegan I made a tour of the West meeting all comers. Failing to secure opponents to meet me for the championship, I engaged in many exhibitions, all of which proved successful. There are many good players in the West, and the increased interest in the game is plainly manifested. When I returned to New York I found a challenge awaiting me from Timothy Twohill, of Cork, Ireland. Twohill was the recognized champion of Ireland, the home of many great handball experts. Negotiations for the match were completed without the slightest hitch, and Twohill sailed for America at once, being assured of a match. The conditions of the match, which was for the championship of the world, was best eight in fifteen games. Twohill, like his countryman Drew, met defeat, losing the entire series. The first series was played in Jersey City on June 23 and consisted of seven games. Twohill was easily the best player that ever came to this country after the championship, but he failed to capture a game.

The score for the first series was:

Egan	21	21	21	21	21	21	21
Twohill	5	1	6	5	5	4	0

The second series, according to the conditions, was to be played in Ireland, or Twohill's home city, and on June 27 I sailed for the other side to complete the series. Although the result was a foregone conclusion, I was obliged to keep my agreement, and on July 12 the remaining series was started, but Twohill complained of his hands and the series was postponed until the following week. On July 19 the play was started with one of the largest attendances that ever witnessed a match in Ireland. I only required one game to decide the championship and this I secured by winning the opening game by a score of 21 to 6. I remained abroad for three months and, after an extended tour through the important cities, returned with the world's championship.

Upon my return to this country I received a challenge from James Fitzgerald, the former Irish champion, of San Francisco. I accepted the challenge for a championship match and the contest took place on November 29.

Although the experts of handball can only be found among the professionals, there are many clever amateurs and handball to-day is essentially an amateur pastime. Like boxing, wrestling and other exercises, handball has been taken up in the various clubs, and it is followed by many athletes as well as laymen for the good results that one receives from the exercise. As an exercise for development I do not think there is any sport more beneficial than

handball. I have known weak men who have failed with many other forms of exercise to develop their entire system by indulging in handball. To become a good handball player there are many things necessary, although any one can get enough exercise out of the game whether he is an expert or not. Speed is about one of the most important qualities, while the player must possess a wonderfully quick eye. There is almost as much mental work required in playing handball as there is exercise. That is, you have got to figure in an instant where your opponent's delivery is going to land, so that you can return it without a miss. When I first took it up I weighed about 125 pounds. My weight to-day is about 180 pounds. The reason handball develops so many muscles is that every serve or return calls for turns, twists and swings that give all kinds of actions.

WRESTLING.

GEORGE BOTHNER, Lightweight Champion Wrestler.

Not in many years had wrestling been as popular as it proved during the year of 1903. Although none of the big foreign champions visited this country, as in former years, in search of international honors, England sent two representatives. Tom Carroll, a heavyweight champion, and Tom Riley, a lightweight champion. Both of the Englishmen went down before their Yankee rivals.

Despite the lack of foreign material the professional element prospered. Many important matches were decided, including several championship matches.

With many various styles to choose from the only popular styles with the modern wrestlers, and really the only up-to-date styles, are the Graeco-Roman and catch-as-catch-can. Not only are all of the professional matches decided according to one of these styles, but they are the only styles followed by the amateur and those who indulge in the sport for pastime and the physical advantages derived from the exercise.

The amateur element was strongly in evidence, particularly in the big athletic clubs. The New York Athletic Club alone has a class of 155, which includes millionaires who seek to build up their systems.

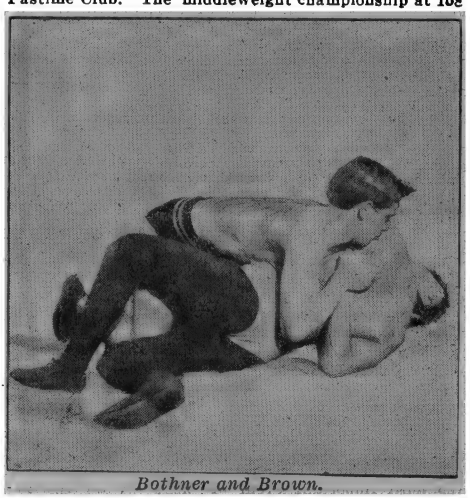
In the professional class the catch-as-catch-can wrestlers fought it out more bitterly for supremacy than ever before. Tom Jenkins, the recognized catch-as-catch-can champion, won back the laurels that were wrested from him in 1902 by Dan McLeod and defended his title successfully against all comers. Jenkins's first important match was with McLeod, his conqueror for the championship of the United States. The match resulted in a victory for Jenkins, who regained the championship by defeating McLeod in two straight falls at catch-as-catch-can style. With a victory each to their credit the rivals met again for the third time, at Pittsburg, Pa., and Jenkins retained the championship by winning two out of three falls.

Jenkins added a long string of well-earned victories to his record. He defeated Jim Parr, winning the first and third falls. Another important match in which Jenkins participated was a meeting with John Piening for the mixed style wrestling championship. The match took place at Madison Square Garden, New York. The conditions for the match were best two in three falls. According to the conditions the first bout was to be Graeco-Roman and the second bout catch-as-catch-can. The third bout, if necessary, was to be chosen by the winner of the quickest fall. The match resulted in a draw after wrestling more than two hours at Graeco-Roman style. The match being held on Saturday night the wrestlers had to abandon their work at midnight. Neither scored a fall during the bout.

Jenkins disposed of the Western champion, J. Grotch, but not until after a hard struggle, the match lasting more than two hours. Jenkins met Tom Sharkey, the heavyweight pugilist, and Jack Munroe. Both were handicap matches. Sharkey was thrown twice, while Munroe was thrown four times in one hour—the time limit. Jenkins was to have thrown Munroe five times in one hour, and failing, lost the decision.

John Piening, the recognized Graeco-Roman champion, managed to hold his own against all comers. Most of his matches were handicap affairs. At his own forte Piening proved equal to Jenkins. He defeated among other aspirants for championship honors E. Selva and threw Jack Munroe three times in one hour, although he had agreed to score four falls or forfeit the decision.

Jenkins won an international match when he defeated Tom Carroll, who claimed the championship of England. Another international match which resulted in a victory for the Yankee wrestlers was the meeting between George Bothner and Tom Riley, the lightweight English champion.



As for the lightweight division, I am still entitled to the championship. The most important in this class was my match with Harvey Parker for the lightweight championship of the world, at catch-as-catch-can. The contest took place in New York and lasted three hours and seventeen minutes without a fall being scored. The match was declared a draw. I won the international title by disposing of Tom Riley, the English champion. My contest with Max Luttbeg at St. Louis, catch-as-catch-can style, resulted in a draw after one hour of wrestling, neither gaining a fall.

Being outclassed by the heavier men, I took on numerous handicap matches, all of which proved successful. Faust failed to score one fall in one hour, although his contract called for four falls in that time. John Piening undertook to score three falls in one hour, but only succeeded in gaining two falls. Tom Jenkins lost the decision to me by failing to score four falls in one hour. The best he could do in the time limit was three falls. Leo Pardello and E. Selva are among others who failed to score a single fall in their handicap matches with me.

The amateur championship for the various classes, held under the auspices of the Amateur Athletic Union, were as usual interesting, bringing together the best aspirants in the organized athletic clubs.

The tournament was largely attended, and the competitions were exceedingly interesting, the rivalry among the competitors making the battle for the gold prizes bitter.

Edward Curry, a youth from the St. George Athletic Club of New York, won the bantamweight championship. The featherweight championship went to Fred Maynard, of the National Turn-Verein, who disposed of many aspirants. The special class, at 125 pounds, was captured by Isador Nyflot, of the Pastime Athletic Club. The lightweight class championship was won by John Bradshaw, of the Boys' Club. The middleweight honors went to Mike Yokal, of the Pastime Club. The middleweight championship at 158 pounds and under was won by William Beckman, of the West Side Athletic Club. There was no heavyweight class recorded.

Bothner and Brown.

IMPORTANT HOLDS USED IN WRESTLING.

The most important holds used in wrestling are:

CATCH-AS-CATCH-CAN. — In catch-as-catch-can wrestlers are allowed to catch hold of any portion of the body in which serious injury is not endangered, but they are not permitted to scratch, throttle or commit any unfair act. Neither are they allowed to use on their body any grease, oily substance, resin or pernicious drug.

A second is not allowed to touch his man or the latter's opponent while they are wrestling.

If the wrestlers get entangled with the boundary or the ring, they shall draw off, and renew the contest with the same hold as when they drew off.

The men are allowed ten minutes between each fall. If a wrestler gain a fall and neglects or refuses to continue the contest, his opponent shall claim the stakes, or, in the event of a wrestler gaining a throw, he can claim the stakes in the absence of any arrangement to the contrary. If any dispute not provided for in the articles arises it shall be settled by the referee, whose decisions shall be final.

COLLAR-AND-ELBOW, OR SQUARE-HOLD STYLE.—The contestants are required to wear knit shirt and short coat or jacket, not to extend below the hips, with strong collar and sleeves for the grasp of the opponent and each wears rubber shoes or sandals. Each wrestler shall take hold of the collar of his opponent with his right hand, the grasp of the collar to be opposite the left ear of his opponent, and neither contestant shall be allowed to loose or break his hold or shift his hand on the collar, forward or back, until a fall is decided. Should either contestant do so, the referee shall have full power to decide the bout against him and in favor of his opponent. No kicking is allowed. To decide a fall or bout, a contestant is required to throw his opponent fair on his back, so that two hips and one shoulder, or two shoulders and one hip shall strike the ground or floor at the same time. Neither contestant is allowed to rest until a fall is scored, unless by mutual consent.

CORNWALL AND DEVONSHIRE STYLE.—In Cornwall and Devonshire wrestlers compete in strong, loose linen jackets, catch hold above the waist or by any portion of the jacket. Kicking is forbidden, and the men compete in their stocking feet. In order to score a fall, two shoulders and one hip must be on the ground, or two hips and one shoulder. A man must be thrown flat on his back before any other portion of his body touches or a decision cannot be given against him.

CUMBERLAND AND WESTMORELAND STYLE.—On taking hold the wrestlers stand chest to chest, each placing his chin on his opponent's right shoulder and grasping him around the body, each placing his left arm above the right of his antagonist. When both men have gotten hold and are fairly on their guard, the bout commences, and, with the exception of kicking, they are allowed to use every legitimate means to throw each other. If either party breaks his hold, the one so leaving loose shall be the loser, and if either man touches the ground with one knee only, or any part of his body, though he may still retain his hold, he shall not be allowed to recover himself, but shall be the loser. If the men fall side by side, or otherwise, so that the umpires cannot decide which was the first on the ground, it shall be what is technically called a "dog fall," and shall be wrestled over again; but if both fall to the ground the man who is first down or falls under the other shall be the loser. Two umpires and a referee decide all Cumberland and Westmoreland competitions.

GRAECO-ROMAN OR FRENCH STYLE OF WRESTLING.—The wrestlers are only allowed to take hold from the head and not lower than the waist. Taking hold of the legs constitutes a foul. The wrestling is done with open hands, and the wrestlers are not allowed to strike or scratch. No harness of any kind is used. If the wrestlers roll over each other, the one whose shoulders shall touch the carpet first is deemed thrown, if rolling falls are the count. It is necessary that both shoulders shall touch the ground at the same time in order to gain a fall. All matches are best two out of three falls, each fall to consist of two shoulders being upon the ground at the same time; if but one fall is gained after three hours' wrestling, the contestant winning that fall is declared the winner. If two falls were scored, one by each, at that time, then the contest must continue until a second fall is won by either wrestler, unless otherwise agreed upon.

SIDE-HOLD WRESTLING.—The wrestlers grasp each other around the waist, and hip-lock or cross-buttock or grapevine each other until they gain a fall. The contestants are rigged with a set of strong leather or webb harness, which must reach from the shoulder to the waist and from the neck to the elbow. A coin is tossed for choice of holds, and the contestant winning the toss can take the left and under or right and over. The contestant taking the left and under shall take hold of his opponent's harness at the waist on the left side with his left hand, and his opponent's left hand with his right. The contestant taking the right and over shall take hold of his opponent's harness behind the right shoulder and his opponent's right hand with his own left. If either contestant break his grasp or hold during a bout with one or both hands to save himself, it shall be considered a foul, and the referee shall decide the fall or bout against him. To decide what is considered a bout or fall, a contestant will be required to throw his opponent fair on his back; two shoulders must strike the ground or floor at the same time to constitute a fall. A rest of fifteen minutes is allowed between each bout.

OTHER HOLDS IN WRESTLING.

Arm hold.	Hip lock.
Ankle and crotch.	Half nelson and body hold.
Cross buttock.	Half nelson and further leg.
Body hold.	Head lock.
Half nelson.	Hammer lock and crotch.
Back heave.	Hammer lock and half nelson.
Bar hold.	Leg hold.
Chancery.	Leg trip.
Head hold.	Strangle hold.
Strangle hold.	Scissors hold.
Crotch.	Three-quarter nelson.
Double leg hold.	Waist and head hold.
Quarter nelson.	Waist hold.
Flying mare.	Waist and cross buttock.
Further nelson.	Waist lock.
Full nelson.	Wrist hold.

WRESTLING CHAMPIONS OF THE AMATEUR ATHLETIC UNION FOR 1903.

Decided at New York, January 5-7, under auspices of New Polo Athletic Club.

105 Pounds, Bantamweight.—Edward Curry, St. George A. C., New York.

115 Pounds, Featherweight.—Fred Maynard, National Turn-Verein, Newark, N. J.

125 Pounds, Special Class.—Isador Nyflot, Pastime A. C., New York.

135 Pounds, Lightweight.—John Bradshaw, Boys' Club, New York.

145 Pounds, Welterweight.—Mike Yokel, Pastime A. C., New York.

158 Pounds, Middleweight.—William Beckman, West Side A. C., New York.

No heavyweight class.

CHESS IN 1903.

J. PARMLY PARET.

The season of 1903 was a successful one for American chess enthusiasts, for their representatives won the most important event of the year, the international cable match for the Newnes Challenge Trophy, which is commonly looked upon as representing the international championship at chess. The British team, representing the London Chess Club, was beaten after a close finish by 5½ games to 4½. The American players won four games, drew three and lost three, giving them the victory by the narrow margin of half a game.

An interesting feature of the match was the continued success of J. F. Barry, who once more scored a victory over his opponent. Barry has by all odds the best record of any of the players who have taken part in these cable matches, for he has not yet been beaten and has drawn only two games. Hodges, his closest rival, has taken part in every one of the eight games, and has not lost a game. Four of his games, however, have been drawn.

Among the masters there were two big tournaments during the year. At Monte Carlo in February and March Pillsbury, the American champion, finished a good third, while Marshall, the other American entered, was in the second division, with more defeats than victories. First honors at Monte Carlo were won by Tarrasch, with Maroczy second.

A novelty was tried at the Vienna Chess Club in the shape of a tournament in which the first two moves on each side, those of the king's gambit, were fixed and were required to be played in each game. Ten of the masters were entered for this event, and it lasted from May 2 to May 26, resulting in a victory for Tschigorin, with Marshall, the American, second and Marco third. Pillsbury, the American champion, was fourth.

Among the collegians the most important event of the year was the cable match against Oxford and Cambridge. This resulted in each side winning two games, losing two and drawing one, with the sixth

game left unfinished to be adjudicated. Pillsbury, who was acting as the American referee in London, was asked to adjudicate the position, and he decided in favor of the English student, giving the Oxford-Cambridge combination the victory by 3½ to 2½, and with it the Rice International Trophy.

In the intercollegiate championship tournament Columbia won after a close finish, with Yale a close second; while Cornell won the championship of the Triangular Intercollegiate Association, beating the University of Pennsylvania and Brown, which finished in the order named.

The Manhattan Chess Club, of New York, played a consultation match by cable with the Havana Chess Club on April 25 and 26, and beat the Cubans in 43 moves in a queen's gambit declined. On May 30 the Manhattan players met the members of the Franklin Chess Club, of Philadelphia, on sixteen boards, and won by 10½ to 5½.

The Brooklyn Chess Club played a telegraphic match against the Chicago Chess and Checker Club on May 30, with twelve boards, but were beaten by 6 to 5, one game being declared off because of a misunderstanding between the players.

The wireless telegraph instruments on board ocean liners were brought into use often during the year to carry on chess matches between distant ships. One of the most interesting of these contests was held by teams on the Lucania and the Philadelphia, in January, when the Philadelphia team won in thirteen moves.

Dr. Lasker.

The Lucania's players were Captain Frederick W. Young and R. W. Milbank, of Liverpool; E. Horace Mundy and E. Marshall Fox, of London; William Evans, of Edgbaston, and Captain H. R. Campbell, of New York City. The Philadelphia's team was composed of Frank Caldwell, of Chicago, W. B. Whelen, of Philadelphia, and Waldemar Weiss, of New York City.

In the Summer of 1902 a game was attempted between the Philadelphia and the Campania, but the liners got out of range before the game was decided. A game was also attempted between the Lucania and the Minnetonka, but an accident to the aerial wire on the former boat put a stop to it after four moves had been made.

The principal chess clubs in Greater New York are the following: Cosmopolitan, No. 1½ Second avenue, New York; Evans, No. 34 East Ninth street, New York; Manhattan, No. 105 East Twenty-second street, New York; Women's, Carnegie Hall, New York; Brooklyn Chess Club, No. 146 Montague street, Brooklyn; Central Y. M. C. A. Chess and Checker, Fulton street, Brooklyn; Dutch Arms Chess, No. 760 Carroll street, Brooklyn; Philidor, Williamsburg Turn Verein, No. 67 Meserole street, Brooklyn; Queens County, Fulton street, Jamaica; Staten Island, No. 136 Canal street, Stapleton, S. I.

RECORDS.

The eighth annual international cable match for the Newnes Trophy was held April 4 and 5 in Brooklyn and London, the boards being connected by direct telegraphic wires to record the moves. After two days' play it resulted in a fifth victory for the American forces by the following score:

Board No.	American Team. Player.	Score.	Style of Opening.	No. of Moves.	British Team. Player.	Score.
1	Pillsbury	½	Sicilian defence	38	Lawrence	½
2	Barry	1	Sicilian defence	53	Blackburne	0
3	Hodges	½	Ponziana	37	Mills	½
4	Marshall	1	Queen's gambit declined	31	Atkins	0
5	Hymes	0	Queen's gambit declined	56	Bellingham	1
6	Voight	1	Ruy Lopez	30	Trenchard	0
7	Newman	0	Queen's gambit declined	62	Mitchell	1
8	Delmar	½	Center counter gambit	59	Jacobs	½
9	Howell	0	Ruy Lopez	67	Gunston	1
10	Helms	1	Dutch defence	60	Hooke	0
	American total	5½			British total	4½

The American players used the white pieces, with the first move on the even-numbered boards; the British played first on the odd-numbered boards.

Eight matches have been played by cable for the Newnes Trophy, of which the Americans have won five, in 1896, 1899, 1900, 1902 and 1903; the British players twice, in 1897 and 1898, while one game, in 1901, resulted in a draw.

A summary of the whole series, showing the individual record of every man who has played in these eight matches, as well as the team result in each year, follows:

INDIVIDUAL AND TEAM RECORDS IN THE CABLE MATCHES.

Teichmann	16½	9½	Taubenhaus	10½	15½			
Marco	15½	10½	Albin	8	18			

*American players.

The gambit tournament at Vienna attracted entries from ten of the masters, and lasted from May 2 to May 26, ending with the following result:

Players.	Games Won.	Games Lost.	Players.	Games Won.	Games Lost.	Players.	Games Won.	Games Lost.
Tschigorin	13	5	Maroczy	9	9	Schlechter	7	11
Marshall*	11½	6½	Mieses	9	9	Gunsberg	2	16
Marco	11	7	Teichmann	9	9			
Pillsbury*	10	8	Swiderski	8½	9½	Totals	90	90

*American players.

The international intercollegiate cable match for the Rice Trophy was played simultaneously in Boston and London, March 26 and 27, with the following result:

Board No.	AMERICAN TEAM. Player.	College.	Result.	Opening.	No. of Moves.	BRITISH TEAM. Player.	College.	Result
1	Rice	Harvard	½	Queen's Gambit declined	42	Webb	Cambridge	½
2	Sewall	Columbia	1	King's gambit declined	57	Bateman	Cambridge	0
3	Sawin	Yale	0	Ruy Lopez	20	Davidson	Oxford	1
4	Richardson	Princeton	1	French defence	56	Roome	Oxford	0
5	Keeler	Columbia	0	Queen's gambit declined	49	Bumpass	Oxford	1
6	Bridgman	Harvard	0	French defence	53	Brown	Cambridge	1
Total			2½			Total		3½

The Rice Trophy has been played for for five years and the American collegians have won it only once. Oxford and Cambridge won three times and once the match was drawn. The record is as follows:

1899—Americans, 2½; Englishmen, 3½.
1900—Americans, 1½; Englishmen, 4½.
1901—Americans, 3; Englishmen, 3.
1902—Americans, 3½; Englishmen, 2½.
1903—Americans, 2½; Englishmen, 3½.
Totals—Americans, 13; Englishmen, 17.

The eleventh annual tournament for the intercollegiate championship was held in New York December 30 and 31, 1902, and January 1, 1903. Cornell, University of Pennsylvania and Brown held their triangular intercollegiate tournament in New York December 31, 1902, and January 1, 2 and 3, 1903. The two tournaments resulted as follows:

College.	Games Won.	Games Lost.	College.	Games Won.	Games Lost.
Columbia	7½	4½	Cornell	5	3
Yale	7	5	Univ. of Penn.	4½	3½
Harvard	6	6	Brown	2½	5½
Princeton	3½	8½	Totals	12	12
Totals	24	24			

BOWLING, 1903.

G. A. SMITH, of the Algonquins.

Interest in bowling has increased wonderfully during the past few years, and undoubtedly it counts by far the largest number of followers among the indoor sports. With this increased interest has come a gradual evolution of the bowling alley, until to-day a standard alley is a requisite to the success of any alley owner. A year ago there was no such thing as a fair comparison of the skill of the players in the various tournaments. Each alley owner vied with his neighbor to make his alley fast and productive of high scores, until the sport was quickly degenerating into a farce. Wise counsel prevailed and the Greater New York Bowling Association was formed, delegates to it from the various leagues elected, and to the efforts of these men the Eastern bowlers to-day owe the most comprehensive set of rules and bylaws ever compiled. The rules cover the entire game most thoroughly, describing accurately a regulation alley, ball and pin. All lovers of the sport should see that the alleys on which they practice conform to these rules. It is to their interest to do so, as only scores made on such regulation alleys will be considered in the future. This feature will make the records of the coming season of particular interest, as a means of comparison with scores of the past.

One evil has crept into the game, and one which caused the split at the American Bowling Congress between the East and the West. The Western bowlers insisted on the right to load the ball with lead, increasing the weight to eighteen pounds. As a compromise the West offered to limit the weight of the balls to sixteen and one-half pounds, but this was rejected and a split in the organization was

the result. Consequent upon this state of affairs none of the records made with loaded balls will be recognized. There is not the slightest question but that the introduction of such balls is in the interest of alley "sleepers," who only bowl in "pot games." It does not take the business man, to whom the game is a recreation, not a livelihood, long to recognize this state of affairs, and to cut all such alleys out. There should not be the least suspicion of professionalism in the sport, and the hearty support of all amateur lovers of the game should be given to the effort of the New York Bowling Association in their attempt to raise the standard of the sport to a purely amateur basis.

It is a strange thing that bowling has not been recognized by the Amateur Athletic Union. Years ago, when the game was indulged in by a few alley sharks, it was well enough for the association to stand aloof, but to-day that excuse does not exist. In the ranks of athletic, banking, insurance and commercial leagues are included some of the best-known men in the cities where these tournaments are held. It is surely time the Amateur Athletic Union recognized bowling among those sports over which it has control. By so doing there would be established a uniformity of bowling conditions throughout the country. Then, and then only, will bowling results be records in that sense of the word which makes them of value.

DEFINITION OF BOWLING TERMS.

Break.—When a player fails to knock down the ten pins with the two balls allowed each frame.

Railroad, or Bridge.—When pins Nos. 7 and 10 are left standing after first ball in any frame.

Chalk Box.—Box at the foul line in which the shoes are chalked to prevent slipping.

Dead Wood.—Pins which have been bowled down and remain either on the alley or in the pin pit. Dead wood must always be cleared from alley before another ball is rolled.

Foot Mark.—A horizontal line drawn directly across the alley, "the centre point of which line on the alley shall be 60 feet from the centre of the head pin spot."

Frame.—One of the ten equal parts into which the game is divided, corresponding to the innings of a baseball game.

Triangle.—The outline at the extreme end of the alley on which the pins are arranged.

Gutter.—The two troughs, one on each side of the alley, into which the balls roll when leaving the alley from the sides.

Lofted Ball.—One which upon leaving a player's hand bounces one or more times on the alley on its way to the pins.

Pin Pit.—Space back of the alley into which the pins fall when bowled from the alley.

Pin Boy.—Boy who returns the ball, casts and resets the pins.

Runway.—Raised slides at each side of the gutters over which the balls are returned to the players.

Run.—Space to the rear of the foul line, over which the player runs before casting the ball.

Poodle.—When the ball rolls into the gutter before striking a pin.

Spare.—When all the pins have been removed from the alley with two balls.

Strike.—When all the pins are knocked down by the first ball rolled in a single frame.

A Double Header.—Two consecutive strikes.

A Turkey.—Three consecutive strikes.

HOMING PIGEONS.

JOHN C. FISCHER, Secretary of the National Federation of American Homing Pigeon Fanciers.

The principal event in the sport of homing pigeons that occurred in 1903 was the breaking of the record for average speed maintained in a 100-mile race by several hundred yards per minute by a bird owned by Wm. J. Lautz, of Buffalo. Few people realize the enormous speed at which a pigeon can travel. The record is an average of 2,511.87 yards per minute for 100 miles, or, at the rate of nearly a mile and a half a minute for the full distance.

AVERAGES FOR 1903.

The loft of Adolph Busch of the Staten Island, N. Y., district, has made the best national general average 400 and 500 miles, during the Old Bird Series of races of 1903, in competition with the members of the Buffalo district of the National Federation. Average speed, 976.23 yards per minute.

OLD BIRD SERIES.

Name.	City or Town.	Distance.	Districts.	Speed.
James Male	Buffalo, N. Y.	100 to 500	Buffalo, N. Y.	976.23
Kotmair & Schlenbaker	Baltimore, Md.	100 to 500	Baltimore, Md., No. 2	1,015.03
Joseph N. Tront	Camden, N. J.	100 to 500	Camden, N. J.	894.67

Best general average for 100, 150 and 200 yards, 1,356.73 yards per minute, made in 1897, by bird owned by A. Busch.

Best national general average, 100, 150, 200 and 300 yards, 1,231.38 yards per minute, made in 1903, by bird owned by C. Fick, Baltimore.

BILLIARDS.

The National Association of Amateur Billiardists conducted its fourth annual tournament in Brooklyn, N. Y., during the first two weeks in February. The best amateur players in the United States were entered, as the Amateur Athletic Union decided to join with the N. A. B. A. in holding but one championship meeting. The highest honors were carried off by Wilson P. Foss, the A. A. U. champion of 1902. He won a leg on the Eagle Cup, first prize in the tournament, the high-run prize and the grand average prize. The result of the games follows. The tie between Gardner and Floss was played off and was won by Foss:

Players in 14-inch Balk-Line Tournament.	Games Won.	Games Lost.	Best Single Average.	Grand Average.	High Run.
W.P.Foss, Haverstraw, N.Y..	5	1	18 12-16	12.12	82
E.W.Gardner, Passaic, N.J..	5	1	12	8.78	58
C. F. Conklin, Chicago, Ill...	3	3	10 10-29	6.42	59
J.B.Stark, Wilkesbarre, Pa...	2	4	7 18-30	6.60	41
Dr. L. L. Mial, N. Y. City...	2	4	8 4-37	7.31	70
F. Poggenburg, N. Y. City...	2	4	9 12-32	7.51	71
A. Townsend, B'klyn, N.Y...	2	4	9 11-32	7.45	59

A three-cushion professional contest between Lloyd Jevne, of Chicago, and Louis Barutel, of Paris, was played in New York, August 3-4-5. Jevne won by a score of 150 to 147.

The international tournament for professionals was held in Paris, in February. Vignaux, Sutton and Cure won and lost the same number of games, but Vignaux received the championship emblem by making the best grand average. The result follows:

Players in 18-inch Balk-Line Tournament.	Games Won.	Games Lost.	Best Single Average.	Grand Average.	High Run.
Maurice Vignaux, of France...	2	1	29.40	22.30	136
George Sutton, of New York...	2	1	30.25	20.20	200
Louis Cure, of France.....	2	1	20.80	19.50	113
George Slosson, of New York...	0	3	11.40	88.50	71

RECORDS.

Three-Ball Straight Rail.—1531, by Maurice Vignaux, at Paris, France, in a match with George F. Slosson, April 10-14, 1880.

Cushion Caroms.—77, by William Sexton, at Tammany Hall, New York City, against Jacob Schaefer, December 19, 1881. Best tournament average, 10, in a game of 200 points, by Jacob Schaefer, at Chicago, November 10, 1887.

Balk-Line Game (8-inch).—329, by Maurice Vignaux, at Paris, in January, 1884. He also made the highest average at this game, 44 52-67, in the same game. Fourteen-inch, anchor nurse, allowed: 566, by Jacob Schaefer, at New York, December 16, 1893. Amateur records, 14-inch: 139, by W. C. McCreery, of St. Louis, Mo. Best average, 300-point game, 18 12-16, by W. P. Foss, at New York City, February 7, 1903.

POOL.

In a contest for championship honors at pool between Grant Eby and William Clearwater, played in Pittsburg, Pa., on January 30, Eby won by a score of 600 to 466. The last twenty-three plays of each man are given herewith:

Eby .....404—	13	15	9	15	2	11	15	15	5	5	10	0

	15	6	4	9	14	4	1	10	0	5					=466

CURLING.

W. H. SMITH, ex-Secretary National Curling Association.

The curling season of 1903 was noteworthy for the fact that a team representing the Royal Caledonian Club, of Scotland, visited the New World and played matches in both the United States and Canada. While the Scotchmen had no trouble in beating the clubs in the United States, they met with more than one upset in Canada. The most important match of the curlers from the Old Sod took place at the St. Nicholas Rink, in New York City, and the men of the Royal Caledonian Club were the winners, the score being 72 to 54. The clubs that played against the Scots in this match were as follows: Boston C. C., St. Andrews C. C., Thistle C. C., Manhattan C. C., Empire C. C., Van Cortlandt C. C., Jersey City C. C. and Caledonian C. C. The only clubs that scored a greater number of points than the Royal Caledonian representatives were the teams of the St. Andrews C. C., the Boston C. C. and the Caledonian C. C., of New York. The record of this match in detail is as follows:

Curling at Van Cortlandt Park.

RINK NO. 1. — Royal Caledonian C. C.—H. Murray, Dr. Kirk, R. Johnstone, R. Bramwell; skip, 9. St. Andrews C. C.—Forrest Macnee, John Rennie, W. H. Smith, H. Boyd; skip, 10.

RINK NO. 2.—Royal Caledonian C. C.—D. Murray, W. Henderson, H. Prain, E. Gibson; skip, 10. Boston C. C.—J. T. Paul, J, Bucknerr, J. A. Pettigrew, John McGraw; skip, 11

RINK NO 3.—Royal Caledonian C. C.—D. Murray, W. Henderson, H. Prain, E. Gibson; skip, 9. Thistle C. C.—John Gray, George Turnbull, Alex. Mackay, J. Thaw; skip, 4.

RINK NO. 4.—Royal Caledonian C. C.—B. Murray, Dr. Kirk, R. Johnstone, R. Bramwell; skip, 9. Van Cortlandt C. C.—Charles Ogden, A. P. Roth, P. I. Gilmartin, W. Fraser; skip, 2.

RINK NO. 4.—Royal Caledonian C. C.—B. Murray, Davidson, R. Johnstone, T. McMillan, E. T. Simson; skip, 10. Empire City C. C.—J. Watt, T. Wigley, W. Manwell, J. T. Conley; skip, 6.

RINK NO. 6. — Royal Caledonian C. C. — Dr. Provan, M. Sanderson, R. R. Gordon, R. Cousin; skip, 7. Caledonian C. C. W. Mitchell, T. Archibald, H. Archibald, J. Stalker; skip, 9.

RINK NO. 7. — Royal Caledonian C. C. — Dr. Provan, D. Bentley Murray, M. Sanderson, D. R. Gordon; skip, 13. Manhattan C. C. — J. McGregor, W. Stalker, W. Stewart, D. G. Morrison; skip, 8.

RINK NO. 8. — Royal Caledonian C. C.—J. Scott Davidson, J. Johnstone, J. McMillan, A. T. Simson; skip, 5. Jersey City C. C.—R. A. McKnight, D. F. Edwards, E. I. Edwards, C. S. Edwards; skip, 4.

Grand total—Royal Caledonian C. C., 72; amalgamated clubs, 54.

This was easily the greatest bonspiel ever held in America. After this match the Scots went to Paterson, N. J., where they defeated the members of the Country Club by a score of 18 to 15. There was practically no outdoor ice in the vicinity of New York last Winter, so the local experts had very little practice.

The international match for the Gordon Medal between Canadian and American Curlers took place at Utica. The Canadians turned the tables on the

Americans, who had won in 1902, and earned a rather easy victory.

The Utica Club team captured the Gordon Medal match, open to American clubs. This contest was also held in Utica. Besides the Utica clubs, the St. Andrews C. C., of New York; Thistle C. C., of New York; Yonkers C. C. and Terrace City C. C., of Yonkers, were also represented in the contest.

The only match in the vicinity of the metropolis was the one for the possession of the Mitchell Medal, which took place at the Hoboken Rink. The Thistle Club, of this city, was the victor.

TRAP SHOOTING, 1903.

DUNCAN CURRY.

So far as trap shooting is concerned, the past season has been highly successful, and while, thanks to the efforts of the "AMERICAN," there is very little shooting at live birds, except in a few isolated parts of the country, there has been a steady and healthy growth of target shooting.

The elimination of live pigeons as targets has brought hundreds of new shooters into the game that have hitherto refused to have anything to do with a sport which depended for its success on unnecessary cruelty to pigeons.

It is only necessary to state that at the Grand American Handicap this year, which was shot at Kansas City, the Interstate Association, bowing to the inevitable, provided targets instead of live birds, and that 200 shooters during the week broke over 101,000 targets and found that it required quite as much skill to smash the clay birds as it did to bring down half-crippled pigeons.

More than twenty years ago there was agitation in many of the States against the use of live birds in trap shooting, and a number of schemes were suggested and tried. One that found favor with shooters was an invention of A. H. Bogardus, a famous trap shooter, who constructed glass balls filled with light feathers. These balls had a good trajectory when thrown from traps and possessed the advantage of disintegrating instantly when hit. They were costly and fragile and were not used long. The ordinary "blue-rock" or "clay pigeon," with its disc-like construction, seems to be the most practical substitute for live birds so far invented. With modern traps capable of throwing the discs at almost all angles, shooters find the element of uncertainty nearly as strong in shooting these targets as in aiming at living pigeons, although the clay birds follow a constant trajectory after they are thrown.

At the Grand American Handicap at targets, which was held at Blue River Park, Kansas City, on April 14, 15, 16 and 17, there were 179 entries and the purse amounted to $1,837.20. The contestants shot at 100 targets, 25 at each at four sets of traps.

After an exciting contest the winner turned up in M. Diefenderfer, of Wood River, Neb., who broke 94 targets from the 16-yard mark, and captured a handsome trophy and $184 in prize money.

The other winners were M. E. Hensler, 93, $165; L. Squire and C. B. Adams, 92, won $137.50 each; J. M. Hughes, H. Scovee, C. M. Powers, A. J. Stauber, E. C. Fort, D. Elliott, S. Foley and M. Thompson broke 91 each and won $56.60 each; C. W. Budd, E. Brady and T. Irwin broke 90 each, and R. O. Heines, C. O. Le Compte, E. J. Chingren broke 89 each; F. Gilbert, F. C. Riebl, P. C. Ward and E. Rike broke 88 each; the 90s, 89s and 88s won $36.80 each. W. H. Heer, G. Roll, H. C. Watson, I. L. Wade, H. Stege, W. D. Townsend, L. Rue and S. A. Smith broke 87 each and won $23 each; H. C. Hirschey, J. A. R. Elliott, A. S. Tolsma, H. N. Airby, D. T. Timberlake and G. K. Mackie broke 86 each and won $18.40 each; J. T. Atkinson, D. Linderman, A. Mermond, A. Frank, H. Sanderson, W. Clayton, J. P. Leggett, S. A. Sherman and E. W. Patrick broke 85 each and won $8.15 each.

One of the novelties of the past season was the erection of several shooting towers in this country. Instead of the targets or blue rocks being thrown from the ground, the traps are set in wooden towers about fifty feet in the air.

There they are fed by a man in the air, while levers on the ground hurl the targets in any desired direction. This, of course, makes the target more difficult to hit and more nearly resembles field shooting than it would have been thought possible with a purely mechanical contrivance. It is almost unnecessary to say that few shooters, no matter how expert, are able to break very many targets under these conditions, and as a result many such towers are being erected around Greater New York.

One of the newest and most complete towers of this kind was erected last year by the members of the Frog Inn Gun Club, whose picturesque home is located on the shores of Thurston's Creek, near Idlewild, on Jamaica Bay.

The Frog Inn Club, which is composed of a number of well-known Brooklynites, boasts of the only tower of this kind on Long Island, and was the second club in the country to adopt this style of shooting.

SPORTING SUMMARY.

INTERNATIONAL SPORTS FOR 1903.

(Copyright, 1903, by W. R. Hearst.)

Yachting.—The Reliance, the American cup defender, defeated the challenging Shamrock III. in three straight races for the America's Cup, off Sandy Hook, New York, August 22, 25 and September 3.

Lawn Tennis.—The Doherty brothers, representing England, beat the American defenders of the Davis Cup, W. A. Larned, R. D. Wrenn and G. L. Wrenn, Jr., by four matches to one, on the Longwood Cricket Club grounds, Boston, August 4, 7 and 8.

The Doherty brothers also won the American championships in both singles and doubles in August.

Robert Le Roy and W. C. Grant, American players, won the championship of Europe in both singles and doubles at The Hague, Holland, September 5, and at Homburg, Germany, August 29.

Chess.—The Brooklyn Chess Club, with an all-American team, beat the London Chess Club's all-British team by 5½ games to 4½ in the annual cable match for the Newnes Trophy April 3 and 4.

The Oxford and Cambridge students beat the representatives of the American colleges by 3½ games to 2½ in their annual cable match for the Rice Trophy March 27 and 28.

Cricket.—The Gentlemen of Philadelphia sent a picked team to England in June and played abroad for over two months with the strongest English elevens. They won seven games, lost six and drew three. The teams they defeated were Notts, Gloucestershire, Kent County, Lancashire, Glamorganshire, Leicestershire and Surrey.

Handball.—Timothy Twohill, of Ireland, and Michael Egan, of Jersey City, played a series of best in fifteen games for the world's championship. The first seven games were played in Egan's home court June 23, and were won by him, and the American also took the first game in Ireland, July 13, ending the match with eight straight victories.

Lacrosse.—A picked team, representing Oxford and Cambridge, made an American tour in June and July winning a majority of games played with American college teams. They played the American champions, the Crescent A. C., June 16, and were beaten by 4 goals to 3.

Automobiling.—The great international race in Ireland, July 2, resulted in a victory for M. Jenatzy, representing Germany. Frenchmen won second, third and fourth places. None of the three American representatives finished the course.

Golf.—A picked team of Oxford and Cambridge players, mostly graduates, toured the United States in the Fall, and won a large majority of their matches, beating the American college team. They were beaten in a close match by a selected all-American team, however.

Rifle Shooting.—The all-American Rifle Team beat the representatives of Great Britain, Canada, Natal, Norway, France and Australia in the international match for the Palma Trophy at Bisley, England, July 11. The best scores were America, 1,570; Great Britain, 1,555; Canada, 1,518.

Athletics.—Arthur F. Duffy, the American sprinter, won the English championship at 100 yards in 10 seconds, at Northampton, July 4. Duffy also won a special invitation 100-yard dash in 10 seconds, beating R. W. Wadsey, the crack English sprinter, at

Wolverhampton, June 28. He later created a new Irish record of 9 4-5 seconds for 100 yards, and was not beaten from scratch while abroad.

Polo.—The English team that had promised to come over to America for a series of international games withdrew, and did not come.

Rowing.—The stewards of the Henley regatta refused the entries of two of America's crack scullers—Titus and Demourelle. Juvenal rowed for the Diamond Sculls, the great international race, and was badly beaten by J. Beresford in his second heat July 7.

Billiards.—Slosson and Sutton, two of the best American professional billiard players, took part in the world's international championship tournament at 18-inch balk-line billiards at Paris in January, and Sutton tied with Vignaux and Cure, both Frenchmen, for first place. The tie was never played off.

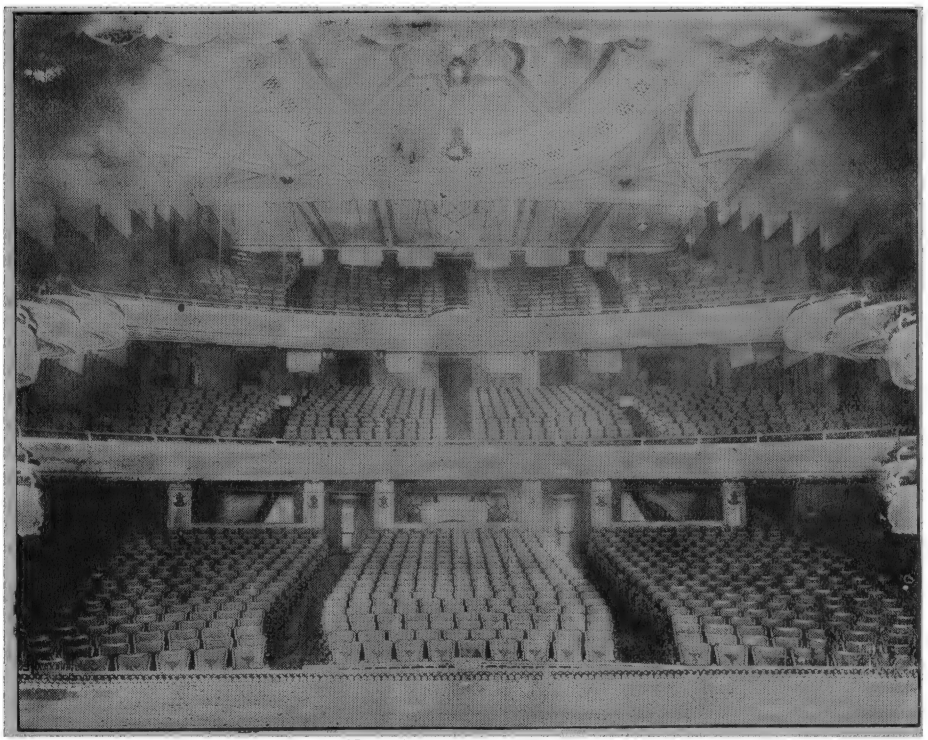
The Theatrical Season, 1902-1903.

LA TOUCHE HANCOCK.



There are losses and rumors of losses, at the time of writing, in the dramatic world, and some managers are extremely pessimistic in their views of the future. That these forecasts are true only the future can elucidate, but it is extremely improbable that the quiet now prevailing will continue. The fact that new theatres have sprung up and so increased the area of the dramatic auditorium may have something to do with the situation, and, perhaps, a catering to the classes rather than to the masses may afford a solution. Be it what may, certain it is that things theatrical are not so flourishing in a pecuniary sense as could be wished.

The amount of new plays produced during the past year has been quite up to the average in point of numbers—no less than one hundred and seventy-five or thereabouts having seen the light. In this connection it may be noted that that hybrid form of entertainments yclept "musical comedy," has almost entirely disappeared—at all events, in the form that was rampant in bygone years. Vaudeville is finding its proper place, and comedians with little ability for the boards proper are coming to the conclusion that their proper sphere is anywhere but on the legitimate stage. English plays are at present in the ascendant, but that is only the turn of the wheel, as four or five years ago the case was entirely vice versa.

No new author of any account has sprung up during the past twelve months, but the deus ex machina at present, Clyde Fitch, has been as prolific and as successful as ever.

A glance at the other side of the water will show that American plays have never been so appreciated in Europe as they have been this past year. Even the cakewalk has become a fashion with our cousins, and they are presumably getting more accustomed to our social ways.

The drama at the moment may be said to be in a state of abeyance, but there is absolutely no reason why it should not continue its upward course, despite the glut of new houses. In any case there is no reason for alarm, for the stage has its evolution as well as everything else.

NEW THEATRES OF 1903.

LA TOUCHE HANCOCK.

The trend of things in general is, and is likely to be, uptown, and not only has the drama followed in the popular trend, but it has also taken advantage of this northward move to expand itself auditorially. It may be that in order to fill the new playhouses already built and in course of construction, a new phase in the instruction of immigrants will be necessary. They will be educated not only politically—that is, to be good citizens—but also theatrically, meaning to be assiduous playgoers. The idea is not so absurd, when it is taken into consideration that the theatre looks for support to the masses rather than the classes. Paradoxically, perhaps—though there is every reason why the hoi polloi should be catered to first—the new theatres appeal more to the artistic than has ever been the case before. The idea of comfort, however, has been kept in mind, notwithstanding the trimmings of art, and Tom, Dick and Harry have been considered in just the same ratio as their prototypes with large

bank accounts. While still retaining their motto, "The play's the thing," it will be seen from the following details that the respective managers are more prone nowadays to take into account the ease of their audience and do not entirely rely on the box office for the whole of their art.

With such an "embarassement des riches" it would be unfair to give one or the other of these new structures the palm, so it will better serve all purposes by taking them seriatim in the order they opened.

The Lyric Theatre takes precedence in that it was inaugurated on October 12, the attraction being Richard Mansfield in "Old Heidelberg." This theatre lies just west of Broadway, and has entrances on Forty-second and Forty-third streets. Its seating capacity is 1,700, and the style of the whole structure is classic—Renaissance in decorations and finishing. The color scheme is apple green and Rose du Barry in combination. The walls of the lower floors, together with the boxes, are covered with rich brocaded silk, and Rose du Barry in color. The refiring rooms are of similar tones, and the whole theatre is simple in its decoration and art. The

Lyceum Theatre. Photo by Byron.

house is so designed that the stage is visible from every portion of the auditorium. The property belongs to Reginald De Koven, and was originally intended for the production of lyrical plays, a purpose which, no doubt, will later on be carried out.

Klaw & Erlanger's New Amsterdam Theatre was inaugurated on Monday, October 26, Nat Goodwin appearing in "A Midsummer Night's Dream." The dimensions of this building, which fronts on Forty-second street and runs south to Forty-first street, are as follows: Height, 170 feet; auditorium, 86 feet wide by 90 feet from the apron of the stage to the wall of the general reception room, which includes the grand promenade at the rear of the orchestra seats, and 80 feet from the orchestra floor to the dome of the ceiling. Beneath the orchestra floor, and between the ceiling dome and the roof, are ventilating air chambers, each 10 feet in height. There is also a roof theatre, which measures 100 feet by 100 feet, the auditorium being 90 feet wide by 60 feet long. The stage of this annex is 60 feet wide by 40 feet deep. The theatre proper has an orchestra, two balconies and twelve boxes. Both theatres have exterior fire escapes in addition to a twelve-foot gallery and staircase completely shut off by fire walls. The New Amsterdam stage measures 100 feet in width and 60 feet in depth, the height of the gridiron being also 100 feet. The dressing rooms, which will accommodate 500 people, are provided with an isolated fireproof gallery and stairways from the roof to the street, as well as interior fire escapes. The theatre and surrounding office structure are of skeleton steel, each part being absolutely fireproof. The ventilation and heating arrangements are perfect. The facade on Forty-second street is treated architecturally as a tower, and the keynote of the decoration is the Art Nouveau idea, or the ornamentation of the architecture along constructional lines with foliage, flowers, fruits, birds and animals. Four columns of Moureale Sicilian marble flank the arch at the entrance, on which is a group of statuary representing the genius of the drama. Other groups typifying Dance, Declamation, Song, the Drama and Music are in evidence. The exterior treatment has been carried out in the vestibule, and the lobby is especially striking in its decorations. The ceiling is of old Dutch coffered effect, and the panels represent the Wagnerian tetrology and some of Shakespeare's dramas. The grand promenade is 90 feet by 20 feet, being decorated in grayish green, yellow and mauve, no primary color being used anywhere. There is a smoking room, a general reception room, 50 feet by 30 feet, and a ladies' retiring room and boudoir, decorated in the tones of the tea rose. A novelty is found in the New Amsterdam room, which is 70 feet wide by 40 feet long. It contains a colonnade of twelve columns, suggestive of Gothic art. The floor is of Welsh quarry tile, fireplaces of Caen stone, and wainscoting of Flemish oak. The frieze is made up of historic decorations representing the principal events in the development of New York. The color scheme of the auditorium is mainly delicate green and tones of yellow and mauve, relieved by draperies of silk velour embroidered in cloth of gold, the carpets and chairs being of light green. The proscenium arch, which is 40 feet wide by 36 feet high, bears sixteen great peacocks with vine embellishments, and is surmounted by a study typifying the drama. The depth of two stories was blasted under the stage, which is so built as to form a series of bridges. These can be lowered or raised at will by

Annie Russell.

Mrs. Fiske.

Margaret Anglin.

Maxine Elliott.

twelve powerful electric motors. The entire stage can be sunk to a depth of thirty-three feet. All scenery is raised and lowered by electric motors. In addition, there is a mammoth elevator used for raising and lowering properties to property rooms beneath the stage, thus increasing stage room. Much attention has been paid to the lighting of the theatre, the several decorative schemes calling for special treatment. The exit lights are designed so that in case the general current should fail due to fire or any other reason, the red lights will automatically receive their supply from a storage battery and thus guide the patrons in time of danger to safety. The footlights have been constructed so as to avoid the trench, so common to all theatres, by designing a special reflector and iron hood as a portion of the decoration. Three distinct systems of interior telephones are installed, the first to serve as a means of communication between the various portions of the building, the second between the various portions of the stage, and the third as an aid to the stage manager in directing rehearsals from the orchestra.

The Hudson Theatre, built by Henry B. Harris, fronts on Forty-fourth street and extends to Forty-fifth street, and was opened with Ethel Barrymore in "Cousin Kate" as the attraction. The facade on the Forty-fourth street side is treated in the Renaissance style, while the design at the back of the theatre is severely classical. Though simplicity is the keynote of the architecture throughout, concealed electric lighting is introduced in all parts of the theatre, giving it an artistic and beautiful effect. The walls of the lobby are treated with a wainscoting of Verde antique marble, with a frieze in green and bronze, and a coffered ceiling of stucco. The foyer is Roman in character, the designs being in a mellow combination of old ivory, green and orange. There are six archways between the pilasters, which are treated with subdivided mirrors. The promenade has the same coloring as the foyer, while the ladies' reception room is a copy of the boudoirs of the Louis Seize period. The appurtenances of the smoking room are of Flemish oak. There are no pillars in the auditorium, so that every part of the stage is visible from every seat. The architectural portion of the proscenium is composed of relief frets, bay-leaf bands and mosaic panels studded with iridescent glass. The drop curtain is of silk velours with insertions of green and yellow.. There are no less than twenty-eight exits to this theatre, besides which the whole building is fireproof and covered by a sprinkling system. The equipment of the stage contains all the latest appliances. In fact, a cosy, comfortable and extremely pretty little house.

The New Lyceum Theatre was opened on November 2, with E. H. Sothern in "The Proud Prince." The main building of this theatre is on Forty-fifth street, and contains the auditorium, foyers, the stage, a private rehearsal room and dressing rooms, the offices of the management and a vast system of heating, lighting and ventilating apparatus. The annex on Forty-sixth street includes a carpenter shop, studios, more dressing rooms, a scene deck, and an extension to the stage. The facade is of gray limestone, and its statues and marble panels and bronze cheneau recall the style of Roman art. This house has a great deal more width than depth, by which means the seats are all brought forward near the stage, so that there are, so to speak, no rear seats. There is a total absence of posts or tie-rods. The stage is 89 feet wide by 37 feet deep, the proscenium being 35 feet in width and 30 feet in height. The stage is built of a series of elevators, so that an entire scene can be dropped below the stage instantly and an auxiliary stage slipped over it. Every dressing room—and this is important—has a private toilet, hot and cold running water, and every comfort and convenience for the players. Portraits of David Garrick, Mrs. Siddons, and statues of Pallas Athenae and Music and the Drama adorn the foyers, while the color scheme approximates tones of autumn foliage running from deep yellow to red and brown. There is no chandelier, and no single mass of lights in the auditorium, but simply a glow of imperceptible lights. The heating and ventilating plans are absolutely perfect in every detail. All the staircases are constructed of marble and steel, and there are a multitude of exits and fire escapes.

Other theatres are in the course of construction, principal among them being Oscar Hammerstein's Drury Lane, and another close by the Empire Theatre, which will open during the coming year under the auspices of Klaw & Erlanger.

1897—Julia Arthur produces "A Lady of Quality."
Minnie Maddern Fiske produces "Tess of the d'Urbervilles."

1898—Suzanne Adams's American debut, Gounod's "Romeo et Juliette," Chicago, November 8.
John Philip Sousa's first comic opera "Bride Elect," produced, New Haven, December 28.
Mansfield produces "Cyrano de Bergerac," Garden Theatre, New York.

1899—Augustin Daly dies. His death affects the whole theatrical world.

DUTIES UPON THEATRICAL PROPERTY.

The following conditions must be observed to bring theatrical properties, costumes, etc., into the United States:

The customs laws permit the entry "free of duty" of scenery, properties and costumes (brought by proprietors or managers of theatrical exhibitions, arriving from abroad for temporary use in this country, and which have been used abroad by them) under bond that they will be exported within six months, although this period is often extended by the Secretary of the Treasury.

Scenery should be numbered with serial numbers, 1, 2, 3, 4, etc., and described in the invoice or list opposite the serial number.

Properties, when packed in cases, should be numbered and the invoice or list state plainly the contents of each case by number; when not packed in cases or crates, serial numbers should be used same as on scenery.

Costumes should be packed in cases, baskets or trunks, marked and numbered with serial numbers, and the list or invoice should state the number and style of costumes in each package and the value.

Costumes are not entitled to free entry under this law, unless they have been used abroad by the company importing them.

Wearing apparel belonging to the members of the company should be kept entirely separate from the costumes, and not mentioned in the list or invoice, as no duty will be charged on wearing apparel accompanying the owner.

Grace George.

"Les Cloches de Corneville."—Folly and Globe theatres, London, February, 1878. 610 times.

ACTORS' SOCIETY OF AMERICA.

This society was organized on the 22d of March, 1894. In September of 1895 it opened an office on West Twenty-eighth street, between Broadway and Sixth avenue. It was incorporated under the laws of the State of New York on the 13th of May, 1896. The object of the society is to improve the conditions of the actor's calling by exposing and preventing fraud, and promoting equitable business dealings between actor and manager. The society is compiling a business record of every actor and manager in the United States of America. It is practically the Bradstreet of the theatrical profession. The membership is composed of actors, men and women, who have had not less than three years' professional experience. The number of members in good standing at the present writing is 1,676. Its present address is No. 114 West Fortieth street. The officers are as follows: President, F. F. Mackay; vice-president, Miss Bessie Taylor; secretary, George D. Macintyre; treasurer, Mrs. Robert B. Mantell. Board of Directors—Israel A. Washburne, chairman; William Courtleigh, Ralph Delmore, Eugene Jepson, W. D. Stone, Mrs. R. B. Mantell, Marie Doran, William F. Owen, George D. Macintyre, Bessie Taylor, James O'Neill, Frank Oakes Rose, Erroll Dunbar, Howell Hansel, Maida Craigen, Theodore Roberts, George Barr, George C. Staley, Ernest Lamson, F. F. Mackay, I. A. Washburne; counsel, Charles E. Le Barbier; assistant secretary, Miss K. E. Wilson; engagement department, W. H. Gregory.

ACTORS' NATIONAL PROTECTIVE UNION.

This association was organized May 9, 1894, through the work of William Devere, better known as the "Tramp Poet." Lew Morton, secretary of Union No. 1, writes as follows of the vicissitudes of the union: "It started off with a boom. The initiation fee was only one dollar and any one was accepted that had the dollar. Money was abundant. No accounts were kept, and no one was held responsible. After many unfortunate financial disasters the union, without funds, was tottering on the verge of entire disruption when a few conservative members, who believed in the principles of unionism, took hold of things and began the seemingly impossible task of putting the organization again on a sound basis. For nearly three years these members worked and managed to keep the union alive. On January 4, 1896, we received a national charter from the American Federation of Labor, branches having been organized in several large cities, since which time the organization has been surely and quite rapidly growing, until now it is in a prosperous condition, with every prospect of continuance. We have also a woman's branch, which is steadily increasing in membership. We have a prosperous local in San Francisco, organized October 25, 1902, and it is the intention soon to establish locals or branches in Chicago, St. Louis, Boston and other large cities." The officers are: John J. Pallas, president; Major Burke, vice-president; Joseph M. Lawrence, treasurer; Billie Williams, guardian. Board of Trustees—Andy Amann, Sig. Zarnes, George F. Gallot. Delegates to Central Federated Union—James L. Barry, Joseph M. Lawrence. James L. Brady is business manager and Lew Morton secretary of Union No. 1, at No. 8 Union square, this city. Officers of Actors' National Protective Union No. 3, San Francisco, Cal., are: Matt Trayers, president; William Courtright, vice-president; Professor E. Henry, secretary and business manager; H. Leoma, guardian; W. J. Morton, prelate. Office and rooms located at 26 O'Farrell street, San Francisco, Cal.

Julia Marlowe.

Hilda Spong.

Rose Coghlan.

Jessie Millward.

ACTORS' FUND HOME.

The Actors' Home is prettily situated on Brooks avenue, New Brighton, Staten Island, and was opened by the Actors' Fund on May 8, 1902. At the dedication ceremonies Mr. Daniel Frohman said: "The Home has been tendered to the profession by the profession and those interested in the actor's art, and it now remains for the actors and actresses to secure this in the future and to assist in the maintenance of this magnificent establishment. The officers of the fund require very little from our brother artists and our sister actresses. It is simply two or three dollars a year from each. It remains, therefore, for us, ladies and gentlemen, for us to carry on this work in the same high spirit that so magnificently prompted it." Enthusiasm greeted this speech and the appeal has not been in vain.

The officers are: Al. Hayman, president of the Fund; Daniel Frohman, first vice-president; Antonio Pastor, second vice-president; William Harris, treasurer; Frank McKee, secretary. Board of Trustees: A. M. Palmer, John Drew, Henry W. Savage, Milton Nobles, Harry Harwood, A. L. Erlanger, Frank Howe, Jr., Henry B. Harris, for two years; Frank W. Sanger, F. F. Mackay, William A. Brady, Maurice Grau, Joseph Brooks, De Wolf Hopper, James K. Hackett, George C. Tyler, for one year.

EDWIN FORREST HOME.

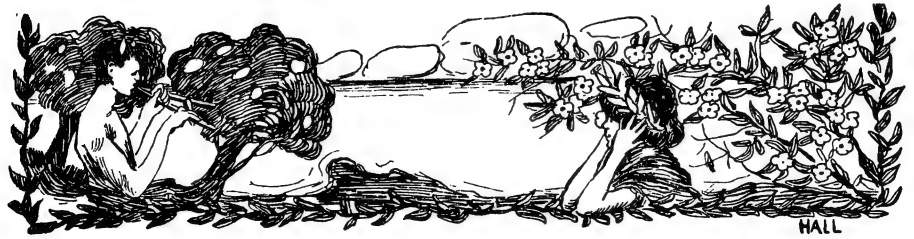
Edwin Forrest converted at his death his home at Springbrook, Holmesburg, near Philadelphia, into this retreat for actors incapacitated by age and infirmity. The house and 111 acres of ground were purchased by him in 1865 for the purpose of providing a home for his two sisters, Caroline and Eleanora, but he survived them both. Not more than twelve or thirteen inmates are received at one time, and they are provided with all the necessities and comforts of life. No restrictions are placed on the inmates, and they may go and come as they please. The home contains, among many valuable paintings and books, an edition of Shakespeare, the first folio published in 1623 by John Heninge and Henrie Condell, brother actors of the Bard of Avon. List of officers: President, L. Clarke Davis; vice-president, J. Fred Zimmerman; treasurer, Samuel S. Sharp, 700 Market street; secretary, Henry E. Garsed, 133 South Twelfth street. Board of Managers—L. Clarke Davis, Adam Early, J. Fred Zimmerman, Henry Wheelan, Jr., Hon. Samuel Justine Thompson, Hon. Michael Arnold and the Mayor of Philadelphia (exofficio). Superintendent, Andreas Hartel, and librarian, Charles J. Fyffe, an old actor, who receives visitors with elaborate, old-time courtesy.

PLAYERS' CLUB.

The Players' Club, a society of actors and artists, was organized February 9, 1888. It has for its object the promotion of social intercourse between representative members of the dramatic profession and members of the profession of literature, painting, sculpture and music, and, incidentally, the establishment of a library of the history of the American stage, and the preservation of playbills, pictures and other objects of interest to and connected with the stage.

The membership roll of the club has contained many of the most prominent names in American drama and art, and is probably the New York club best known throughout the country. Many distinguished guests have been entertained at its building and more bright things have been said about it than about any American organization. The membership is limited to 500 resident and 500 non-resident members. The entrance fee is $100 and the annual dues $40 for residents. The fee for non-residents is $20.

The officers are: President Joseph Jefferson; vice-president, A. M. Palmer; secretary, Charles E. Carryl; treasurer, William Bispham.



LAMBS' CLUB.

The Lambs' Club began life in America in a series of dinners held by a company of bohemian spirits during the Winter of 1874. It was, however, already in existence in London, having been organized there by John Hare in 1869. It is a society of actors, authors and others who enjoy good times and have the spirit of good fellowship well developed. Real fun is the keynote of its foundation.

One of the interesting features of the club is the annual "gambol," a theatrical performance given by its members. These usually consist of plays written by the author members and performed by an array of talent which could not easily be obtained elsewhere. The home of the club is at No. 70 West Thirty-sixth street. The initiation fee for professional members is $50, and the annual dues $25. Resident members pay $200 entrance and $50 annually, and non-residents $100 and $25. The officers are: Shepherd, De Wolf Hopper; boy, Digby Bell; corresponding secretary, John Drew; recording secretary, Thomas Manning; treasurer, John A. Snow; librarian, Horace W. Robbins.

THEATRICAL BUSINESS MEN'S CLUB.

The club, composed entirely of men connected with theatricals, has a pretty clubhouse at No. 139 West Forty-first street, New York City. It was established in 1901 with the following officers: Joseph Brooks, president; Frank L. Perley, vice-president; W. H. Wood, treasurer; E. O. Cordner, secretary. Board of Directors—George H. Broadhurst, A. L. Erlanger, Jules Murry, Al. Hayman, Hollis E. Cooley, George W. Lederer, M. W. Livingston, George H. Nicolai, W. F. Connor, William Harris, Frank McKee, Marc Klaw, Marcus R. Mayer, Benjamin F. Ronder, D. V. Arthur, John W. Hamilton.

NATIONAL COMMITTEE OF THE PEOPLE'S PARTY.

Address: James E. McBride, Lovett Block, Grand Rapids, Mich.

OFFICERS—Chairman, Jo. A. Parker, of Louisville, Ky.; secretary, J. E. McBride, of Grand Rapids, Mich.; treasurer, Milton Park, of Dallas, Tex.

EXECUTIVE COMMITTEE—Jo. A. Parker, of Kentucky; J. E McBride, of Michigan; Milton Park, of Texas; G. L. Spence, of West Virginia; C. M. Walter, of Indianapolis, Ind.; J. K. Sears, of Oregon; Haldor E. Boen, of Minnesota; W. L. Peek, of Georgia; A. W. Faulkner, of Nebraska, and H. J. Munson, of Vermont.

CHAIRMAN OF ORGANIZATION—John O. Zabel, of Petersburg, Mich.

NATIONAL DIVISION ORGANIZERS—Central, Samuel W. Williams, of Vincennes, Ind.; Northeast, Alvin M. Shaw, of East Longmeadow, Mass.; East, John J. Streeter, of Vineland, N. J.; Southeast, F. H. Lytle, of Stanton, Fla.; Southwest, J. E. Scanlan, of Bee Branch, Ark.; West, C. A. Burton, of Virden, Ill.; Northwest, Frank A. Richey, of St. Louis, Mo.

The principles of the People's party, as presented in its platform, are: 1, direct legislation; 2, public ownership; 3, no monopoly of land; 4, scientific money; 5, an income tax; 6, honest elections, and 7, direct nominations and party government.

SOCIALIST LABOR PARTY.

NATIONAL EXECUTIVE COMMITTEE.

The National Executive Committee of the Socialist Labor party is composed as follows: Julius Hammer, Timothy Walsh, John J. Kinneally, John Donohue, Adolph Klein, August Gilhaus and Edw. C. Schmidt. Julius Hammer is the recording secretary and Eber Forbes the treacurer of the committee.

Henry Kuhn, 2-6 New Reade street, New York City, is not only the national secretary, but acts as financial secretary for the committee. He is not officially a member of that body, and while he is permitted to have a voice in its deliberations, he has no vote.

The local organizations of the Socialist Labor party are known as "sections," and these sections exist in thirty-two States and two Territories, while many persons who reside in parts of the country where there are no such sections are members-at-large of the national body, in which the requirements of membership provide that each applicant shall acknowledge his belief in the principles of the party and assert that he has withdrawn from all affiliations with other political parties.

The National Association of Democratic Clubs.

The National Association of Democratic Clubs was organized July 4, 1888. Plans looking toward this result were laid two years previously. The original number of twenty-one clubs has increased until, during the campaign of 1900, almost ten thousand clubs, with an aggregate membership of 1,200,000 were in existence.

The Association acts in complete harmony with the Democratic National Committee and the Democratic Congressional Committee. The helpfulness of the National Association of Democratic Clubs to its party has been marked, and the officers of the association have again and again received the highest commendation from the party leaders.

The objects of this association are set forth in the second article of the constitution, which reads:

"To foster the formation of permanent Democratic clubs and societies throughout the United States and insure their active co-operation in disseminating Jeffersonian principles of government;

"To preserve the Constitution of the United States, the autonomy of the States, local self-government, and freedom of elections;

"To resist revolutionary changes and the centralization of power;

"To oppose the imposition of taxes beyond the necessities of government economically administered;

"To promote economy in all branches of the public service;

"To oppose unnecessary commercial restrictions for the benefit of the few at the expense of the many;

To oppose class legislation, which despoils labor and builds up monopoly;

"To maintain inviolate the fundamental principles of Democracy—'Equality before the Law;' and

"To co-operate with the regular organization of the Democratic party in support of Democratic men and Democratic measures."

All political clubs and societies which concur in the object of this association are eligible to membership.

The regular convention of the association is held once every four years after the National Democratic Convention, and at a time and place fixed by the Executive Committee.

Much of the association's early success was due to the energetic efforts of that distinguished Democrat, Chauncey F. Black, of Pennsylvania, who was at the head of the organization for a number of years. Mr Black was succeeded by Representative Benton McMillin, of Tennessee, who subsequently became Governor of that State. He resigned and William Randolph Hearst, of New York, was appointed, by a unanimous vote of the Executive Committee, Mr. McMillin's successor. At the Indianapolis National Convention he was unanimously elected. The activity of the association under this gentleman's leadership was a conspicuous feature of the campaign of 1900, and the Democratic Congressional campaign of 1902. The great mass meeting in and about Madison Square Garden in 1900 is declared by many to have caused the subsequent Democratic victory in Greater New York. A similar demonstration in 1902 in the interest of the Democratic Congressional candidates brought about the election of every Democratic candidate with the exception of one, despite the fact that the previous reapportionment was designed to make four districts safely Republican.

The president of the association was, after each campaign, formally thanked by letter for the efforts of the association by the Democratic National Committee and the chief candidates for office.

The officers of the association are: William Randolph Hearst, president; Max F. Ihmsen, secretary. Executive Committee, James K. Jones, Ark., chairman; Chauncey F. Black, Pa.; Edward Murphy, Jr., N. Y.; Benton McMillin, Tenn.; George H. Lambert, N. J.; C. C. Richards, Utah; James L. Slayde, Texas; W. J. Stone, Mo.; S. M. White, Cal.; James Creelman, N. Y.; E. P. Howell, Ga.; E. Chambers Smith, N. C.; John R. McLean, Ohio; Charles J. Faulkner, W. Va.; J. L. Mitchell, Wis.; J. C. Dahlman, Neb.; Blair Lee, Md.

The headquarters of the association are in Room 11, Tribune Building, New York City, with a branch office in Washington, D. C.

Basis of Congressional Representation.

The basis for the apportionment of Congressional representation depends upon the population of the various States. At the institution of the Government, in 1790, the apportioning of Representatives was made by Congress, and this method continued until 1850, when Congress not only determined that the number of members of the House should be 233, but directed that in the future the Secretary of the Interior should make all necessary changes in this apportionment. In 1860, therefore, the changes necessitated by the taking of the Eighth Census were made in accordance with the provisions of this law, but, in 1862, Congress again fixed the total number of members, and, as all subsequent changes have been made by Congress itself, the act of 1850, which delegated this power to the Secretary of the Interior, may be said to have been repealed by implication.

The act of Congress, approved January 16, 1901, provides that after March 3, 1903, the House of Representatives shall be composed of 386 members, each of whom shall represent a district composed of contiguous territory, and it is also provided that, as each new State is admitted to the Union, the Representatives assigned to it shall be in addition to this membership and shall be elected as Representatives-at-Large until such time as the Legislature shall redistrict the State which elected them.

The following table shows the ratio of Congressional representation since the institution of the Government:

State.	Constitution, Ratio 30,000.	1800 Census, Ratio 33,000.	1810 Census, Ratio 33,000.	1820 Census, Ratio 35,000.	1830 Census, Ratio 40,000. Origin of Names of States, Their Popular Sobriquets and the Flower Selected as State Emblem.

Alabama was named in 1817, from its prinicpal river. The principally accepted authority says that De Soto's last battle was in 1541 at Alibamo, on the river Yazoo, where there was a strong fortress of a tribe called sometimes Alibamos and sometimes the Alabamus. Its flower is the golden rod.

Alaska is from the Indian word Alakshak, meaning "large country."

Arkansas took its name in 1819 from its principal river, and that from the tribe of Indians once living near its mouth. Schoolcraft ascribes the name to the fact that a species of acacia grew there, from which the Indians made bows, which led to their being called "arc, or bow Indians." Sometimes it is called the Bear State, on account of these animals, which formerly lived in its forests. Its flower is the apple blossom.

Arizona is thought to come from the Aztec word Arizuma, meaning a rocky country.

California received its name from the officers of Cortez, who found it in a Spanish romance, which told of "the great island of California, where a great abundance of gold and precious stones are found." Its flower is the California poppy.

Colorado is named from its chief river, the word being Spanish and signifying ruddy or colored. It is also known as the Centennial State, from the fact that it was admitted to statehood in 1876. Its flower is the purple columbine.

Connecticut was so called from the Indian name of its principal river, spelled originally Quin-nah-tukyut and signifying "land on a long tidal river." It is popularly known as the Nutmeg State, from the fact that its residents were formerly said to have made nutmegs from wood for sale to the unwary, and also as the Freestone State, from the quantities of that material found there.

Dakota took its name from the tribe of Indians which formerly inhabited the State and the vast regions in its neighborhood, the word meaning originally "leagued."

Delaware was named in 1703, from Lord de la Warr. It is sometimes called the Diamond State, from its small size and supposed great worth. Its flower is the peach blossom.

Florida was so called by Juan Ponce de Leon in 1512 because it was discovered on Easter Sunday, in Spanish Pascua Florida. It is often called, from its shape, the Peninsular State. Its flower is the japonica.

Georgia was named in 1732 in honor of King George II.

Idaho is the Indian word for "Gem of the Mountains." Its flower is the syringia.

Illinois was named in 1809 from its principal river. The name is said to signify "superior men." It is called the Prairie State, from the extent of its prairies. Its flower is the rose.

Indiana was so called in 1802 from the American Indians. It is known as the Hoosier State, the word being a corruption of Husker, formerly a common term for "bully," in the West. Its flower is corn.

Iowa took its name in 1838 from a tribe of Indians who lived within its borders, and the word is said to be a contraction of Ah-hee-o-va, meaning sleepers. It is also known as the Hawkeye State, the term said to have been derived from the name of a famous Indian chief of that region. Its flower is the wild rose.

Kansas takes its name from its great river, which, in turn, received its appellation from the Indians who lived along its banks. The name is said to come from Cayas, which was given the region by De Soto.

Kentucky was so called from its principal river, in 1782. The word is said to mean "at the head of the river."

Louisiana was named by La Salle in 1682 in honor of Louis XIV. of France. It is popularly called the Creole State. Its flower is the magnolia.

Maine was so called as early as 1622, from the description in its charter calling it the "mayne land," meaning the main or chief portion of the territory. It is known as the Lumber State, from the large amount of that material produced within its borders, and also as the Pine Tree State, for the same reason. Its flower is the pine cone.

Maryland was named in honor of Henrietta Maria, Queen of Charles I., in his patent to Lord Baltimore in 1632.

Massachusetts derived its name from a tribe of Indians who lived in the neighborhood of the present location of Boston. The word is a compound of "massa," meaning great, and "wadchuach," meaning hills or mountains. It is known as the Old Colony State, from the fact that the first colonists of New England settled on its shores, and the Bay State, it having been originally known as the Colony of Massachusetts Bay.

Michigan was named from the lake on its borders. The word, it is believed, is derived from the Chippewa "mitcha" and the Algonquin "gan," meaning great lake. It is known as the Lake State, from the fact that it borders on four great lakes. Its flower is the apple blossom.

Minnesota takes its name from its chief stream, which in the Indian dialect signifies "slightly turbid water." Its flower is the moccasin.

Mississippi takes its name from the great river, the title meaning in Indian "the whole river," so called because many streams unite in making it. Its flower is the magnolia.

Missouri was so called in 1821, from its principal river, the word signifying in the Sioux language "muddy water."

Montana took its name from the Rocky Mountains, which traverse the State. Its flower is the bitter root.

Nebraska is named after its principal river. The meaning of the word is disputed. Its flower is the golden rod.

Nevada is named for its mountain chain, which was called after the Sierra Nevadas of Granada.

New Hampshire was called so with reference to the original patentee, who was Governor of Portsmouth, in Hampshire, England. It is known as the Granite State, from the fact that its mountains are largely composed of that stone.

New Jersey was so called in 1644 in compliment to one of its original proprietors, Sir George Carteret, who had defended the Isle of Jersey against the Long Parliament during the civil war in England. It has no State flower, but adopts instead a tree—the sugar maple.

New Mexico takes its name from the Aztec war god Mexildi. Its flower is the crimson rambler rose.

New York was named in honor of the Duke of York and Albany, to whom the territory was granted in 1664. It is known as the Empire State, from its wealth and great population, and the Excelsior State, from its motto. Its flower is the rose.

North Carolina (and South) were so called in 1654 by the French in honor of Charles IX. of France, although some claim the honor for Charles I. of England. The former is known as the Old North State and as the Turpentine, it producing large quantities of this material; and the latter as the Palmetto State, from the tree borne on its coat of arms. North Carolina's flower is the chrysanthemum.

Ohio was so called in 1802 from the Indian O-hezuh, meaning "something great."

Oklahoma is from an Indian word meaning "a beautiful land." Its flower is the mistletoe.

Oregon is supposed to come from a Sioux word meaning "the great flowing river." Its flower is the Oregon grape.

Pennsylvania was named after William Penn, the entire word meaning Penn's Woods. It is known as the Keystone State, from its having been the central State at the formation of the Constitution.

Rhode Island was so called in 1644 from the Dutch, signifying "redisland." Its flower is the violet.

Tennessee was named in 1796, and the word is said to signify a curved spoon or a bend in the river.

Texas was named by the Spaniards in 1690. The word is said to be derived from the Spanish "tigus," meaning "covered houses," and also from the Indian "tachies," meaning friends. It is known as the Lone Star State, from the emblem on its flag. Its flower is the blue bonnet.

Utah was adopted from the name of the Indians living in that region. Its flower is the sego lily.

Vermont was so called by its inhabitants in their declaration of independence in 1777, from the French words "Monts Verts," meaning green mountains. It is also known as the Green Mountain State for the same reason. Its flower is the red clover.

Virginia was named in honor of Elizabeth, England's virgin queen. It is known as the Mother of Presidents, five of its sons having held that office; as the Mother of States, having been the first settled of the first thirteen States, and also as the Old Dominion.

Washington was named after our first President. Its flower is the rhododendron.

Wisconsin was so named in 1836 from the river of the same name. The word is said to mean "westward flowing." It is popularly known as the Badger State.

Wyoming is an Indian name, a corruption of a word meaning "large plains."

Governors of States, 1903-1904

State.	Capital.	Name of Governor.	Politics.	Length of Term, Yrs.	Term Expires.	Salary.	Next State Election Held.	Name of Lieut.-Gov.
Alabama	Montgomery	Wm. D. Jelks	Dem.	2	Jan., 1907	$3,000	*November, 1906.	R. M. Cunningham.
Arkansas	Little Rock	Jeff Davis	Dem.	2	Jan., 1905	3,500	1st Tu. Sept., '04	O. N. Killough.

[47]Inside fire limits; outside limits, $200. [48]City, $200; by county, $250; by State, $250.

Popular Names of Cities.

Baltimore—Monumental City, from the number of monuments it contains.

Boston—City of Notions, from the amount of "Yankee notions," so called, manufactured there; Hub of the Universe, so called by Dr. Oliver Wendell Holmes; Tri-Mountain City, from the three hills on which it was originally built.

Brooklyn—City of churches, from the number of churches it contains.

Chicago—Garden City, from the number and beauty of its private gardens; Windy City, from the constant winds blowing from the lakes.

Cincinnati—Queen City, so called when it was the commercial metropolis of the Middle West.

Cleveland—Forest City, from the number of trees in its streets.

Detroit—City of the Straits, from its location on the strait connecting Lake St. Clair and Lake Erie.

Hannibal, Mo.—Bluff City, from its location on the bluffs of the Mississippi river.

Indianapolis—Railroad City, from its being a great railroad centre.

Keokuk, Ia.—Gate City, from its situation at the foot of the Mississippi rapids.

Louisville, Ky.—Falls City, from the falls of the Ohio River, there located.

Lowell, Mass.—City of Spindles, from its large manufacturing interests.

Nashville, Tenn.—City of Rocks, from its natural surroundings.

New Haven—City of Elms, from the great number of these trees it contains.

New Orleans—Crescent City, from its position on a curve of the Mississippi.

New York—Empire City, from its being the chief city of the United States.

Philadelphia—City of Brotherly Love, from the meaning of the name.

Pittsburg, Pa.—Iron City, from the extent of its iron manufactures, and Smoky City, from the smoke which overhangs it.

Portland, Me.—Forest City, from the number of trees in its streets.

Rochester, N. Y.—Flour City, from the number of flour mills located there.

St. Louis—Mound City, from the artificial mounds found there.

Springfield, Mass.—City of Homes, from the many people who own their own homes.

Springfield, O.—Flower City, from the beauty of its surroundings.

Washington—City of Magnificent Distances, from its being laid out on a large and regular scale.

The States and Territorial Possessions of the United States.

The thirteen original States, the colonies which signed the Declaration of Independence, were: Delaware, Pennsylvania, New Jersey, Georgia, Connecticut, Massachusetts, Maryland, South Carolina, New Hampshire, Virginia, New York, North Carolina and Rhode Island.

The States which have since been admitted to the Union and the dates of their admission are: Vermont, 1791, Kentucky, 1792; Tennessee, 1796; Ohio, 1803; Louisiana, 1812; Indiana, 1816; Mississippi, 1817; Illinois, 1818; Alabama, 1819; Maine, 1820; Missouri, 1821; Arkansas, 1836; Michigan, 1837; Florida, 1845; Texas, 1845; Iowa, 1846; Wisconsin, 1848; California, 1850; Minnesota, 1858; Oregon, 1859; Kansas, 1861; West Virginia, 1863; Nevada, 1864; Nebraska, 1867; Colorado, 1876; North Dakota, 1889; South Dakota, 1889; Montana, 1889; Washington, 1889; Idaho, 1890; Wyoming, 1890, and Utah, 1896.

South Carolina seceded from the Union in 1860, and during the first six months of 1861 ten other States followed her example. The dates of their readmission are: Tennessee, July, 1866; South Carolina, Alabama, Florida, Louisiana and North Carolina, June 11, 1868; Arkansas, June 20, 1868; Virginia, January 15, 1870; Mississippi, February 3, 1870; Texas, March 15, 1870, and Georgia, April 20, 1870.

The Territories and dates of their organization are: District of Columbia, 1790; Indian Territory, 1834; New Mexico, 1850; Arizona, 1863; Alaska, 1868; Oklahoma, 1890, and Hawaii, 1900.

The insular possessions of the United States are: Porto Rico, the Philippines, Guam, Tutuila, Wako and the other small islands.

The Nobel Prizes.

The Nobel prizes were awarded in 1903 as follows: Literature, Henrik Ibsen and Bjornstjerne Bjornson; physics, Signor Marconi, and medicine, Dr. Finsen.

The Nobel prizes take their name from Alfred Nobel, who died in 1897, and by his will provided that five prizes of $40,000 each be given to those who, "in the course of the preceding year shall have rendered the greatest service to humanity. His fortune of about $10,000,000 was to be devoted to this purpose.

The recipient of a Nobel prize, therefore, not only ranks with the foremost men of learning of the world; but he also receives such a substantial gift of money, $40,000, as to aid him greatly financially, even though he already be a man of means.

Dr. Nobel's life work and the disposal he made of a fortune of $10,000,000 form a strange paradox. He was the inventor of the most deadly explosives which have yet been invented, and he devoted the proceeds of the fortune thus made to encourage the arts of peace.

The history of the Nobel family is linked with high explosives and death-dealing instruments. Emanuel Nobel, the family of Alfred Nobel was employed to lay subterranean mines for the Russian Government. Robert, another son of Emanuel, was in charge of the submarine mines of Kronstadt during the Crimean War, blew up several English men-of-war and saved Kronstadt from capture.

Among other things Alfred Nobel discovered dynamite, and companies for the manufacture of it were established all over the world. From this and other sources the great fortune of Nobel was accumulated.

The five annual prizes are given to the persons who have made the most important discovery in physical science, in chemistry, in physiology or medicine, to the author producing the most notable literary work in the sense of idealism, and to the person having done the most or the best in the work of establishing the brotherhood of nations, for the suppression or reduction of standing armies, as well as for the propogation of peace and the formation of conferences. Prizes are awarded by distinguished Swedish societies and scientific bodies, and nationality is not considered in the awards. During the six months following the presentation of the prizes, which occurs on December 10, the recipients are required to give a public lecture in Stockholm on the subject of the work crowned.

The selection of Signor Marconi as one of the laureates would seem to be an official recognition of his claim of introducing wireless telegraphy into practical use. He is but twenty-eight years old and the youngest man upon whom the honor was ever conferred.

Important Events of the Year.

1902.

Dec. 1—Second session of the Fifty-seventh Congress opened.

Dec. 2—President Roosevelt delivered his second annual message to Congress.

Dec. 4—Fire at the Lincoln Hotel, Chicago, caused the death of fourteen firemen.

Schooner Wesley M. Oler wrecked off Cape Hatteras, and the entire crew lost.

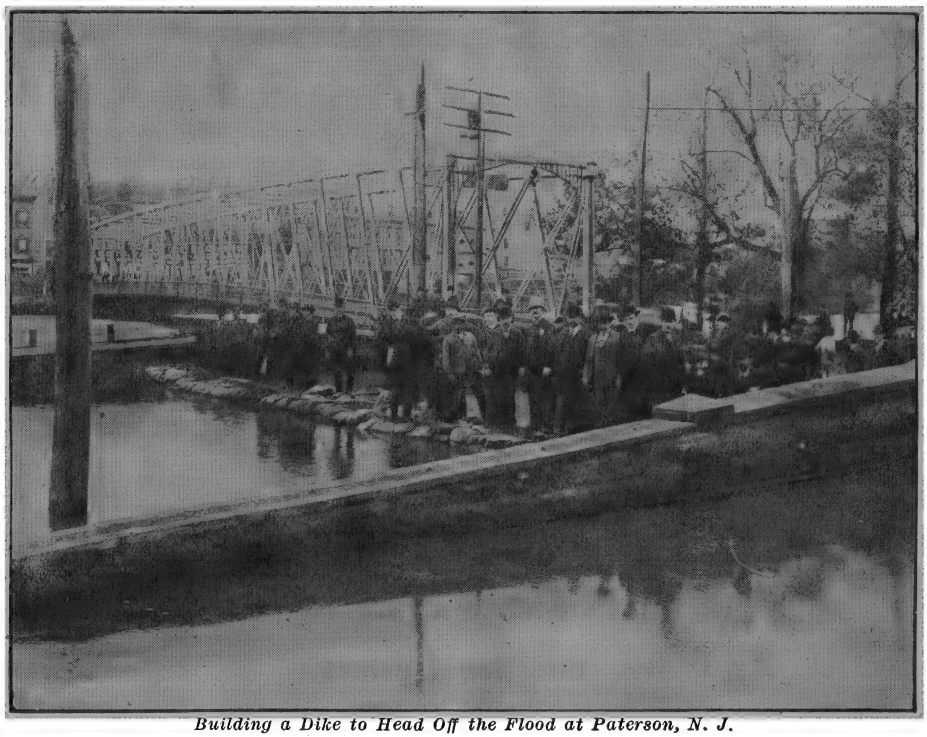
Dec. 9—Venezuelan navy seized and destroyed by the combined fleets of Germany and England; in retaliation German and British subjects in Caracas were arrested by the Castro Government.

Dec. 10—Mobs in Caracas attacked the British and German Consulates; British and German holdings placed under embargo by Castro; marines from the combined fleets landed to protect foreign property.

Dec. 11—Ice storm ties up elevated railroad traffic in New York.

Dec. 25—President Castro, of Venezuela, agreed to accept the arbitration of the dispute with England and Germany by The Hague tribunal.

Dec. 26—A petition signed by 50,000 persons presented to the New York State Railroad Commissioners protesting against the crowded condition of the Manhattan Elevated Railroad Company's trains.



1903.

Jan. 1—King Edward VII. of England proclaimed Emperor of India at Delhi.

Cable communication between the United States and Hawaii established.

General Francis Vinton Greene assumed office as Police Commissioner, upon the retirement of Hon. John M. Partridge.

Jan. 2—A mine cave-in at Olyphant, Pa., swallowed four buildings in the business section of the town.

Building a Dike to Head Off the Flood at Paterson, N. J.

Dec. 12—A definite treaty of reciprocity between the United States and Cuba signed.

Dec. 14—Unsuccessful attempt made to assassinate the King of Belgium.

Dec. 19—An order to blockade all Venezuelan ports promulgated by British Admiral Douglas.

CONGRESSIONAL ELECTION, 1902.

Districts.

I.—Counties of Posey, Gibson, Vanderburg, Warrick, Pike and Spencer.

James A. Hemenway, Rep	21,524
John W. Spencer, Dem	17,833
G. W. Norman, Pro	540
Moses Smith, Soc	1,459
Hemenway's plurality	3,691

II.—Counties of Knox, Sullivan, Daviess, Greene, Owen, Monroe, Martin and Lawrence.

Robert W. Miers, Dem	21,162
John C. Chaney, Rep	20,423
J. T. Hobson, Pro	672
W. B. Wolf, Peo	199
Miers's plurality	739

III.—Counties of Dubois, Orange, Crawford, Perry, Washington, Harrison, Floyd, Clark and Scott.

W. T. Zenor, Dem	20,740
E. A. Maginness, Rep	16,784
E. C. Richardson, Pro	483
Zenor's plurality	3,956

Districts.

IV.—Counties of Jackson, Brown, Bartholomew, Jennings, Ripley, Dearborn, Ohio, Switzerland, Jefferson and Johnson.

Francis M. Griffith, Dem	21,751
J. M. Spencer, Rep	18,894
I. C. Overman, Pro	828
Griffith's plurality	2,857

V.—Counties of Vigo, Vermilion, Parke, Clay, Putnam, Montgomery, Morgan.

E. S. Holliday, Rep	23,795
J. A. Wiltermood, Dem	21,562
D. G. Carter, Pro	1,231
Holliday's pluraliay	2,233

VI.—Counties of Hancock, Shelby, Henry, Rush, Wayne, Fayette, Union, Franklin, Decatur.

James E. Watson, Rep	23,641
J. T. Arbuckle, Dem	19,535
Mercer Brown, Pro	1,529
Watson's plurality	4,106

Districts.

VII.—County of Marion.

Jesse Overstreet, Rep.	25,191
J. P. Dunn, Dem.	20,933
J. R. Henry, Pro.	1,126
David C. McClure, Soc.	793
Overstreet's plurality	4,258

VIII.—Counties of Madison, Delaware, Randolph, Jay, Wells, Adams.

Geo. W. Cromer, Rep.	25,842
James E. Truesdale, Dem.	21,474
D. F. Kain, Pro.	1,848
Cromer's plurality	4,368

IX.—Counties of Fountain, Montgomery, Boone, Clinton, Carroll, Tipton, Hamilton, Howard.

Chas. B. Landis, Rep.	25,824
L. J. Kirkpatrick, Dem.	23,317
Geo. B. Jones, Pro.	1,548
Landis's plurality	2,507

X.—Counties of Warren, Tippecanoe, White, Benton, Newton, Jasper, Lake, Porter, Laporte.

Edgar D. Crumpacker, Rep.	26,016
William C. Guthrie, Dem.	19,428
R. M. Delzell, Pro.	714
Crumpacker's plurality	6,588

XI.—Counties of Cass, Miami, Grant, Wabash, Huntington, Blackford.

Frederick K. Landis, Rep.	24,390
J. C. Nelson, Dem.	19,596
B. S. Shugart, Pro.	2,244
Landis's plurality	4,794

XII.—Counties of Whitly, Allen, Noble, De Kalb, Steuben, Lagrange.

J. M. Robinson, Dem.	19,320
Clarence C. Gilhams, Rep.	19,035
W. W. Wyrick, Pro.	731
M. H. Wefel, Soc.	1,065
Robinson's plurality	285

XIII.—Counties of Pulaski, Starke, St. Joseph, Elkhart, Marshall, Kosciusko, Fulton.

A. L. Brick, Rep.	24,206
Frank B. Hering, Dem.	22,289
W. R. Lowe, Pro.	1,286
Brick's plurality	1,917

CONGRESSIONAL ELECTION, 1902.

Districts.

I.—Counties of Des Moines, Henry, Jefferson, Lee, Louisa, Van Buren, Washington.

Thos. Hedge, Rep.	15,266
J. E. Craig, Dem.	13,343
W. C. Shepard, Pro.	604
John Lecht, Soc.	301
Hedge's plurality	1,923

II.—Counties of Clinton, Iowa, Jackson, Johnson, Muscatine, Scott.

M. J. Wade, Dem.	19,825
Wm. Huffman, Rep.	18,667
Francis Bacon, Soc.	292
A. K. Gifford, Pro.	1,162
Wade's plurality	1,158

III.—Counties of Blackhawk, Bremer, Buchanan, Butler, Delaware, Dubuque, Franklin, Hardin, Wright.

B. P. Birdsall, Rep.	22,300
Horace Boies, Dem.	16,761
J. A. Earl, Pro.	1,078
F. A. Lymburner, Soc.	788
Birdsall's plurality	5,539

IV.—Counties of Allamakee, Cerro Gordo, Chickasaw, Clayton, Fayette, Floyd, Howard, Mitchell, Winneshiek, Worth.

G. N. Haugen, Rep.	19,303
A. L. Sorter, Jr., Dem.	14,280
D. McGregor, Pro.	668
F. E. Macha, Soc.	168
Haugen's plurality	5,023

V.—Counties of Benton, Cedar, Grundy, Jones, Linn, Marshall, Tama.

R. G. Cousins, Rep.	19,516
A. C. Daly, Dem.	13,733
M. Smith, Pro.	993
A. C. Palmer, Soc.	281
Cousins's plurality	5,783

VI.—Counties of Davis, Jasper, Keokuk, Mahaska, Monroe, Poweshick, Wapello.

J. F. Lacey, Rep.	18,828
J. P. Reese, Dem.	17,015
W. P. Sopher, Pop.	542
Frank Rice, Soc.	414
Lacey's plurality	1,813

VII.—Counties of Dallas, Madison, Marion, Polk, Story, Warren.

J. A. T. Hull, Rep.	19,037
P. Sheldon, Dem.	9,914
J. D. O. McFarland, Pro.	1,270
W. F. Strouder, Soc.	665
Hull's plurality	9,123

VIII.—Counties of Adams, Appanoose, Clarke, Decatur, Fremont, Lucas, Page, Ringgold, Taylor, Union, Wayne.

W. P. Hepburn, Rep.	21,657
T. M. Stuart, Dem.	14,796
Hepburn's plurality	6,861

IX.—Counties of Adair, Audubon, Cass, Guthrie, Harrison, Mills, Montgomery, Pottawattamie, Shelby.

W. I. Smith, Rep.	20,997
G. W. Cullison, Dem.	13,639
A. D. Beckhart, Pro.	604
Smith's plurality	7,358

X.—Counties of Boone, Calhoun, Carroll, Crawford, Emmet, Greene, Hamilton, Hancock, Humboldt, Kossuth, Palo Alto, Pocahontas, Webster, Winnebago.

J. P. Conner, Rep.	25,596
C. Faltinson, Dem.	12,822
Elwell, Pro.	978
Beckhart, Soc.	510
Conner's plurality	12,774

XI.—Counties of Buena Vista, Cherokee, Clay, Dickinson, Ida, Lyon, Monona, O'Brien, Osceola, Plymouth, Sac, Sioux, Woodbury.

L. Thomas, Rep.	21,854
J. M. Parsons, Dem.	12,721
J. W. Bennett, Soc.	471
Thomas's plurality	9,133

CONGRESSIONAL ELECTION, 1902.

Districts.

I.—Counties of Beaufort, Camden, Chowan, Currituck, Dare, Gates, Hertford, Hyde, Martin, Pasquotank, Perquimans, Pitt, Tyrrell, Washington.
John H. Small, Dem. 14,086
H. E. Hodges, Rep. 1,834
Small's plurality 12,252

II.—Counties of Bertie, Edgecomb, Greene, Halifax, Lenoir, Northampton, Warren, Wilson.
Claude Kitchin, Dem. 12,705
Scotland Harris, Rep. 118
Kitchin's plurality 12,587

III.—Counties of Carteret, Craven, Duplin, Jones, Onslow, Pamlico, Pender, Sampson, Wayne.
Charles R. Thomas, Dem. 11,198
George E. Butler, Ind. 4,567
Thomas's plurality 6,631

IV.—Counties of Chatham, Franklin, Johnston, Nash, Vance, Wake.
Edward W. Pou, Dem. 13,851
John W. Atwater, Ind. 2,107
Pou's plurality 11,743

V.—Counties of Alamance, Caswell, Durham, Forsyth, Granville, Guilford, Orange, Person, Rockingham, Stokes.
William W. Kitchin, Dem. 17,900
J. L. Patterson, G. D. and Rep. 9,611
Kitchin's plurality 8,289

VI.—Counties of Bladen, Brunswick, Columbus, Cumberland, Harnett, New Hanover, Robeson.
Gilbert B. Patterson, Dem. 9,881
A. H. Slocomb, Rep. 4,440
Patterson's plurality 5,441

VII.—Counties of Anson, Davidson, Davie, Montgomery, Moore, Randolph, Richmond, Scotland, Union, Yadkin.
Robert N. Page, Dem. 13,269
E. H. Morris, Rep. 2,482
W. C. Wilcox, Pop. 131
Page's plurality 10,787

VIII.—Counties of Alexander, Alleghany, Ash, Cabarrus, Caldwell, Iredell, Rowan, Stanly, Surry, Watauga, Wilkes.
Theodore F. Kluttz, Dem. 15,632
Edmond S. Blackburn, Rep. 14,158
Kluttz's plurality 1,474

IX.—Counties of Burke, Catawba, Cleveland, Gaston, Lincoln, Madison, Mecklenburg, Mitchell, Yancey.
Edwin Y. Webb, Dem. 14,087
George B. Hiss, Rep. 8,778
Webb's plurality 5,309

X.—Counties of Buncombe, Cherokee, Clay, Graham, Haywood, Henderson, Jackson, McDowell, Macon, Polk, Rutherford, Swain, Transylvania.
James M. Gudger, Jr., Dem. 12,700
James M. Moody, Rep. 12,517
Gudger's plurality 183

Adams's plurality 35,962

III.—Philadelphia, 2d, 3d, 4th, 5th, 6th, 11th, 12th, 16th, 17th, 18th and 19th wards.

Districts.

Henry Burk, Rep. 36,790
Edward M. Marsh, Pro. 405

Burk's plurality 36,397

IV.—Philadelphia, 28th, 29th, 32d and 38th wards.

Robert H. Foederer, Rep. 21,094
T. T. Mutchler, Pro. 361

Foederer's plurality 20,733

V.—Philadelphia, 23d, 25th, 31st, 33d, 35th and 41st wards.

Edward de V. Morrell, Rep. 25,358

Raymond A. Smith, Pro.	292
Morrell's plurality	25,066

VI.—Philadelphia, 21st, 22d, 24th, 27th, 34th, 40th and 42d wards.

George D. McCreary, Rep.	30,428
Louis L. Eavenson, Pro.	501
McCreary's plurality	29,927

VII.—Counties of Chester and Delaware.

Thomas S. Butler, Rep.	20,062
Frank B. Rhodes, Dem.	9,751
Joseph H. Paschall, Pro.	666
William H. Keevan, Soc.	213
Butler's plurality	10,311

VIII.—Counties of Montgomery and Bucks.

Irving P. Wanger, Rep.	22,689
Charles E. Ingersoll, Dem.	20,080
Oliver H. Holcomb, Pro.	392
William Jacques, Soc.	440
Wanger's plurality	2,609

IX.—County of Lancaster.

H. B. Cassel, Rep.	18,287
James F. McCoy, Dem.	7,036
David Bixler, Soc.	508
D. S. Von Neida, Pro.	402
Cassel's plurality	11,251

X.—County of Lackawanna.

George Howell, Dem.	13,600
William Connell, Rep.	13,155
E. S. Williams, Pro.	641
Charles E. Lamb, Soc.	695
Howell's plurality	445

XI.—County of Luzerne.

Henry W. Palmer, Rep.	16,787
T. R. Martin, Dem.	14,091
C. F. Quinn, Soc.	3,911
Palmer's plurality	2,696

XII.—County of Schuylkill.

George R. Patterson, Rep.	14,151
James W. Ryan, Dem.	12,402
Thomas J. Lannon, Soc.	1,928
William H. Zweizig, Pro.	284
Patterson's plurality	1,749

XIII.—Counties of Lehigh and Berks.

Marcus C. L. Kline, Dem.	24,771
William H. Sowden, Rep.	19,772
Alfred Brown, Soc.	1,233
Kline's plurality	4,999

XIV.—Counties of Wayne, Susquehanna, Wyoming, Bradford.

Charles F. Wright, Rep.	14,401
James West, Dem.	10,727
F. H. Dickerson, Pro.	1,109
Wright's plurality	3,674

XV.—Counties of Tioga, Potter, Lycoming, Clinton.

Elias Deemer, Rep.	17,518
James Mansel, Dem.	15,012
Charles A. Reese, Soc.	891
Deemer's plurality	2,506

XVI.—Counties of Northumberland, Montour, Sullivan, Columbia.

Charles H. Dickerman, Dem.	14,019
Fred A. Godcharles, Rep.	13,171
H. C. Harman, Pro.	705
Dickerman's plurality	848

XVII.—Counties of Perry, Juniata, Mifflin, Huntingdon, Fulton, Franklin, Snyder, Union.

T. M. Mahon, Rep.	21,197
H. J. Huber, Dem.	16,740
Mahon's plurality	4,457

XVIII.—Counties of Dauphin, Cumberland, Lebanon.

Martin E. Olmsted, Rep.	22,193

Cooper's plurality	14,543

III.—Counties of Wood, Upshur, Gregg, Rusk, Smith, Henderson, Van Zandt, Kaufman.

G. Russell, Dem	16,628
L. L. Rhodes, Rep	561
Russell's plurality	16,067

Districts.
IV.—Counties of Grayson, Collin, Fannin, Hunt, Rains.
C. B. Randell, Dem..... 17,464
C. A. Graves, Rep..... 3,063
Randall's plurality..... 14,401

V.—Counties of Dallas, Rockwell, Ellis, Hill, Bosque.
J. Beall, Dem..... 19,373
S. H. Lumkin, Rep..... 1,633
Beall's plurality..... 17,740

VI.—Counties of Navarro, Freestone, Limestone, Robertson, Brazos, Milam.
S. Field, Dem..... 17,262
No opposition.

VII.—Counties of Anderson, Houston, Trinity, Polk, San Jacinto, Liberty, Chambers, Galveston.
A. W. Gregg, Dem..... 13,162
No opposition.

VIII.—Counties of Harris, Fort Bend, Austin, Waller, Montgomery, Grimes, Walker, Madison, Leon.
T. H. Ball, Dem..... 14,301
L. McDaniel, Rep..... 6,431
Ball's plurality..... 7,870

IX.—Counties of Gonzales, Fayette, Colorado, Wharton, Matagorda, Brazoria, Jackson, Lavaca, De Witt, Victoria, Calhoun, Aransas, Refugio, Bee, Goliad, Karnes.
G. F. Burgess, Dem..... 18,316
B. R. Burow, Rep..... 11,574
Burgess's plurality..... 6,742

X.—Counties of Williamson, Travis, Hays, Caldwell, Bastrop, Lee, Burleson, Washington.
A. S. Burleson, Dem..... 20,539
C. Schenk, Rep..... 2,990
Burleson's plurality..... 17,549

XI.—Counties of McLennan, Falls, Bell, Coryell, Hamilton.
R. L. Henry, Dem..... 14,548
A. Wurts, Rep..... 690
Henry's plurality..... 13,858

XII.—Counties of Tarrant, Parker, Johnson, Hood, Somervell, Erath, Comanche.
O. W. Gillespie, Dem..... 16,220
S. A. Greenwell, Rep..... 3,424
Gillespie's plurality..... 12,796

XIII.—Counties of Cooke, Denton, Wise, Montague, Clay, Jack, Young, Archer, Wichita, Wilbarger, Baylor, Throckmorton, Knox, Foard, Hardeman, Cottle, Motley, Dickens, Floyd, Hale, Lamb, Districts.

Legislature—House, 46 Rep., 4 Dem.; Senate, 20 Rep., 3 Dem.; joint session, 66 Rep., 7 Dem.

ELECTION OF UNITED STATES SENATORS BY DIRECT VOTE.

The Legislatures of fourteen States passed resolutions in 1903 asking Congress to call a convention for the purpose of considering an amendment to the Federal Constitution, providing for the direct popular vote for United States Senators. In nearly every other Legislature holding sessions this year such resolutions were presented, and, in most cases, considered, either in committee or in one of the two houses.

The question of such an amendment to the Constitution has been agitated for a number of years, but never before was there anything like concerted action in the matter. By the terms of the Constitution two-thirds of the several States may demand that Congress call a convention for the purpose of considering Constitutional amendments. Such amendments are then brought back to the several Legislatures for ratification, a two-thirds vote of all the States being necessary to make them legal. Several of the States, chiefly Southern States, have already provided for a direct election of Senators by placing the names of candidates for this office on the primary ballots, leaving to the Legislatures nothing more than the ratification of the people's choice.

The States passing the resolution asking for a Constitutional Convention were: Oregon, California, Minnesota, Texas, Arkansas, Nevada, Washington, North Dakota, Kentucky, Missouri, Utah, Montana, Idaho and Kansas. The question passed committees and came before either one or both houses in Delaware, Illinois, New Jersey, New York, North Carolina, South Dakota, Nebraska, West Virginia, Virginia, Rhode Island, Alabama, Pennsylvania and Massachusetts.

UNITED STATES SENATE.

Territorial Delegates—Hawaii, J. K. Kalanianaole,[1] R.; Oklahoma, B. S. Maguire,[1] R.; New Mexico, B. S. Rodey, R.; Arizona, J. F. Wilson, D.; Federico Degetau, R., Resident Com.

George B. McClellan.

New York State Government.

The Governor and Lieutenant-Governor are each elected for a term of two years. Each must be a citizen of the United States, 30 years of age, and must have been a resident of the State for five years preceding his election. The Supreme Court consists of 76 Justices. The State is divided into eight judicial districts and four judicial departments. The Appellate Division is composed of 22 Justices. The Court of Appeals consists of a Chief Justice and six Associate Justices, elected for a term of fourteen years. State Senators are elected for a term of two years, and members of the Assembly for one year each.

The following is a list of New York State officials:

SOCIALIST LABOR STATE COMMITTEE.

Hugo Vogt, recording and corresponding secretary; Henry Kuhn, financial secretary-treasurer; Max Forker, Patrick Murphy, Alfred C. Klin, Justus Ebert, Stephen D. Cooper.

The Primary Law of New York State.

The Primary Law of the State of New York was finally amended by the Legislature of 1901, and has for its object the granting to every registered voter the right to enroll with any political party with which he wishes to affiliate, for the purpose of taking part in the primaries of that party for the ensuing year. Every person registering as a voter is provided with an envelope and secret ballot by the election inspectors. On this ballot he marks with a cross the party for which he has preference, and seals the ballot in the envelope, which is indorsed by the inspectors. The envelopes are opened one week after election, and the political preference of the voter is marked in the enrollment books opposite his name.

Any voter may enroll with a party after he has registered by filing an affidavit with the custodian of primary records, and any person coming of age after the time set for registration may also enroll his name by affidavit.

The time set for the annual primary day is the seventh Tuesday before the day of a general election, except in the case of Presidential elections, when the time set is the tenth Tuesday.

A primary is also held in March of a Presidential year for the election of delegates to a State convention, which in turn elects delegates to a national convention for the nomination of candidates for President and Vice-President.

Pawnbrokers in the State of New York.

Sec. 5. Every pawnbroker shall, at the time of each loan, deliver to the person pawning or pledging any goods, article or thing a memorandum or note signed by him, containing the substance of the entry required to be made in his book by the last preceding section, and no charge shall be made or received by any pawnbroker for such entry, memorandum or note.

Sec. 7. No pawnbroker shall ask, demand or receive any greater rate of interest than 3 per cent per month, or any fraction of a month, for the first six months, and 2 per cent per month for each succeeding month, upon any loan not exceeding the sum of one hundred dollars, or than 2 per cent per month for the first six months, and 1 per cent per month for each succeeding month on any loan exceeding the sum of one hundred dollars.

Sec. 8. No pawnbroker shall sell any pawn or pledge until the same shall have remained one year in his possession, and all such sales shall be at public auction, and not otherwise, and shall be conducted by licensed auctioneers of the city where the business shall be carried on, or of an adjoining city.

Legislation in New York State During 1903.

New York State Legislature, 1903.—The one hundred and Twenty-fifth session of the New York State Legislature came to close on April 23. It was marked by a degree of acrimony and personal bitterness such as has not been noticed, it is claimed, since the days of the Conkling-Platt secession of twenty-two years before. Much legislation of high importance has come from this session, however. Features have been canal improvement, the increase of the liquor tax and other methods of indirect taxation, better terminal facilities for the New York Central and Pennsylvania railroads and far-reaching child-labor legislation. Although many of the suggestions made by Governor Odell in his message have been adopted a number of those deemed of much importance were either allowed to lapse or were killed by the Legislature.

The proposed mortgage tax, which had for its object the raising of revenue for the avoidance of a direct tax, found much opposition from the Democrats and from the Republicans in the Assembly, and the Governor was constrained to acquiesce that the measure was not advisable. The Stevens bill increasing the rate of tax upon the estate of decedents, and which was expected to raise more than a million dollars, was accepted by the Governor. When friction arose over the Governor's suggestion for a change in the franchise tax, which was framed to reach more equably the corporatoins taxed, the latter project was abandoned and no bill was introduced.

The bill to increase the liquor tax fees throughout the State by 50 per cent and to give to the State one-half instead of one-third of the revenue, as under the old law, was the outcome of the thought of the Republicans of the Legislature in attempting to meet the plank in the party platform which demanded abolition of the direct tax. This bill met with considerable opposition and threats of retaliation against the "up-State" representatives by the liquor dealers of the cities. The threats took the nature of promises to abandon free lunches and to lucrease the price of beer, while boycotting the "up-State" creameries and hop-growers.

What may be considered the most important act of the Legislature, with the possible exception of the tax measures, was the passage of the bill to submit to the people a proposition for the expenditure of $101,000,000 for the enlargement of the canals of the State. The friction developed by this bill showed strongly the bitterness between the factions in the Legislature. It was claimed that many of the signatures to a petition presented by Senator Lewis in support of his resolution for the appointment of a commission to inquire into the willingness of the Federal Government to build a ship canal through the State were given unadvisedly, and for the most part the signers were in favor of the bill as it stood. The measure was passed in the Assembly by a vote of 87 to 55, and in the Senate by 32 to 14. The appropriation, if agreed to by the people at the election in November, is to be expended in widening and deepening the already existing waterways within the State.

Fourteen bills promoted and proposed by labor and humanitarian organizations in the State were passed. Four of the most notable provide for the regulation of the employment of children. Two of these relate to children at work in factories and on the streets, another affects child labor in mercantile establishments and the fourth increases the penalties for false statements in employment certificates.

The three-platoon system for the police of New York was killed on the last day of the session. The bill providing for a two-platoon system for firemen in New York and Buffalo was passed and referred to the Mayors of the two cities for signature. Organized labor claims as victories the bill to vestibule street cars in Albany and Rensselaer counties and the bill to partly vestibule cars in other counties of the State; the appropriation of $4,000 for the stricter enforcement of the Eight-Hour law on public works; the bill to transfer stokers on the New York fire boats to the uniformed force; the appropriation to increase the wages of nurses in State hospitals; the bill making the employment of a child under age negligence on the part of the employer in case of accident; the bill to prevent the employment of women and children in buffing and polishing establishments, and the bill providing overtime on Sundays and holidays for hostlers and drivers in the New York Street Cleaning Department. The Lewis Compulsory Arbitration bill and the Cohen bill to open butcher shops in New York on Sundays were killed.

The Hughes bill to prevent discrimination by labor unions and employers against members of the National Guard and the Monroe bill to garnishee wages for household debts, both opposed by organized labor, were passed and approved by the Governor.

One of the bitterest fights of the session between two departments of the State Government was between the Department of Public Instruction and the Board of Regents of the University of the State of New York, a conflict for the control of the administration of and the appropriations for the schools. During the last week of the session Governor Odell suggested the appointment of a commission to decide the questions at issue, and a bill was immediately framed and introduced to give the Governor power to appoint a commission of five persons for this purpose, but it was decided that a joint committee of the Legislature could effectively accomplish the object desired, and members of the Senate and Assembly Committees on Education were delegated to undertake the task.

Several bills were introduced to weaken the tenement house laws, but all failed of passage except those consented to by the Tenement House Department, permitting minor changes affecting outlying districts of Brooklyn and other boroughs.

For the first time in the history of the State Legislature the question of municipal ownership and operation was considered. Three important measures affecting New York City were introduced. One was a bill directly providing for a referendum upon the general question of municipal ownership, introduced by Senator Dowling, which died in the Senate Cities Committee. Another, providing authority for the city to enter into competition with private corporations in the matter of electric lighting for public purposes by the establishment of a city electric lighting plant, was defeated through the failure of a motion to disagree with an unfavorable report by the same Senate committee.

The appropriation bills, as passed, approximated $22,000,000. About $2,000,000 were appropriated in various ways for road improvement. Strenuous application was made to the Legislature for the passage of an appropriation bill for the purchase of additional lands within the Adirondack forest preserve, and for a time there was every indication that such a bill would be framed and passed. Governor Odell interfered, however, and the matter was left in the hands of the Senate Committee on Forests to make a complete investigation of the cost of virgin forest to the State and to report at the next session. A bill to protect cities on the rivers whose headwaters are in the Adirondacks from spring floods was killed in the Assembly Committee on Rules.

Considerable regislation in opposition to combinations of fire insurance companies and agents in fixing premiums was attempted, but all the measures proposed were killed, except a bill giving certain increased restrictions to the association known as Lloyds.

A group of bills to grant material increase in the privileges and exemptions of the street surface railroads of the State, and particularly those of Greater New York, aroused much opposition and became known as 'grab bills." They were finally abandoned under pressure. Several bills were introduced to abolish capital punishment and substitute life imprisonment, but all died in committee. A bill granting to women in cities of the third class the right to vote upon propositions involving the expenditure of money was introduced, but failed to emerge from committee.

Senator Frawley sought to legalize amateur boxing contests by the creation of a State athletic commission, and later by a bill regulating boxing bouts confined to five rounds with soft gloves, but both bills were killed in committee. A group of bills of much interest to New York City provide for the substitution of electricity for steam in the Park avenue tunnel, for the enlargement of the terminal facilities of the New York Central Railroad in the city of New York, for the depression of its tracks and for the abolition of all grade crossings.

A bill introduced by Assemblyman Dowling provides that whenever a child under sixteen is arrested in a city of the first class for a violation of a corporation ordinance or other minor offense, or for peddling newspapers without a license, under the Newsboy act, the police captain or sergeant before whom it is brought may accept, in lieu of bail, the personal recognizance, in writing, without security, of a parent, guardian or lawful custodian of such child. The parent or other person giving recognizance is liable for contempt of court for failure to produce the child when ordered by the court. This law does not

apply to a child who has been the subject of a crime or a witness to its commission by another.

The general establishment of children's courts is made obligatory by Assemblyman Hammond's bill, which requires that all cases involving the commitment or trial of children actually or apparently under sixteen shall be heard and determined apart from the trial of other criminal cases; a separate docket and record shall be kept, and, as far as possible, a separate courtroom, to be known as the "Children's Court."

Assemblyman Dwyer's bill relative to the abandoning of children raises the age from six to fourteen years. Junk dealers are prohibited from purchasing any merchandise from any child under the age of sixteen years.

The Elsberg bill to prevent the unauthorized use of the name or picture of any person for the use of trade became a law on September 1. It is designed to protect people from the indiscriminate use of their names and likenesses for advertising purposes. Assemblyman Bedell introduced a bill, which went into effect as a law on September 1, providing that when the employe of a steam, elevated or street surface railway is arrested in any city in connection with an accident to or by the engine, train or car which he is operating, resulting in the death or injury of any person or damage to property, he shall be immediately taken before a magistrate or a captain or sergeant of police and given opportunity to be admitted to bail.

During the session several bills looking to the regulation of the speed of automobiles were introduced, and a bill known as "The Bailey Law" was passed and approved by the Governor. This law provides speed restrictions under certain conditions and in certain localities. It contains provisions, also, requiring owners or operators of automobiles to secure certificates from the Secretary of State, which certificate must be always carried by the operator. The penalties for violation of the law are as follows: For exceeding speed rates, first offense, suspension of right to operate for two weeks; second offense, suspension for a month; third offense, revocation of right to operate. Penalties of fines are attached to the violation of ordinances or any provisions of the law. In August the Court of Special Sessions declared unconstitutional that section of the law requiring the registration with the Secretary of State and the display of numbers on the backs of the machines, the court declaring that this provision discriminated against persons of the same class.

State Assessments, 1902.

The following table, which was prepared for the American Almanac by the State Board of Equalization, shows the equalized values of real and personal estate in the State of New York for 1902, as well as the State tax and percentages by counties.

County.	Assessed Value of Real Estate, 1902.	Assessed Value of Personal Property Subject to Local Taxation for All Purposes, 1902.	Total Assessed Value of Real and Personal Property Subject to Local Taxation for All Purposes, 1902.	Total Equalized Value of Real and Personal Estate.	State Tax Levied Upon Each County.		Percentage of State Tax Paid by Each County.

Regents Examinations of the State of New York.

Regents examinations were suggested in 1828, and in 1864 the method of conducting examinations in preliminary studies was prescribed. They furnish a uniform standard for graduation from the high schools and academies of the State, and credentials based on these examinations are required for admission to the study of the professions in this State.

The examinations are held four times a year; in high schools and academies in January, March and June, and in New York, Buffalo, Albany and Syracuse in September; this latter for technical and professional students. The papers are read first by the teachers, and those which show an average of 75 per cent are sent to the Regents for final decision. Those rejected are returned in all cases.

The dates for examinations in 1904 are: January 25, 29; March 23, 25; June 13, 17; September 27, 29. The subjects in which examinations are held and the counts assigned to each are: Twelve branches English, 34 counts; three branches German, 12 counts; three branches French, 12 counts; three branches Spanish, 12 counts; nine branches Latin, 26 counts; six branches Greek, 19 counts; seven branches mathematics, 18 counts; eight branches science, 20 counts; eleven branches history, etc., 21 counts; twelve branches other studies, 25 counts; or a total of 74 branches and 199 counts.

The programme for the year is as follows:

SEPTEMBER (25) SUBJECTS.

September examinations are for professional and technical students only.

Tuesday, 9:15 a. m.	Wednesday, 9:15 a. m.	Thursday, 9:15 a. m.
Rhetoric. German, 1st year. Latin, 1st year. Algebra. American selections.	German, 2d year. Plane geometry. Physics. United States history.	Arithmetic. Advanced U. S. history. Stenography. Caesar.
1:15 p. m.	**1:15 p. m.**	**1:15 p. m.**
Advanced English. English composition. Botany. Roman history.	English selections. Physiology and hygiene. Economics. Bookkeeping.	Physical geography. English history. Civics. Drawing.

MARCH (27) SUBJECTS.

Wednesday, 9:15 a. m.	Thursday, 9:15 a. m.	Friday, 9:15 a. m.
United States history. Plane geometry. Physics.	Rhetoric. Xenophon's Anab. Arithmetic. Algebra. Stenography.	Writing. Elementary English. German 1st year. Latin, 1st year. Cicero.
1:15 p. m.	**1:15 p. m.**	**1:15 p. m.**
Advanced English. English composition. Physiology and hygiene. Bookkeeping.	Geography. Physical geography. English history. Civics.	Spelling. Caesar. Virgil's Aeneid. Drawing.

JANUARY AND JUNE (76, ALL) SUBJECTS.

The oral examination in reading may be held any time during examination week at the convenience of the examiner.

Monday. 9:15 a. m.	Tuesday. 9:15 a. m.	Wednesday. 9:15 a. m.	Thursday. 9:15 a. m.	Friday. 9:15 a. m.
German, 2d year. French, 2d year. Virgil's Eclogues. Adv. arithmetic. Algebra. Adv. drawing. Latin comp.	Rhetoric. Eng. 2d year. Amer. selections. German, 1st year. Latin, 1st year. Adv. algebra. Greek history. Adv. bookkeeping.	Greek comp. Plane geometry. Physics. Chemistry. United States history and civics. Commercial law.	Sallust's Catiline. Greek, 1st year. Arithmetic. Trigonometry. Adv. U. S. history. Stenography. Commercial geog. Typewriting.	Whiting. Elem. English. Cicero's Orations. Medieval history. Business English.
1:15 p. m.	**1:15 p. m.**	**1:15 p. m.**	**1:15 p. m.**	**1:15 p. m.**
Adv. English. English, 1st year. Roman history. German, 3d year. French, 1st year. French, 3d year. English composition.	Caesar. Latin, 2d year. Virgil's Eeneid. Latin, 3d year. Xenophon's Ana. Greek, 2d year. Botany. Spanish, 1st year. Spanish, 3d year. Business arith.	English, 3d year. English selections. Adv. English comp. Physiology and hygiene. Zoology. Economics. Bookkeeping. Business practice.	Greek, 3d year. Homer's Iliad. Geography. Physical geography. Astronomy. English history. Civics. Spanish, 2d year. History of commerce.	Spelling. English reading. History of literature. Solid geometry. Geology. Drawing. Business writing.

The following credentials are given to those who have passed the requisite examinations:

1. Preliminary (pre-academic) Certificate—Reading, writing, spelling, elementary English, arithmetic, geography.

2. Medical Student Certificate—Matriculates must secure 48 academic counts. (Satisfactory evidence of the completion of high school work, after eight years of pre-academic work is required as an equivalent, but three years of such work is accepted if it was completed before August 1, 1896.

3. Law Student Certificate—Advanced English, English composition, first year Latin, arithmetic, algebra, geometry, English history, civics, economics or 36 academic counts.

4. Dental Student Certificate—Any 36 academic counts or their equivalents (for matriculates before January 1, 1905).

5. Veterinary Student certificate—Any 24 academic counts or their equivalents (for matriculates before January 1, 1905).

6. Academic Certificates—All preliminaries and the subjects specified for the first year certificate; all preliminaries and 24, 36, 48, 60, etc., counts, if one-sixths of these counts are in English. (Any foreign language may be substituted for English, but the papers of all students who claim this privilege will be revised carefully for English). For 24 counts a two-year certificate will be issued, and for 36, 48, etc., counts a three, four, etc., year certificate. A new certificate will be given when 12 additional counts which represent a full year's count are earned. No certificate is issued for 12 counts (first year certificate) unless it included the preliminaries and the first-year English (or English composition and two other English counts.)

7. Academic Diploma—All preliminaries and any 48 counts, if not less than eight are in English, and not less than six each in the second, third and fourth groups. (Foreign language may be substituted for English). Classical academic diplomas are issued on request to those who meet the requirements for an

academic diploma and have credit for the required classic studies, which are first year Latin, Caesar, or second year Latin, Cicero, Virgil, Latin composition; first year Greek, Xenophon, or second year Greek, Iliad, Greek composition, Greek history, Roman history. Advanced diploma provides for all academic courses longer than the regular 48 count course covered by the academic diploma and is issued to only those who have earned the regular 48 count diploma and 12, 24 or 36, etc., counts in addition.

8. Business Credentials—Advanced bookkeeping, business arithmetic, commercial law, business practice and office methods, commercial geography, history of commerce, business English and business writing are required business subjects; and stenography, typewriting and business English are required stenographers' subjects. Credentials are issued in the form of State business diploma, State stenographers' diploma, State business certificate and State stenographers' certificate.

When three-fourths of all counts for any academic certificate or dipoma are won by at least 90 per cent, the credential will be recorded as having been earned with honor.

New York State Militia.

The Military Code of the State prescribes that all able-bodied male citizens between the ages of eighteen and forty-five years, who are residents of this State, shall constitute the militia, subject to certain exemptions.

The census of the year 1900 gives the population of the State as 7,268,012 persons, of whom 3,614,780 are reported males; of these 953,785 are reported to be foreigners, leaving 2,660,995 males who, at least, are unquestionably citizens and residents of this State. It further shows that of the 3,614,780 males, 2,184,965 are between the ages of eighteen and forty-five years; that of the 953,785 foreigners, there are 838,136 between the foregoing ages, giving as liable to service in the militia, 1,346,829 citizen residents of the State between the ages of eighteen and forty-five years.

Based upon the results obtained at the time of drafts in this State during the War of the Rebellion (of the Spanish-American War no information on this subject is as yet available) the exemptions for mental and physical disabilities, including also those exempted by the provisions of United States laws and the Military Code of the State, can be placed in round numbers at 300 of each 1,000 subject to military service.

Taking into consideration that a large number of the young men of foreign birth have, no doubt, become citizens, the State of New York can, therefore, be supposed to have in its population, say 1,000,000 men subject to and fit for military service. Of these it may be it may be estimaated that possibly 250,000 have had, at some time during the last twenty years, military instruction and training.

The National Guard is a portion of the militia, but armed, equipped and ready for service at all times. It numbers 14,410 officers and enlisted men. The Naval Militia is also a portion of the militia of the State, and, like the National Guard, is armed and ready for service at a moment's notice. It numbers 651 officers and enlisted men.

The National Guard is composed as follows:

GOVERNOR'S STAFF.

Brigadier-General Nelson H. Henry, Adjutant-General and Chief of Staff.
Major Harrison Kerr Bird, Military Secretary.
Captain William Littauer, Aide-de-Camp.
Captain Charles Hitchcock Sherrill, Aide-de-Camp.

DETAILED FROM THE NATIONAL GUARD.

Major Charles O. Davis, Thirteenth Regiment, Aide-de-Camp.
Major John James Bryne, Ninth Regiment, Aide-de-Camp.
Captain Ames Everett McIntyre, Twenty-fourth Separate Company, Aide-de-Camp.
Captain John Timothy Sadler, Thirtieth Separate Company, Aide-de-Camp.
Captain Seymour P. White, Sixty-fifth Regiment, Aide-de-Camp.
Captain Charles I. De Bevoise, Troop C, Aide-de-Camp.
Captain Richard Harper Laimbeer, Jr., Second Brigade Staff, Aide-de-Camp.
First Lieutenant Chauncey Matlock, Third Battery, Aide-de-Camp.
First Lieutenant Thomas Barron, Seventh Regiment, Aide-de-Camp.
First Lieutenant William Leland Thompson, Twelfth Separate Company, Aide-de-Camp.
First Lieutenant Augustus Sherwood Chatfield, Eighth Regiment, Aide-de-Camp.

DETAILED FROM THE NAVAL MILITIA.

Lieutenant-Commander Alfred Brooks Fry, Aide-de-Camp.

HEADQUARTERS OF THE NATIONAL GUARD.

Second floor, Capitol, Albany, N. Y.
Major-General Charles F. Roe, commanding.
Lieut.-Col. Frederick Phisterer (Brevet Brig.-Gen.), Asst. Adj.-Gen.

The commanding officer of the National Guard is responsible to the Governor for the general efficiency of the National Guard, and for the drill, instruction, inspection, small arms and artillery practice, movements, operations and care of troops.

ARMORY COMMISSIONS.

Frank A. Neeley, Secretary.

Office, Headquarters National Guard, Capitol, Albany, N. Y.

All arsenals, armories or other quarters of the National Guard and Naval Militia, camp grounds or rifle ranges owned by the State are under the charge of an armory commission.

When any such property is devoted to the use of the National Guard the commissions consist of the commanding officer of the National Guard, the adjutant-general and the commanding officer of the brigade within whose command the armory, camp grounds, etc., may be located.

When devoted to the use of the Naval Militia the commissions consist of the adjutant-general, the commanding officer of the Naval Militia and the ranking line officer of the Naval Militia where the property is located.

Courts of New York.

The Court of Appeals was first organized under the Constitution of 1846. It was then composed of eight Judges, four elected by the electors of the State and four chosen from the class of Supreme Court Justices having the shortest term to serve. It was formed to succeed the Court for Trial of Impeachments and the Correction of Errors. By an amendment to the Constitution in 1899 the Governor was empowered to designate not more than four Justices of the Supreme Court to act as Associate Justices of the Court of Appeals. The regular Court of Appeals is now composed of a Chief Judge and six Associate Judges.

The State is divided into eight judicial districts. There are twenty-two Justices in the First District, twelve in the Second, six each in the Third, Fourth and Sixth districts, seven each in the Fifth and Seventh districts and ten in the Eighth, making seventy-six in all.

There is an Appellate Division of the Supreme Court in each Judicial Department, consisting of seven Justices in the first department and of five Justices in each of the other departments. The Governor appoints the presiding Justice. The Appellate Court is located as follows: The first department in New York City, the second department in Brooklyn, the third department in Albany and the fourth department in Rochester; but terms may be held elsewhere in such departments as public interests may require.

THE CHILDREN'S COURT.

On September 2, 1902, the first term of the Children's Court was held in New York. It is a court established to hear the small sins of children and to decide the best method of stopping at the beginning any tendency toward crime. The existence of such a court saves children from being taken into the dock with older criminals, and prevents the effects such association might have upon them. When children are arrested they are taken directly to the court, without the intervening period in a station house. In special cases, where there is a certainty that the child will be bailed at once by its parents, the offender is taken to the police station, and in case an arrest is made after the court is closed the prisoner is left in the care of the Society for Prevention of Cruelty to Children until next day.

Officially the Children's Court is known as the "Court of Special Sessions, First Division of the City of New York, Children's Part." It is, as its name implies, but another court of the Court of Special Sessions. The act of Legislature which created it provided for another Justice, in addition to the five that already made up this court, and arranged that but one Judge at a time should occupy the Children's Bench, instead of the three that sit at the regular special session.

For the purpose of the court, all under sixteen years of age are considered children. Any crime, save a capital offense, or any offense committed in company with an adult, comes within its jurisdiction. Actual punishment, in most cases, is the last resort. As often as possible the result of examinations held at the Children's Court is suspended sentence and probation. The "Gerry" Society acts as "probation officer."

The building in which the court is located is at No. 66 Third avenue, New York City. It contains, besides the court room and general offices, detention rooms for children of both sexes, made comfortable and with as little as possible of the prison atmosphere. Those especially responsible for the new court were Edward T. Devine, of the Charity Organization Society; Elbridge T. Gerry and Charity Commissioner Homer Folks.

The Brooklyn Children's Court was opened on September 9, 1903, at 102 Court street. Justice Robert T. Wilkins, formerly superintendent of the Brooklyn Society for the Prevention of Cruelty to Children, presided, having been appointed after long consideration. The court is identical in operation with that in New York City, and is established in accordance with the law passed by the recent session of the Legislature.

JUDGES OF THE COURT OF APPEALS.

Frank H. Hiscock	Syracuse	Rep.	" 31, 1910

Supreme Court Justices of New York State.

Justices of the Supreme Court are elected for a term of fourteen years. In case of a vacancy occurring the Governor is empowered to make an appointment. Justices of the First and Second Districts receive an annual salary of $17,500; and those of the remaining districts, $7,200. Non-resident Justices sitting in the Appellate Divisions of the First and Second Departments receive the same salaries as the Justices in those departments. If assigned to duty in the First and Second Districts, other than in the Appellate Division, they receive an additional compensation of $10 a day.

FIRST DISTRICT.

Government of Greater New York.

THE MAYOR.

The chief executive power of the city of New York is vested in the Mayor, who serves for a term of two years, beginning on the first day of January following his election. He is eligible for re-election. He has power to appoint the heads of departments and members of commisions, except the head of the Department of Finance and the heads of certain departments, which are placed under the jurisdiction of the Borough Presidents. The Mayor may, should he deem it necessary to the best interests of the public, remove any officer appointed by him, except members of the Board of Education, the Aqueduct Commissioners, trustees of the College of the City of New York, the trustees of Bellevue and Allied Hospitals and those judicial officers for whose removal other provision has been made.

It is the duty of the Mayor to make a report to the Board of Aldermen at least once each year, giving a general statement of the finances, government and improvements of the city; to oversee the workings of all city departments, and to be vigilant in enforcing all city ordinances and laws of the State.

The Mayor has the power of veto over all ordinances and resolutions of the Board of Aldermen. However, such ordinances and resolutions may be passed over the Mayor's veto by a vote of two-thirds of all the members of the Board, except in the case of the expenditure of money, the creation of a debt or the laying of an assessment, a vote of three-fourths of all members being required to pass it over the Mayor's veto. In the case of a grant of a franchise the Mayor's veto is final.

In the absence or sickness of the Mayor the President of the Board of Aldermen becomes Acting Mayor.

MAYOR'S OFFICE.

Position.	Name.	Residence.	Salary.
Mayor	George B. McClellan, Mayor-elect		$15,000
Secretary to the Mayor	James B. Reynolds	184 Eldridge st	5,000

Clerk	James H. Cross	16 East 7th st., Brooklyn	2,250
Clerk—Brooklyn	Joseph V. Scully	481 2d st., Brooklyn	2,500
Clerk—Bronx	Thomas J. McCabe	655 East 155th st., Bronx	1,500
Clerk—Queens	William R. Zimmerman	81 Crescent st., Long Island City	2,000
Clerk—Richmond	Michael J. Collins	Stapleton, S. I.	1,500

OFFICE OF BOROUGH PRESIDENT.

The Presidents of the boroughs are the head executive officers of their respective boroughs, and, in addition, members of the Board of Estimate and Apportionment and of the Board of Aldermen. They are elected by the electors qualified to vote for the Mayor in their respective boroughs, and their terms are coterminous with that of the Mayor.

The Borough Presidents have control of all matters relating to streets, sewers and public buildings, except as otherwise provided for, within their boroughs; of the construction and maintenance of bridges; of the opening of streets; of the laying of surface railroad tracks in any public street or road, and of the removal of incumbrances. They are empowered to prepare all contracts relating to their boroughs. They are the chairmen of and have a vote in all local boards.

Position.	Name.	Residence.	Salary.
Manhattan—			
President	Jacob A. Cantor	9 West 70th st., Manhattan	$7,500

DEPARTMENT OF FINANCE.

The Department of Finance has control of all fiscal concerns of the Corporation. The Comptroller is the head of the department, his term being coterminous with that of the Mayor. The most important duties of the Comptroller and of his subordinates are as follows: To inspect and revise the accounts of all other departments; to prescribe the mode of paying creditors, officers and employes of the city; to make all payments by or on behalf of the city; to adjust all claims and settle all accounts in which the city is concerned; to give assent to the acquisition by purchase of any real estate on the part of the city; to certify upon all contracts entered upon by any department that there are sufficient funds applicable for the payment of such contracts; to collect all taxes and assessments; to prescribe the form of and to advertise for proposals for the purchase of bonds and stocks of the city; to issue all bonds authorized by the Board of Estimate and Apportionment; to have sole charge of the Wallabout Market lands in Brooklyn; to publish within two months after the close of each year a detailed statement of receipts, expenditures and surplus during the preceding year.

The Comptroller is a member, ex-officio, of the Sinking Fund Commission, the Board of Estimate and Apportionment, the Rapid Transit Commission, the Bank Commission, the Board of the City Record, the Aqueduct Commission and the Board of Revision and Assessments.

The Chamberlain is appointed by the Mayor, and must give a bond for $300,000. It is his duty to receive all moneys paid into the City Treasury and to deposit such in their proper places, to pay all warrants drawn on the Treasury by the Comptroller and countersigned by the Mayor, and to exhibit his accounts before the Comptroller each month.

Position.	Name.	Residence.	Salary.

SINKING FUND COMMISSION.

The Sinking Fund Commissioners consist of the Mayor, the Comptroller, the Chamberlain, the President of the Board of Aldermen and the Chairman of the Finance Committee of the Board of Aldermen.

BOARD OF ESTIMATE AND APPORTIONMENT.

The Board of Estimate and Apportionment consists of the Mayor, the Comptroller, the President of the Board of Aldermen and the Borough Presidents. The Mayor, the Comptroller and the President of the Board of Aldermen are entitled to three votes each, the Presidents of the Boroughs of Manhattan and Brooklyn two votes each, and the Presidents of the Boroughs of The Bronx, Queens and Richmond one vote each. It is the duty of the Board to prepare and to submit to the Board of Aldermen each year a budget of the amount estimated to be required to pay the expenses of the city government during the ensuing year. The Board of Aldermen may decrease, but may not increase, certain items of expense. However, such decrease is subject to the veto of the Mayor, and, unless passed over his veto, the original amount stands as part of the budget.

DEPARTMENT OF TAXES AND ASSESSMENTS.

The five commissioners constituting the Board of Taxes and Assessments are appointed by the Mayor, one of whom is designated by him as President of the Board.

Position.	Name.	Residence.	Salary.

BOARD OF ALDERMEN.

The legislative power of the city is vested in the Board of Aldermen, which consists of seventy-three members, the President of the Board and the five Borough Presidents. The President of the Board is elected in the city-at-large and the other members in the aldermanic districts, each for a term of two years. Each head of a department of the city is entitled to a seat, being required to answer all questions concerning his department and having the right to partake in discussion, but without right to vote. Meetings must be held at least once each month. The Mayor may call a meeting at any time, or upon the signed requisition of fifteen members he must call a meeting.

It is within the power of the Board of Aldermen to pass all laws, rules, regulations and by-laws applicable throughout the city, or to specified portions thereof, as may seem meet for the good rule and government of the city, and to carry out the purposes and provisions of the charter, or of other laws relating to the city, and may provide for the enforcement of the same by such fines, penalties, forfeitures and imprisonment as may by ordinance or by law be prescribed.

A majority of all the members of the Board of Aldermen is required to pass an ordinance. All ordinances must be signed by the Mayor, or, if he veto it, it must pass by a two-thirds majority to take effect, except in the case of expenditure of money, the creation of a debt or the laying of an assessment, a three-fourths vote being required to pass it over the veto; and, except it involves the grant of a franchise, the Mayor's veto being final.

Commissioner of Jurors	Charles J. Kullman	Stapleton	1,500

Kings is the only county included in Greater New York having a Commissioner of Records. This office was created in 1899, by an act of the Legislature, and the present Commissioner was appointed May 25, 1899, for a term of five years. The duties of this office are the ordering, supervision and comparing of the recopying of old and mutilated records, indexes and maps by the Register, County Clerk and Surrogate; re-indexing on the Block system in the Register's and County Clerk's offices; collating, indexing, arranging, copying, certifying of books, maps and records of the old towns of New Lots, Flatbush, New Utrecht, Gravesend and Flatlands. The salary of the Commissioner is $5,000. Under him is a Deputy Commissioner at a salary of $3,500, a superintendent, various stenographers and clerks, and a force of sixty-four comparers, abstractors, locators, searchers, indexers and map clerks at salaries ranging from $750 to $1,500 per year. The work of the Commissioner has been carried on steadily since the office was created and many of the old records of Brooklyn and the incorporated towns in what is now that Borough have been replaced and indexed in such a way as to make them readily available.

RULES GOVERNING APPOINTMENT TO THE POLICE FORCE.

Appointments to the police force are made in accordance with the following rules:

No person will be appointed patrolman of the police force unless—1st. He is able to read and write the English language understandingly. 2d. He is a citizen of the United States, and has been so for one year next prior to his application for appointment. 3d. He has been a resident of this State during a term of one year next prior to his application for appointment. 4th. He has never been convicted of felony. 5th. He is at least five feet seven and one-half inches in height, measured in his bare feet, and weighs not less than one hundred and thirty-eight pounds, averdupois, without clothing, and his chest measurement shall be at least 34½ inches. 6th. He is less than thirty years of age. 7th. He is of good health, and sound in body and mind. 8th. He is of good moral character and habits.

Candidates for appointment as doormen shall be between the ages of twenty-five and thirty-five years, and their physical qualifications shall be the same as required for patrolmen. Their height shall not be less than five feet seven inches. Captains are required to give their personal attention and supervision to the orders for investigation into the character, habits and associates of applicants for appointment on the police force referred to them for report. They shall satisfy themselves affirmatively as to the character, habits and associates of the applicant, and shall make no favorable report in relation to the applicant until they are reasonably assured that his character, habits and associates are good. Applicants for appointment as police surgeon shall be between twenty-seven and forty-five years of age, and they shall be physically sound in all respects.

Fire Department of Greater New York.

The head of the Fire Department is the Fire Commissioner, appointed by the Mayor. The Commissioner in turn appoints a deputy, whose office is in Brooklyn. The Department is directly under the authority of a Chief, who is responsible to the Commissioner for its routine excellence.

Executive Department.

Position.	Name.	Salary.
Fire Commissioner	Thomas Sturgis	$7,500
Deputy Fire Commissioner	R. H. Laimbeer, Jr.	5,000

Water Rates for Greater New York.

The following scale of water rents has been established by the Board of Aldermen:

Residences occupied by only one family, 16 feet and under frontage, one story, $4.00; 16 to 18 feet frontage, $5.00; 18 to 20 feet frontage, $6.00; 18 to 22½ feet frontage, $7.00; 22½ to 25 feet frontage, $8.00; 25 to 30 feet frontage, $10.00; 30 to 37½ feet frontage, $12.00, and 37½ to 50 feet frontage, $14.00. For each additional story $1.00 is charged. One bath and a water closet is included in the above rate.

Where more than one family occupy a house an additional charge of $1.00 is made for each. The charges for baths are $3.00 each, and water closets $2.00 each.

Water meters are placed at the discretion of the Commissioner of Water Supply. The charges are fixed at 10 cents per 100 cubic feet, measured by meter.

For building purposes the rates are ten cents per 1,000 brick and forty cents per 100 square yards of plastering.

The rates for commercial and other businesses vary, and in a great many instances are fixed by the Commissioner.

The Palisades Interstate Park.

The Commissioners of the Palisades Interstate Park are appointed by the Governor. The Commission consits of ten members, five of whom must be citizens of New York, and serve for five years without pay. The Commissioners have full power to select and locate any lands on the west shore of the Hudson River that may in their opinion be necessary to preserve the scenic beauty of the Palisades, and to maintain a public park on the lands so located.

COMMISSIONERS OF THE PALISADES INTERSTATE PARK.

Beginning at Rockaway Inlet and boundary of 26th Ward, Brooklyn; easterly through center of Beach Channel and Nigger Bar Channel to McNeil ave., easterly boundary of village of Far Rockaway; southerly along McNeil ave. to Bay View ave., to Bannister Creek in Rockaway Inlet, to Atlantic Ocean; westerly to easterly line of 26th Ward, Brooklyn.

ASSEMBLY DISTRICTS.

1st—1st and 2d Wards. 2d—3d and 4th Wards. 3d—5th Ward and Nassau County.

ALDERMANIC DISTRICTS.

67th—1st Ward. 68th—2d Ward. 69th—3d Ward. 70th—4th and 5th Wards.

SENATORIAL DISTRICTS.

Queens and Nassau counties constitute the Second Senatorial District of New York State.

MUNICIPAL COURT DISTRICTS.

1st—1st Ward (L. I. City). 2d—2d and 3d Wards (Newtown and Flushing). 3d—4th and 5th Wards (Jamaica and Hempstead).

LOCAL IMPROVEMENT DISTRICTS.

The charter of 1901 divides Greater New York into twenty-five districts for the purposes of home rule and local improvements. They are as follows:

First District, which consists of the County of Richmond, and is called Staten Island.

Second District, which consists of Wards 1 and 2 of the Borough of Queens, and is called Newtown.

Third District, which consists of Wards 3, 4 and 5 of the Borough of Queens, and is called Jamaica.

Fourth District, which consists of the territory comprised in the Third Senatorial District of New York, and is called The Heights.

Fifth District, which consists of the territory comprised in the Fourth Senatorial District of New York, and is called Bedford.

Sixth District, which consists of Wards 8, 30 and 31, of Brooklyn, and is called Bay Ridge.

Seventh District, which consists of Wards 10 and 12, of Brooklyn, and is called Red Hook.

Eighth District, which consists of the territory comprised in the Sixth Senatorial District, and is called Prospect Heights.

Ninth District, which consists of the territory comprised in the Seventh Senatorial District, and is called Williamsburg.

Tenth District, which consists of the territory comprised in the Eighth Senatorial District, and is called Flatbush.

Eleventh District, which consists of the territory comprised in the Ninth Senatorial District, and is called Bushwick.

Twelfth District, which consists of the territory comprised in the Tenth Senatorial District, and is called Bowling Green.

Thirteenth District, which consists of the territory comprised in the Eleventh Senatorial District, and is called The Bowery.

Fourteenth District, which consists of the territory comprised in the Twelfth Senatorial District, and is called Corlears Hook.

Fifteenth District, which consists of the territory comprised in the Thirteenth Senatorial District, and is called Greenwich.

Sixteenth District, which consists of the territory comprised in the Fourteenth Senatorial District, and is called Kip's Bay.

Seventeenth District, which consists of the territory comprised in the Fifteenth Senatorial District, and is called Murray Hill.

Eighteenth District, which consists of the territory comprised in the Sixteenth Senatorial District, and is called Chelsea.

Nineteenth District, which consists of the territory comprised in the Fifteenth and Seventeenth Assembly districts, and is called Hudson.

Twentieth District, which consists of the territory comprised in the Eighteenth Senatorial District, and is called Yorkville.

Twenty-first District, which consists of the territory comprised in the Nineteenth and Twenty-first Assembly districts, and is called Riverside.

Twenty-second District, which consists of the territory comprised in the Thirty-first and Twenty-third Assembly districts, and is called Washington Heights.

Twenty-third District, which consists of the territory comprised in the Twentieth and that part of the Twenty-first Senatorial District in the Borough of Manhattan, and is called Harlem.

Twenty-fourth District, which consists of the territory comprised in the Twenty-first Senatorial District in the Borough of The Bronx, west of the Bronx River, and is called Morrisania.

Twenty-fifth District, which consists of that part of the Twenty-second Senatorial District in the city of New York, east of the Bronx River, and is called Chester.

Trust Companies in Greater New York.

THE POWERS OF TRUST COMPANIES.

Under section 156 of the Banking laws of this State, the following powers are, in effect, given to Trust Companies:

To transact a general banking business; to receive deposits of money on active account, subject to check at sight, and to allow interest thereon; to receive deposits in trust; to loan money on bond and mortgage, personal security, business paper or approved collaterals; to act as fiscal or transfer agent, or as trustee under any mortgage or bond issued by any municipality or corporation; to act as executor, administrator, trustee, guardian, and as committee of the estate of persons of unsound mind; to accept and execute any and all trusts with regard to the holding, management and disposition of any estate or property that may be granted or confided to it; to supply investment securities; to act as registrar for corporate securities; to act as legal depository for court and estate funds, and to furnish foreign drafts or bills of exchange to its clients.

Beggars in the City.

Like all great cities, New York is infested with beggars. Efforts have been made, but without much success, to suppress them, and charitably disposed people have tried to arrange so that no one should suffer for want of food. If accosted by one of them, he should be referred to any of the following addresses, where the case will be investigated, and if found needy, his wants will be relieved with as little delay as possible. The Charity Organization Society, Fourth avenue and Twenty-second street, 9 Chambers street, 297 Broome street, 208 East Fiftieth street, 169 East Sixty-third street, 594 Seventh avenue, 527 Amsterdam avenue, 15 East One Hundred and Twenty-fifth street. At night they should be referred to the Wayfarers' Lodge, 516 West Twenty-eighth street.

BOROUGH OF RICHMOND.

Dis.	Location.
1	Lafayette ave., New Brighton.
2	Washington Park, Stapleton.

A Prisoner's Rights in the State of New York.

(From information furnished at the office of the District-Attorney.)

In felony cases a prisoner may be admitted to bail in the discretion of the court, with the exception of prisoners charged with murder in the first degree.

If the prisoner is charged with a misdemeanor a police sergeant on duty at the station house must take bail, the amount of which must not exceed $500.

If a prisoner desires to furnish his own bail he must deposit the amount in cash with the City Chamberlain, who issues a certificate of deposit. This certificate is then turned over to the sergeant or magistrate and the prisoner is released. If after his release the prisoner desires to substitute a bondsman for his cash bail he may do so. If the prisoner does not want to furnish cash bail he has the right to demand that a messenger be sent to communicate with his friends or prospective bondsman. A bondsman must be a resident, householder or freeholder of the State, and, unless the magistrate directs otherwise, a resident of the county in which the bail is to be furnished.

Under no circumstances will the New York County District-Attorney's office accept the bail of a surety not a resident of the county. The bondsman must be worth the amount specified in the bond, exclusive of property exempt from execution.

If the prisoner fails to appear in court as stipulated in the bond his bond is forfeited and he is subject to rearrest and prosecution.

Altitudes of Greater New York.

The following table gives the surface elevations in feet above high water mark at the points indicated:

Highest	Feet.
Richmond—Near Toad Hill	413
The Bronx—Near Riverdale, Mosholu avenue	285
Manhattan—Bennett property, near 181st street	266
Queens—Payne's farm, near Little Neck	267
Brooklyn—Prospect Park reservoir	202

Lowest.	Feet.
Richmond—South Beach	10
Manhattan—Houston street, corner Mangin street	3 05
The Bronx—Park avenue, corner 135th street	5
Queens—Hempstead, Rockaway avenue, corner of Holland avenue	1.15
Brooklyn—Ocean Parkway, corner of Canal avenue	8

Excise in Greater New York.

Table showing the number of licenses issued and net receipts under excise boards for the year ending April 30, 1896 (old law), together with the number of tax certificates in force and net receipts for the year ending April 30, 1903 (new law), in Greater New York.

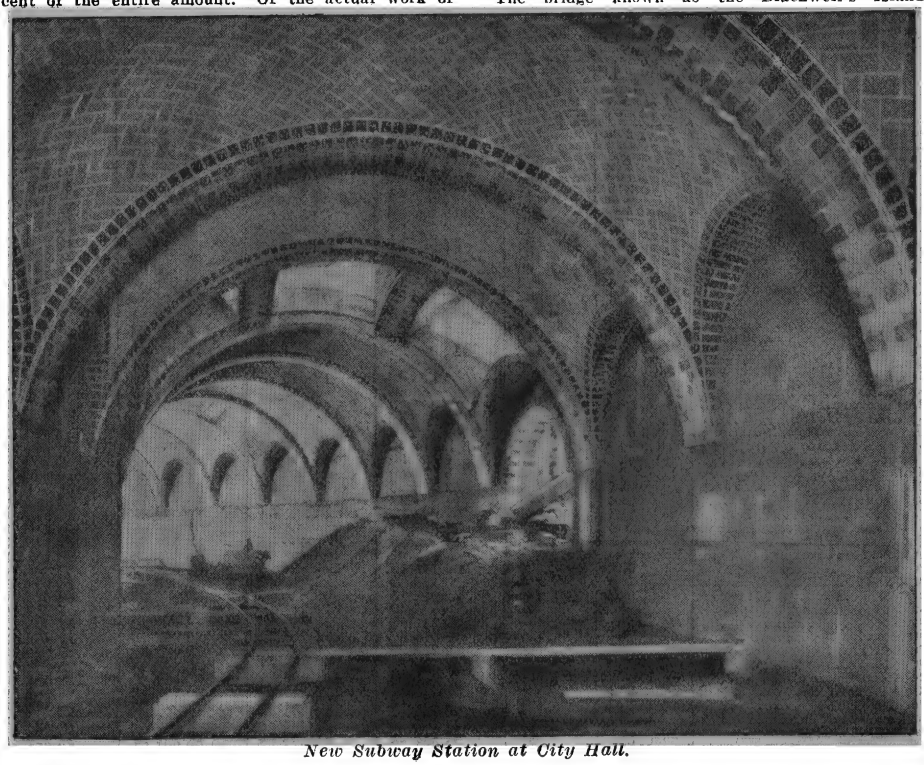
[1]Nassau County erected January 1, 1899, from Queens County, and the above figures prior to that date were taken from Queens County. [2]State Commissioner of Excise collects from common carriers and bottlers of malt liquors who sell from a vehicle: he also collects fines and penalties. [3]For the year ending September 30, 1895; licenses issued by State Comptroller.



Bridges and Tunnels in Greater New York.

While none of the several great projects related to the rapid transit facilities required for New York City and its environs were brought to completion during the year 1903, there was substantial advance made in all of them, and the year 1904 opens with the certainty that the advantages which they are to afford will be at command of the public during its earlier months. A new bridge between the boroughs of Manhattan and Brooklyn will be in full operation, as will be that portion of the new local railway undertaking, specifically known as the Rapid Transit system, which traverses Manhattan Island, and which, by means of tunnels under the Harlem and East rivers, will be connected with extensions of the system in the Borough of the Bronx and in Brooklyn, that in the Bronx being already near completion. The entire system, excepting the Brooklyn extension, was to be completed at a cost of $35,000,000, and the work done up to the close of the year represents $32,000,000, or nearly 91½ per cent of the entire amount. Of the actual work of construction the most important remaining incomplete at the close of the year 1903 was the tunnel under the Harlem River. There remained also to be completed a large proportion of the work on the stations and the completion of the tracks, the track work finished at this writing being about twenty-five miles. The work upon the Brooklyn extension has been well begun and good progress was made during the year. Three shafts have been sunk on Manhattan Island, namely, two on Broadway to obviate the necessity of "ditching" that thoroughfare between the Post Office, the terminus of the Manhattan Island system, and the shaft in Battery Park, whence the tunnel under the East River to Brooklyn is being driven. There is another shaft at Joralemon street, in Brooklyn, whence the tunneling is advancing to meet that from Manhattan. On both sides of the river the headings have been pushed several hundred feet, and on the Manhattan side the work has progressed under the river bed some distance beyond the bulkhead line. The tunnel is to be a double one — two tunnels side by side, as a matter of fact. Its construction will probably require the whole of the coming year, and it can not be reasonably expected that, even at the most rapid rate of construction possible, this work will contribute to the solution of Brooklyn's share in the rapid transit problem earlier than the year 1905.

For this reason the opening of the new bridge known as the Williamsburg Bridge will be the more important to the residents of the Borough of Brooklyn. This bridge is practically completed, so far as the work of actual construction is concerned, but there remains the laying of the tracks for both the elevated railway and the trolley lines to be done. This will not be done until the Spring of 1904, but it is expected that in the meantime the roadways will be opened to vehicles and the promenade to pedestrians. The cost of this bridge up to the close of the year 1903 was approximately $20,000,000, of which sum $9,000,000 is the estimated cost of land taken.

The bridge known as the Blackwell's Island Bridge will not be completed until 1907. The piers upon Blackwell's Island and on the Manhattan and Queens sides of the East River are ready for the superstructure, for the construction of which the contract was awarded on November 6, 1903, to the Pennsylvania Steel Company. The contract price for the work is $5,132,985. There were only two bidders, the competitors being the company just named and the firm of Milliken Brothers, New York, whose bid was $5,188,850. There had been a previous call for bids which elicited only one proposal, the figures of which were so high that the bid was rejected and new proposals called for, with the result here stated.

The working population of New York City includes a vast number of people whose homes are in New Jersey and whose only means of crossing the Hudson River is afforded by the various ferries. A very large proportion of this ebb and flow of population reaches the lower or business section of Manhattan Island by way of Jersey City, and the ferries are not only inadequate to their accommodation but afford a mode of transit which is not as speedy as

New Subway Station at City Hall.

could be desired, while in foggy weather, and when the river is clogged by ice in Winter, the transit is necessarily much slower, being also subject to frequent interruptions. This will be obviated by the completion, not later than 1905, of two parallel tunnels from Jersey City to New York City, through which lines of trolley cars will be run. One of these tunnels, known as the north tube, was begun several years ago, but not finished, and was acquired by the New York and New Jersey Railroad Company, of which W. G. McAdoo is president. This tube, of which 4,000 feet had been completed when the present company took possession, has been pushed energetically during the year of 1903, and the workmen at the close of the year were inside the pier-head line on the New York side. The tunnel is 18 feet in diameter and its length when completed will be 5,600 feet. It will be completed, barring accidents, in February, 1904. The second tube, unlike the first, will be advanced from both sides of the river. Its diameter will be 15 feet 6 inches, or about the same as that of the twin tunnels under the East River, between Manhattan and Brooklyn. The work on this tube will be well under way by the time the north tube is completed. These tubes are not intended for heavy railway trains, but for light trains or electric cars such as are employed in local service in New York and other cities.

While the $50,000,000 tunnel which the Pennsylvania Railroad Company is to build under the North River, Manhattan Island, and the East River will not be so intimately connected with the general rapid transit systems of the Greater City of New York as the enterprise just mentioned, it will bear a very important relation to it, and will largely increase and improve the service which that railroad and its leased system, the Long Island Railroad, now render to many thousands of people whose business calls them to Manhattan daily from their homes in New Jersey and on Long Island. At present the most perceptible evidence of the vigor with which this enterprise is being advanced is presented in the demolition of buildings, representing millions of dollars in value, on the city blocks lying between Seventh and Ninth avenues and Thirty-first and Thirty-third streets, where the tunnel station in the Metropolis is to stand. The shafts in Manhattan and New Jersey are practically in readiness for the North River tunnel work, which will be commenced, it is expected, early in January, 1904. The shaft at Eleventh avenue and Thirty-second street, Manhattan, is completed, and the completion of that in Weehawken, on the New Jersey side of the river, was expected by the close of the year 1903. Shafts for the tunnel work on the East River section had not been begun at the end of the year, but the sites were selected. This tunnel will extend to the Borough of Queens, and will be 2.85 miles in length, constituting a four, six and seven-track line. In Queens it will connect with the Long Island Railroad, which, with the increased facilities for reaching Manhattan, will afford such means of rapid transit to Long Islanders as to make that portion of Greater New York, as well as its eastern suburbs, as accessible as any other part of the city or its environs. At present the only means by which the Long Island Railroad can forward its patrons to Manhattan are its ferries and a limited number of trains sent across the Brooklyn Bridge over the elevated tracks of the Brooklyn Rapid Transit Company.

Greater New York Budget for 1904.

The budget calls for an expenditure of $106,675,955, an increase of $9,604,978 over the appropriations for 1903. Nearly $6,000,000 of the increase goes for the redemption of city bonds. Outside of this, the largest item of increase is the sum necessary to replenish the fund for street and park opening. Mayor Low, at the time the budget was announced, stated that the tax rate would probably be 1.50, against 1.41 in 1903. Below are tables showing the budgets for several years, together with an itemized statement of the expenditures in each department for 1904:

BUDGETS FOR GREATER NEW YORK, FOR CITY AND ALL BOROUGHS.

1899	$93,520,082	1901	$98,100,413	1903	$97,119,031
1900	90,778,972	1902	97,974,541	1904	106,674,955

There was no regular budget for 1898, but at the time of consolidation it was estimated that $77,000,000 would cover all expenses. This amount was insufficient.

STATEMENT

Showing appropriations made for 1904 by the Board of Estimate and Apportionment, as compared with those of 1903.

Driveways of Greater New York.

No city in the world has done so much for the owners of fine harness horses as has New York. The Speedway is, of course, the principal driveway of New York. Three miles long, and built at a cost of about $8,000,000, more fast horses can be seen there on a fine afternoon than in any other place. The men who drive them are not horsemen in the common acceptation of the term, but business men who are interested in the horse, not for the money they can make out of him, but for the pleasure they derive from riding behind him. Among those who are to be seen on the drive, holding the reins over fast ones, are Nathan Straus, T. R. McMann, J. W. McCormick, J. B. Bailer, John F. Cockrell, E. T. Kearns, Col. Alex. Newburger, David Lamar, C. K. G. Billings, of Chicago, and others. For two years Mr. Straus's Cobwebs held the honors as star of the Speedway, but was finally beaten by Mr. Billings's Lucille after a close and hard-fought contest. The location of the Speedway, along the west bank of the Harlem River, is unsurpassed for natural beauty, and when it is connected, by work now in progress, with the Riverside Drive, the whole will make a road for pleasure driving unequalled in the world.

In October of 1902 ground was broken for the Grand Concourse in The Bronx, which will connect all the parks of that borough. It will start at One Hundred and Sixty-first street and be four miles long. Its width is to be 180 feet, and it will cost over $1,000,000. It is expected that it will be completed in about three years. President Haffen, of Bronx Borough, is making strong efforts at improving the highways of that section of the city in connection with this work.

On Seventh avenue, above Central Park, the principal driveway of the days when Robert Bonner and Commodore Vanderbilt were kings of the road, many fine equipages are seen. It is the principal street leading to the Speedway, and its liberal width and smooth pavement make it an ideal driving street.

The principal driveways of Brooklyn are those about Prospect Park and the roads to the various seaside resorts, which are well kept and give pleasure to many owners of good horses.

New York Civil Service Rules.

The following synopsis of the regulations governing the operation of the Civil Service of the city of New York was approved for the American Almanac by the secretary of the Municipal Civil Service Commission.

The report for the year 1902 showed that to the number of names verified on the payrolls of the service should be added 5,000, which represents employes laid off during the Winter months, owing to suspension of work. This would approximate 20,000 names verified weekly, which, added to the other names verified yearly, represents a total of 895,272. The total number of changes in the working force of all departments of the service was 8,517.

The Civil Service law prescribes that appointments and promotions in that service shall be made according to merit and fitness, to be ascertained so far as practicable by competitive examination, and no appointing officer may fill any vacancy except in accordance with the Civil Service rules. No employe in the Civil Service may be transferred to any position in a higher class than that which he has held, unless he has passed an examination for the higher position, or he has served the city three years in a similar position.

No transfer shall be made from the unclassified to the classified branch of the service nor from any position in the competitive class to another in that class without authorization of the Municipal Civil Service Commission, and a violation of that rule is good cause for the dismissal of the offending official.

There are four divisions of the classified service: The Exempt Class, the Non-Competitive Class, the Competitive Class and the Labor Class.

The Exempt Class comprises the deputies of the principal executive officers of the several departments.

The Non-Competitive Class includes persons appointed in an emergency to fill vacanies for which there is no eligible list on hand. Such an appointment, however, cannot continue longer than two months, nor can the vacancy be again created and filled temporarily. A permanent appointment must be made after examination at the expiration of that period.

The Competitive Class includes all positions and classes of employes except those of the Labor Class, which includes all laborers and other employes who shall not be subject to examination, and except those especially exempt from examination under the Civil Service rules or the statutes of the State.

Applications for appointment under the Civil Service must be addressed to the secretary of the Municipal Civil Service Commission, and all applicants must furnish their full names and addresses, with such other information concerning themselves as is naturally of use in judging their qualifications and fitness for appointment. Applicants will find it desirable to state what branch of the service they wish to serve, if they have a preference, and they must take oath before a notary as to the truth of all their statements.

No person under eighteen years of age can be appointed to a position in the Competitive Class unless otherwise provided by the rules. Professional persons who are to perform technical or expert duties are required to satisfy the Commission that they are regularly authorized by the laws of the State to engage in their particular field of effort before they can be accepted under the Civil Service, but such persons are not expected to submit to an examination adapted for non-professional persons.

A false statement will disqualify an applicant, and the Commission may refuse to examine a person who is unsuitable for the service. No person who has been convicted of crime, who has been dismissed from the public service or who has attempted to practice fraud in connection with his application can be appointed. Intemperance also debars.

All examinations are conducted in writing, and the utmost care is exercised to prevent fraud in the preparation of applicants' papers. Any person detected in fraud is instantly dismissed by the Commission. No person who has failed to pass an examination may be again admitted to examination within nine months without consent of the Commission.

Applicants for senior clerical positions must attain an average percentage of 80, and no person who receives less than 70 can be appointed to any clerical position.

Applicants for positions requiring technical or professional knowledge must attain an average of 75 per cent; otherwise they cannot be accepted.

Applicants for positions in the Fire and Police Departments are required to average 70 per cent in mental examination and 70 per cent in physical examination.

No applicant who fails utterly in any one branch of the examination can be appointed to the service.

Candidates for promotion in graded positions must attain an average of 80 per cent in all grades up to the second, and 85 per cent in all higher grades, while in the Police and Fire Departments they must average 70 per cent.

If a person feels that he has not been fairly treated by an examining board he may appeal to the Municipal Commission, who will investigate his complaint and will remedy any injustice that may have been done.

In all eligible lists prepared by the secretary of the Commission candidates who have been honorably discharged from the United States naval or military service, having served during the Civil War, will be specially indicated in order that they may receive preference in the matter of appointments. No eligible list shall be effective for a term longer than four years, and at the expiration of that time or the lapse of one year a new list may be submitted to the secretary. The eligibility of those on the old list will expire at the same time, so that they will be obliged to pass a new examination in order to be placed on the new list.

A person who is appointed to a Civil Service position is expected to accept it within four business days after receiving notice of his appointment. Delay longer than four such days is interpreted as a declination. A person may waive his right to a position on ground of non-residence, insufficiency of salary, or temporary disability.

No person whose name is on an eligible list may take an examination for another position within nine months of the issuance of the list, except by consent of the Commission.

Persons on the eligible list of any department may accept temporary appointment in emergency cases without affecting their rights to permanent appointment later.

When extra clerks are required for temporary employment in the departments of Taxes, Finance, Elections, Assessments and Arrears, Water Rates and Water Supply, temporary appointment may be made from the eligible list and otherwise without special examination, but such employes selected from the eligible list will be given preferment when permanent appointments are made in those departments. Those whose names are on the eligible list will be restored to that list in their original order at the expiration of their temporary service in any one of the departments named.

Every original appointment in the Civil Service is for a probationary period of three months, except in the case of firemen and of patrolmen, when it is one month's probation; if the appointee is then declared competent his appointment is made permanent; if not, he is dismissed.

Promotions from lower to higher grades of a department are made on the basis of merit, seniority of service and examination. An increase of salary is deemed promotion.

Delinquency and misconduct are sufficient causes for dismissal, and no person dismissed for such reasons may be appointed to any position under the Civil Service within two years after dismissal. No person may be dismissed from the Civil Service for political reasons, nor until the person has been given an opportunity to refute the charges made.

Any person who has retired from the Civil Service voluntarily or who has been dismissed without prejudice may be reinstated within one year after leaving his position. If he wishes to re-enter the service after the expiration of that period he must submit to examination again.

While there is no rule prohibiting persons in the Civil Service contributing to political campaign funds it is expressly stipulated that no such person shall be dismissed from the service for refusing to contribute to such funds. Nor shall any person in authority exercise his power against any Civil Service employe because of his political or religious affiliations.

Applicants for positions as laborers are required to furnish satisfactory reference as to character, sobriety and physical fitness for such work and their names are registered by the labor clerk, but no appointment to that class is for a longer period than one year, when they may be reappointed if they pass another physical examination. If at any time they fail to fulfill the physical qualifications required they are dismissed, but without prejudice; that is to say, their dismissal is no reflection upon their character. One department may call upon another to furnish

extra labor forces temporarily, in which case the Commission will indicate what assignments are to be made, and from the lists so submitted to him the executive officer of the department requiring the laborers will select such persons as he needs and will report his selections to the labor clerk.

If an emergency arises under which laborers are required immediately the executive officer may hire such persons as he wants without examination, but not for a period longer than three days.

The municipal departments which come under the jurisdiction of the Civil Service Commission are:

Armory, Board of.	Charities, Dept. of Public.	Coroners, Docks and Ferries,	Mayor's Office.
Aqueduct Commission.	City Record, Supervisor of the.	Dept. of.	Parks, Dept. of.
Assessors, Board of.	Correction, Dept. of.	Education, Board of.	Police Dept.

Bridges, Dept. of.	Court, City Magistrates.	Elections, Board of.	Sinking Fund Commission.
Borough of Manhattan.	Court of General Sessions.	Examiners, Board of.	Street Cleaning Dept.
Borough of the Bronx.	Court, Municipal.	Finance Dept.	Taxes and Assessments, Dept. of.
Borough of Brooklyn.	Court of Special Sessions.	Fire Dept.	Tenement House Dept.
Borough of Queens.	Commission, Municipal Service.	Health Dept.	Water Supply, Gas and Electricity, Dept. of.
Borough of Richmond.		Law Dept.	

MAYORS OF THE CITY OF NEW YORK.

Prior to the Revolutionary War the office of Mayor of New York was filled by appointment by the Governor of the province. After the close of the war and until 1820 the appointments were made by the State Appointing Board, of which the Governor was chairman, and until 1830 by the Common Council. Since 1830 the office has been an elective one. At first the term of office was two years, but in 1871 the city charter was amended extending the term to three years. At the time of consolidation the charter fixed the term of office for Mayor at four years, but the amended charter, passed in 1901, reduced this term to two years.

The following is the list of those who have held the office of Mayor in what are now the various boroughs of Greater New York.

Names.	Terms.	Names.	Terms.	Names.	Terms.
Thomas Willet	1665	Robert Walters	1720-1725	William F. Havemeyer	1845-1846

Exchanges and Boards of Trade in New York.

The exchanges and boards of trade of the city are located as follows: The Stock Exchange, seats in which now sell for over $80,000, will occupy the fine new building in Broad street in the course of the current year. In these bodies the amount of business transacted is immense, and fortunes vary upon the fluctuations in prices of the goods dealt in. A visitor to the city always finds them among the most interesting places to be seen.

Name.	Location.	Incorporated.	No. of members.	President.	Secretary.

*Temporarily located in the New York Produce Exchange Building, Broadway and Beaver street.
†Will remove during 1903 to 78 and 80 Broad street.

Rules of the Road in Greater New York.

The following rules governing traffic through the streets of New York have been established to prevent congestion and accidents in crowded thoroughfares:

KEEPING TO THE RIGHT PASSING, TURNING, CROSSING AND STOPPING.

Slowly moving vehicles shall keep to the right and as near the right-hand curb as possible, so as to leave room in the middle of the street for vehicles going at a greater speed.

A vehicle meeting another shall pass on the right.

A vehicle overtaking another shall pass on the left side of the overtaken vehicle, and not pull over to the right until entirely clear of it.

A vehicle turning into another street to the right shall turn the corner as near the right-hand curb as practicable.

In turning into another street to the left, the vehicle shall turn around the centre of intersection of the two streets.

No vehicle shall stop with its left side to the curb except on established cab, hack and truck stands.

Unless in an emergency, or to allow another vehicle or pedestrian to cross its path, no vehicle shall stop in any public street or highway of this city, except near the right-hand curb thereof, and so as not to obstruct a crossing.

SIGNALS.

In slowing up or stopping, a signal shall always be given to those behind by raising the whip or hand vertically.

In turning, while in motion, or in starting to turn from a standstill, a signal shall be given by raising the whip or hand, indicating with it the direction in which the turn is to be made.

RIGHT OF WAY.

On all the public streets or highways of the city all vehicles going in a northerly or southerly direction shall have the right of way over all vehicles going in an easterly or westerly direction.

The officers and men of the Fire Department and Fire Patrol, with their fire apparatus of all kinds, when going to, on duty at, or returning from a fire, and all ambulances, the officers and men and vehicles of the Police Department, United States mail wagons, and all physicians who have a police permit, shall have the right of way in any street, and through any procession.

Subject to the preceding section of this article, surface cars, running on tracks laid in the streets especially for their use, shall have the right of way along such tracks, between cross streets, over all other vehicles; and the driver of any vehicle, proceeding upon the track in front of a surface car, shall turn out immediately upon signal by the motorman or driver of the car.

No vehicle shall so occupy any street as to interfere with or interrupt the passage of cars or other vehicles.

SPEED.

No vehicle shall proceed at any time at a greater speed than the law allows, and is safe and proper under the conditions then obtaining.

DEFINITIONS.

All avenues and streets with a parkway in the middle shall be considered as having but one roadway.

The word vehicle includes pedestrians and everything on wheels or runners, except street cars and baby carriages.

Jury Duty in Greater New York.

(Revised to date at the office of the Commissioner of Jurors.)

A person over 21 years and under 70 years of age is liable to be called upon for jury duty in the County of New York provided he is a citizen of the United States and a resident of the county in which the court is held. A resident within the meaning of the Jury law is one who dwells or lodges within the county for the greater part of the time between the 1st day of October and the last day of June. He must also be owner in his own right of real or personal property to the value of $250, though the husband of a woman owning that amount of property in her own right is eligible. Other requirements are the possession of the natural faculties, intelligence, good character and ability to read and write the English language understandingly.

In the County of Kings a man, to be qualified, must be a citizen of the United States and a resident of that county, not less than 21 nor more than 70 years of age, the owner in his own right of real property to the value of $150, personal property to the value of $250, or the husband of a woman owning real or personal property to that value in her own right. Other qualifications are the same as for the County of New York.

Those disqualified in the County of New York are the following: The Governor, Lieutenant-Governor, Governor's private secretary, the Secretary of State, the Comptroller, State Treasurer, Attorney-General, State Engineer and Surveyor, a Canal Commissioner, Inspector of State prisons, a Canal Appraiser, Superintendent of Public Instruction, Superintendent of the Bank Department, Superintendent of the Insurance Department, a member of the Legislature during the session of the House of which he is a member, a Judge of the Court of Record, a Surrogate, a Sheriff, Under Sheriff, the clerk of the Court of Record and the deputies of the above officers.

The following are exempted as trial jurors upon claiming the right, although qualified: A clergyman officiating as such and following no other calling; a practising physician, surgeon or surgeon dentist having patients requiring his daily personal attendance, and not following any other calling; a licensed pharmacist, while actively engaged in his profession as a means of livelihood; a registered veterinary surgeon actively engaged in his profession; an attorney or counsellor-at-law, regularly engaged in the practice of law; a professor or teacher in any college, academy or public school, not following any other calling; an editor or reporter or editorial writer employed on a daily newspaper and not following any other vocation; the holder of an office under the United States, or the State or city or County of New York, not disqualified; a Consul of a foreign nation; a captain, engineer or other officer actually employed upon a vessel making regular trips, or a licensed pilot actually following that calling; a superintendent, conductor or engineer employed by a railroad company other than a street railway company, or a telegraph operator employed by a telegraph company, actually engaged in duty for the company by which he is employed; a Grand Juror or Sheriff's juror, selected for the year pursuant to law; any officer, non-commissioned officer, musician or private actually serving in a brigade, regiment, battalion, company or troop of the Old Guard of the City of New York, or of the National Guard of the State, uniformed and equipped according to the law and faithfully performing his duty, or a general or staff officer actually performing duty as such, or a person who has been honorably discharged from the National Guard after five years' service in either capacity; a person who has been honorably discharged from the military forces of the State after seven years' service, provided this service has been performed prior to 1862, either as a general or staff officer or non-commissioned officer, musician or private in a uniformed battalion, company or troop of the militia of the State, and since April 23, 1862, as a member of the National Guard of the State of New York; a person who has been honorably discharged after at least five years' faithful service in a fire company or fire department; persons who are physically incapable of performing jury duty by reason of severe sickness, deafness or other physical disorder; a person holding office in the fire or police department of the city; a duly licensed engineer of steam boilers actually employed as such; election officials, municipal court jurors.

Those having the right to claim exemption in the County of Kings are the same as in the County of New York, with the exception of Consuls of foreign nations, Grand Jurors and Sheriff's jurors, and including persons belonging to the army or navy of the United States.

By a law passed in 1901 a Commissioner of Jurors was appointed and the selection of special juries provided for in criminal and civil actions in any county having a population of at least 1,000,000. Special jurors are selected from the persons qualified to serve as trial jurors. No person may be selected who has been convicted of a criminal offense, or found guilty of fraud or other misconduct by the judgment of any civil court; nor any person who possesses conscientious opinions regarding the death penalty such as would deter him from finding a verdict of guilty for any crime the penalty for which is death; nor any person opposed to conviction on circumstantial evidence, or any person who holds any opinions that would prevent his giving a fair and impartial verdict.

A special jury may be drawn in civil cases where it appears to the court, upon application, that the case at issue is of such importance or intricacy or that the subject matter of the indictment has been so widely commented upon that an ordinary jury cannot, without delay and difficulty, be obtained to try such issue. Under such circumstances as these the court may order a special jury to be drawn, specifying when the drawing of the special jury shall take place, the number of special jurors to be drawn and the day of the term of court on which they shall appear.

Justices of the Supreme Court residing in the County of Kings, or a majority of them, may require the Commissioner of Jurors to examine and revise the general panel of trial jurors for the county, under their supervision and direction. He is empowered to subpoena every person on the panel for the year, and make inquiries and examine them as to their competency and qualifications, and may take off from the list those persons who do not meet with the requirements. If any person summoned fail to appear, except on account of physical disability, or refuse to be sworn, or to answer such pertinent questions as the Commissioner may ask, he may be punished by any trial justice of the Supreme Court sitting in that county. Every person so summoned must present, at that time, any exemption from jury service that he may have, and if he fails to do so he shall be deemed to have waived his right and cannot be excused thereafter except for lack of some requirement.

Pilot Boats of New York.

The cruising ground of pilot boats for New York Harbor is from Sandy Hook to Fire Island, east, and to Barnegat, south. They are under the supervision of Five Commissioners, of whom T. P. Ball, A. F. Higgins and W. B. Hillow were appointed by the Chamber of Commerce, and J. H. Winchester and W. I. Comes by the Board of Underwriters. A. F. Higgins is president of the Board and D. A. Nash, having his office at No. 17 State street, is the commissioner. Two sail boats, the Ambrose Snow and the C. H. Colt, and two steamers, the New York, 6, and the New Jersey, are on duty always, and the Washington, 5, and the Edward A. Barrett, are held in reserve prepared for duty.

The day signal is a Jack at the foremast head, and the night signal is a flash of blue light shown anywhere on deck. Boats on station carry from sunset to sunrise a bright red light under a white signal light.

The rates of pilotage between April 1 and November 1 are as follows: Inward bound vessels drawing less than 14 feet, $2.78 per foot; between 14 and 18 feet, $3.38 per foot; between 18 and 21 feet, $4.13 per foot; 21 feet and upward, $4.88 per foot. Outward bound vessels drawing less than 14 feet, $2.02 per foot; 14 to 18 feet, $2.33 per foot; 18 to 21 feet, $3.08 per foot; 21 feet and over, $3.56 per foot. Vessels bound inward also pay off shore pilotage, an additional 25 per cent, if they take a pilot aboard more than 16 miles from Sandy Hook light, unless the pilot waives this claim. If he gives up the extra pay he must be taken aboard, if not his services may be refused until the limit is reached. Between November and April an addition of $4 is made to the general bill. If an outward bound vessel is detained after a pilot has been engaged except by stress of weather, $3 per day and living expenses is charged in addition to fees.

Libraries in Greater New York.

The Schoolship St. Mary.

Ever since 1874 the schoolship St. Mary, a sailing vessel of the corvette type, has been a part of the school system of New York. Besides giving the boys a training as sailors there is a straight school in which all the common branches are taught, and instruction is given in some of the professions and along industrial lines.

Any boy can become a sailor by applying for admission to the nautical school, in writing, either to the chairman of the Executive Committee of the Board of Education or in person to the superintendent of the ship at the dock, foot of Twenty-fourth street, East River. The system is so arranged that a boy may apply for admission on any Monday during the ship's stay in port until the required number of boys is obtained.

In order to be admitted a boy must be between the ages of sixteen and twenty, of average size and sound constitution, and free from all physical defects. He must be able to produce testimonials of good character, preferably from former teachers, and he must apply on his own account and without coercion. He must be able to pass a satisfactory examination in spelling, reading, writing and arithmetic up to and including percentage and common and decimal fractions.

Boys admitted to the school are cared for at the expense of the city. Twenty-five dollars must be paid on admission, in order to defray the expenses of three white uniforms and one dark blue one and bedding. Prospective students must supply themselves with underwear, towels, hair brushes, shoes and overcoat, and a sweater. Only residents of the city of New York are accepted.

In order to obtain a certificate of graduation the student must complete two Summer cruises and pass a satisfactory examination on the studies pursued. The Winter school term ends April 1, and after a ten days' vacation the ship is prepared for a Summer cruise, which begins late in April and lasts until about the 1st of September. Students are not required to stay at the school if they do not wish, but on admission the boy is usually asked to promise to stay at least two weeks. When a boy finishes a course he is competent to navigate a vessel and has learned all the details of his calling.

Railroad Stations and Approaches, New York City.

Railroad.	Stations.	Approaches.
Baltimore & Ohio	South Ferry (C. R. R. of N. J.) and foot of Liberty st.	All "L" trains, electric & belt lines.

Sylvan Beach Grove	20	Central R. R. of N. J. (Sound Shore Div.) to Sylvan Beach.
Westwood Grove	22	L. I. R. R. (North Side Div.) to Port Washington, 3 miles from grove.
Woods of Arden	13	Staten Island R. R. (Perth Amboy Div.) to Eltingville.

Zoological Parks and Aquarium in Greater New York.

What is to be one of the largest and most complete zoological parks in the world is the institution popularly known as the "Zoo," which is located precisely in the centre of the Borough of the Bronx, midway between the Hudson River and Long Island Sound. It occupies a tract of 261 acres, varied in surface, traversed by the stream known as Bronx River, covered in part with natural forest growth and abounding with heavy outcroppings of rock. This tract was given by the city of New York to the New York Zoological Society for the purpose to which it has been devoted. An appropriation of $120,000 was added to the gift. The society, which had expended about $15,000 in the preparation of plans for the institution, had provided $138,000 for their execution, and the enterprise was launched under favoring financial auspices. Possession of the territory was taken on July 1, 1898, and the first building erected—the Aquatic Birds' House—was begun on August 11. It is a substantial edifice of brick, with terra cotta trimmings, the ornamentation, as with all the buildings subsequently erected, being appropriate to the character of its occupants. The buildings erected thus far include, in addition to the Aquatic Birds' House, the Primates' (or monkey) House, the Reptile House and the Lions' House, all of the same substantial character, together with smaller structures for various creatures. One of the features of the place is the huge flying cage, as large as a city block. Here, in the Summer, may be seen every variety of bird on the wing, from the swift and graceful songster to the lumbering, but lordly eagle. In convenient locations dens have been cut in the rocks for the wild animals; quarters have been provided for the burrowing rodents; little lakes and streams have been created for aquatic birds and amphibious creatures, and ranges have been laid out for deer and antelope. For the comfort and pleasure of visitors ample provision has been made also, and as admission is free on five days of the week, including Sundays and holidays, the park is visited by thousands on every day when the season and the weather are favorable. The work of developing the park makes constant progress Winter and Summer.

Besides the Zoological Park there are zoological collections in Central Park, Manhattan, and in Prospect Park, Brooklyn, both of which are of fair size, varied character and attractive to the public.

The Aquarium, which occupies the building formerly known as Castle Garden, at Battery Park, is a very complete institution of its kind, and the collection of fishes and aquatic animals, reptiles, etc., to be seen there is interesting either to the student or the pleasure seeker. Among the specimens there are usually a number of rare character, while always there may be seen varieties of strange-shaped and gorgeous-hued fishes, unfamiliar except through pictures and collections. The Aquarium was established by the city, but was turned over to the care of the New York Zoological Society during the year 1902.

Coal Weighing Stations.

The following scales have been designated by the Mayor as weighing stations for coal and coal vehicles under the provisions of Chapter 174 of the Laws of 1897:

Every purchaser of coal in New York City is entitled to send any load of coal so purchased to any of the following scales to be weighed, and a certificate of weight given, by paying to the driver of the vehicle fifteen cents a ton to pay the weighmaster's fee; provided, however, that the scale selected shall not be more than one-half mile distant from the place of loading or of the place of delivery of said coal.

Location of Scales.—West Side—477 Washington street, 608 Greenwich street, 508 West street, 14th street and 10th avenue, 560 West 23d street, 293 9th avenue, 373 10th avenue, 475 11th avenue, 46th street, North River; 513 West 54th street, 646 West 55th street, 95th street and Boulevard, 277 St. Nicholas avenue, 572 Boulevard, 2118 Boulevard, 151st street and 7th avenue. **East Side**—245 South street, Delancey street and East River, 88 Mangin street, 4th street and East River, 5th street and East River, 14th street and Avenue D, 20th street and East River, 32d street and East River, 610 1st avenue, 49th street and East River, 56th street and East River, 206 East 65th street, 74th street and East River, 502 East 80th street, 94th street and East River, 107th street and East River, 2330 1st avenue, 13 West 136th street, 444 East 137th street, Bedford Park, 496 Southern Boulevard, 161st street and 3d avenue.

Church Attendance in Greater New York.

The first church attendance census of New York City in 1903 was made by representatives of the Church News Association on Sunday, November 15. The section in which the enumerators worked was substantially all that lying north of the northern limit of Central Park, except on the West Side, where the lower limit was Eighty-first street, between Columbus avenue and Central Park West. One hundred and six places of Christian worship were visited. Of these eighty-seven were Protestant and nineteen Roman Catholic. The population of the district selected is at this time 438,065.

The membership of the Protestant churches of the district is 36,670, which makes the Protestant population approximate 128,345. The Roman Catholic population is 92,560.

On the Sunday when the count was made it was found that 8.8 per cent of the Protestant population attended services, while 14.2 per cent of the Roman Catholic population was present at their places of worship. Count was made at all the services at which the public might be expected to attend.

Of the 38,750 who attended Protestant churches 20,488 were there at morning service and 18,262 at the second service, afternoon or evening. It was found that more people attended evening service at the one Church of the Disciples of Christ and the twelve Baptist churches in the district than attended the morning service. The Protestant attendance at both services exceeded the total membership.

In the nineteen Roman Catholic churches the morning attendance, from the early masses up and including that at 11 o'clock, was 56,261. The afternoon and evening attendance was 6,950.

Taking the Protestant population at 128,345, the attendance at the churches on one Sunday was 32 per cent of the total. By the same comparison the Roman Catholics make a showing of 67 per cent.

In the Protestant Church the number of men was 12,747; women, 21,946, and children, 4,057. At the Roman Catholic churches there were 16,536 men, 41,302 women and 4,373 children.

The following table shows the result of the count in the churches having the largest registered membership:

	Roman Cath.	Prot. Epis.	Meth. Epis.	Presbyterian.	Baptist.
Churches	19	17	11	14	12
Membership	92,560	10,721	4,164	7,015	4,475
Attendance	62,211	9,687	6,801	6,279	6,595
Men	16,536	3,025	2,266	2,014	1,382

Greater New York Election, 1903.

The figures given by Assembly Districts are unofficial. The recapitulation shows the final official count.

Map Index.

At the top and bottom of each map will be found a series of letters and on either side a series of figures. In the index the first figures, following the name of the place sought, refer to the map in which is will be found. The letter and figure following refer to the index letters and figures on the map. The place may be located on the map at or near the intersection of imaginary lines from the letters and figures. For example, to find Kingston, N. Y. The index reads:

KINGSTON, N. Y., 15G4.

Referring to Map 15, Kingston will be found by looking for the point where lines drawn from G and 4 would intersect.

AINSLEE'S

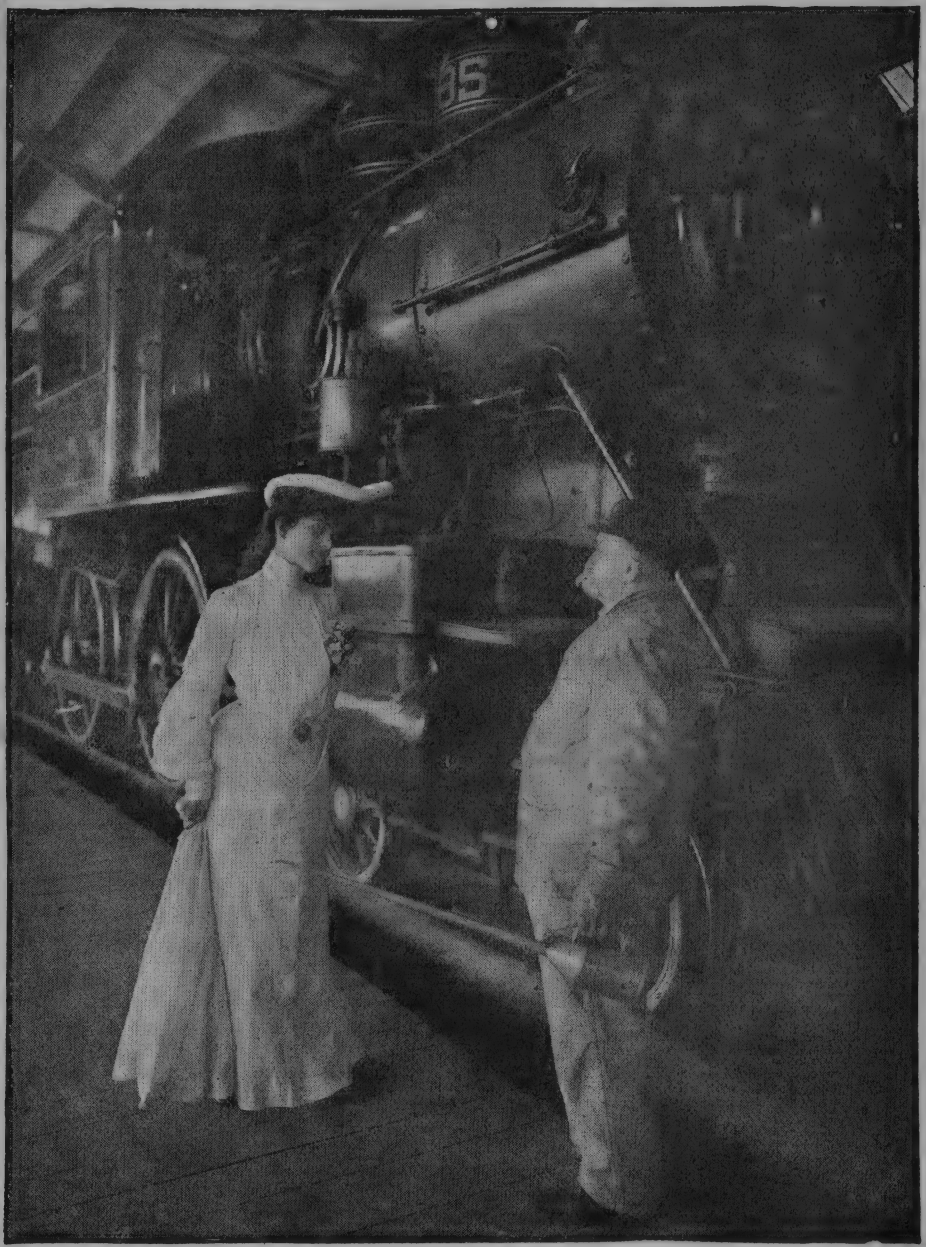
The Magazine that Entertains

DURING 1904 WILL GIVE ITS READERS FOR $1.80

12 COMPLETE NOVELS, always new, always readable, as much so as any book in your library.

175 POEMS, grave and gay, appealing to all moods and minds.

250 SHORT STORIES, none better the world over, with many bright, entertaining essays and special articles on interesting subjects.



Here are the names of some of the famous authors whose work will provide a feast of wit and fancy in the pages of Ainslee's during 1904:

Jack London	Mrs. Burton Harrison	Harvey Sutherland
E. F. Benson	John D. Barry	George Horton
Justus Miles Forman	Edgar Saltus	Maarten Maartens
J. J. Bell	Charles Battell Loomis	Alice Duer Miller
Gertrude Atherton	Baroness Von Hutten	Mrs. Reginald De Koven
E. Nesbit	Josephine Dixon	Onoto Watanna
Harold MacGrath	Bliss Carman	Dorothy Dix
Richard Le Gallienne	Ella Wheeler Wilcox	Alan Dale
O. Henry	Edmund Vance Cooke	Brand Whitlock
Poultney Bigelow	Clinton Scollard	Mollie Elliott Seawell
Elizabeth Duer	Ethel Watts Mumford	E. S. Van Zile
Guy Wetmore Carryl	Robert Hichens	Morgan Robertson
Joseph C. Lincoln	Gerald Stanley Lee	John Oliver Hobbes

Cover designs by such well known artists as A. B. Wenzell, Thomas Mitchell Pierce, Harrison Fisher, Edward Penfield and others.

AINSLEE MAGAZINE CO.

BRANCH OFFICES

1017 Monadnock Bldg., Chicago, Ill. 1015 Missouri Trust Bldg., St. Louis, Mo.

501 Arcade Bldg., Philadelphia, Pa.

PINTSCH SYSTEM CAR AND BUOY LIGHTING

This Company controls in the United States and Canada the Celebrated Pintsch System of Car and Buoy Lighting. It is economical, safe, efficient and approved by railway managers and the Lighthouse Board of the United States, and has received the highest awards for excellence at the World's Expositions at Moscow, Vienna, St. Petersburg, London, Berlin, Paris, Chicago, Atlanta and Buffalo. 120,000 cars, 5,000 locomotives and 1,700 buoys are equipped with this light. 170 railroads in the United States, Canada and Mexico have adopted this system of lighting. Applied on over 20,000 cars.

CAR HEATING

by Steam Jacket System of hot water circulation, regulating direct steam system, return and single train pipe systems. 130 railroads in the United States are using these systems of heating. Applied on over 10,000 cars.

AUTOMATIC STEAM TRAPS STRAIGHT PORT COUPLERS

Interborough Rapid Transit Co. Manhattan Railway Division

In New York City—runs to all railroad stations, ferry landings, steamboat piers and through the heart of the shopping districts. One fare—five cents—will carry you from Bronx Park to South Ferry on 3d Ave. line, or from 155th St. to Battery and South Ferry on 9th Ave. and 6th Ave. lines. Express trains south bound A.M., north bound P.M., 3d and 9th Ave. lines during rush hours. Free transfers from one division to another at South Ferry.

Three cents in addition to regular five cent fare for transfer to all lines of the 3d Ave. surface system.

Quickest Route to all Points

FREE!

WHICH FURNISHES AMUSEMENT TO THE ENTIRE FAMILY

It Sings,
It Plays,
It Laughs.

In short, it is a whole show in itself.

Enormous Volume!

Sings Like You.
Talks Like You.

A TALKING MACHINE FREE

Here is an honest advertisement; no beating about the bush.

We make a promise in plain English to give away a **Talking Machine free,** and we guarantee to send it absolutely free to every person who will sell only 30 of our handsome, fast selling Fancy Articles at 10 cents each. They are not trash, but costly goods that sell, having merit and value. Order the goods to-day and we will send them by mail. When sold remit us $3.00 and we will forward you the Talking Machine, exactly as we agree, same day money is received. We send you the Talking Machine absolutely free. No other concern will make you as liberal an inducement as this. Our

TALKING MACHINE, **20-inches Long--Using either Victor, Columbia, Zonophone or Vitaphone 7 and 10-inch Disk Records,**

reproduces speeches, songs and music like a $50.00 machine. Don't throw your money away, but take advantage of our generous terms. **Don't Send a Cent; We Trust You.** Order to-day, and we will send you the 30 assorted, fast-selling Articles by mail, postpaid. When sold, send us our money—$3.00—and we will promptly ship you the machine complete, with 25 points, including a **Comic Song.** Can be used at all entertainments and concerts, in any size of hall or room. It is the only practical machine of the type on the market, and is **NOT A TOY.** The base is piano finished, with concert sound box, and 14-inch metal Amplifying Horn. This machine is **Open for Inspection at Our Offices.** Write us at once for 30 of our useful, fast selling Articles. We will **forfeit $100** to anyone who sends $3.00 and can prove we do not send a Talking Machine complete with 25 points, including a Comic Song. **Attention!**—As a great many people have some ready money on hand, they may have the privilege of sending us $3.00 at first, and we will forward the 30 Novelties, together with the Talking Machine at the same time. Don't miss this opportunity.

A Talking Machine Using Records Made Upon **FLAT DISCS**

The prominent features of this form of Talking Machine are:

Great volume of sound, combined with fulness and roundness of tone and absence of blast. We confidently assert that anyone who has not heard the Disc machine will be astonished at the results attained.

The form in which the records are made: These records are **Flat Discs** measuring seven or ten inches in diameter, and but a fraction of an inch in thickness. The expense of shipping them by express or freight is **very slight,** and a large quantity may be put in an exceedingly small space. They are also practically indestructible.

Simplicity and ease of operation: The Disc Talking Machine is the simplest form of talking machine, and it is practically impossible for it to get out of order unless broken. Address plainly

Seven inch Disc Record used on the Talking Machine.

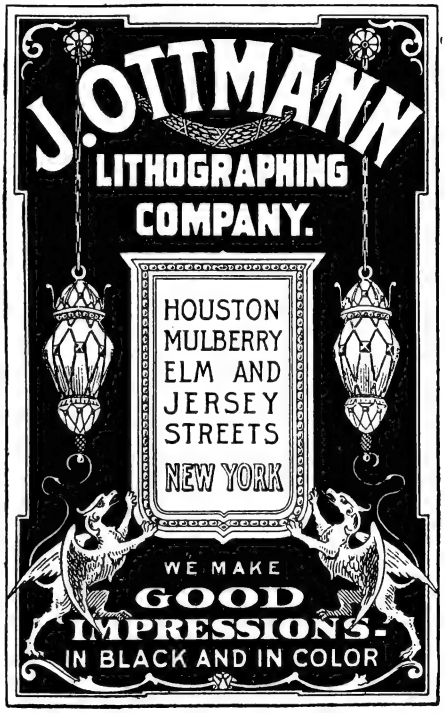
The Gillin Printing Co.

R. F. GILLIN, President

128 W. 33d Street New York



The highest degree of perfection in the art of Lithography characterizes the product of the Gillin Printing Company, as shown in its enormous output of Commercial, Amusement and Political printing.

The steady patronage of the most successful managers in every line of public entertainment and of the ablest experts in the field of commercial advertising confirms this claim.

Not only in artistic quality, but also in rapidity of execution The Gillin stands unrivaled.

The practical preference for The Gillin imprint shown by a clientage, whose business prosperity is based upon a liberal use of the best printing attainable, is proof conclusive of the superiority of the work and the reliability of our methods.

Send for estimates.

The Woodlawn Cemetery

is the most accessible cemetery of the metropolis by Harlem trains, trolley or carriage. Thirty minutes from Grand Central. Lots sold at $125 up.

Send for Descriptive Booklet, or, by Request, a Representative Will Call.

OFFICE, 20 EAST 23d STREET, NEW YORK CITY.

DON'T buy an additional Press—order an AUTOPLATE (it costs less) and get a greater output from your PRESENT equipment.

A quick start and a quicker finish—practically ALL your presses off at once.

An added press means more space to be paid for, another press crew, more rollers to be covered, and more waste of ink and paper, AND HELPS ONLY THE TAIL END OF YOUR RUN—while an AUTOPLATE will help ALL of your run without compelling you to incur any of these or similar additional expenses. Not only this, but it will decrease many of your present costs.

Your lame spot is in getting your presses to work. Help is at hand.

Having an AUTOPLATE will stamp you as Modern.

Write for particulars.

OUR remarkable recent inventions enable us to offer the public an intensely brilliant, smokeless gas at much less cost than city gas, better, safer, and cheaper than electricity, and costing but one-fourth as much as acetylene. Most durable and least expensive apparatus to maintain in effective perpetual operation. Gives services of lighting, cooking, and heating, and operating pumping engines. Fullest satisfaction guaranteed, and easy terms. The very apparatus for suburban homes, institutions, etc. We construct special apparatus also for fuel gas for manufacturing, producing gas equivalent to city gas at 50 cents per 1,000 cubic feet. and made to respond to very large demands; also for lighting towns, etc. Cooking by gas rescues a person for the intolerable heat experienced with other stoves. Send for Catalogue.

We teach also Mechanical Engineering, Steam Engineering, Mechanical Drawing, Telephony, Telegraphy, Electric Lighting, Electric Railways, Electric Motorman's Course, Short Electrical Course, Dynamo Tender's Course, X-Rays, Mathematics, etc., by mail. Thousands are successful and gaining better positions and salaries studying at home by our correspondence system. Write for our Free Illustrated Book, "Can I Become an Electrical Engineer?"

The Electrical Engineer Institute of Correspondence Instruction, Dept. 21, 240-242 West 23d St., New York.

THE ART PRESERVATIVE

In none of the arts is the advance of the beautiful more pronounced than in that of the art preservative of arts. And it is by a return to the past, idealizing the typography of the Fifteenth Century, that the highest form of the beautiful has been attained. Within ten years the greatest changes for the better have been made. From the inception of printing from movable types the masters who have handed down the honorable calling have taken pride in their work, like all true artists, and it is safe to say that the time will never come when the handicraft of the type-founder will be a lost art. The demand for the artistic in type, as well as in the other finer fancies of the age, is growing, and is being met by "the founders," by which appellation the printers of the entire country designate the American Type Founders' Company, embracing the best-known and the oldest established concerns of a dozen cities.

This Company is the originator of all the leading type designs and has unequalled facilities for supplying everything required in printing offices. It has lately issued very attractive specimen books, which cover the widest range in type faces in both plain and original designs. Among the new faces are the Jenson Condensed, the Abbott, the Tiffany Text, Engravers' Italic and Arlington Italic.

Additional specimen sheets are constantly being issued from the office, corner of Rose and Duane streets, New York City, showing the new faces as soon as they are brought out for the public verdict.

Information for travel and home

USEFUL, HANDY ILLUSTRATED, AUTHORITATIVE

All by Experts and famous special writers

VISITORS' GUIDE TO NEW YORK CITY

Pocket Size, 80 Pages.

Thousands of visitors to New York every day use this guide in their sightseeing, which is rendered doubly interesting because of the terse descriptions accompanying each of the many pictures contained in the book. The guide fits the inside coat pocket. It is printed on heavy book paper and is profusely illustrated. The guide is divided into several sections, enabling visitors to devote a day, or part of a day, to each section of the city.

Fifteen cents at the N. Y. American Information Bureaus. By mail, 15 cents postage to Central Bureau, Broadway, corner 37th st., New York.

WINTER RESORT MAGAZINE

Double Magazine Size—32 Pages.

Everything one cares to learn about all the varied Winter resorts—on the Gulf Coast, Far West, and California, in Florida, in the West Indies, in the Carolina and Virginia Mountains and Mexico—is to be found in this guide. It tells of Winter cruises to the West Indies, to the Orient and to the Mediterranean, while highly illustrated articles describe in detail the many attractions and features at all the Winter Resorts.

Free at the N. Y. American Information Bureaus. By mail, send postage to Central Bureau, Broadway, corner 37th st., New York.

GUIDE TO THE WHITE MOUNTAINS

Pocket Size, 48 Pages.

No one should dream of going abroad until he has visited the White Mountains. For more than 200 years Mount Washington has been famous as the highest of the White Mountain range. The "Man of the Mountain" can nowhere in the world be duplicated. The notches, the flumes and the picturesque lakes and streams are awe-inspiring and enchantive. M. J. De Viney, the author, tells everything about the White Mountains in a sprightly and interesting way. The guide is beautifully illustrated and is a real work of art.

Fifteen cents at the N. Y. American Information Bureaus. By mail, 15 cents postage to Central Bureau, Broadway, corner 37th st., New York.

NEW JERSEY SEASHORE GUIDE

Pocket Size, 48 Pages.

This new guide, written by Charles E. King, tells, in a breezy and delightful way, all there is to be seen from the Atlantic Highlands to Barnegat Bay. Not an interesting point or spot is left uncovered on the tourist's flight through Seabright, Long Branch, Deal, Allenhurst, Asbury Park, Ocean Grove, Avon-by-the-Sea, and beautiful Belmar. The guide is printed on heavy book paper, and is charmingly illustrated.

Fifteen cents at the N. Y. American Information Bureau. By mail, 15 cents postage to Central Bureau, Broadway, corner 37th st., New York.

MONTHLY REALTY RECORD MAGAZINE

Illustrated, 58 Pages, Magazine Size.

The best and most complete publication of its kind. It is printed on heavy book paper and is fit for any library or office table. The magazine appears the 10th of every month, is illustrated with portraits of noted real estate men and photographic reproductions of many houses that figure in the month's realty transactions. Several pages are devoted to an epitomized review of the preceding month's market.

Ten cents at the N. Y. American Information Bureaus. Subscription, $1 per year at Central Bureau, Broadway, corner 37th st., New York.

SUMMER TOURIST AND VACATION GUIDE

Supplement Form, 48 Pages.

"Where To Go," in its new dress, has had an unprecedented call from hundreds of thousands who could not get along without it. It is liberally illustrated, the whole being a graphic portrayal of scenes and incidents at hundreds of enchanting Summer resorts. It tells all about the great shore from Maine to the New Jersey Coast, carries one among the Adirondacks, Catskills and White Mountains, and affords glimpses of mountain streams.

Free at the N. Y. American Information Bureaus. By mail, send postage to Central Bureau, Broadway, corner 37th st., New York.

GUIDE TO THE CATSKILL MOUNTAINS

Pocket Size, 48 Pages.

Rip Van Winkle's haunts and a hundred other interesting spots so dear to Summer tourists are uncovered by Howard Hendricks, the author of this little brochure. For 40 years has the author been identified with the Catskills. He knows every crag and nook, every lake and brook of that far-famed mountainous region. The guide is copiously illustrated and makes one feel at home from the moment he enters the gateway of this enchanting mountain range.

Fifteen cents at the N. Y. American Information Bureaus. By mail, 15 cents postage to Central Bureau, Broadway, corner 37th st., New York.

GUIDE TO THE ADIRONDACKS

Pocket Size, 62 Pages.

This is a guide that will tell briefly just where and how to get the utmost enjoyment of Nature's beauties and the sports for both angler and nimrod. Kenneth W. Goldthwaite, the author, who has also supplied scores of speaking pictures, passed nearly all his life among the peaks, lakes and streams of the Adirondack Mountains and is qualified to guide the hunter, fisherman or the lover of nature among the far-reaching wild and picturesque "Addies." The guide is printed on heavy book paper and is beautifully illustrated.

Fifteen cents at the N. Y. American Information Bureaus. By mail, 15 cents postage to Central Bureau, Broadway, corner 37th st., New York.

WEEKLY RENTING REGISTER

Magazine Size—Interior Folder.

This Renting Register makes its appearance every Tuesday. It is an invaluable guide to people in search of houses or places of business. It is a complete record and guide to vacancies in high-class and moderate-priced apartments, flats, unfurnished houses and business properties in all sections of Greater New York.

Free at the N. Y. American Information Bureaus. By mail, send postage to Central Bureau, Broadway, corner 37th st., New York.

EDUCATIONAL MAGAZINE—SEASON 1903-4

Supplement Form, 28 Pages.

Besides scores of announcements of educational institutions in different parts of the country, there are about 40 highly interesting and instructive articles, touching the various branches of education. Both articles and announcements treat of art, science, literature, music, medicine, law, drama, languages and business education. Among the authors are: Mrs. John A. Logan, Ella Wheeler Wilcox, Dorothy Dix, Jeanette M. Thurber, President Nicholas Murray Butler, Dr. Cyrus Edson, Henri Pene Du Bois, Dr. Carleton Simon.

Free at the N. Y. American Information Bureaus. By mail, send postage to Central Bureau, Broadway, corner 37th st., New York.

A Free Book About

Incubators

For your own sake don't buy an incubator until you read our book. It is written by the man who knows most about incubating—a man who devoted 22 years to the problem. It tells vital facts that you must know to buy wisely—facts you would not think of. It tells these facts in an interesting way. It tells of Racine Incubators and Brooders, of course, but whether you buy ours or another, the facts are important. The man who writes the book made the Racine Incubator. When you learn what he knows you will want his machine, we think. The book is free—write to-day for it. Warehouses at Buffalo, N. Y.; St. Paul, Minn.; Kansas City, Mo. Address

MADAM MAYS MISSION OF BEAUTY

MADAM JULIA MAYS.

EMINENT doctors have examined and approved my treatment for taking wrinkles, lines, smallpox pittings and other blemishes from women's faces and for imparting a complexion so fresh and fair that a woman of sixty looks about half her age.

To ladies who cannot visit me I send my wonderful preparation, ELECTRICINE. It does marvels for faded, wrinkled faces. It brings back beauty where it seemed forever lost.

I want every woman in America to know about ELECTRICINE, and also about the new magazine, "The Beautiful Woman," issued by the Julia Mays Publishing Company, of which I am president.

To this end, I will send a bottle of Electricine, ordinary price $5.00, and a year's subscription to the magazine, price $1.00, on receipt of $2.00.

"The Beautiful Woman" is devoted to all matters pertaining to health, beauty *and the toilet*. Each of its thirty-two departments is edited by a specialist and I contribute to every number a paper on the care of the skin. The magazine, as far as printing and illustration are concerned, ranks among high-art publications.
